We have a standing right to joke, once in while, with our Rev. Br. Braman. During our oral debate in 1833, he undertook to joke us, severely, because of the rotundity of our form, before the whole congregation. We did not joke back ngain then, because it was not the time, or place. But ever since, we feel we have had a right to utter a piece of pleasantry to Br. Braman; and .we will thank the editor of the 'Danvers Courier' not

Now that is what we call an oily, milk-andthe North a Revenue-advalorem Tariff, to depress water apology for an uncourteous and malicious free labor and bring it down to the labor prices of attack on the reputation of a worthy man. It Europe. We should not have seen the Veto ap- would seem that the editor of the Trumpet is aplied to stop useful internal improvements and shamed of his own "joke," for he is extremely de repudiate just debts, that the money might be ap sirous that we should let him alone, and in quoting his article of the 8th inst., he has entirely omitted ful war with a feeble nation. We should not have what we consider a very objectionable portion. witnessed the disgraceful boasting, shuffling and The original remarks read as follows:—"This is not the Rev. Milton P. Braman of Danvers, Mass. our former antagonist; but some other believer o endless misery," as though the necessary qualification of a candidate for the gallows was a belief in the above theology, and he classes Mr. Braman with cut-throats and murderers. It seems to us that all the joke in the matter is in this last article. Trumpet as to consider it an attempt at wit; if. however, it was really intended as such, we are very glad he has informed his readers, as we doubt dentally falling into the water, while playing on

The proper interpretation of the above article we conceive as follows: some years ago, during a theological debate between Messrs Braman and ter on his rotundity of form as to awaken his malice, and being unable or unwilling to reply orally, at the time, he reserves the privilege of murdering all the rules of decency by cowardly venting his malice in sach puerile attempts at pleasantry as that of the Sth inst., well knowing that Mr. Braman has not the same facility for replying, and desires as a special favor that we will leave him alone in his glory, and "not meddle in the matter at all."

THE BALL IS ROLLING ON .- The following, which we copy from the Kennebec Journal, looks a little as though the fears, expressed by Mr. Mc-Donald and others, at the Democatic State Convention, of a New Hampshire Hail storm, were not without foundation :- Atlas.

INVITATION TO MR. HALE .- We learn that fifteen Democrats, of this town, have expressed their desire to Hon. John P. Hale, of New Hampshire, by letter a that he would address the citizens of Augusta. If he accepts the invitation, he will probably stop here next week, on his way to Bangor. An invitation has also extended to him from a number of gentlemen, of the same

Mr. Hale is to address the people at Bangor, on the 19th inst., at Exeter (Penobscot Co.) on the 20th: and at Dover (Piscataquis) on the 21st.

A new and splendid Steamhoat, named the Atlantic, has just been finished in New York City, for the Norwich and Worcester Railroad Company. Its cost was \$150,000, including furniture, &c., and as might therefore be expected, it is a superb affair. She carries 1000 life preservers and these life bears of large size. The Atlanta vers and three life boats of large size. The Atlantic is spoken of as far superior to any other boat that plies on, the Sound. She is a floating palace in every particular.

THE "DEMOCRACY." The following preamble and resolve in the question of slavery, were introduced into the House of Representatives of Maine, on Friday, and a test vote taken as below:

Whereas, during the administration of this Government, the slave power has for many years, hed an almost uninterrupted ascendency, and has repeatedly violated the constitution of the United States for the avowed purpose of protecting, exending, and perpetuating the system of slavery

and,
Whereas, we regard American slavery as great wrong to the slave, as being at war with all our professions of Republicanism, subversive, in ts practical operations, of the rights of the free States, destructive of our best interests and prosperity, unworthy an intelligent people, and in its influence tending to destroy the foundations of the American Union; therefore, Resolved, that it is the solemn conviction of this

Legislature, that the question of its abolition in all places where it exists under our national jurisliction, and the question whether we shall resist its farther extension and encroachment, by all constitutional control and dictation in our national affairs-have become questions paramount in mportance to any other before the American peo-

The friends of this resolution expressed their wish that the question upon taking up should be considered a TEST question. And the vote stood, YEAS—Whigs 47, Liberty men 5, Locos 2; To-

NAYS-Whigs 0, Liberty men 0, Locos 63; To-Every Whig present voted yea."

New Postmaster at the Plains. Levi Merrill has been appointed Postmaster, at the Plains, in place of Thos. Bowen, resigned, and the post office has been removed from the store of Mr. Clough to the tavern of Mr. Merrill.

ESSEX RAILROAD.—The operations on this road were commenced on Wednesday last, in Carltonville, Salem, at which place there will be an excavation of about 20 feet.

We understand there is an unusul amount of sickness prevailing in our neighborhood at the present time, much of which we doubt not is 21ributable to the imprudent indulgence in eating

We learn that Moses Newell, Esq. of, W. Newbury, will deliver the address at the Anniversary, who will go against that old mother of har of the Essex Agricultural Society, to be holden at Lynn on the 1st of October.

APPOINTMENT: Gov. Hubbard has been appointed Assistant Treasurer, at Boston, under the new sub treasury law. The Democrats don't like it. A writer in the Post, says it is a "reflection upon the Democracy in this state, that the President must travel into New Hampshire to find a suitable man" for sub-treasurer.

LARGEST PACKET .- The Liverpool Packet "New World," now building at East Boston, for Messrs. Grinnel Minturn & Co., will be the largest packet ever built in the United States. She is to be one himself, a large dog was set on him, which hundred and eighty six feet long on deck, forty killed two and a half feet beam, and twenty eight and a advanced toward him, when he struck half teet hold-a regular three decker, frigate built, with a tonnage about 1500 tons a She is to be commanded by Captain Skiddy.

Casualty:-A lad about 8 years of age, named Charles M'Clanning, was drowned at North Yar mouth, Me., on Thursday of last week, by accithe bank of the river.

Companies, in accordance with the wishes of Mr. loo rapidly and the great apprehension is the Morse, refuse to encourage desecration of the Sab-case of dry weather the balls will fall before bath. In several of the associations formed, one turing. The apprehension is that in no e of their articles entirely prohibits the use of the wires on that day.

lack of interest in the news brought by her. Another unsuccessful attempt has been made to assassinate the king of France, by an individual about 50 years of age, who gave as a reason for committing the act, that misfortunes had made him weary of life, and he fired on the king to get talked about, and as a means of meeting death.

WHIG STATE CONVENTION .- The State Central Committee have called a State Convention as Faneril-Hall, on Wednesday the 23d of September.

A Row in Church.—The Boston papers have a letter from Waltham, describing a difficulty between two parties of the Catholic congregation in that town. One party, headed by the Pastor, took forcible possession of the church on Sunday, but the opposition rallied in superior force, and drove them out of the building. The Saint hem out of the building. The affair terminated without serious consequences on either side,

Rev. Mr. Prince will preach in the Hall of the Boarding House in the Hose Factory Village (alias the "Dishful", lin this town, to-morrow (Sunday) land it is. afternoon; services commencing at 1-4 before 6

MORTALITY IN BOSTON. The number of interments in Boston last week 111-43 males, 28 females, 10 stillborn.

This is said to be the largest number of interments ever made in Boston in one week. The Traveller states that the principal disease is a

SERIOUS ACCIDENT IN LYNN. The large scho house in Franklin street, Lynn, was the theatre an accident on Friday last, which was near d troying a large number of lives. As it was, eral of the scholars were badly hurt. It seems quantity of wood had been deposited in the all for winter use, which proved too heavy for strength of the floor timbers, and just as the gest part of the classes had been let out for a cess in the afternoon, the whole mass fie plastering and wood, came down with a ten crash into the room below, burying the remain children (about forty) together with the teach Mr. Batchelder, and his assistants, in the ruins Among the scholars most seriously injured, son of Mr. Ephriam Noyes, a son of Mr. Will Atwill, and a daughter of Mr. Asa Haskell Noyes, it is feared, will be crippled for life, if can possibly survive.

A letter from New Orleans to the New York Commercial Advertiser, says 'the steamer James L. Day, was paid for one trip and detention at Point Isabel, say about 30 days from the time of leaving until her return, \$29,722. The Telegraph, which was sold in the spring for \$12,000, was chartered for three trips, at \$7000 each trip, and then sold to the government for \$25,000. A neighbor of mine purchased a condemned French brig for \$1000 and in one hour after chartered her to the government for a trip for \$2300 to transport troops to Port Lavacca. These are a mere specimen of hundred of cases."

LIBERALITY. The N. Y. Gazette states that a gen deman in that city whose test hand rarely knows what his right hand does, though he gives often and large-Theological Seminary; 5 300 to stereotype one work for the Presbyterian Board of Publication, and 4,000 for the Presbyterian Board of Publication, and 4,000 for the Presbyterian Board of Publication Church in New for another; 15;000 for one Mission Church in New York and several ten thousands toward others; and 2,000 for one missionary contribution.

Some person whom Quin had offended, met him one day in the street, and stopped him. 'I—I—I understand, sir, you have been taking away my name.' (What have I said, sir? 'You—you—you called me a scoundrel, sir!' (Keep your name,' replied Quin, and walked on.

Dreadful Death.—A young lad named Charles
Beels, about 11 years old, was instantly killed
at Providence yesterday, by being run over
by the cars of the Stonninton Railroad and having his body nearly cut in two. He had been in the water, and had came up to the track just as the cars came in. A coroner's inquest was held, which was adjourned to this morning, in order to ascertain if the accident was caused by the carelessness of the officers of the read.

RAILROAD CRASH. We learn frem the Cincinaati Gazette, that on the 13th inst. two trains of cars on the Little Miami railroad came together with a fearful crash. Both trains were full of passengers, men, women and children, none of whom were se tiously injured, all were terribly frightened. The engineer of one of the trains was badly scalded, and a fireman had his collar bone broken. The locomotives were bhth demolished-

A Desperado Killed .- A desperate fellow named John Work was killed lately at Van Buren, Arkansas Territory. He had threatened to kill a man name ed Funkhouser, and also determined to take the life of eight other men; but being decoyed by a negro in his employ, was led into an ambuscade where the whole party fired upon him with rifles, every shot taking effect, and he fell dead

Lead of the falling of a large bucket on his head while digging a well, near Spaniard's Neck, Eastern Shore of Maryland.

Mr Ezra Chamberlain, was on Wednesday relieved of his pocket beok, by some one of the adroit thiexes, while in the Eastern cars coming from Portland to Boston. It contained notes of hand, deeds, and some other valuable papers, but no money.

may 6 TO EVERY VIOLIN PLAYER. UST published by JOHN P. JEWETT & CO., and for sale at the principal Book and Mu-

sic Stores in the country.

THE AMERICAN VIOLINISTS, or, Complete System for the Violin, by Jarvis F. Hanks

Professor of Music. This work has been prepared with great care and I'ms work has been prepared with great care and labor, and is pronounced by eminent Violinists decidedly superior to any of its kind ever published in America. It is a scientific, and at the same time, a practical treatise; the selections of music are in good taste, and it is in every respect just such a book a the times demand. It contains entire the celebrate Treatise on the Construction, Perservation and Re pair of the Violin, published in Germany a few years since, and now for the first time re-published in this country. Every Violin Player should own this thor jy 18.

SUPERIOR SHOE BLACKING. EMP & KNIGHT'S Liquid Ivory Je

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1817! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such terms, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of or more teeth, but is peculiarly and especially a dapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and fur bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets. Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass netween the teeth and the plate; and after being retuined there a few days, it being impossible to remove them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instaoility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understond and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They can-tot fail to excite admiration from all who are pleused with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS. TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and inish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be considered the control of the materials. will be simply the cost of the materials used in their construction, which will be less than one half the rice usually paid; and after wearing them six months f perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be cfunded. Old plate work that has been worn with nuch inconvenience, will be exchanged for new, on aying a small difference. All other branches of lentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., vill be attended to in the most thorough, faithful and cientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For the kinds of Filling, from 50 ceuts to \$1; For seting on gold pivot, \$2; For Cleansing \$2; Extracting 55 cents. TRUSS MANUFACTORY, BOSTON, MASS.

JAMES FREDERICK*FOSTER Continues to manufacture all the various approved TRUSSES, at his Old Stand, No. 305 (opposite No. 264) TRUSSES, at his Old Stand, No. 303 (opposite No. 204). Washington street, entrance in Temple Avenue, Boston, where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it

"hompson's Kachet Truss, and the Shakers Robania Truses, may be had at this establishment. Whispering Tubes
and Ear Trumpets, that will enable a person to converse
aw with one that is hard of hearing.
All ladies in want of Abdominal Supporters or Trusses,
waited on by his wife, Mrs. CAROLINE D. FOSTER, who
has had ten years experience in the business. ČERTIFICATES.

From Dr. John C. Warren, of B. ton.
Having had occasion to observe, that some persous aftered with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the pe-cultarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath— After some months of observation of his work, I am satis-fied that Mr. Foster is well acquainted with the manufacneu that Mr. roster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHNIC. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has uniformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect appropriate fitting them can this account. I am in the habquence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Roxbury.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. Foster, of Boston.

P. G. ROBBINS, M. D,

Boston, April 27th, 1846.
The undersigned is familiar with the ability of Mr. J.
F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favora-

bly compare with that of other artists.

J. V. C. SMITH,

Editor of the Boston Medical and Surgical Journal.

Hints for the Warm Season.

HIS wonderful compound combines MED-1CAL POWERS over all other preparations ever formed for the relief of those diseases for which it is recommended, such as headache, dizziness, sleepiness, noises in the Head, bad taste in the mouth, nausea, or sickness in the stomach, loss of appetite, indigestion, Dyspepsia fever and ague, pain after eating, sour stomach, heartburn jaundice costiveness, determination of blood to the head piles, coughs, colds, pain in the side, back, limbs; and joints, rheumatism, all chronic diseases, scrofulous humors, Salt Rheum, and all Cutaneous eruptions of the skin, general debility. &c.

general debility, &c.

The Dandelion and Tomato Panacea is particularly recommended in cases of INDIGESTION and DYSPEPSIA. The following are some of its distressing symptoms, palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness, &c. It will cure the worst diseases of Rheumatism,

and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation.

The Dandelion and Tomato Panacea is, as

and formation and formation ranacea is, as all must be aware, from the ingredients of which it is compounded, the best as well as the safest

Spring and Summer Medicine

now before the public. Spring and Summer are the searons when

Jaundice Complaints

are most prevalent. The symptoms of these complaints Drowsiness, Dimness of Sight, &c.

It has proved itself a most astonishing and effectual remedy for the worst of all maladies,

The Piles,

into the bowels, and causes a free circulation, and regulates the whole system, and thereby prevents

Costiveness.

Costiveness.
In cases of Costiveness either of recent or long standing, it has proved itself effectual after all other remedies have failed.

Scrofula, or King's Evil, and all other eruptions of the skin are caused by the immers tate of the blood, and to have pure blood a medicine sould be occasionally taken. The Panacea is wonderful its effects for purifying and Cleansing the Blood, and is therefore a preventive for all eruptions of the skin with will eruficate.

Humors
of long standing, and in fact is requisite for the promotion

LORRAINE'S PILLS.

All persons require Facts. Remember in all cases that you are not deceived by thing

that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable
Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and Tomatoes. These two articles need no praise, neith er do the celebrated Lorraine' Pills, when they have

once been taken.

Physicians, and people of every class are willing to come forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In

the Truss business than any other person engaged in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confilent in being able to suit all cases that may come to him. Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that will sold by Dr. Leech; Trusses of g very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor raine's Pills! I might name many other cases where the cures have been as great, but have not

Yours respectfully, J. E. F. MARSH:

A hacking cough constantly annoyed me! Boston, Mass., June 1st; I844

Sir,-In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered ma truly miserable, as everybody told me that I was in e consumption. Since, I have taken LORRAINE'S PILLS and now every body tells me that I am well ;—I fee J. E. S. McKEY. as well as ever I did.

Portland, Me., Nov. 7th, 1843 Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we could have quite a number of highly respectable cer thicates from our citizens.

Respectfully yours, E. MASON:

Chelsea. Jan-3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physiciens of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I nad no faith whatever, but I ook them, and it is a solemn fact that when I had aken but eight pills ! my Rheumatism had entirefy eft me, and I have remained well ever since.

N. B. I never took more than one pill at a time

and that on going to bed. oing to bed.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head! Sir-For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violental medicines recommended did no good. At last, I toe k LORRAINE'S VEGETABLE PILLS, which

gave immediate relief, and have entirely cured me. Respecifully, your ob't serv't, JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured!! Lowell, Mass. April 20th 1944.

April 20th 1944.

Sir,—For the last few months I have been afflicad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr LORRAINE'S PILLS. J. BROOKS.

Sir. I could fill the whole of the Senti similar letters to the above, but believing the above extracts will serve for useful purposes for the presen omit more. New England Office and General Depot, No 10

SMITH'S PATENT

FLEETING SHOWER BATH

HICH is far better than any other and were much superior to the objectionable Cast Iron Bath. The proprietors of this justly celebrated Bath have extensively introduced it into different parts of the United States and are now manufacturing them in large quantities, of different style and finish, to meet the wants of the public. The increasing demand for this desirable and useful piece of furniture only substantiates what the subscriber has before asserted, that it has been and continues to be the most preferable Portable Shower Bath in the market, and for the folowing reasons:

1st. It is not encumbered with heavy weights and pulleys, or a clumsy cast from top and bottom, which would make it expensive, liable to rust, break, and get out of repair, not easily moved about, inconvenient in its operations, and unpleasant for the bather. But on the other hand, it is very cheap and durable, light and portable, operates effectually,

unpleasant for the bather. But on the other hand, it is very cheap and durable, light and portable, operates effectually, and can be agreeably and pleasantly used.

2d. It does not require a ten horse-power to lower the lonatain; neither is it necessary to fasten it down when lowered, to prevent its running away like an unruly horse— but can be lowered in an instant by the slightest exertion, and readily raised, without compelling the bather to exhaust all his strength. In short, this Bath is what hundreds of individuals of the best respectability have pronounced it—all that mechanical skill could put within the same compass and expense I would therefore respectfully say to those who wish to purchase or examine this desirable article, call on the subscriber, at No. 121 Boston street, Salem, who will take great pleasure in more minutely de-tailing to them the respective merits of the Fleeting Shower Bath, by personal demonstration. june 6 CHAS. A. DEARBORN.

NEW CASH STORE H. TOWNSEND begs leave to an nounce that he has taken the shop on Main St. A few doors South of Park Street, where he will be kept a good assortment of WEST INDIA GOODS,

MUTUAL LIFE INSURANCE.

The subscriber has been appointed agent or Danvers and vicinity, of the New England Mutual Life Insurance Company. This Company is formed upon the surest foundation. Its rates are based upon the latest and best observations of the decrements of life, according to the expe vations of the decrements of life, according to the experience of the oldest of the English Companic. It is the most carefully managed of any of the kind in the country, and has been thus far remarkably successful.

Since commencing, February 1st, 1844, to April 1st, 1846, has issued 986 policies.

The amounts from 200 to \$10,000 each.

has issued 986 policies.

The amounts from 200 to \$10,000 each.

Net fund accumulated (owing to the favorable turn of the risks thus far) \$89,500 besides guarantee capital.

Surplus to be refunded to members at the end of every five years from December, 1843.

Directors—Willard Phillips. Robert Hooper, William Parsons, Charles P. Curtis, Francis C. Lowell, James Read, George W. Kuhn, William W. Stone, R. B. Forbes, Peter Wainwright, Thomas A. Dexter, Otis Tufts.

President—Willard Phillips. Secty—Jonathan Amory. A person in his thirtieth year, in order to secure one hundred dollars to his family at his decease, pays annually, during his life, \$228; or he pays \$22 80 to insure \$1000.

Any one in the 24th year of his age, who needs a credit of \$500 for three years, to begin business, where the only obstacle to his obtaining the credit is the uncertainty of life, may obtain the same by paying annually, for that period, \$5.15. Or if he needs \$5,000, he gets the credit by paying annually, \$1.50.

A creditor may frequently give himse, fadditional security for his debt by insuring his debtor's life.

One, while he is solvent, new secure a provision for his family on his decease, though he may die insolvent.

Life insurance is better appreciated by the community, with every day, and it cannot be long before its benefits will be as generally acknowledged as those of fire insurance are now.

Blank forms of application, tables of rates, and any addi-

ance are now.

Blank forms of application, tables of rates, and any additional information will be given on application to

POETRY.

ENDURANCE.

BY ROBERT JOSSELYN. Tis bitter to endure the wrong Which evil hands and tengues commit, The bold encroachments of the strong, The shafts of calumny and wit; The scornful bearing of the proud, The sneers and laughter of the crowd.

And harder still it is to bear The censure of the good and wise. Who ignorant of what you are, Or blinded by the slanderer's lies, Look coldly on, or pass you by, In silence with averted eye.

But when the friends in whom your trust Was steadfast as the mountain rock, Fly and are scattered like the dust, Before Misfortune's whirlwind shock; Nor love remains to cheer your fall, This is more terrible than all.

But even this and these—aye more, Can be endured, and hope survive; The noble spirit still may soar, Although the body fails to thrive; Disease and want may wear the fram Thank God! the soul is still the same.

Hold up your head, then, man of grief,
Nor longer to the tempest bend;
For soon or late must must come relief. The coldest darkest night will end, Hope in the true heart never dies! Trust on the day-star yet shall rise.

THE PAST.

BY T. R. WHITNEY. There was a time when I did taste
The sweets of life, but it is past;
And sorrow's veil, with sudden haste, Is o'er me cast.

There was a time when I did know Affection's joys, but they are fled;
The heart from which their streams did flow Is with the dead!

There was a time when life had charms 'To win my love, but they are gone; No mellowing tint my bosom warms — I am alone!

There was a time when bright-eyed Hope Before me smiled, bedecked with flowers; The future now seems but a group Of weary hours!

From life's absorbing joys, defend The yielding heart, ere tis ensua. Each love must with bereavement end; Be then prepared!

SEMBLANCES .- A Song.

Say not, because you see no tears, That tears can never flow; That tears can never flow;
Ah! judge not by the light that plays
On many a radient brow;
For, oh! believe me, hearts can feel
When careless they appear;
And smiling eyes have often smiled
To hide the gathering tear,

I doubt the purity of sighs,
I doubt the strength of tears;
When these are shed before men's eyes, Those rung into men's ears;
But doubt I not the depth, the truth,
Of aching hearts which wear A smile upon the pallid face, That none may see the tear.

MISCELLANY.

TEMPER.

A TALE WITH A GOOD MORAL.

BY MISS M. MILES. "The wildest ills that darken life, Are rapture to the bosom's strife; The tempest in its blackest form, Is beauty to the bosom's storm."

I have an invitation to Mary Morton's party, said Francesca Delevat to her mother, as they sat together in the drawing room, and I think,

'Oh! I am not afraid of that. He knows my and it was only then that her mother saw her lip spirit too well to think I shall ever obey.' And quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, quiver, and her pale cheek become a shade paler, and knew that the thought of Clarence Hardy had occasioned the change.

A shade passed over the mild face of Mrs.

They bid adieu to shind them to the past, and re-

Believe me, my dear, that you will estrange the solation into his soul, even while she was suffer noble heart that is now wholly your own, if ing for the comforts that her invalid state required to provide the solution into his soul, even while she was suffer you persist in thus acting against all his opinions, and feelings. Some little deference should be guid and slow, and the father's heart yearned for your distributions of old. The sunny smiles and thrilling tones of old. Change had indeed cast its gloomy mantle over and therefore you conclude to accept it? and their once happy dwelling and avenue happy dwelling. vitation, before you conclude to accept it; and, leaving her daughter to ponder upon her words,

she left the room.

Mr. and Mrs. Deleval had one daughter FranMr. and two younger children. Francesca's
cesca, and two younger children gave great
pride and haughtiness of character gave great
uneasiness to her parents, although her very fault,
uneasiness to her parents, although her, for her were overlooked by those who knew her, for her heart was generous and affectionate, and she was

gifted with much talent and beauty.
Clarence Hardy was some years order, and she
was much attached to him. He was reserved in manner, but his feelings were noble and his dismanner, but his teelings were notice and this order position amiable. He was the adviser of Francesca, and, until lately, she had been governed by his wishes. And for the change in her demeanor he could not account, but attributed it to her acquaintance with the Miss Mortons, who were gay

he started up, and, meeting his earnest gaze,

olushed deeply. 'What have you been thinking of, Francesca?' he asked with a smile.
Of a request that I was going to make,' she re-

plied, though I am not sure that you will agree

Then it cannot be one that I ought to grant, it 'Then it cannot be one that I ought to grant, it you trom the path of duty. I shall have strength you thus fear to ask it, for I am not very unreasyou thus fear to ask it, for I am not very unreasyou thus fear to ask it, for I am not very unreasyou thus fear to ask it, for I am not very unreasyou thus fear to ask it, for I am not very unreasyou from the path of duty. I shall have strength you from the path of duty. I shall ha

Speak. him, even why, I have received an invitation to Mary his head. Morton's party, and mamma would not let me

A snade of disappointment and mortification received, and added, as nevembrac-crossed his fine face. 'It were useless then to ed and kissed her tenderly,—
When I return, my child I hope I shall be glad-consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you, while you thus think and act consequence to you.

ing at home.'

He took her hand with a look of deep and earnand ask you if Mr. Hardy wrote to you before he est affection—'Have I ever been unreasonable, left the city. I have never been informed as to left the city. I hav

tained it.
Since this is your resolve, Francesca, and his Since this is your resolve, hear me say that we voice trembled as he spoke, hear me say that we now part forever. I have borne your many caprinow part forever. I have borne your faults. I ces, and have tried to overlook your faults. loved you with a deep and true affection, but I consider a good temper an essential requisite to render the fireside happy. And you do not possess the jewel of a meek spirit. If the world's trials should come, and humble that houghty heart, you may then sigh for the love of him who would willingly boys shielded you from even the possess.

idea.

A shade passed over the mild face of Mrs.
Deleval as she looked with all a mother's fondness upon the young and lovely girl before her.
Pride sat through upon her beautiful brow, and
at that moment she lake the would have given,
all the wealth, the luxuries of her spiendin home,
the gift of an humble spirit to that child.

Listen to me, Francesca,' said she, drawing
her to her side—'You know, my child, how highly we esteem Clarence Hardy, and with what perly we esteem Clarence Hardy, and with what perly we bestowed such a treasure upon him.

Believe me, my dear, that you will estrange the
noble heart that is now wholly your own, if

their once happy dwelling, and even the playful smile of his little Emma, and the mirth of her laughing brother could not win him from his

brooding thoughts.

An old attached servant and his wife, who had lived with Mr. Deleval's father, had insisted with lived with Mr. the strong attachment which the African race feel towards a kind master, upon accompanying them into their retirement. Old Cato entered with a

'A letter for me?' said Mr. Deleval, rousing

from his reverie, 'Yes, massa, me jest git him;' and seeing his master's dejection, 'me hab got the swing fixed. Come, Massa William, come, Missy Emmy; Massa be tired.'

Mr. Deleval opened the letter and read it, and then raised his eyes to heaven, as if in thankful-ness, though a deeper shade of sadness rested Francesca, as, sunk in reverse, she leaned her head upon his brow. It was a moment of mingled joy upon her hand. After a few moments of silence my love, I have an offer a very lucrative case, she started up, and, meeting his passes. Europe. It rests with you whether I accept it but I think it a sacarifice that I ought to make for my children, although the separation may cost my children, although the separation may cost

many pangs' cheek grew very pale, but she

commanded her feelings.

My husband, do not let a thought of me deter you from the path of duty. I shall have strength given me from above to meet every trial; and our

Francesca, who hadlest the room on some slight pretext; now entered. Her father called her to his side, and communicated the contents of the I have made up my mind to go.'

A shade of disappointment and mortification letter he had received, and added, as he embrac-

my path in days gone by. I can hardly, realize ior yourselt.'

Now you are angry, Clarence. I cannot see that it is my once warm hearted Francesca, who is so reserved and cold to those who have ever why I should always submit. And if you go with loved and cherished her. It has given me much loved and cherished her. It has given me much loved and cherished her. It has given me much loved and cherished her. It has given me much loved and cherished her. It has given me much loved and cherished her.

society. I will not visit them, and you will oblige me by declining the invitation—though it may cost you a dull evening at home.'

Francesca's eyes flashed. 'Give up my friends merely because they do not suit your taste! You strangely mistake my character if you deem me strangely mistake my character if you deem me please, but I shall go to-morrow evening.' And she tried to release her hand, but he firmly detained it. A could not—and then. Charence in his farewell letter, told me how disappointed he was in my character and hat in his second choice he should hold a meek and humble spirit of more value than with or beauty—and I felt as if no one loved me.'

Mr Deleval took the opportunity of leading his daughter's thoughts to a higher source than things of earth, and improvement her mind the ne-

of earth, and impressed upon her mind the necessity of ruling her spirit if she would gain love. She promised to obey his injunctions, and retired to rest with a fighter heart than she had possessed for many many.

they had ever been betrothed. Clarence was introduced to Miss Roseville, and soon took evident the quality of the grain. The third mode requires

No love is like the first love? Sang the lauthouse is like the first love? As in her locker's castle proud.

She touched the lute the while,

A gallent knight in lands afar, Hau won the lady's love, And proudly in his helmet placed A white and 'brothered glove.

They said the false inight bent the knee At Eastern lady's shrine; And the glitter of her dark eye loved More than the diamond's shine

Two weary years had passed away, And the lady of Glentyle An orphan dwelt in lordly halls, And sadly sung the While-

'No love is like the first love !' As the murmurs echoing died,
A youthful knight in glittering mail,
Bent at the maiden's side.

His favor was a broide.' l glove ! His motto—brave and true!
And he bent in homage there,
Her own true knight she k?ew.

As she concluded, Clarence and Anna Roseville same in, and the extreme devotion of his manner to her friend, made her own heart somewhat sad, though she knew that Anna's amiable disposition was well calculated to win Clarence's regard and esteem. He complimented her upon her song, and, pleading some business, took

leave.
Francesca passed the rest of the evening with Anna, who was unusually animated, and then

anna, who was discussed and an analysis andly returned home.

'Will you be my bridesmaid, dear Francesca'?' asked Miss Receville, a few days after, as they were walking together. 'Next Tuesday is the

Francesca looked at her in amazement. 'You need not look so amazed, my dear,' added Anna; 'I wished to put it off, but Clarence would nut consent.'

Francesca seemed as if in a dream, but she erlancesca seemed as it in a dream, but she called her woman's pride to her aid, and, answering in the affirmative, turned away, and seeking her home, locked herself into her room, and gave way to all her grief and misery. This was the death blow to her hopes, and she nerved herself to hear her hitter part

to bear her bitter part.

There were only the members of the two families present in Mr. Roseville's handsome drawing room, and Francisca and Anna, who were habited ust alike, were waiting the entrance of Clarence in a amail room. Anna was jesting upon the secresy with which they had conducted the affair, so as to baffle the prying curiosity of the villagers, and Francesca was nerving her heart to bear the approaching trial. She walked to the 'window, and, contrasting her friend's happy lot with her twenty fighting men. own desolate one, sighed deeply, when some one suddenly took her hand, and, looking up, met the earnest glance of Clarence Hardy!

lest affection—'Have I ever been unreasonable, dear Francesca, or advised you but for your own happiness? But the Miss Mortons I consider that confidence which my dangerous acquaintances for any young lady.—
I think that the manner in which they live, free I think that the manner in which they live, free from the controlling influence of moral and religious principle, and repaying friendship with glous principle, and repaying friendship you to avoid their society. I will not visit them, and you will oblige me by declining the invitation—though it may cost you a dull evening at home.

Francesca's eves flashed. 'Give up my friends' is so generous and wealthy. I thought I should is so generous and wealthy. I thought I should is so generous and wealthy. I thought I should is so generous and wealthy. I thought I should is so generous and wealthy. I thought I should is so generous and wealthy. I thought I should is so generous and wealthy. I thought I should is so generous and wealthy. I thought I should in should in should ave been at such a time, as he claims of the casue of your unhappy separation, neither the casue of Clarence Hardy!

She indignantly withdrew it. 'Mr. Hardy. She indignantly withdrew it. 'Mr. which, though bitter at the time, had led her to strive and with the jewel of a meek spirit.

ever; and she left the room with a proud step.

Francesca's smile beamed bright in the drawling room of Miss Morton, and she left the froom with a proud step.

Francesca's smile beamed bright in the drawling room of Miss Morton, and she left the froom bear and the thrilling lay as though her heart knew not a touch of bitterness. And in her step was still as proud and her eye as clear, as though the shadow rested not upon her spirit—but her mother's eye was not decived—synthesis beart, and she to he lest.

She saw the struggle in Francesca's heart, and she to he lest cloud the repair of the room of the room bear the the mother's eye was not decived—synthesis beart, and she to he lest.

A few moments before she was reliable the shadow rested not upon her party to night at twelve-and-a-half ets. per bushlel, and is seld-attraction of the party to night at twelve-and-a-half ets. per bushlel, and is seld-attraction of the party to night at twelve-and-a-half ets. per bushlel, and is seld-attraction of the party to mismit before she was still as proud and her eye as clear, as though the shadow rested not upon the party to night at twelve-and-a-half ets. per bushlel, and is seld-attraction of our patrons:

companied by Clarence Hardy. They met with is increased, and the ground is cleared in time for the indifference of common acquaintances, and few a winter crop of wheat or tye. The second mode would have deemed, from their demeanor, that impairs the value of the forage, requires more last impairs the value of the forage, requires more last

was derived for been stated that great advantage which had borne two or more electron from stalks shire Gazette, published at Northampton, Masser mentions a farmer who has selected his seed corn in this way for three years past, and the ret sult has exceeded his expectation. He states that it is not uncommon to find in his cornfield this season, [1831] stalks with three, four, five, and sometimes six ears, and three of them fair, full grown, and fit for seed, and that too in hills containing four or five stalks. He says: I think my crop has been increased several bushels this my crop has been increased several bushels this year by the experiment. I would suggest a mode of selecting seed to those who do not cut up the corn at the roots. When they are picking corn, and find a stalk with two or more ears, let them tie the husks together, and the ears will be casily known at husking."

To Wine Drinkers.

It is not generally known that wine baths are quite common in France—nevertheless, such is the case. The duke of Clarence is not the only gentleman who has enjoyed an immersion in Malmsey. Punch has tried it with the very best Sherry. Only imagine! Punch—the veritable English Punch—swimming in French wine and kicking, and plunging, and laughing, until the tears ran down his checks, and never thinks ing of the expense —a five franc piece!

What! a five franc piece for a tub full of wine? Hurrah! Vive la France!

Gently—gently. At least fifty others bathed the same wine—after Punch. The keeper of in the same wine—after Punch. The keeper of the bagne had a preference for Punch, and gave Punch the first dip. After him came fifty others—making in all fifty five franc pieces. A good price for the tub.

'The wine was then thrown out?' Not so, by any means.' Not at

Bottled! Bottled, of course.' Bottled! And for what purpose?

Orink! Who would drink such stuff? Why, the English do—the Yankees do! To latter import it in large quanties. It is a great favorite in Yankeeland.—Sun. Times.

Human Nature.

A letter from the party of emigrants for California which left Missouri last spring, says:

In our encampment we had several Oregon families, constituting twenty wagons. Some little disturbance arising, they concluded to withdraw from our party and go on their own hook, forming a company of their own, mustering force of some

twenty fighting men.

They went on ahead, and for several days encamped within one or two miles of us. In their party there were many young ladies—in their party there were many young ladies—in their party there were many young ladies—in the control of the cont

A correspondent of the Lowell Journal gives the following glowing description of the soil, and Corn crop of the "Western Reserve" in Ohio .-she His letter is dated July 30, 1836,

In the midst of this extreme hear, the farmers have gathered by far the most abundant harvest of wheat ever known in Ohio. The corn is also very fine, and the late rains have secured it a-Harvesting Indian Corn.

We extract from the "Complete Farmer and Rural Economist," the following valuable remarks

Rural Economist," the following valuable remarks to rest with a fighter heart than she nau possessed for many weeks.

DANVERS COURIER:

SATURDAY MORNING AUGUST 29, 1846.

The Vote on the War Bill,

There has perhaps been a great deal of missia derstanding in the popular mind in relation to the vote in Congress on the War Bill, so called; brought about in some cases, at least fostered, by misrepresentations on the part of the Press, and of those in whom ignorance or prejudice would be equally a reproach, and while lauding the conduct of "the Fourteen" who voted against the Bill, may have left the impression that those who voted for it, lacked the manly independence to act as their sense of honor and justice dictated and were afraid to do what they thought to be their duty. The effect of this though far from being intentional is to strengthen the notion, already to prevalent among some classes, that "the Fourteen" were the only men in Congress really op posed to War and Slavery, and that all the rest were cravens and cowaids unworthy the confidence of the friends of peace and humanity.

We are however somewhat surprised in some as mortified that the should have been so preverted in their meaning and intent as to denvey the false impression above described which we learn has been the result.

It is useless to say how utterly unjust and ab surd the notion is-that the abstract questions of peace and war, slavery and anti-slavery, had anything to do with the matter. The facts are simply these. Every member of Congress was in favor of the appropriations contained in the Bill-"the Fourteen" voted against it, because they were unwilling to appear to sanction what they thought the false declaration of the preamble-the Whigs who sustained it did so thinking that their conduct might be misconstrued and protesting against the iniquity which placed them in such a dilemma, but daring to leave appearances to take care of themselves, and voting on substantial provisions of law according to a sacred sense of duty.

Perhaps one or two extracts from Congression al speeches will throw some light on the subject. The first is from a speech of Caleb B. Smith of

Ind. in opposition to the war-"When the bill which appropriated ten million of dollars and authorized the President to call for volunteers to prosecute the war, was under consideration, I was confined to my room by indisposi tion, and was therefore unable to vote upon it.-Had I been present, I should have voted for the bill. However much I respect the motives of the fourteen gentleman who voted against it, I could e votes which not have concurred with them in they gave. At that time our l a hostile country, surrounded in enemy of greatly superior numbers. Every mail was looked for with intense anxiety, and intelligence of defeat and disaster was feared by many. It was not then the time to stop to inquire whether our army was there rightfully or trot? They were was the imperative duty of Congress to adopt the means necessary to extricate them from that dan-ger. If the President, by an unauthorized act, had sent our troops into a foreign country, and involved us in war, it was still our duty to adopt the necessary means to secure their safety. It is true, the majority in his House, by an act of un-exampled party tyranny, attached to the bill the assertion that the war existed by the act of Mexico. This was done for the purpose of compelling the Whigs to sanction this statement by their votes, and thus furnish some excuse for the Administration; or, by voting against the bill, render themselves obnoxious to the charge of voting a gainst granting the supplies necessary to extricate our army from their dangerous position. I believe the statement contained in the bill, that the war falsehood, and protesting against t tyranny of the majority, which refused to us the privilege of voting upon the two propositions separately. It is not the desire of the Whigs in this House to embarrass the Administration, by withholding the supplies necessary to bring the war to a close. Wanton and unjustifiable as they view the war, still we are engaged in it, and our army must be sustained.

The other extract is from a speech of Mr. Ashmun, one of "the Fourteen," a high-minded, whole souled man, and an honor to his state.

The bill which was presented for our considera-tion, was one which the Military Committee had previously reported expressly for the purpose of repelling invasion, and for that alone. It authorized the raising of volunteers, and granted money for that purpose; and for all the substantial provisions of it. I would cheerfully have voted; and so would, as I think, all the gentlemen on this side of the House. We were willing to grant every supply which was asked, or needed, to extricate our gallant little army from the apparent periodically which it had been prouged by the orders of the Executive. But mark the sequel. After all debate was closed by the iron will of the majority, an amendment, in the form of a preamble, was offered by the leading member of the Administration party, [Mr. Boyn, of Kentucky.] That pre-amble contained the declaration that "war exists by the act of Mexico"—a declaration which I could not admit to be true, and which I believed to be intended as a cloak to the real intentions of the Administration.

But, sir, the majority determined to force that preamble into the bill. I could not and did not vote for it, when it was thus burdened with a false and mischievous declaration. I was one of the few who voted against the war bill, not withstanding my great anxiety to vote for the supplies. I will not say that the course of the majority did not make me hestate—because such a state of things was well calculated to embarrass. But the conclusion to which reflection brought me, left no doubt that it was my duty to vote against the bill. I know, sir, that many, and, indeed, most of the gentlemen on this side of the House, including two of my colleagues, voted differently. I know the embarrassments under which they were constained to give that vote, and fully appreciate the honorable motives which prompted it. I concur in the remark made wanother of my colleagues, [Mr. Hunson,] that was a point on which fair minds and honora-

ble and patriotic might well differ without bein be liable to any imputation. While I differed from them, I cannot at all sympathize with the cenwhich has been attempted to be thrown upon them for pursuing a course which a sense of duty marked out for them; and before a hasty condemnation is pronounced in any quarter. I would recommend a more careful examination, and a more impartial consideration, of the difficulties which surrounded us all at the moment when we were called upon to act,

It is unnecessary to add more. But let not prejudice or ignorance requite the honest services of public men with unjust calumny and reproach.

THE SEA SERPENT.

"Created hugest that swim the ocean stream."-MILTON. So spake the immortal poet, and we are half inclined to the belief that he may have caught a glimpse of that monster of the deep, which has heen the occasion of so much wild conjecture and speculation for several years past in this vicinity, and which has also afforded the landlords of the hotels at Nahant, good opportunity by stying preself off that celebrated summer resort, to dispose of their proyender, "brandy-punch," "mint juleps," 'stone-wall," Tip-and-Ty," Fiscal-agent," and a whole catalogue of other liquor preparations .-Yet notwithstanding the dishonest ingenuity of the lovers of gain, the credulity of the ten thousand witnesses who have been privileged with a sight at this "wonderful critter," cannot rightfully be questioned. Often has he been viewed from the shore with the naked eye, by admiring thousands, which caused the expansion of their organs quently too has he been beheld by the crews of with reference to the moral worth and abilities of cook and eat them in the form of chowder or fry, or as one of the sacred poets has described in a

"With vast amazement to survey The wonders of the deep,
Where mackerel swim and porpoise play, And crabs and lobsters creep.

* * * * Their heads the billow's motion feels. And quickly they become
Giddy as new-dropped calves, and real
Like Indians drunk with rum."

It was while enjoying one of these excursions, recently, that about thirty of our 'most respectable a peep at his lordship-the original, anequalled, terror-exciting Sea-Serpent.

When first observed he seemed leisurely floating on the surface of the water, but becoming frightened by the shouts from the crews of several boats who were near him, he sped through the water with the velocity of lightning, and in a few seconds had made the distance of three or four miles from S. W. to N. E.; he then turned rapidly around making a circuit of a mile or two and proceeded to the place where he was first observed: this manœuvre he had repeated several times, when seeming to have become alarmed by the noise and the efforts of the crews of two small boats to approach him, he vanished beneath the surface. His length was variously estimated by our boat's crew, at from 50 to 100 feet. Perhaps if they would split the difference and call it 75 feet it would not be an exaggerated estimate.

In personal appearance he was not very prepossessing having on his back several protuberances, say of the size of a wine cask, which secures to existed by the act of Mexico, was false. Still I his lordship the title of "hump-back." It is posshould have voted for the bill, protesting at the same time (as did those Whigs who voted for it) at the intrusion of the spectators, and only "got his lordship the title of "hump-back." It is poshis back up" to show his indignation.

> Some of the more superstitious we learn are feign to believe that this may be none other than "His Satanic Majesty," and we are extremely sorry to be under the necessity of crushing their fond hopes by informing them that in all the descriptions of those who have seen the wonderful creature, no mention is made of those necessary appendages the horns and cloven foot, and we can but think that all conjectures as to his whereabouts, whenabouts and whatabouts are at best but fanciful and deceptive. Moreover we are extremely confident that the only reliable and accurate description of the "most subtle beast" is that of the poet Coleridge, viz:

And pray, how was the devil dress'd? Why, he was in his Sunday best;
With pantaloons of sky dark blue,
And a hole in his coat where his tail came through

TEMPERANCE APADRESS.

that Mr. HUNTINGTON of Salem, is to deliver an address upon temperance, at Upion's Hall, tomorrow evening. Mr. Huntington was one of the pioneers in the temperance cause, and has continued interest of our citizens in this important cause will be shown by a full attendance.

MURDER AT PORT CARBON.—We learn from the Philadelphia Ledger, that much excitement exists in the vicinity of Port Carbon, in consequence of a colored man, named Gregg, shooting a white man, named Gunders. The parties live within a few rods of each oth-

er. Gregg stole Gunders' gun; the latter got a warrant out against Gregg for larceny, and Gregg sued him for threatening to shoot him.

They both left the magistrate's office; the col ored man reached home first, and taking the gun in dispute, shot Gunders as he came to his house. The shot took effect in the mouth, causing instant treatment of a badly fractured arm of a female when his finger was caught in the ring and jerked death. Gregg is now in Orwigsburg jail.

State Normal School at Albany.

Circular of the State Normal School at Albany, N. Y., for the year ending Sept. 17, 1846, which by the Boston Transcript as follows:-"the shock was reports the number of pupils 294—Gentleman 172; accompanied by a rumbling sound, resembling that Ladies 122.

This School was established by the Legislature struction and practice of Teachers of Common we have beard of several persons having been awakof the State of New York in 1844, "for the in-Schools, in the science of Education and in the to have extended in almost every direction, and we art of Teaching 2 and we doubt not that the art of Teaching," and we doubt not that the re- hear of its having been felt in almost every place sults of this act will prove that for no purpose within 50 or 60 miles of us. At Jamaica Plains a could the funds of the State have been more chari- chimney was shaken down; in Worcester the doortably or beneficially applied. We copy herewith bells of two houses were rung. In Braintree, Fieda synopsis of the requirements and privileges of ham, Concord, and various other places, we hear of

Each county in the State is entitled to send to the School a number of pupils, (either male or the Assembly in such county. The pupils are appointed by the county and fown superintendents or that purpose.

Pupils once admitted to the school will have he right to remain until they graduate, -unless they forfeit that right by voluntarily vacating their place, or by improper conduct.

The course of study embraces all, the essential branches of a thorough English Education, particularly in Mathematics. ...

Females sent to the school must be sixteen veris of age, and males eighteen.

The superintendents, in making their appoint ments, are orged to pay no regard to the political of vision to the dimensions of small saucers; fre- opinions of applicants. The selections to be made ressels, also by pleasure parties and those who go lihe candidates. Decided preference to be given down to the sea in small boats to obtain amall fish, to those, who in the judgement of the superintendents, give the highest promise of becoming the most efficient teachers of common schools.

> All the pupils on entering the school, are re quired to sign the following declaration :-

"We the subscribers hereby declare, that it onr intention to devote ourselves to the business of teaching district schools, and that our sole object in resorting to this Normal School is the better to prepare ourselves for that important

Pupils on entering the school are subjected to a horough examination, and are classified according to their previous attainments. The time required citizens' (ourselves included) were privileged with to accomplish the course will depend upon the attainments and talents of the pupil, varying frem me to four terms. Very few however can expect to graduate in one term.

> All pupils receive their tuition free. They are also farnished with the use of text-books without charge. Moreover, they draw a small sum from the fund for the support of the school, is defray in part their expences.

> A well assorted apparatus has been procured sufficiently extensive to illustrate all the imporant principles in Natural Philosophy, Cnemistry, and Human Physiology. Extraordinary facilities for the study of Physiology are afforded by the Museum of the Medical College, which is open at all hours for visitors,

Besides an abundant supply of text-books upon all the branches of the course of study, a well selected miscellaneous library has been procured, to which all the pupils may have access free of

Two spacious rooms in the building are appropriated to the accommodation of the two departments of the experimental school. These two departments are under the immediate supervision of the Permanent Teacher, who is a graduate of the Normal School.

The object of this school is to afford each Normal Pupil an opportunity of practising the methods of instruction and discipline inculcated at the Normal School, as well as to ascertain his "aptness to teach," and to discharge the various other duties pertaining to the teacher's responsible office. Each member of the graduating class is required to spend at least two weeks in this department.

In the Experimental School there are ninetyyears. Fifty eight of these are free pupils. The free seats will be hereafter given exclusively to fatherless children, residing in the city of Albany. This is in consideration of an appropriation by the city to defray in part the expense of fitting up one of the rooms the school. The remaining thirty. five pupils are charged \$20 per year for tuition and use of books. This charge is made merely to de-It will be seen by the notice in another column fray the expense of sustaining the school.

Cure for Hydrophobra. - 'A writer in the Na tional Intelligencer says that spirit of hartshorn is a certain remedy for the bite of a mad dog. tought long and efficiently in its support both as wounds, he adds, should be constantly bathed with it, and three or tou doses, diluted, taken a private citizen, and in the performance of his inwardly the virus insinuated into the poses of the poses of the poses of the poses. wound, and immediately alters and destroys its deleteriousness. The writer, who resided in Brazil some time, first tried it for the bite of a scorpion, and found that it removed pain and inflamation almost instantly. Subsequently herried in for the bite of the rattlesmake with similar success. At the suggestion of the writer an old friend tried it in cases of hydrophobia, and always with success.

> Medical Mal:practice.-If we want good lawyers and Doctors, we must enforce the law which pro- Y, the other day, a boy's finger, with part of the tects the citizen against malpractice. Earthquake.

A shock of an earthquake was very sensibly felt in this town on Tuesday morning, about 5 o'clock.— Whig citizens of Massachusetts, for the normal The effect produced was very similar to that described Candidates for the offices of Governor and fried We have received a copy of the Register and in this town on Tuesday morning, about 5 o'clock,caused by the passage of a train of railroad cars across a short bridge. The shock was so severe as to shake houses, and even the furniture inside of them, and its being felt."

The Traveller says :- "We have heard from Cam. bridge, Newton, Lynn, Nahant, Salem, Reverly, female,) equal to twice the number of members of Westboro' and Worcester, and, in these places the houses were shaken, windows and doors ratiled, bells were rung, and the siumbering were waked up. The tended by that rumbling sound which usually accompanies earthquakes. The sound, as it appeared to us, was more like that produced by the sadden and violent motions of a person in the adjoining room, or in the chamber overhead. Some say there were two or three successive shocks; but, to us, it rather appeared like one continued jar, or shock, of considerable violence." par uf

GREAT RAILROAD MEETING.

At a large and enthusiastic meeting of the friends of the proposed Danvers and Malden Railroad, held at the Town Hall in Lynn, by adjournment, on Saturday eve, August 22nd, the following preamble and re solutions were unanimously adopted:

WHEREAS, the importance of the Danvers and Malden Railroad to the prosperity and convenience of the citizens of this town, is from year to year made more apparent: and whereas we have been twice dethority to construct said road, by the adverse action of the Senate upon our petition therefor, induced mainly, as we believe, by the influence of the Eastern Railroad Corporation in defiance of the demands of this community; and whereas, also, the power of said Corporation and of the other old Railroad Corpora tions is already so gigantic, and their influence upon the Legislature in this Commonwealth so controlling, and exercised in such a defiant and unscrupulous manner as to intimidate, if indeed they do not corrup members of the Legislative body, thus controlling the whole subject of Railroad charters; and whereas also, it is now the duty of the friends of equal rights throughout the Commonwealth, and of all others who ture upon all matters submitted to it, to oppose the growth of such a pestilential influence upon the prosperity and advancement of its different portions-

Therefore, Resolved, That notwithstanding we have been twice defeated in our application to the Legisla thre for a charter for a Railroad from Salem of Dan vers to Malden, we will this year renew the application, with the confident expectation that the rights and interests of the 4,000 peritioners, representing 20,000 people, will not again be sacrificed to swelche dividends of the Basiern Rullroad Corporation and increase their already dangerous power; an that we will push the application to a favorable issue with all the vigor which its great importance to u

Resolved. That we witnessed the defeat of our petition in the Senate of last year with disgust and alarm; -disgust at the ready subserviency of some of its members to, and alarm at the overpowering in fluence of, the Eastern Railroad Corporation, and the manner and means by which it was exercised.

Resolved, That the combination formed by the old Railroad Corporations for the last two or three years, to overawe the Legislature, and to control its action upon Railroad petitions, is alike dangerous to the ights and destructive to the interests of all other in dividuals in the community, and traitorous to the character and dignity of the Commonwealth, and that the active and decisive opposition of all the friends of equal rights should be exerted to destroy

Resolved, That for the elections this fall, the accomplishment of the purposes indicated in these resolutions, should be prominent in the selection of candi dates, and that no person should receive the votes of this county or any town therein, who is not impartial, unblassed, and in favor of equal rights and privileges.

Resolved, That we approve the proposed call for a county convention of the friends of the Danvers and Resolved, Malden Railroad in this county, to concert measures for procuring from the Legislature a charter therefor and that delegates be appointed from this town to attend the same.

GEORGE HOOD, Chairman. CHARLES MERRITT, Secretary.

MARRIED AND ROBBED.—A distinguished widow lady of Virginia came to Baltimore last week in company with a loving young husband to whom she had recently united herself, but after a few days sojourn the graceless scamp left for parts three pupils between the ages of six and sixteen unknown, taking with him some \$400 in money, a note in hand for \$500 more, and all the valua bles the lady possessed. It was several days before she made any complaint of her loss, but it was too late to catch the villian.

> Rampant Requery and Rascality. Recent reports render it certain that there is too much villany and crime abroad for the well being of the community. A lodger at the Gloucester House was robbed on Tuesday night. There have also been several pistols picked up in the cars and de pots lately. The valise of Gilman's Express, on board the steamer Penobscot, from Bangor, was cut open on Thursday and robbed of \$1,250. One of the deck hands of the boat has been arrested on suspicion of the rolbery. A jeweller in Portsmouth lafely took a bill of Hampshire Manufacturers' Bank, Ware, Mass.; for \$100, which proved to be only a one dollar bill altered to \$100. Timo. thy Paul, a baker of Portsmouth, has committed several forgeries and absconded. The body of the man named Hosea Record, has been found in Windsor, Berkshire county, supposed to have been mufdered. Some 30 individuals are now in Boston Jail for drunkenness only. A man who gave nis name as William Armstrong Bertell, was arrested in New York on Thursday last for passing two counterfeit \$5 bills on Warren Bank, Danvers .- Salem Reg.

When the cars arrived at Morristown, N.

fence some ten rods or more. At this time the keeper, who was at din when the elephant escaped from the tent, ca up and called the animal by name. The phant immediately obeyed the word, and owed the keeper to an orchard about a h dred rods off, where he was secured by str chains made fast to the trunk of a full gro tree. Just as our informant left in the af noon, he heard that the elephant had uproc the tree to which the was fastened, and had jured a man; but learned no particulars. ? rage of the elephant, it is said, was caused some tobacco concealed in the food that se of the bystanders offered him. People can be too cautious how they trifle in such a with an elephant.—Buffalo Com.

Two bucks who were sitting over a pint wine, made up for the deficiency of port by the liness of their wit. After many jokes had pass one of them took up a nut and holding it to it say?" "Wby," rejoined the other, "it wo say, give me none of your jaw,"

Singular.—It is a fact not perhaps genera known, says an Eastern paper; that Washing drew his last breath in the last hour in the day of the last week of the last month of year, and in the last year of the century. He con Saturday night, 12 o'clock, Dec. 31, 1799.

Wheat In Ohio wheat sells for 52 cents

bushel. In Iowa it brings only 34 cents it may be owing to a thin population and the w of a market. War vs. Humanity. - The 'learned blacksmit Peace Advocate quotes from a letter in one of

English journals, which purports to be from private in the British army in India. Speak of the terrible battle on the banks of the Su he writes thus: 'On the succeeding morning, commenced HANGING AND SHOOTING all the pris ers, which dreadful work occupied us nearly whole of the day! I' We had thought that 19th century was sufficiently horrified with roasting of the poor wretches in Algiers, un French barbarity, but if the above is true, would seem that England seeks to outdo her ill trious rival. For the sake of humanity, we whope the statement is at least exaggerated. Wait for further information.—N. Y. Sun.

he professed would give relief to her.

The dose had been given but a short time, when she continued to grow worse, and soon expired.—
Solhing was throught at the time, of the sudden death
of the lady—her friends not dreaming for a moment
that she had been unfairly dealt with. It is only since that she had been untarry deart with. It is only since the developments in the Muir case, that suspicion has been excited towards Epes, in regard to her death. It has been only a few years, too, since a son of E.'s was killed, as reported at the time of his death, by the accidental displacement of his gum, while he and E's was killed, as reported at the time of his death, by the accidental discharge of his gun, while he and his father, W. Dandridge Epes, were out hunting. The account of young Epes' death, from the lips of his own father, being so plausible at the time, no one, of course, suspected foul play; but now it seems that the son was here to some property which the father wished to get in his own possession. This circumstance, taken in connection with others, leaves very little doubt that Epes is the murderer of his own son. Nor does this end the chapter of h is crimes.

He is now suspected of having murdered a drover

He is now suspected of having murdered a drover who has neither been seen or heard from since he was thown to have gone to Epes' house, to collect of E.
money for a number of hogs sold. This has been several years ago, and as a pretty good evidence of suspicion being properly attached to Epes for disposing of the Warthaler decreases. ing of the Kentucky drover, the skeleton of a grown person was lately, within a week or so, we believe, found in an ice house on the farm upon which types formerly resided.—Rickmond (Va.) MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1847!

give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially a-dapted to whole and bulf sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared examples for some parts of the parts. of the jaw, that carved work in blocks, prepared expressly for each case, is accessory, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects fullow referred to that so many are unsuccessful in giving satisfaction in 62 that so many are unsuccessful in giving satisfaction in their plate-work .- especially in whole and half sets. Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect man-

ner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased with close initations of nature, and would inspire a confidence in their nierits, that the wearing of them would only tend to strengthen.

/PERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge of the person for whom they were made, the charge will be simply the gost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth tray be returned; and the amount paid for them will be refunded. Old plate work that has been worn with much inconvenience will be exchanged for new one with the proposed supplies the same of the proposed supplies the same of the charge supplies the charge suppli refunded. Old plate work that has been worn with much inconvenience, will be exchanged for new, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 ceuts to \$1; For exting on gold nivot. \$2: For Cleansing \$2; Extracting other kinds of range 1 ting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All operations warranted.

Carved work in block for whole and half sets will be got up for other dentists on reasonable terms. S. STOCKING, Surgeon Dentist.

LORRAINE'S PILLS.

All persons require Facts. Remember in all cases that you are not deceived by thing that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable

valuable medicines in the world, viz: Sarsaparilla and Tomatoes. These two articles need no praise, neith er do the celebrated Lorraine' Pills, when they have once been taken.

Physicians, and people of every class are willing to come forward and announce, in the most public

m'anner, that they have been cured of long standing complaints—after all other medicines had failed. In act there can be no doubt but that Lorraine's vegtable Pills is the best medicine ever offered to the public.

See a few public statements of men of truth and virte.

Lynn, Dec 17th, 1842.

Sir; I have sold all the pills I last had of you, please send another let immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I selh more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fac: I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time.

Yours respectfully. Yours respectfully, J. E. F. MARSH:

A hacking cough constantly annoyed me ! Boston, Mass.,

Jane 1st; 1844

Sir,—In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered me truly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILIS and now every body tells me. that I am well;—I fee as well as ever I did.

J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843 Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable cerufficates from our cityans. tificates from our citizens.

Respectfully yours,

Chelsea. Jan-3d, 1844 Sir : I transmit to you an account of my case fo publication, believing it to be my duty. I have been conlined with the Rheumatism nearly the whole winter, have had some of the best physicians of Bosto and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whetever, but I ook them, and it is a solemn fact that when I had aken but eight pills! my Rheumatism had entirefy eft me, and I have remained well ever since.

N. B. I never took more than one pill at a time

and that on going to bed. oing to bed.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to paise my hand; the bones were in different places estroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—a 1 medicines recommended did no good. At last, I toe k LORRAINE'S VEGETABLE PLLLS, which gave immediate relief, and have entirely cured me. Respecifully, your ob't serv't,

JAMES CODSON, Esq.

Bath, Maine, July 16th, 1844,

A severe pain, in both sides cured!! LOWELL , Mass., April 20th 1944.

Sir,—For the last few months I have been afflicad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to cay that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

Sir: I could fill the whole of the Sentinel with into the bowels, and causes a free circulation, and regulation letters to the above, but believing the above lates the whole system, and thereby prevents

extracts will serve for useful purposes for the present l omit more. New England Office and General Depot, No 10 BrattleSquare, Boston.

DR. J. A. ROBINSON. SURGEON DENTIST,

SALEM,

VOULD respectfully give notice that he has removed from his old stand, oposite the City Hall, to No 20 Washington street, recently occupied by A E. Phillips, where he is ready to perform all operation in Dentistry, in a most thorough and work-manlike manner. His experience and success in inserting whole sets either by atmospheric pressure or springs, enables him to furnish them at rates which cannot fail to suit those in want of an article of superior quality.

His method of inserting Teeth, both singly and on plate with or without Gums, has been found to be satisfactory and successful as combining beauty of finish and adaptation, with all the requisits of mastication and articulation.

Particular attention paid to filling Teeth so as to render them serviceable for many years, and also to the regulatio of Children's Teeth.

ABDOMINAL SUPPORTERS.
NEW ENGLAND
TRUSS MANUFACTORY, BOSTON, MASS.

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved TRUSSES, at his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue, Boston, where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it

CERTIFICATES.

From Dr. John C. Warren, of Boston,

Having had occasion to observe, that some persous afficted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has uniformly given full satisfaction in tneir application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE; M. D.

From Dr. Robbins, Roxbury.
Since the death of Mr. John Beath, I have used, oreference to all other Trusses those made by Mr. J. Foster, of Boston.

P. G. ROBBINS, M. D,

Boston, Or Boston.

Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J.

F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

J. V. C. SMITH,

Editor of the Boston Medical and Surgical Journal.

Hints for the Warm Season.

HIS wonderful compound combines MED I CAL POWERS over all other preparations ever formed for the relief of those diseases for which it is rec former I for the relief of those diseases for which it is rec-ommended, such as headache, dizziness, sleepiness, noises in the Head, bad taste in the mouth, nausea, or sickness in the stomach, loss of appetite, indigestion, Dyspepsia, fever and ague, pain after eating, sour stomach, heartburn, jaundice costiveness, determination of blood to the head, piles, coughs, colds, pain in the side, back, limbs; and joints, rheumatism, all chronic diseases, scrofulous hu-mors, Salt Rheum, and all Cutaneous eruptions of the skin, general debility &c. eneral debility. &c.

general debility, &c.

The Dandelion and Tomato Panacea is particularly recommended in cases of INDIGESTION and DYSPEPSIA. The following are some of its distressing symptoms, palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness, f.c. It will cure the worst diseases of

and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation.

The Dandelion and Tomato Panacea is, as

all must be aware, from the ingredients of which it is com pounded, the best as well as the safest Spring and Summer Medicine
now before the public. Spring and Summer are the sea

Jaundice Complaints are most prevalent. The symptoms of these complaint

Drowsiness, Dimness of Sight, &c.

It has proved itself a most astonishing and effectuaremedy for the worst of all maladies, The Piles, becauses it cleanses and enables the stomach to discharge

J. W., grateful for past favors, solicits a continuace of the same. SMITH'S PATENT

FLEETING SHOWER BATH

WHICH is far better than any other and

WHICH is far better than any other and very much superior to the objectionable Cast Iron Bath. The proprietors of this justly celebrated Bath have extensively introduced it into different parts of the United States, and are now manufacturing them in large quantities, of different style and finish, to meet the wants of the public. The increasing demand for this desirable and useful piece of furniture only substantiates what the subscriber has before asserted, that it has been and continues to be the most preferable Portable Shower Bath in the market, and for the following reasons:

Ist. It is not encumbered with heavy weights and pulleys, or a clamsy cast from top and bottom, which would make it expensive, liable to rust, break, and get out of repair, not easily moved about, it convenient in its operations, and unpleasant for the bather. But on the other hand, it is very cheap and durable, light and portable, operates effectually and can be agreably and pleasantly used.

2d. It does not require a ten ho se-power to lower the fountain; neither is it necessary to fasten it down when lowered, to prevent its running away like an unruly horse—but can be lowered in an instant by the slightest exertion, and readily raised, without compelling the bather to exhaust all his strength. In short, this flath is what hundreds of individuals of the best respectability have pronounced it—all that mechanical skill could put within the same compass and expense. I would therefore respectfully say to those who wish to purchase or examine this desirable article, call on the subset of at No. 124 Boston street, Salem, who will take great it and in more minutely detailing to them the respective merits of the Fleeting Shower Bath, by personal desires.

THOMAS TRASK,
Near the Eagle, Main Street, Dangers,
EEPS constantly on hand, a good assort

SADDLES AND HARNESSES,
of every kind and quality. Also—Fire Buckets, Solid

be found at any other establishment.
A good article of Neats Foot Oil, constantly on hand.
Danvers, June 7, 1845.

MUTUAL LIFE INSURANCE.

The subscriber has been appointed agent or Danvers and vicinity, of the New England Mutual Life Insurance Company. This Company is formed upon the surest foundation. Its rates are based upon the latest and hest observations of the decrements of life, according to the experience of the oldest of the English Companics. It is the most carefully managed of any of the kind in the country, and has been thus far remarkably successful.

Since commercing, February 1st, 1844, to April 1st, 1846, has issued 866 policies.

The amounts from 200 to \$10,000 each.

Net fund accumulated (owing to the favorable turn of the risks thus far) \$89,500 besides guarantee capital.

the risks thus far) \$89,500 besides guarantee capital. Surplus to be re-inded to members at the end of every five years from December, 1843.

Directors—Willard Phillips. Robert Hooper, William Parsons, Charles P. Curtis, Francis C. Lowell, James Read, George W. Kuhn, William W. Stone, R. B. Forbes, Peter Wainwright, Thomas A. Dexter, Otis Tufts.

President—Willard Phillips. Sec'y—Jonathan Amory. A person in his thirtieth year, in order to secure one hundred dollars to his family at his decease, pays annually, during his life, \$2 28; or he pays \$22 80 to insure \$1000.

Any one in the 24th year of his age, who n-eds a credit of \$500 for three years, to begin business, where the only obstacle to his obtaining the credit is the uncertainty of life, may obtain the same by paying annually, for that peri-

ohstacle to his obtaining the credit is the uncertainty of life, may obtain the same by paying annually, for that period, \$5.15. Or if he needs \$5,000, he gets the credit by paying annually, 51.50.

A creditor may frequently give himse, fadditional security for his debt by insuring his debtor's life.

One, while he is solvent, may secure a provision for his family on his decease, though he may die insolvent.

Life insurance is better appreciated by the community, with every day, and it cannot be long before its benefits will be as generally acknowledged as those of fire insurance are now.

will be as generary and an ance are now.

Blank forms of application, tables of rates, and any additional information will be given on application to W. D. NORTHEND.

Danvers, May28, 1846.

From the Vox Populi.

BLAME NOT MY MIRTH. Blame not my mirth! Thou canst not fathom all my past hath been ;.
Thou knows't not thro! how many a trying scene

Of grief, of agony, my soul has passed, and Too fierce to last! Blame not my mirth!
Twould wring my brain to madness should I brood
Upon the past: the shocks I have outstood
May not be borne each day and hour,

By memory's power. Blame not my mirth! To morrow may be chill, and dark, and drear, Given to bitterness, to donbt, to fear, . E'en now some angry, lowering clouds be spread Above my head.

Blame not my mirth! The plant needs the warm sun and fostering air; By these the sturdy pine gains strength to bear The wintery cold, the tempest's sudden shock, Firm as a rock!

Blame not my mirth! Thus to my soul joy's genial air shall bring Fresh flow'rs of youth and hope, for those that Spring's First biting blast had blighted erenheir bloom Yielded perfume.

Blame not my mirth! And it shall bring me health and strength to bear Whate'er my Father chooseth to prepare In wisdom for me—bear, and murmur not, Wheeler my lot --

Blame not my mirth! But rather thank my God, that he has thrown From Heaven some gleams of blessed sonlight down To guide, and cheer me as I onward stray Along life's way!

LITTLE THINGS.

There was a little maid, and she wore a little bonnet, And she had a little finger with a little ring upon it; And, what's a little odd, her little heart was then Indove, but not a little, with the best of little men.

For the little youth had exercised his little flatt ring tongue And down before her little feet his little knees he flung; He pressed her little hand, and in her little face he gazed, And looked as though his little head had been a little crazed.

Alas! her little lover did with little warning leave her. And she found him little better than a little gay deceiver, Then in a little moment, stifling all her little wishes, She took a little jump all among the little fishes.

Now, all you little maidens, whose little loves grow fonder, Upon the little moral of this little song may ponder; Beware of little trinkets, little men, and little sights, For you little know what great things from little things

MISCELLANY.

From Neal's Saturday Gazette.

The Marriage in Church.

Beautiful and affecting as the ceremony always is, it is never so much so as when celebrated within the earthly courts of the Most High. At home, it is true, the fond associates of childhood gather around the bride at the moment of the union, and each little thing is enough to touch the springs of memory, and to open a flood of powerful recol-lections. The change that is then to be made from all the endearments of a parent's home, where love has always watched over her, for the endearments of another, an untried homewhere mutual love must hold its guardianship, and parental love be gradually and gently weak-end into care for others, who will sustain the same relation to her that she has sustained to those she is about to leave its well calculated to meanly of "Then inght?" I again 'Parsor will marito-morro those she is about to leave its well calculated to meanly of "Then inght?" I again the way where mutual love is the sustained to the same relation to her that she has sustained to those she is about to leave its well calculated to meanly of "Then inght?" I again to might? those she is about to leave, is well calculated to impress the mind and heart with peculiar power, and to awaken strong emotions in the soul. And as the consciousness of the new position she is about to assume presses upon her, each object of familiar regard will seem invested with an unusual interest, and the smallest, thing which blends its interest with the associations of her childhood will appeal to the heart of the bride, as if to sway

her from her purpose. It might have been so on the occasion of which I am now about to speak. I am very sure it was so in some degree, for they whom I pronounced "man and wife" have lived happily together, and have realized something of the blessing which I was privileged to convey to them. I endeavored to realize how solenn the day and ceremony, and the temple were; and if I did smile, and even laugh, I hope that He who made the risible facul-

laugh, I lione that He who made the risible faculties for use, though not for abuse, will pardon in if that once I have shared, by smiling.

On Sunday alternoon, having retired from services being at morning and night,) I was seated in conversation with a friend, when the servant-usbergd into the parlor a young man whose countestance and brogue revealed the Emerald Isle of the high is hand, and placing a chair, begged him to his birth. I rose to meet him, and cordially taking his hand, and placing a chair, begged him to his birth and placing a chair, begged him to his birth at the overy possible shape, and into no shape at all, with his head hanging down, he leaves to and escribably, quizzical, that not stop in the congregation was sometimed, in the partor a young man whose counters are practically as a present of the presence of the

stood looking at me with a singular embarrassed air. I endeavored to relieve him from his embarrassed rassment by kindly asking his business, and by such remarks as were calculated to make him feel at ease. Some time elapsed, however, before he could say any thing more than Parson, which he ventured to repeat at Intervals of some most. At each mention of the mark is six yourself that asks me that? "An' is it yourself that asks me that? Plaze your riverence, an' have ye forgotten that I told your riverence, an' have ye forgotten that I told your riverence, an' have ye forgotten that I told you have her? Wull I have her? Wull I have her? Wull I have her? Bless your heart ha' aint it that I come here for? That I wull!—that I told your that frightful abyss, and was the Pony seen standing motionless as a statue, gazing down that frightful abyss, and again was he led to his stable. Bolts however not he loaded her with kisses. It was difficult to retain a degree of gravity at this point, and the congregation generally gave induluence to a titter the seen with his fore feet planted within a foot to retain a degree of gravity at this point, and the congregation generally gave indulgence to a fitter that run throughout the building. It was indeed almost impossible to proceed, and Margaret said pool, as if expecting some lost friend to rise in a very low voice— Parson, can you fix me??

I assured him of my entire ability and willingin a very low voice—
in a very low voice in a very low voice in a very low voice i the river, we were offered the Pony of the Cliff, The ceremony was soon over; and when I had and as we drew rein over the romantic animal, pronounced over them the blessing which sent the minigrative land the properties of the grain standing uping in the minigrative days in the idea of again standing uping in the minigrative of the grain standing uping in the minigrative days in the grain standing uping in the minigrative days in the grain standing uping in the properties of the grain standing uping in the properties of the grain standing uping in the properties of the sent of the properties of was proof positive of the truth of the tale, are evidently some horse had made a stable of the spot for a length of time. The question then remained, was this the romantic animal, and to rest that fact we unharnessed and turned him out to grass. After a shake, and a few nibbles at the fresh grass, off started the Pony at a gentle, dignified trot, and again stood upon the towering hank. Grass lost us charms; he moved neither to the right or left, but gazed upon the eddying waters, until we were compelled to break the spell by returning him to the mat-

ter of fact duty of the hills.
We fancied as he gave a last and lingering look at the scene when we turned his head away from the fascination of the spot, that a look of reproach towards us was resting on his solemp visage. Poor romantic brute, it grieved us to break the spell, and had we the dimes' you should be our. Pony; and use we the dimes your should be our. Pony; and spend your days on the brow of your thyortic cliff.

Where the animal first again, or who his was, is a mistery, known to no one.

Seen by no one, the Pony was thus mysteriously found, and though all ordinary meens have been employed to ascertain his owner, no one has appeared, and he fell, into the hands of his present owner by a sale made to pay his keeping. T. Cleveland O. Herald.

A Hard Case .- We know of no preacher who addresses his audience in plainer language than how he puts it on to a certain class of beings who are as many as 156 bathing houses. You enter on one side, and go on to the beach from the other are found in many places as thick as small fleas Dow, Jr., of the N. Y. Sunday Mercury. Hear are found in many places as thick as small fleas in the evening sunbeams of summer;

Now you that was cut out for a man, but was so villainously spoiled in making up, I'll attend to your case. For what end did you burst open the world's door, and rush in uncalled, like a man chased by a mad bull? What good do you expect to bestow on your fellow men ? Some use-And: what iffighousant? They who throw ful invention, some great discovery, or even one stores at what is tabove them, receive the missiles back notation by the thought of anyried?

'An' must I go to the Governor?

'No, that is, not necessary; the Governor has already given his permission, and has signed the license.

At this piece of information, John looked excassively puzzled, as if, wondering how the Governor knew about his going to be married; and native in answer, lo. a question, where a license could be produced, having directed him to the married and produced in the color of a vest, but never studied the gorgeous and produced to see each other; and the color of a vest, but never studied the gorgeous already given his permission, and has signed the short him. We visit to enly ones elves in the color of a vest, but never studied the gorgeous already given his permission, and has signed the short him to the gudst; if the guest wishes to work observed to see a way all our native to mark a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a fool piece to make a cravat of; you know how a monkey be got to make a cravat of; you know how a monkey of the darward looks, for you see one average of the short worth to him and much profit as in summer. Eight hundred bushels to the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the color of a vest, but never studied the gorgeous the colo

Oh! you wasp waisted, catfish mouthed, ba-hoon-shouldered, callipe-legged, goose-eyed, sheep-freed, ho-whiskered droin in the world's bee-hive! your tailor, neatly to hisp by rote a line from some their a temperance lecture from the talented indk and cider poetaster, sentimentally talk love, enough to have constituted a standing army enough to have constituted a standing army loss your mother know were out ? I am affected the love.

But John assured me that he didn't believe in the Mayor marrying him, and having arranged without invitation, and without the slightest preparation. It is understood that on some particular during the service, at the close of the second lesson, he pressed his har down with violence upon this world. In one room are books, son, he pressed his har down with violence upon the feeling of the room. It is understood that on some particular arranged without invitation, and without the slightest preparation of the toe-nail of a misquito would in a arranged without invitation, and without the slightest preparation of the toe-nail of a misquito would in a arranged without invitation, and without the slightest preparation of the second lesson in the slightest preparation in t

has as much power to fatten as the tops of corn have? Charcoal should occasionally be thrown into the pen; brimstone should be mixed in the liquid food, and a little meal improves sour mile where we will the man be cut fine with an axe. The cob will be eaten with the corn, and the whole will prove as conomical food. Well fed hogs make better man

conomical food. Well fed hogs make better man Well fed hogs make better mag burry is over, you have time to add loam that will make the pen smell sweeter than some kitchens that you pass by.

Animals Turned Authors. If animals were to the sheep in pastoral poetry. The elephant would produce an excellent treatise on philosophy, the horse employ his genius on chivalry, the cow or agriculture, and the dog cut a figure in the drama, The writings of the monkey would excel in satira and burlesque; while the cat would be distinguish. ed for the sarcasm, envy, and disingenuousness of his composition. The style of the lion would of his composition. he bold, abrupt and Pindarie; while the gander and started towards the whirlpool we fancied his would be remarkable for the extreme verbosity ears pricked up at the idea of again standing up and diffuseness of his language. The badger would and diffuseness of his language. The badger would probably attempt a treatise on the medical effect proparty attempt a treatise on the medical effect of perfumes, the turkey a disquisition on the moetic heroic. The genius of the pwl would exhibit its self in the composition of elegies, epitaphs, and self in the composition of elegies, epitapus, and solemn dirges; that of the bear in an essay of waltzing. As for the hog, he could never excell it polite literature, but might favor the world with a critical analysis of the philosophy of Bacon. The peacock would make an excellent contributor to the Lady's Magazine and the annuals. The whale would write powerfully on the depopulating consequences of the Greenland fishery, and the pigeon on letter-carrying. The goose would make a bluestocking of the first class and would be famous for dealing in scandal. The magnie would be a notorious plagfarist, cabbaging ideas at all hands. As for the parrot, he would not includge much in written composition, but be fond of showing offices a public speaker. For composing political harangues, the ass would be unrivalled.

> Males and Females Bathing at Newport. A correspondent port on the subject of bathing:

I had my prejudices against the custom of both exes halling together, but on seeing the fun at Newport, my antipathy againsticthe fashion was much removed. The sight is picturesque, carrainly. Fancy an encampment of Indians, or rather Gipseys divested for the boiling pot, and you have the scene previous to immersion. You apply tell the repulsemen from the ludies and cannot tell the gentlemen from the ladies, and it is difficult to distinguish the members of your own family. The gents wear red flannel tunies, duck pants, and straw hats; the ladies, tunios and pantaletts of the same color, with white collars and wristbands, and straw hats also. There er, all equipped to act the part of sea nymphs, or in the else that seems an appropriate character, is really very exciting to behold the fun.

Carrots-Rotation.

At one of the Boston Agricultural meetings, Mr. Gleason, of Wayland, slated that he had raised S00 bushels of carrois to the acre; on the same ground the year following, he had only 525 bushels. The ground was manured both years. The importance of alternation or rotation is here eve

and four thousand persons, were assembled at the Broadway Tabernacle, the other evening to The Rev. Dr. —, who opened the meeting with prayer, got through in the very short you have no mother nor never had? with prayer, got through in the very short you are of no more use in the world than a space of three quarters of an hour; but it was rime-piece in: a heaver dam, or a mattrass in a full long enough to destroy the effect of the house pen. You fill no larger space in this world's hog pen. You fill no larger space in this world's before its close, not thinking it would pay, as eye that the toe-nail of a musquito would in a market house, or a stump-tailed dog in all out-doors; you are as little thought of as the fellow for what they already knew and one old nenfor what they already knew; and one old gentlement in the preserved in a drop of brandy, and have as much ser-room as a tad-pole in Lake Superior and as for your ideas, you have but one, (and leep.) that tailors and females were imade to be gulled by you, and that you think decent people envy your appearance. Poor useless tobacco worm! You are a decidedly hard case!

Fattening Hogs.

It is a good policy to commence fattening pretty early, for pork can be made; at less cost in mild venture than in winter. At this season weeds iron the garden and fields will aid a little, and iron the garden and fields will aid a little and iron the garden and fields will aid a little and iron the garden and fields will aid a little and iron the garden an doors; you are as little thought of as the fellow for what they already knew; and one old gen-

early, for pork can be made, at less cost in mild versal, until the close of the everlasting prayer.

This reminds me of an aged minister in the train the garden and fields will aid a little, and sweet apples that have fallen will do more service in the hogspen, then under the tree where the vice in the hogspen, then under the tree where the worms that are in them would make their appearance, next spring in the form of insects.

Hogs are found of variety, and in September they had be gratified at small cost. Purslane, that now and then undertook the business himself, and man be gratified at small cost. Purslane, that now are then undertook the business himself, and man then undertook the stranger woke up one devoured by hogs, and who knows but this weed of his sons, who was snoring next to him, and

DANVERS COURIER:

SATURDAY MORNING SEPT. 12, 1846.

To the Readers of the Courier.

One of the principal contributors to the columns of this paper has found that a misunderstanding exists in relation to the position he holds in the management of the paper while his oversight of its columns has been very limited and does not extend to the making of any selections, or generally the knowledge of any thing except his own artieles until they are published. I nese leinues are mane partly from a recent rence where he has been exposed to blame, under a misap prehension of the amount of authority he has exercised over the columns of the paper. He cannot think it just that he should be held accountable for the act of another, about which he knew nothing, or of an act of which if he knew anything, he had taken all proper means to prevent. He neither has had or intends to exercise any dictatorial power over the management of the paper, but the respon sibility of editing and conducting it, is confined to the publisher. His endeavors will still be used, to make it satisfactory to its readers and the public, from whom it has hitherto received such liberal support.

STATE CONVENTION.

A notice of a meeting of the Whigs of Danvers for the purpose of choosing delegates to the State Convention, which is to be held in Boston, on the 23d inst., (q, nominate candidates for the offices of Governor and Lieutenant Governor for the ensuing year, will be found in another column. It is much to be desired that there should be at this meeting a full attendance of the Whig voters of the town. As a strong effort will unquestionably be made at the November election to defeat the Whig candidates, by the opposing parties, it becomes the duty of the Whig party, prompted by the eternal and immutable principles of Honor, Justice and Truth, which have ever been their watchwords, to defend, protect and perpetuate the free moral, religious and intellectual privileges which our State now affords to its citizens and which have given to Massachusetts the glorious reputation that she now sustains as the beacon light of the Union; and in no way perhaps, can we more effectually promote this object, than by willing attendance upon the necessary, preliminary meetings of the party, by which means a know and the direction in which it may be most advantageously applied. By such interviews too a feeling of interest is awakened and a readiness to co-operate in such measures as will seem most likely to secure success.

If further inducement were necessary to incite to energetic, and zealous action every lover of decency and order, the corrupting influences of the present rotten and inconsistent administration affords it, and heaven grant that it may not be disre-

Railroad Meeting at Lynn.

The meeting at Lynn on Monday is a very impor tant one and we trust there will be a strong delegation present from Danvers. We have no doubt but that if the friends of the road will put their shoulders to the wheel once more with proper zeal a charter can be obtained. If the principle of competition is not to be allowed in the chartering of Railroads then every Railroad which is chartered and built becomes a monopoly. But the people will never countenance such a policy. They will put Railroad corporations where they should be, upon a level with other corporations. We believe that the Eastern Railroad have not a right to the travel and business of the town of Danvers against the wishes of its citizens.

The next Term of the Court of Common Pleas will be held at Newburyport, commenc ing on the 21st inst. The jurors from this town are Messrs. Amos Osborn and Jonathan W Osborn.

DIt will be seen by a notice in another col umn that the Annual Exhibition of the Essex Co. Natural History Society will take place in Salem on Wednesday and Thursday next. These Exhibitions have always afforded an excellent opportunity for the lovers of dame Nature to behold a rare collection of her boun-

We are under obligations to our correspondent "W." for his communication, which appears in another column. We hope to hear from him often.

The journeymen tailors of Philadelphia, held a meeting last week, to form a union of those belanging to the trade, to obtain an advance in by fair constitutional means. The Ledger says the condition of this class of mechanics, at the pres int time, is really deplorable, caused chiefly by the great increase of competition in the ready made clothing branch of the business. Hundreds of the journeymen tailors of Philadelphia are now compelled to work from fourteen to eighteen hours out of the twenty-four, for the daily pittance of swenty five cents! This is too little for the support of a family. It will, we fear, be worse under the new Tariff law, for already some of our merchaof tailors have determined to purchase stocks in Belgium.

THE MANTUCKET INQUIRER SAYS, there is a great want of Masons in that place.

Wednesday evening last The Chairman of the Building Committee, the joiner's work was done by Mr Jefferson Taylor, the mason's work by Mr Joseph Reith, and painting and glazing by Messrs Blancy & Wilkins; and that the whole had been done in a most aithful and workmanlike manner, and satisfactoily to the Committee. He stated that another purpose for which they were invited, was to be present at the dedication of the house, and he called upon Rev. Mr Richardson to offer the dedicatory prayer. An original hymn, by Dr. A. Nichols, was then sung by the whole company, and at a later hour an original school song, by the same author, was sung with fine effect by a select choir. Mr. E. Valentine, the teacher of the school,

delivered an address replete with just sentiments and amusing comparisons, and rich in historical incident. Dr. Andrew Nichols then addressed the meeting in prose and verse, and he was followed kind. by A. A. Alboit, J. W. Proctor and W. D. Northend, Esqs., whose remarks were attentively recerved by the audience. Where all did so well it might seem invidious to discriminate, but we cannot forbear allusion to the address of Mr Abbott, which was a truly finished and elegant production. His sentiments were sound, his language chaste and beautiful, his manner dignified, earnest and gloquent; while the stillness and rapt attention of the audience evinced their admiration of the performance better than would the most boisterous applause.

The exercises were closed by singing "Sweet Home." Seldom have we witnessed an occasion of more delightful interest, and we thought we could see a reflection of our own gratification in he countenances of all. We publish to-day the remarks of Mr Abbott, which he has written out at our request, and which will be read with interest; and we expect in our next to be able to gratify our readers by the publication of the other addresses delivered on the occasion, or such parts of them as may be communicated by their authors.

is truly a most elegant and convepurposes in all its interior arrangements. It is monument of the liberality of the District, of which they may be justly proud.

Mr. Chairman-Being one of the District, I have supposed that I could hardly refuse to comply with cuse me from the task of making a speech, that the gentlemen who have preceded me have so completely exhausted all the common-places of an occasion like the present. The first of these, and convenience, comfort, and beauty of the edifice. you have met together to dedicate to the education cannot be given to the judicious and enlightened and all the wonders of the Sky. I need not say liberality of the District, in resolving and furnish how much more kindly the child will take to this too warmly congratulated on the sound judgment seen the robe of Night spread over the Earth and good taste they have displayed in fulfilling the gemmed with innumerable stars, that has not and good taste they have displayed in fulfilling the gemmed with unumerable stars, that has not suppress the publication of Mr. Choate's argument after a blessing by Dr. Tappan of Augusta, we duty entrusted to them. In its admirable simplici- vexed that mother with questions of the Heavens in favor of the Malden road? I would ask how invited to partake. On Wednesday the comme ty and beauty, and in the convenience of all its which she could not answer—questions which it was that they knew, almost as soon as the ment exercises began about 11 o'clock and clock arrangements, this structure seems to me to be a might perhaps put an Astronomer royal to the perfect model, and altogether worthy of the pur- blush. But suppose the child's curiosity, instead mattee would come at? I would ask, also, how the education of the young? Next to the Temple Must it not elevate, exalt, enoble? No longer went, they knew how the Senate would go? When of God stands the School-House. Next to the holy place where the youthful heart is first led to the worship of its Creator and taught the things hills no bigger than a father's shield. The one shall think that they may have been accused un which concern irs eternal welfare, is the place has become the great centre of the Universe—the justly, and not till then. which concern irs eternal welfare, is the place where the youthful mind is first developed, and where that mind receives the impress and the living, thinking beings. And thus the child grows stamp which is to determine its character and desand the School should always go together. They ed. And now existence swells into something are the natural handmaids of each other. Sepa-more than the mere dull routine of daily caresrate, divorce them, and neither is complete or persceptical. I fear, indeed I feel that I have not vaster in importance, is the occasion, the day, brought out the thoughts I would unfold, with the which opens the doors of the Common School-room to the young of the rising generation, and bids a upon my own mind. I am afraid of tiring your welcome entry alike to all, to the children of the patience. But, had I time, the idea I would inrich and of the poor. Commerce may bring to culcate is this that in our Common Schools we our doors the luxuries of other lands, and the same need some influence, some study, which while it of great men may fire the heart to emulation of gives instruction, shall at the same time reach their deeds-but Knowledge, it is the source and and act upon the higher taculties of the mind, upparent of all—the mother of commerce, and sci-ence, and art, of heroic deeds and great men. The these I see the purest and most prolific sources of marble column tells of those who achieved our happiness, because they are so intimately connectliberty, but the school-room is the nursery of those ed with and operate so powerfully upon the moral who are to preserve that liberty. In the school-room, here, are to be nurrored those in whose of melody and shapes of beauty, whose heart the hands are the destinies of the state. Here, here's sight of a fair landscape or the reading of a sweet is the true palladium, the only safeguard of our

at a time like this might be dwelt upon with some ways active. He has a monitor within him as The new and elegant School-House, just completed for the accommodation of District No. 11, as needed for the needed for the accommodation of District No. 11, as needed for the needed f pleted for the accommodation of District No. 11, especial attention in our public schools to the watches "the still morn go out with study of some of what are called the higher brandless grey"—he looks upon the evening sky Mars. tion, and dedicated to its appropriate use, on ches of knowledge. I do not mean, of course, the whose gorgeous tints no painter's art can eatch—whose gorgeous tints no painte of the departments of Natural History and Natural head the glittering worlds are marching their eter-Philosophy. I allude also, and for instance, to nal round to the solemn music of the spheres-Lewis Allen, Esq., made an introductory address, Astronomy, and to what is called Technology, or and into his inmost soul there sinks a peacein which he stated that the company had been in- the application of science to the more common ful, hely calm. It is not alone that the sense is vited to be present to see how far the designs of the District had been carried into effect, in the learn, and not their more abstrace learning—stilled. Anger, and hate, and bitterness are fied. plan and construction of the house. He stated their elements, as simplified and popularized in The earth is once more beautiful—once more that the plan of the building had been drawn by many a little treatise now a days published, adapt- mankind a common brotherhood. And then in si-Mr Wm. H. Howland, one of the Committee, that ed to the understanding of the merest child-treauses whose value being weighed by their influence ing heart to the great God who made, and rules, upon the common mind, are of far more honor to and watches over all. their authors than the mystic pages of many a ponderous folio. Now of the feasibility of this dan there cannot be a doubt, because it has been tried, and tried with complete success. And as ceived from one who has personally known the for its importance, who can question the importance of implanting that knowledge in the youth-ful mind which, though a mere seed, may perchance fall upon kindly soil, and germinate, and bear rich ruit; which in after years, though it might have been the merest him, may prove the Promethean spark that first quickened and illumined the sou ot a Philosopher. Why, Sir, of all the great philosophers whose fame has filled the world, there is hardly one whose career would not date from some day of his careless boyhood when some cu rious fact in natural science accidentally came to his knowledge; and which arousing his attention, setting on fire his young imagination, led on from step to step, till investigations were pursued and discoveries achieved which have blessed all man And ah! how many, perhaps, have died and left no sign-how many a being gifted by God with a talent for scientific research, with a divine genius of philosophy, may have lived and passed away in obscurity, because the torch was never lighted, because the train was never fired—because the gent of purest ray serene lay in a dark, unfathomed intellect! Oh how true, and how rise to the mind the words of the Poet as he mused in the Country Churchyard:

"Perhaps in this neglected spit is laid Some heart once pregnant with celestial fire; Hands that the rod of empire might have swayed, Or waked to ecstacy the living lyre.

But knowledge to their eyes her ample page, Rich with the spoils of time did ne'er unroll Chill penury repressed their noble rage, And froze the genial current of the soul.

Full many a gem of purest ray screne The dark unfathomed cares of ocean bear : Full many a flower is born to blush unseen And was:e its sweetness on the desert air.'

I might now go on, Sir, to speak of the intimat connexion existing between science and the mechanic arts-a connexion which has always existand how important, therefore, in a practical point of view become the elements of that knowledge of which I have been speaking, and how essential those elements to the lad who would intelliwith learn his trade or make a skilful, successful mechanic, but, Sif, turs is not the light in which would prefer to regard a recurs the this. would rather look at the influence of this know ledge upon the mind and heart-expanding the one and elevating the other,-exciting the imagination, exercising the moral faculties, and calling your request; and yet it ought to be enough to ex- forth the poetry that is in the child—the poetic ele ment that dwells to some extent in the soul o every human being. Now take, for instance, the study of Astronomy. By means of a cheap but beautiful apparatus, so simple that it can be clearnaturally uppermost in our minds to-night, is the ly explained to every child ten years old, you can give the young scholar a correct general idea of the whole sofar system; and then, by the use o f your children and the intellectual culture of the charts and by oral explanations, you can fill up generation rising up around us. Too much credit the outlines, can unfold the entire starry world ng the means to accomplish the noble undertaking study than to the dry, barren rules of Grammar. Committee who have superintended the work be here before me whose little child, when first it has other a world like our own filled, it may be, with up to manhood constantly reading in the great mind, that either can worthily fulfil its great and the soul as well as fragrance for the sense. And glorious mission. It is, Sir, when viewed in some such light as to labor like a slave—though he be burdened with

lent gratitude and awe looks up that rapt and beat-

The following facts connected with the history of Schools in District No. 11, which we have 1econdition of the School for forty-five years past, either, as pupil, teacher or committee, will be read with interest-

Our first knowledge of this School, it was kept in a small one story building, near where the house in District No. 12. now is. This was the only School house then extant, for the accommodation of the whole of District number One, now divided into the three Districts, numbers, One, Eleven and Twelve. After this a private Schoolhouse was erected on the parish land near the Meeting House-which in 1809, when number Eleven was set off from number One, was taken for the use of the District. Subsequently number Twelve was set off from number Eleven, and the old house was used for their school, until their present convenient house was erected. A few years since, a new house was erected in number Eleven sufficient to accommodate 150 scholarswhich shortly after had to be enlarged for 50 more-which has now given place to the present spacious and convenient edifice. All these modfiations have taken place in one generation, illus trating very distinctly the increasing interest taken in popular education.

Essex Railroad. Considerable progress has been made in grading during the past week Inotwithstand ing the great heat of the weather. The bridging across Fry's mill pond is nearly completed and almost the whole line will be graded from North River to Grove St, by the middle of next week. The labor ers have not been at work more than twenty days .-The ease and facility as well as cheapness of con. structing a road over this route exhibits in bold reed, but which at this day is more fully recognized; lief the grand error of the early managers of the Eastern Railroad in determining on their location for the route to Boston. That expensive tunnel was a great bore not only to the city of Salem but to the Railroad Corporation itself.

> Copted from the Salem Register by request. Messrs Editors-A writer in the Register of Thursday last, over the signature of Fair Play, calls for the facts on which certain charges were made against the Eastarn Rathroad in some Reso lutions adopted at a meeting in favor of the Malden road, at Lynn, some weeks since; which charges were, in substance, that the Eastern Railroad had exerted an undue influence upon the Senate of last winter, to induce them to refuse a charter for the Malden road.

I would premise, to the writer of the article referred to, that the manner in which such influences are exerted by a wary corporation is not always apparent at the time, and can only be judged of by the results they produce. Now, sir, I would ask for what purpose the officers of the Eastern Rail road, and brokers who own largely in the stock of ve now see so happily completed. Nor can the Ask any parent-for there is hardly a mother that road, were 'dancing attendance' upon the Sen ale during the whole session? I would ask for what purpose the Eastern Railroad endeavored to pose of its erection. I know of no higher praise. of being stifled, gratified. Suppose the know-they got information which enabled them to boast For what object can be of mere importance than ledge imparted. Can you question its effect? early in the session, that however the House early in the session, that, however the House justly, and not till then.

Your correspondent quotes the substance of Mr. Hopkinson's remarks in answer to some strong insinuations of Mr. Condry.' I think if the tiny for this temporal life. Indeed the Church book of Nature whose alphabet he has thus learn- gentleman had heard Mr. Condry's remarks, he would have said they were any thing but 'insinumore than the mere dull routine of daily cares ations.' Mr. Condry, after adverting to the influ-Life has become something beside the hope and joy ence, the Eastern Railroad exerted, stated that fect. Religion without knowledge becomes superstitious, bigoted, and ascetical. Knowledge without religion becomes trifling, vain-glorious, and

Rate in the grass and glory in
the flower "—"Day unto day uttereth speech, and
night unto night showeth knowledge." All has Eastern Railroad, or some of them, mere not to be seen flitting about behind the Bar of the Senate and conversing with the members; -that, since the case had come up, the counsel for the Eastern Railroad was constantly busy in the Senate chamber; and added that he could not go across the room in any direction without trampling over the piled up pamphlets of the Eastern Railroad.

These are in substance the strong insinuations of Mr. Condry. And the truth in addition to all this, that Mr. Derby, the Eastern Railroad counsel, was in the House during all the discussion there, sitting next to the speakers, and occasionally prompting them. He was in the Senate, during all the discussion there, and, as he could not ge near enough to prompt the speakers, repeatedly passed them slips of paper, with suggestions or state-

ments written on them.

Now, sir, I say when corporations resort to such means to deprive the people of their rights, it is time that the people choose legislators who will restrict their powers. The question whether the people of Essex County, and of the State of Massachusetts, are to be controlled by monopolizing corporations, is no unimportant an issue; an i when the issue is fairly met by the people, then will their rights be assetted, and not before. ONE OF THE PEOPLE.

Horrible Death .- The wife of a Mr. Weed, Benton, N. H., we learn, came to her death in the following shocking manner on the 16th inst. She was descending from a load of hay with a pitchfork in her hand, when, missing a step, old poem thrills with pleasure, no such man can she fell on the fork, one tyne of which entered civil and religious freedom.

commit a mean or a base action—at least not her mouth and was thrust completely through thad occurred to me, Mr. Chairman, that there while under the influence of these emotions. And her head, causing her death instantly. Brad-

Danvers Observatory, Sept. 8th. 1846, 4 P. M.

Great Jove is quite enraged. At man's complaints below, "How hot this tedious summer is! When will the cool winds blow ?

> Now, Boreas thy billows On him the cold gales pour, Until he blows his fingers And cries I'm freezing, O, ah!

E'en then still give it to him

And he learn better manners Than to make such ado About the kind of weather The Earth to give I choose,

To perfect its productions

And give to each its dues. If man will always grumble, Call it too hot-too cold; My righteous retributions, O let him bear and scold,

Correspondence of the Courier

A Trip "down East," and the Comme ment at Bowdoin College. BOSTON, Sept. 7, 18

Mr. Editor-Will you allow me through your to give expression to the satisfaction with which week iourneyed as far as Brunswick, and atte the Commencement at Bowdoin College.

day, Angust 31st, in the 4 1-2 express train for land, and made only those stops on the way that necessary to replenish our stock of wood and We saw nothing new or wonderful on the route. the erection of the posts for the wires of the Ma Telegraph, which are placed at a distance of 200 feet apart between South Berwick and Port We arrived at the last named place at 9 1-2 1 and took lodgings at the Elm House, which is a

thorough-going Temperance House, so much so we learned it was impossible to obtain any spir, liquor even for sickness. On Tuesday morning at 8 o'clock we left by for Brunswick. When just out of Portland of tention was directed by the stage-man to the ro the famous Atlantic and St. Lawrence Railrea which we have read so much in "the papers" saw quite a number of Irishmen at work upon different places as we passed along the ronte. to be completed to North Yarmouth, a distance miles from Portland, by one year from this ti When completed we shall have but 16 miles of ging between this city and Brunswick; at place we arrived at 12 o'clock. The village I's had much increased and improved. It is no however, sufficiently large to accommodate we crowds that flow in on such an occasion; o'clock a large audience assembled to hear from John P. Cleaveland of Providence, when the Pe ian Society had invited to address them. The ti of the speaker was, "the benefit of mutual lov mong scholars." After having having happily red to his sojourn West, in which he gave us a description of that great and important portion of growing courser, he said he now mot the South a century. In treating his subject he referred to distinguished scholars of this and of past time which he showed the many benefits which must from a mutual love among scholars: yet all could

the mind from prejudice, yet notwithstanding

branch from which the others are derived.

benefits which must be derived from this mutual

scholar thinks his own branch of science

Mathematician thinks that every thing comes Mathematics. The Philosopher that every comes from Philosophy. The Poet that every t is indebted for its rise and progress to Poetry. Tare (said the orator) several score of would be who should be compelled to sign the pledge of abstinence of all adjectives, pronouns and inte-tions. His closing address to his brother Pencin was very appropos. After the oration a poem pronounced by George F. Talbot, Esq. of Mac At 7 1-2 P. M., we met a large assembly of Alumni at Commons Hall, where we found to 4. Of the graduating class, 16 snoke. Their an ciation was distinct, their emphasis appropriate, intonation as near neutral as is usual on these sions, and their gestures were for the most part gi ful. Two young men spoke for the degrees of A. B. was then conferred on 34 who composed the graduating class Some 1 14 received the second degree. The degree of L. was given to Gen. Fessenden of Portland, and of D. D. to Rev. Mr. Dwight of Portland, and Sheppard of Bangor Theological Seminary. And the many distinguished men on the stage during exercises, we noticed the Hon. George Evans, Hon. John P. Hale of N. H. At 5 o'clock I George Lunt of Newburyport, addressed the Ath an Society. The theme of the speaker was the " gress of society in connexion with the country in w The oration was well written and delivered though to a thin house; coming as it but one hour after the Commencement exercises, m who had spent the whole day in the house through fatigue glad to get out and keep out o'clock P. M. according to previous notice, the E John P. Hale addressed a large crowd of people in open air, near the new Universalist Church. Hale said that he came not to address them as a Docrat, neither as a Whig nor as an Abolitionist, as a man; a man who feels that he is answerable

tion of any man in the content sames, and whop-played so prominent a part in the Democratic par-come out from under the dictation of party lead who are (as he himself said) wedged to the South Slave-holding interest; and assuming the attir and language of a freeman, denounce in terms of most burning eloquence those men who are willin sacrifice every thing that is held dear to an ho man, for the sake of obeying the mandate of the p man, for the same or one ring the manuale of the present Slave Administration Party. His theme was annexation of Texas and its horrid effects upon business and prosperity of the country. Mr. Hale perhaps better fitted to speak of the subservience the Northern Democrats to Slave dictation than other man. His address was in all respects an apprintes and just desence of the constitutional right

what he says not only to the people, but to his C it is enough to do any man good who feels for his

MECHANICAL AND DENTAL SURGERY.

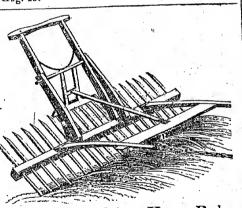

Teeth at Cost, until Jan. 1, 1847 Office, No. 266, apposite to No. 307, Wa hington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such terms, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their patural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets. Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the this very superior and excellent article, the best liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retrained there a lew days, it being impossible to re-move them, will invariably become offensive and traint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in musticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen, TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a whole set, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will by refunded. Old plate work that has been worn with much inconvenience, will be exchanged for new, on paying a small diffusease, All other branches of Dentistry, such as Fifting, Setting on Pivot, Cleansing Polishing, Regulating, Killing Newes, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 ceuts to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper ations warranted. Carved work in block for whole and half sets will

he got up for other dentists on reasonable terms.

Sec a few public statements of men of truth and vir

Lynn, Dec. 17th, 1843.

Sir; I have sold all the pills I last had of you, please send another lot immediately. The sale of

Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of har the part of the time, for twenty years, is now cured and able to work most of har the part of the time, for twenty years, is now cured and able to work most of hard years. I might name many other cases where the cures have been as great, but have not

Yours respectfully, J. E. F. MARSH.

A hacking cough constantly annoyed me! Boston, Mass., June 1st; 1814

Sir,-In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered me truly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILLS n I now every body tells me that I am well;—I fee as well as ever I did.

J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Str.: Please send us one gross of Lorraine's Pills.
we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we could have quite a number of highly respectable cer tificates from our cilizens.

Respectfully yours, E. MASON.

Chelsea. Jan-3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole win ter, have had some of the best physicians of Bosto and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I nad no faith whatever but I ook them, and it is a solemn fact that when I had aken but eight pills ! my Rheumatism had entirefy eft me, and I have remained well ever since. I never took more than one pill at a time and that on going to bed.

oing to bed.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head! Sir-For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I took LORRAINE'S VEGETABLE PILLS, which gaveimmediate relief, and have entirely cured me.
Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !! LOWELL , Mass.,

April 20th 1944. April 20th 1944.

Sir,—For the last few months I have been afflicted with the manufacture of the series well acquainted with the manufacture of the series well acquainted with the manufacture of the series instruments, and ingenious in accommodating them to the variety of cases which occur. I feel my-self called upon to recommend him to my professional self called upon to recommend him to my professional than I was cured immediately upon taking one dose of Dr Lorraine's Pills.

J. BROOKS.

After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel my-self called upon to recommend him to my professional brethren, and to the public, as a purson well fitted to their wants in regard to those important articles.

> NEW TAILORING ESTABLISHMENT.

THE subscriber would inform the citizens of Danvers and vicinity, that he has taken Rooms

Over Lambert & Merrill's Store,
where he intends carrying on the Tailoring Business in al ts branches.

His system, or rule for cutting (which is a very superior one) was recently obtained in London, at considerable ex-

pense.
Particular attention paid to Caiter Pants, and his style of cutting is respectfully submitted for examination.
A share of patronage is solicited.
S. AUGUST JS CARLTON.

SUPERIOR SHOE BLACKING.

MUTUAL LIFE INSURANCE.

The subscriber has been appointed agent or Danvers and vicinity, of the New England Mutual Life Insurance Company. This Company is formed upon the surest foundation. Its rates are based upon the latest and best observations of the decrements of life, according to the experience of the oldest of the English Companies. It is the

vations of the decrements of the, according to the experience of the oldest of the English Companies. It is the most carefully managed of any of the kind in the country, and has been thus far remarkably successful.

Since commencing, February 1st, 1844, to April 1st, 1846, has issued 980 policies.

The amounts from 200 to \$10,000 each.

Net fund accumulated (owing to the favorable turn of the risks thus far) \$80,500 hesides guarantee capital.

Su plus to be refunded to members at the end of every five years from December, 1843.

Directors—Willard Phillips. Robert Hooper, William Parsons, Charles P. Curtis, Francis C. Lowell, James Read, George W. Kuhn, William W. Stone, R. B. Forbes, Peter Wainwright. Thomas A. Dexter. Otis Tufts.

President—Willard Phillips. Secty—Jonathan Amory.

A person in his thirtieth year, in order to secure one hundred dollars to his family, at his decease, pays annually, during his life, \$223; or he pays \$22 80 to insure \$1000.

Any one in the 24th year of his age, who needs a credit of \$500 for three years; to begin business, where the only obstacle to his obtaining the credit is the uncertainty of life, may obtain the same by paying annually, for that perigd \$5.15. Orif by needs \$5.000. olistacle to his obtaining the credit is the uncertainty of life, may obtain the same by paying annually, for that period, \$5.15. Or if he needs \$5,000, he gets the credit by paying annually, 51.50.

A creditor may frequently give himself additional security for his debt by insuring his debtor's life.

One, while he is solvent, may secure a provision for his family on his decease, though he may die insolvent.

Life insurance is better appreciated by the community, with every day, and it cannot be long before its benefits will be as generally acknowledged as those of fire insurance are now.

will be as generally and a general more are now.

Blank forms of application, tables of rates, and any additional information will be given on application to W. D. NORTHEND.

Danvers, May 28, 1846.

SMITH'S PATENT FLEETING SHOWER BATH

HICH is far better than any other and DEACH MOUNTAIN R. A. COAL, from the Delaware Cool Company, a well known and superior article, of the various sizes.

White Ash SCHUYLKILL COAL, of various sizes, States and are now manufacturing them in large quantities. of different style and finish, to meet the wants of the public. The increasing demand for this desirable and useful piece of furniture only substantiates what the subscriber line before asserted, that it has been and continues to be the most preferable Portable Shower Bath in the market,

and for the following reasons:

1st. It is not encumbered with heavy weights and pulleys, or a clumsy cast from top and bottom, which would make it expensive, liable to rust, break, and get out if repair, nut easily moved about, inconvenient in its operations, and unpleasant for the bather. But on the other hand, it is very chean and durable light and portable, operates effectually. cheap and durable, light and portable, operates effectually, and can be agreeably and pleasantly used.

2d. It does not require a ten horse-power to lower the

fourtain; neither is it uccessary to fasten it down when lowered, to prevent its running away like an unruly horse—but can be lowered in an instant by the slightest exertion, and readily raised, without compelling the bather to exhaust all his strength. In short, this Bath is what hundreds of individuals of the best respectability have pronounced it—all that mechanical skill could put within the same to those who wish to purchase or examine this desirable article, call on the subscriber, at No. 121 Boston street, Salem, who will take great pleasure in more minutely detailing to them the respective merits of the Fleeting Shower Bath, by personal demonstration.

canopy of heaven to breath in. Very well, there is the only place that we can breatherit as purely as it was when it first inflated Dedication of School House in District the lungs of Man. Adam and Eve were placed in an airy garden in the midst of verdant fields, where they could inhale its life giving influence, where they could inhale its life giving influence, in the remarks offered on the occasion of the Dedicas.

One of the remarks offered on the occasion of the Dedicas.

One of the remarks offered on the occasion of the Dedicas. of the remarks offered on the occasion of the Dedication of the new School house in Dist. No. 11, by Messrs. Valentine, Nichols, Proctor and Northend.—

Messrs. Valentine, Nichols, Nichols We are obliged to omit r. portion of the remarks of nature, and this it seems to me is one of Nature's Messrs. Valentine and Nichols, for want of room, door of a school room illy ventilated, while the general interest and application, and which will, we doubt not, be read with much gratification:

Mr. Valentine's Address.

School is in session: lie is met at the door by what seems to be a pest tential atmosphere. He goes in and seats himself: in a little time he becomes accustomed to the effavia and bad gases.

But the poison is none the less then, and injurious After the lapse of a few months, we as parents, to the system. Many children, and gown persons tachers and friends of this school are again asto the system. Many canaren, and grown persons
tachers and friends of this school are again asto one free vergerience great uneasiness in school
and other places, when they nor their teacher
lever children. On this occasion we have much
know not what makes them so. Have not many fearon to congratulate each other, with voices of agouragement and hearts of gladness. We have often met here before to cheer each on with words of encouragement, but never before under a favorable anspices as at present. The tendency of the present meeting may be to promote the cause of Education. And it hardly need be said to you in this enlightened age, that by the word and write. Says an able writer upon this seven, it may be until 12 o'clock, from 1 till 5. and write. Says an able writer upon this seven, it may be until 12 o'clock, from 1 till 5, seven it may be until 12 o'clock, from 1 till 5, seet 'I comprehend under this noble word such and from 6 to 9; I say how many of them think raining of the body as shall build it up with roly you can tostify to this same lassitude and uneasi-

what is it but the education of the people that dows, and most always at the expense of a severe

com for some one.
I have some where heard it said that God has physical and in electual wants of the children in this and other places?

I have some where heard it said into two days the elements of thought where they never penetrated before. They will scatter the seeds child on a short allowance, is enough to make a child on a short allowance, is enough to make a child on a short allowance, is enough to make a child on a short allowance, is enough to make a child on a short allowance in the description of wisdom and virtue in the description

o which our puritan futhers were prompted, for this they prayed.

Although our fathers felt a groat interest in the bocation of their children, yet we may suppose, judging from experience even in our earlier days, that the Model for school houses was not carried to perfection by them.

Many of us can probably remember something of the school rooms into which we first emerged the school rooms into which we first emerged the school rooms into which we first emerged the school rooms into two great classes, the human race instruction; recollecting that tenders are only instructed days, and birds of all kinds (except the whale) lizards, serbishes of the school of the greatest statesmen of the present light on experience even in our earlier days, and reptiles dec., cold blooded animals on the most cases when the same information in the greatest statesmen of the present light of the school of the greatest statesmen of the present light on the same information in most cases when the same information is suillouded.

In some that the same instruction; recollecting that tenders are only instruction; recollecting that tenders in the same of the children about to assemble reformation of the childr

be in regard to health than they are with the de-

We sometimes hear it said. If don't see why so much need he said shout the yent stion of a school not need he said shout the yent stion of a school not at all surprised when he sees that the records of such children result in the strength in the sees that the records of such children result in the sees that the records of such children result in the sees that the records of such children result in the sees that the records of such children result something like the cords of such children read something like the following. Monday, absent. Wednerday, absent Friday, P. M. absent, Saturday A. M. absent. Now if a class under these circumstances are just commencing any particular branch of study, all can readily see he disadvantages under which such r. scholar labors. He is absent on Monday, the teacher it may be has spent a whole hour in illustrations equally important for all to know. Tuesday comes, and with it comes the absent scholar. But of what advantage is that hours labor to him? And does he meed it any less than the rest of the class? May there not be

something omitted that he never learns perfectly? But some may say take that scholar privately and give him the same instructions. This Resolved. That the inhabitants of this School is often done and might always be done if we District, No. 11, of 14 years of age and upwards, were not obliged to multiply these lessons by will invite each other to meet here weekly, on tens and twenties. tens and twenties.

Nor is a constant attendance all that is wanting, but punctuality in attendance is another very important thing to be considered in the regulation of a school. None but the experienced I teacher can realize how much a school suffers from a want of this. It matters not, if they do come well supplied with excuses, it is none the less an evil, and sometimes when I see them I am reminded of what I once heard the president of a board of trustees remark, when addressing the scholars of a select school, at the close of the term, after the teacher bad been portraying some of the difficulties with which he had been obliged to contend (some of which were a want of a constant and punctual attendance) he turned around to the parents and very jocundly remarked that, during the next term, he hoped the injuntees of the fathers would not be visited upon the children.' I have now been connected with this school about three years; at that time with this school about three years; at that time the library belonging to the school contained about 100 vols. Since that time we have added to it so that it now contains about 250 vols. We usually distribute library boussers would we have often been reminded of the remark of him who said in speaking of libraries being supplied to schools throughout New Enginud. They will carry the elements of thought where they never penetrated before. They will scatter the seeds

thing of a contrast, though many of these places have been so often pictured to scholars of the later tied closely together and then their nostrils filled you would that the sun continue to shed its unsupport of the many of you have had an opportunity to witness them that it is hardly needful that I should attempt a description of them.

Though I have in my mind a tolerable specimen where I was once engaged as teacher. There it was not peccessary that the teacher should give himself any uneasiness about a want of ventilation, for the cold North Westers bolted in at a Scotch physiologist have any foundation in truth a Scotch physiologist have any foundation in truth a scotch of the mire laboration in truth a scotch physiologist have any foundation in truth a sco

The opening of a new, a more spacious and hetter constructed School House in which to educate the rising generation of this District, than has been heretofore erected in this town, affords a There more than once have I seen some half at the knys no street in any town should be less than 120, dozen hops of manly growth—each doing his best than So feet wide or in any city less than 120, the largest burden—enter the school toom and deposit something less, (though not much ever from all our towns, and deposit something less, (though not much ever from all our towns.

The streets more particularly appropriated for lass) than an eighth of a cord of solid oak wood on a hot bed of coals in the thin fashionable fire on a hot bed of coals in the thin fashionable fire only the houses should have verandally or garden better accommodations and conveniences for only the houses and diversified some of the incorporated colleges of the West, and ath regular distances a lew forest trees.'

If which certainly is much superior in school room accommodations to many of the Academies in our accommodations to many of the Academies in our own State.

The thoughts which rush upon us on this interesting occasion, are so numerous that it is extrememoving many obstacles, that are often in the way by difficult to choose what to say, since the time Says a modern writer, I have good reason for of the progress of a school, yet we hope no pa- which one individual can with propriety occupy remembering a school house, which the scientific rent will feel that his work is done. There is where several are expected to speak, is so short that would call the suith corder of Architecture—the always much to do besides furnishing school house, which the more interesting which the wild call the suith corder of Architecture—the always much to do besides furnishing school house, which the work order a surprise house for winter as and teachers. Not some the work of the

that purpose and we expect they will do it.

Very well, then it only remains for parents to who attended school in that house, and I leave they will do it.

Very well, then it only remains for parents to who attended school in that house, and I leave the subjects to him and others who may speak after me. I prefet leaking forward rather than beckward. To anticipate improvements in teacher will do the work; for school houses the teacher will do the work; for school houses the teacher will do the work; for school houses and teachers are of very large consequence unless and inquired of the Mistress if she and her little ones wore not sometimes drowned out. She said she should be, only that the floor leaked as badly as the took of the water.

We seem the speed they will do it.

Very well, then it only remains for parents to him and others who may speak after me. I prefet leaking forward rather than beckward. To anticipate improvements in teacher will do the work; for school houses the teacher will do the work; for school houses in the teacher will do the work in the members and appliances through which the minds and hearts of the young will relate the subjects to him and others who may speak after me. I prefet leaking forward rather than beckward. To anticipate improvements in teacher me in the sex only it is a speak after me. I prefet leaking forward rather than beckward. To anticipate in the sex objects to him and others who may speak after me. I prefet leaking forward rather than beckward. To anticipate in the subjects to him and others who may speak after me. I prefet leaking forward rather than beckward. To anticipate in the subjects to him and others who after me. I prefet leaking for me. I the inhabitants to one use they may make of this house which would in thy opinion greatly enhance to them its usefulness. I adult to weakly or semi-mentally meetings like this. A free district Lyceum, at which lectures and discussions on subjects of general interest to the well being of mankind, should be open to the remarks of all; freely talked about by the old and young, who might assemble here for mutual instruction. When we consider the profitless manner in which long evenings are too frequently spent by many among us can we doubt the utility of such an institution as Thave proposed, and if opportunity should be afforded me towards the close of the evening, I will offer a resolve on the subject for you to consider and act moon.

The following resolve was afterwards offered and passed in the affirmative, nem. con:

Wednesday evening, for literary and scientific entertainment and mutual instruction in useful knowledge, until it be otherwise ordered by them-

I will detain you no langer with these desultory remarks, but proceed to read to you a few versified thoughts which I have prepared for this occasion.

Improvement is the watchword guide Of the Caucasian race, Of which the Auglo-Saxons claim The noblest, highest place.

Improvement marks their every step, Their every step's a stride; All o'er New England, happy land, 'T is seen on every side.

Log huts and mud-walled cottages Are built, are seen no more, But signify habitations rise On hill-side, vale, and shore.

The hand that drew a single thread Of yore, on spinning wheel; Now draws two hundred threads at once;

The school house most distinctly shows How with improvement's pace, The people round, are keeping time, In every town and place.

In olden times, in other lands, The Palaces and Halls Of nobles satisfied the pride Of hovel-sheltered thralls:

Here let the District School house be The District's pride and blast; And each inhabitant must feel Its worth far more than cost.

Yes, though our dwellings shabby be, While the School house looks well, A tale of grandenr it for us Will to observers tell.

Onward improvement rolls, O let Us ever speed the ball; Remove all obstacles; its wind Fires, fans, refreshes all,

Where'er it goes; but stop its course, Death damps and deepest gloom O'erspread the land; each dwelling is A ruin or a tomb !

Of all improvement at the base Our schools improved must lie; These, these new unipolse give to man, New strangth—new energy,

Taccompaish high and noble deeds, And triumphs to achieve In arts and morals, worthy minds Who in God's word believe.

Our Schools are still susceptible
Of yast improvement, Here
We trust that improved teaching will With improved means appear; -

The young improved attention give, And improved souls obtain; Parents improve the privilege, New ideas to gain,

From what their children here acquire, And fail not to impart; Of these best moral teachers are

T'improve the parent's heart. The influence of this house, we trust And since pay for it now we must,

Here let us often call ... By croppings from its lefty roof Our heads bapused may bear Of errors disabased, pure truth Here make us wise and free.

Knowledge is power.--Here young and old Much knowledge may acquire; Then let us to this temple come For strength to rise aspire,

Aspere to truth in every sense. That truth the soul can nerve, So that in every trial-scene, From truth it may not swerve-

Aspire, till every noble aim And purpose arm the soul, Against all terrors, panies, ills, That weaker minds control.

Aspire till philosophic truth Illuminate the mind, And pure religion makes us what To be, we were designed. Improvements that car nor deceive, That will for aye endure, On pure religion must be based, The one foundation sure.

Religion-the heart-ruling fact That Gon is with us here.
Our Father, helping, tenching all,
Who his blest voice will hear?

That his blest voice is and the To trusting, waiting, hearts t And that beneath his loving eye We art our several parts.

Religion—not Theology, Nor mere sectarian faith; Religion—shewn by what man dath and not by what he saith ;

Religion-duty learned and done. The moral law obeyed, His cross ta'en up and meekly borne, Man in Christ's robes arrayed,

Loving his neighbor as himself, Dispersing good to all ; Living to benefit his race— Ready at duty's cali,

To live, or die, enjoy, endure,
All that a Father's will
May deem it good for him to bear-This is to best falill

His mission here. — Why should be wish Knowledge or wealth or power? Not sarely to aggrandise self
But that he may do more,

Be able to do greater works Piniprove and bless his race Extend his influence for good, O'er a far wider space.

Make this thy aim, at work or school, And obstacles must yield; And thus put forth an angel's strength. Almighty weapons wield.

O look not back, but onward go;
The souls salvation this demands More than to day—tomorrow do

For with thy power, thy work expands.

O look not back-'twill dwarf the soul On its own thoughts and works to dwell;
Reach forward to a distont goal,
What's done thou canst and must excel.

Forget the past, press forward, there

Forget the past, imperfect all Thou yet has done—imperfect still : Thy acts, or be they great or small Cannot thy own ideal fill.

O look not back, or never gain The heaven prepared, designed, for those, Who by their energy obtain The power, their angel-wings to loose!

O look not back, or angel-wings Will fail to bear thee to the skies; Onward and upward, duty sings, The growing soul must ever rise !

Unfalt'ring flight, towards the throne Of GOD, gives man suprement bliss : The best of life cannot be known, Till he shall be where Jusus is.

J. W. Proctor's Remarks. Mr. Chairman-It is truly gratifying to wirness

the auspicious circumstances under which your District are now assembled. It is but a few years since, distinctly within our own recodlection, when the entire school room accommodation for the whole of District Number One, embracing the three Districts now, One, Eleven and Twelve, was a one story, unclapboarded, one room apartment; with an interior finish, corresponding well with the rough exterior. It is hardly possible, Sir, to keep pace with the improvements introduced for the accommodation of our children; were there time, it would be useful to review the several stages of improvement, that there taken place within the last forty years. As one of the superintending committee, having the particular raining this school. I successful efforts in the erection of this house. I have seen many school-rooms, but never one better adapted to the purpose, then the never one petter anapted to the purpose, then the room in which we are now assembled. Much praise is due to those who planned, and to those who executed this work, in the neat and substantation. tial manuer in which we find it. We had thought in Number One, a few months since, that we had succeeded in proceeding a house worthy of some commendation; and we have found it to answer the purpose, exceedingly well; but we will not presume to place the arrangement and finish of our house in comparison with yours; we readily yield in these points to the superiority of Number Eleven. Some advantages about our house, in the free space around, and the convenient grounds for the sports and exercise of the children, are quite well worthy of impation here, No better appropriation could be made, than a few hundred donars, to process an additional quarter of an acre of land for this purpose. But Sir, the procuring of a good house is but the beginning of the work necessary to be done by the District. The securing of competent teachers, and the co-operation of parents in inducing the regular attendance of children at school, are duries quite as imperative, as any that have been fulfilled. To the credit of this District may it be said, that they have heretofore been awake to the importance of these duties Much of the success attendant upon this school, may be attributed to the constancy in the employment of the teachers; mure than have the labors of a teacher are frequently lost, by the being changed as soon as they become acquainted with the dispositions and wants of the scholars.

W. D. Northend's Address. [The remarks of Mr. N. were in substance as fol

lows :

Mr. Chairman-It is hardly proper for me to tengage the attention of this meeting both on account of the lateness of the hour and because there are so many present who have had great experience both as Teachers and School committee-men But sir, I cannot withold a few words of praise at the spirit, liberality and good taste shown by the people of this District in the erection of so beautiful and convenient an edifice. I have been through the different apartments of this house today and I think I can safely say that I was never school house moreadmirably contrived and finished than this one. I do not think that any town or city in the county can show one superior to it. It is sir, the banner school house of Essex county. The rooms are beautiful and atry and seem almost to tempt the acholar to take pride in his studies. I helieve sir, that a schoolroom has very much to do with the proficiency of the scholar-that a room which is gloomy and inconvenient, with seats up on which it is utterly impossible for a scholar to sit with any ease, does not and cannot make study a pleasure. To this fact I doubt not all the older individuals present can bear ample testimonythey can recollect the so called school houses which have been so well described here this evening, in which they were wont to assemble-with their slanting floors, long benches and rough sents. and sir, I should like much to hear the experience of some of them. I think it would be pleasant and profitable to the young scholars who are present. heard but a few days since the worthy and intel ligent Chairman of this meeting give a very graphic account of the log but in which he received his rudiments, and sir, I wish I could induce him to repeat it here. I only recollect distinctly his description of the seats. He said they were of rough slabs with the flat surface upward with stakes stuck through them for legs, which came some inches above the top, and served as convenient places for the scholars to tear their clothes on. And here, on these rough board slabs without any backs to them, the young scholars were obliged to stick for three long hours at a time to study. What proficiency they must have made, can be easily imagined.

But, sir, the change from these rude huts to neat and convenient buildings all over the State seems to have been but the work of a day. Ten years ago you might have seen these slab seat school houses in almost every village; now, sir, you might ride half a day without finding one.—
There are a few left as monuments of older times and as monuments to show the gigantic strides in the line of improvement which have been

The change has been as sudden almost as effected by magic. New and beautiful school houses have sprung up on every side like fairy halls in a night time, as sudden almost as the unreformation of the house of Aladdin in the Aranothing that speaks so strongly for the intemgend of our people and of their desire that their children

should be properly educated. But sir, there are other things important beside good school houses. It is important to have a good school master and it is important for the good of the school that he should be rightly appreciated by the community—that their mutual relations and obligations should be properly understood. I think that too great discretion cannot be exercised by a committee in the selection of a teacher-that the committee should consist of men who are competent to judge of the merits the land. of a reacher—that they should submit him to a severe examination, and sir, I think that if upon such investigation the commutee shall be satisfied that the candidate is a fit man for the situation they should allow him to go into the school room should govern the school in his own way and a convention to nominate candidates for the should be allowed to adopt his own methods and carry out his own ideas in the education of his State Senate. Let the primary meetings be well

tion of school committees. I have heard them, divisions, that in the approaching election we may now very common to all our military corps. The the teacher, in the presence of the scholars. The that high position in the councils of the Common soldier-like, or rather officer-like, for the componity effect of this is to lessen the respect of the wealth which is her due. We hope the meeting pany, with their chapeaux, looked, when in line, scholars toward the teacher, and to destroy that independence which is so essential to the success for the choice of Delegates to the County and like a row of dismounted field-officers,—and their

Sir, I wish to have the teacher rightly appreciatsigns of our that he may carry out rightly the deress of our common schools. It is on the suc-ress of our common schools, which he blessings of a kind providence, that the prosperity and fu-ture welfare of this republic depends. If they are encouraged and austained—if the great mass of the citizens can receive a good education, there most intelligent people on the face of the globe.

About Basies. "A babe in a house," says, Tupper, in his Proverbial Philosophy, "is a well spring of pleasure, a messenger of peace and love, a resting place for innocence on earth, a link between angels and men.

A habe m a church, says somebody, is a duck side!" puddle of annoyance, an object of trouble and anxlery, a resting place for flies and mosquitoes, a link between the screech ow! and tom cat.

No doubt of it. A tailor up in the bush adver-tises that all garments got up under his care will be excuted after the most approved manner.

I got some baot in that bargain, as the loafe said when he was kicked out of doors

VENERATION. Sleeping in church during th sermon, and thereby showing that you place too much confidence in the minister.

Couldn't GRT A Policy. A Boston toper couldn't get his life insured the other day, because he had such a fiery red nose. The company would have nothing to do with combustibles.

An Experiment is now in progress in Connecti cut, to manufacture eigars by the same machinery used in making pins.

Maine Election.

The Portland Advertiser of yesterday morning, gives returns of about 230 towns, in which it appears the vote for Governor stands as follows, viz: Bronson, (whig) 22,768; Dana, (loco) 24,310; is little to fear for our country. We can show to all others 7,115—giving a majority against Dana, the world not only the freest but the happiest and of 5,972.

Of the Senate the Advertiser says :

"We look confidently for the election of four Whig Senators in Lincoln and two in Somerset, besides the three in Kennebec-nine in all. There are good reasons for expecting still more, but, at present we know not where to look for the chances to elect so many even as that, on the other

They have given employment to many skillful mechanics and more than \$20,000, of the war fund has been distributed in this region which would otherwise have been expended else-

New Rall Road Route.

It is not, we believe, generally known that a very feasible route exists for a rail road between Danvers and Salem, which has thus far escaped attention. There is a narrow valley, exceedingly straight and level, extending from Foster street by Gen. Sutton's large barn on Aborn street to the easterly side of Gaflows Hill, where, by a street in Salem, or into North river by crossing Boston street. We are not aware that the new route has been surveyed, except by amateur engineers with their canes. The preliminary survey promises a result so favorable that it may be an object to have another, by more competent engineers and with better instruments.

Fire in Danvers. Suicide of F. G. McConnell,—By news from Washington, it appears that F. G. McConnell, Member of Congress from Alabama, committed suicide in his room at the St. Charles Hotel, on Thursday last, by stabbing himself with a large clasp knife in the nock three times, and five times in the stomach. He had been for two days pre-

Railroad Meeting.

We give below an account of the Railroad Mer at Lynn, on Monday last. It was very fully atter by the citizens of Lynn, Danvers, Saugus and Mal The greatest confidence was expressed in the suc of the project the coming winter, and a large Com tee was chosen to prepare a petition and to he general supervision of the application before the islature. The road is of the greates important winter will show that the Eastern Railroad de own the Danvers travel, and that the people can the privilege of going to and from Boston over

Danvers and Malden Railroad, was held at Town Hall, in Lynn, on Monday, Sept. 1846, at 2 o'clock P. M., agreeably to the call viously issued. The meeting was called to by Andrews Breed, Esq., and a Committee pointed to nominate a list of officers to gover meeting, who retired, and reported the follow

For President-Joseppa WEBSTER, Esq.

For Vice Presidents—R. S. Daniels, E. W. ton, George Osborne, Lewis Allen, and Renje Goodridge, Esquires, of Danvers; George B. Samuel J. Ireson, John Alley, 3d, and Na Kimball, Esquires, of Lynn; Edward Pray and Benjamin F. Newhall, Esquires, of Sau James Enton, and Uriah Chamberlain, Esqu For Secretaries-W. D. Northend, of Dany and Charles Merritt, of Lyan.

On motion of Andrews Breed, Esq., the fol ing gentlemen were appointed a Committee t port resolutions for the meeting, viz:-Ste Oliver, E. W. Upton, Andrews Breed, W. Northend, and George W. Wilson, who rep through their chairman the following:-

Whereas, A charter for a new Railroad from Da through West Lynn and Saugus to Malden, has petitioned for two successive Winters, by housand citizens of the towns on the proposed representing some 20,000 people, and very great important masses of interests, on the ground the road accommodation, and whereas, such path have been defeated in their object, by the syste aided by other large Railroad Corpor

Resolved, That the project for a Railroad from vers through West Lynn and Saugus to Malde one of pre-eminent importance to: the interests of citizens of all the towns on the proposed route, one worthy their strongest and most vigorous e

Resolved, That the Ferry terminus of the En Railroad at Boston, renders it utterly impossible that road to afford railroad accommodations to people of Danvers, Lynn and Saugus, which have a right to ask.

Resolved, That we regard the influence of the ern Railrond with the greatest alarm—that t speedily checked, it will, by throwing out branch both sides of the main track; and by obtaining p sion of other chartered roads near it, become ful and uncontrollable monopoly, and dictate it terms and accommodations to the public, who obliged to travel quar it. Railroad, to force a branch

Danvers under cover of a charter for a road from to North Andover, against the wishes of the zens of Dauvers, and after being refused a chorsuch branch by the Legislature, is insulting people of Danvers and a fraud upon the Legis Resolved, That the efforts and combinations various Railroad Companies to prevent the char

of new roads which may operate to lessen the on such old roads, should be uncompromising posed by every citizen who has the interests and perity of the State at heart.

The meeting was addressed in support of

on motion of Andrews Breed, Esq. the for ing gentlemen were chosen a Committee. to Newhall, Edward Pranker, George W. Ra Jacob Newhall, Jr. Esqs, of Sangus; Ch Lewis, James Eaton, George W. Wilson, I

The tollowing resolution was offered by Hon. Stephen Oliver, and adopted by the r

a list of candidates to be supported at the co election of Senators, by those who are in far such legislators as shall tend to the greatest of the greatest number.

Poor, E. W. Upton, Esqs., of Danvers; Jo Webster, Andrews Breed, George Hood, Joh

Voted, That the Committee on petition to their board.

On motion of E. W. Upton, Esq., Voted, That the proceedings of this meetit published in all papers friendly to the cause. Voted, That the thanks of the meeing be g to Joshua Webster, Esq., for the able and effic manner in which he has discharged the dutie

the chair. Voted, That the meeting be dissolved. Wm. D. Northend, Sec's. It also accidentally happened that there was a stop cock in the pipe, by which the water could at any time he stopped or let flow at pleasure so that it will be very difficult for the Company to castemate their loss, or rather the loss of their customers.

LEGAL FAT. A correspondent of the New York Tribuhe says of the U. S. Court, "Judge Bett's relatives make, or did make until recently, \$18,000 a year for folding, signing and arranging law papers, &c., for folding, signing and arr customers.

The strange mystery attending this leakage which is said to have constitued about try, loarneying east on one occasion attended by years) has created much excitement, and some two of his aids, he asked some young ladish at a persons connected with the Aqueduct Co. as well as others who use the water in Salem, promptly replied, We cannot judge of the stars have been as the stribute. The well as others who use the water in Salem, promptly replied, 'We cann have been so unreasonable as to attribute the in the presence of the sun!'. leakage to design on the part of somebody who may have been benefitted thereby. We have been benefitted thereby. We have bruce, which has arrived at New York from Havre brought out a marble statue of the late Stephen brought out a marble statue of the late Stephen undergone an investigation before Judge Waters Girard, executed by Gevecot, a Parisian sculptor. who is to decide sundry questions of law relating to underground larceny, the difference between honest and dishonest water and generally all matters relating to pure element.

The Essex Railroad. During the past week the excavation through Carltonville has been completed and the workmen are now laying the foun. dation for the wall. The bridging across North River and Fry's mill pond is ready for the superstructure, the timber for which has arrived .-The only part of the route to South Danvers reamaining to be graded is that portion between the tunnel and the new bridge across North River, and that between Grove and Central Sts. in Dan- the best medicine now in use for the above complaints. vers. The culvert near Central St. is completed Sarsaparilla, Dandellon, and Tomatoes, than which the grade of the road extended across it.

We learn that it is the intention shortly to bring

We are glad to learn, as we do from correspondent of the Salem Advertiser, that the establishment on Grove St. to which we alluded in a former paper, is henceforth to be a Temperance House.

George Hood, Esq. of Lynn, we understand, declines the honor of being beaten as the democratic candidate for Representative to Congress from this District, at the coming election. Will

of Salem, has been appointed Trustee of Dummer Academy, in Byfield in place of Hon. Leverett HE members of the Danvers Mutual Fire Insur-Sultonstall, deceased.

Loss of the Truxton. Intelligence was received on Sunday by Telegraphic Report from New York, of the loss of the U.S. brig Truxton, on a har off the Tuston, in the 15th ult. In getting her near the shore to protect some boats which were obtaining previsions, and having on board a Scotchman, whom Capt. Carpenter of the Truxton had taken out of a Mexican prize to pilot him; but who, whether from design or esculent. having on board a Scoteman, whom capt, carpenter of the Truxton had taken out of a Mexican prize to plot him but who, whether from design or reachen, and her on shore. On the 17th ult, she was aimaloned by the officers and men, about sixty in all, who surrondered themselves to the Mc. cans. They were hospitably received, complineated with s ball, and then narrehed to Tampico. Lieut, Hunter and his proceeded to the Truxton, but found that the Mexican prize to one of the By-Laws of the Compuny — to take such order thereon as may be just—and to act on any other barrondered themselves to the Mc. cans. They were hospitably received, complineated with s ball, and then narrehed to Tampico. Lieut, Hunter and his proceeded to the Truxton, but found that the Mexican prize to one of the By-Laws of the Compuny — to take such order thereon as may be just—and to act on any other of the Directors.

By order of the Directors.

G. A. OSBORNE, See'y.

Danvers, Sept. 19, 1866.

CERTIFICA TES.

From Dr. John C. Warren, of Boston.

Respecifully, your ob't serv't,

JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !!

Lowerd, Mass.,

A pril 20th 1944.

Sir,—For the last few months I have been afflicated with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * I is a pleasure to feel well,—but a much greater one day that I was cured immediately upon taking one dose of Dr Lorrains's Pills.

J. BROOKS.

CERTIFICA TES.

From Dr. John C. Warren, of Boston,

Inving had occasion to observe, that some persons flicted with Hernia, having suffered much from the wof skilful workmen in accommodating Trusses to the collection of their cases, I have taken pains to him when the deficiency occasioned by the death of Mr. Fustor is well acquainted with the manufacture of these instruments, and ingenium in accommod him to my profession to the variety of cases which accur. I feel is self-called upon to recommend him to my profession day that I was cured immediately upon taking one dose of Dr Lorrains's Pills.

J. BROOKS.

From Dr. Greene, Boston. The benefit of such instruments is often lust, in conquence of their imperfect construction, and from neglin properly fitting them; on this account, I am in the hit of sending patients to Mr. Foster, confidently believed that he will give them a good article, and see that they well fitted.

11. B. C. GREENE, M. D.

From Dr. Robbins, Roxbury.

Since the death of Mr. John Routh, I have used, preference to all other Trusses those made by Mr. J Foster, of Buston.

P. G. ROBBINS, M. D. Boston, April 27th, 1846 The undersigned is familiar with the ability of Mr. F. Foster, to monafacture trasses of the various kinds supporters and other apparatus required by invalids, a fully believes that the character of his work will favor

bly compare with that of other artists.

J. V. C. SMITH,
Editor of the Boston Medical and Surgical Journal.

POETRY.

[From the Boston Sun.] LINES. SUGGESTED BY THE MOTTO, "LOVE ON-AND BE A FOOL!"

Dost thou on worldly honors, Thy strong affections place, Pant'st thou for vain distinction Above a pigmy race? Lov'st thou o'er men around thee,
With despot sway to rule?
Still ling the fond delusion— Love on-and be'n Fool !"

Has wealth with glittering splendor Dazzled thy youthful eye-Touch'd by his sordid finger Do gentler passions fly And leave to grasping avarice Possession of thy soul? Hoard still the sparkling treasure— Love on—and be a Fooli

Has Pleasure's Circean cup Been quaffed; and dost thou feel The poison of her sweets Enter thy soul like steel?
Yet blinded by her arts Does reason yield her rule, Till thou dost love the deadly draught? 'Love on—and be a Fool!'

Hast thou in wand'ring over

This Earth's dear, icy waste,
Found one congenial spirit
On whom thy heart thou'st placed; One sweet as opening Spring-buils, One kind as Summer showers, One gentle as the dew-drops Hanging on Eden's bowers?
Hast thou to this dear treasure Love, hope and life too given.
Till in thy present blissfulness.
Are lost the thoughts of Heaven? As sweet spring-bads will wither, Nor kindest showers can save, As dew exhales to heaven, So beauty finds a grave. Weep for the Spring-buds perished, Weep for the vanished soul 1; rathern thy affections then from Earth—

Vain are our fondest hopes That cling to this dark sod; Firm and unmoved alone his trust Who stays his soul on God.
In Heaven to place our treasure
And there fix heart and soul, This is to taste true pleasure, To love-nor be affool!

Nor love-and be a Foul !

[From the Weekly Symbol.] ANGELS.

BY ELVIRA B. MARSTON. They come, when shallows of the night

Fall from on high

They come, when morning's earliest light

Reddens the sky:

They come to smooth the thorny way!

Which man must tread

And ever; on his darkest day

Their light is shed.

3AS-

To lone and weary evils cast, Through cherished memories of the past, Gently they come.

They come with words of love to cheer They come with words of love to cheer.
Where grief is nigh.
To dry the bitter, scalding tear.
In sarrow's eye.

They give the blessed founts that gush—
Beside our path—
They speak the holy words, that hush
The tempest's wrath.

They come to guide our Wayward feet from templers' silere-With bitter draughts to mingle sweet, Rest with our care! Rest with our care!

Midst all the sorrow, wrath, and blight
Which shi has given
They come to bring the blessed light,
And hope from Heaven;

especies of the fraction of the property of the property of the fraction of th

this, at that time abbreviated city.

this, at that time abbreviated city.

The house stoud on a little eminence, and was skirted around by a small garden, whose contents chiefly consisted of useful vegetation—'garden truck' for the table. Here and there, it is true, flourished a trifling display of wild flowers carefully trained to grow as the will of the cultivator dictated; and upon the back part of the humble cottage trailed a covering of some evergreen vine, which gave the place a semi-aspect of recherche rewhich gave the place a semi-aspect of recherche refinement.

A widow, named Livingston, with a daughter over whose head had passed fourteen summers and a son just twenty years of age, occupied this renement. Not only berself, but her offspring, commanded the strong love of those who were at that period termed the disloyal. As for the king's subjects on called and a continuous that king's subjects, so called, and so acting, they could feel little reverence for the woman who gave entertalament to the 'rebel' officers—for the youth, whose sentiments were too republican to youth, whose sentiments were too reputationally be mistaken—or for the daughter, who inherited all her mother's patriotism and all her brother's well directed contage. Humble as, were the tenants of the unpretending cottage we have menants of the unpretending cottage we have menants of tioned, they for med vihe subjects of conversation oftentimes, for the soldiers at the watch-fire and the ladies at the luxuriously garnished table.—
We would die for Mrs. Livingston! was there peated exclamation of the Americans. Would that she could be caught in the act for aiding and abetting treason!' was the bloodthirsty wish of

the opposite party.

At Kingsbridge and in the vicinity, is now quite a settlement. At the time to which our legend carries us back, the cottage of Mrs. Live turbs you?

It have killed a tory! shouted the old man, as ingston was the only one to be seen for more the started up, and I wish I had extinguished a than a quarter of a mile. No one knew how the he started up, and I wish I had extinguished a Envingstons lived. The small tract of land which million lives in his one. belonged to the house, imperfectly tilled as it was could not afford one tenth sufficient support of the family. Frank followed no employment. When at home, he merely occupied his time in poring over a number of dog-eared books-occasionally rendering man's service in a household by hew ing wood and drawing water. He was absent days at a time, but not even his best friend had knowledge of his whereabouts.

A few weeks before the battle of Fong Island,

the scene to which we made brief allusion in the opening of this sketch took place.

A dark night—clear, but cool—found Mrs. Livingsion superintending a well-spread table in and Frank, under cover of a brawny oak, seemed to be keeping. watch on exterior exents in the little back parlor. Every window was closed, Did he name the usual hour, mother ?" asked

Frank in an Impatient tone, through the upper half of the door, which he threw open.

'He did.'
'It is past the time,' responded Frank. I trust no accident has taken place. Your are prepared o receive the guests as they ought to be receiv-

'Lam, thanks to his munificence !' replied the

'H'is fortunate, gloomily muttered Frank as he closed the door and re-mounted guard, "that we are thus by chance provided for But foothese gatherings, we should often want food; and Mary, my own Mary, in her helplessness, would perish: Accursed be the tyranny which has tob-

ington had fervently implored the blessings of di-vine providence upon the meal before them. He had scarce delivered the concluding AMEN ere a loud knock was heard upon the outer door. Silence! whispered Sullivan between his

clenched teeth. Who can it be, Frank? asked Mrs. Livings

ion, in alarm. 'Be quiet as the grave, gentlemen. Frank see who it is. Who's there?' inquired Frank in as careless a tone as he could assume.

Good cheer! replied a voice which resembled he yell of an infuriated tiger

Trank arose immediately saying—'Lis a friend—I know him. He brings no good news.'
Can anything have happened to the cause?'—inquired Sullivan, biting his lips III his blood gant

rante suntvan, biting ins the shoot rante shoot in the shoot suntvan sunt shoot shou anguish. He took no notice of the assemblage, hat dropped into a sent, covered his face with his hands and sobbed aloud.

Why, Nelson, said Frank, with a face as pale as marble, while the military assemblinge gazed

Surely you have not walked ten miles from home to tell us this? exclaimed Frank.

'No, boy, I have not,' moant the old man, as he warmly grasped Frank's hard and pressed it to his bosom. 'There is another ale for your ear.
You are the only friend who, in the sad revulsions of this time, has clung to me with increased affection. When I have wanted bread, when my cottage has been bare of meat profuel you have supplied the want. An old man, alone with a feebte daughter, had need of a prop like you, Frank—and I bless God that it was not denied. rrank—and t diess trop that it was not, denied me. The morning, Frank my sole reliance, my two miles cows, were stolen by a band of plun-dering fories. I My bons statisticated of the it contained, and my daughter—poor Mary—was

Her parents began to grow rather the easy, and she herself lamented in private a post-tion which is not a natural one, and which those to whom nature and fortune has been niggard of their gifts are obliged to submit, but Harriet, as we said two both hunderme and rich.

we said was both hundsome and rich.

Such was the state of things, when her uncle, a worthy merchant of England, came on a visit to

worthy merchant of England, came on a visit to her parents. He was a jovial, lively, straightforward man, accustomed to attack all difficulties closely and holdly.

'You see,' said her father to mm one day,' Harriet continues single!' The girl is handsome, and then she is to have a fortune—even in his scandal-loving town the see a section see health the slight. loving town, not a creature can breathe the slightest imputation against her-and yet she is getting

to be an old maid. True, replied the uncle; but look you, brother, the grand point in every affair in this world is to sieze the proper moment-that you have not done it is a misfortune-but let the girl go along with me, and before the end of two months, I will cer-

tainly return her to you as the wife of a citizen as young and wealthy as yourself.

Away went the niece after her uncle. On the

vay home he thus addressed her: Mind what I am going to say. You are no longer Miss Selwood, but Mrs Lumley, my neice, a young, wealthy, childress widow, you had the misfortune to lose your fusband, Col. Lumley, after a year and a quarter, by a fall from his horse while hunting.

But uncle'-Let me manage, if you please, Mrs. Lumley, Your father has invested me with full powers. Here, look you, is the wedding ring, given you by your late husband. Jewels and whatever else you need, your aunt will supply you with, and cension yourself to cast your eyes down:

The keen witted uncle introduced his niece every where, and every where the young widow created a great sensation. The gentlementhronged about her, and she soon had her choice out of twenty snitors. Her under advised her to necept the one who was deepest belove with her, and a rare chance: decreed that this should be prenisely the most amishle and opplent. The match was concluded and one day the uncle desired to say a few words to his fulure nephew

in private.

My dear sir, he began, we have teld you are

How son? are Mrs. Lumley's 'Nothing, of the kind, my neice is sincerely attached to you.

Then her fortune, I supposes to do the On the contrary, it is much larger?

Well, what is the matter then 3? Men, want is the analysis of a paper into my head one day when I was in good humor; we could not recall it afterwards. My niece is not a widow widow.

What lers Col. Lumley Twing?? ...

'No, no; my nicoe is a spinster.' hat he was, a happier man than he ever conceived himself; and the old mail was forthwith metamorphosed into a wife.

A Cure for a Bad Temper.

A cheerful temper—not occasionally, but habit-mally cheerful; is a quality which no wise man would be willing to dispense wirk, in choosing a wife. It is like a good fire in winter, diffusives: and genial in its influence, and always approached with confidence, that it will comfort and do

Attention to health is one great means of maintaining this excellence unimpared, an tention to household affairs is another. The state of the body which women call, bilions, is most inimical to habitial cheerfulness; and that which writes tall having nothing to do, but which which girls call having nothing to do, but which Licall idleness, is equally so. I have uslawly strongly recommended exercise, as the first rule for preserving health; but there is, an exercise in domestic histoliness, which, without supercolling that in the openiant, is highly beneficial to the thick or the bath by mind and both the thick of the control of the co the thealth, both of mind and body, in sinuch as the meanth, note of mind and botty, in a sinch as it adds to other benefits, the happies of all sons of the sone good. Let me entreat my young realiers, if ever they feel all endency to causeless methods by it has a like individual happies of they are all such and the feel and happies by they are all with importance and in the sons of the s memanary, to they are an actual with the set and its in the set of the set of the system I am recommending; not merely to run into the kirclien and trifle with the servauts. but to set about doing something that will add to the general comfort of the company, and that will, at the same time, relieve some member of the family of a portion of daily taile; I fear at is a very unromantic conorgany-man; Lienraths a very unromantic con-clusion to come to, but maritim, conclusion is, that half the miseries of young women and half their ill tempers might be avoided by the habits of domestic activity. DANVERS COURIER: SATURDAY MORNING, OCT. 3, 1846.

FOR GOVERNOR GEORGE N. BRIGGS

JOHN REED OF YARMOUTH.

whis County Convention.

We hope the proceedings of this body at their meeting next week, will be marked by a conciliatory feeling on the part of its members, and that its result will be such that no cause will remain for regret among the Whigs of the county. This is no time for division among the Whigs of Essex. We cannot afford by our differences to give strength and confidence to our opponents, especially when after all there is no real cause for division. The question which appears at present to threaten the continued harmony and union of the party in this county, is that of granting s charter to the Malden Railroad petitioners. We are not so far identified with that project as to regard its claims as superior to all other considerations, and as Whigs we have regretted to see any disposition among the hard working men of our party to amalgamate with their political opponents. It must be admitted that they have had much to contend against, and that their treatment from some of their old political associates has not been such as they had a right to expect. It is not to be denied that there is a deep and strong feeling among the friends of this undertaking which may manifest itself in measures injurious if not fatal to the success of the party in the coming elections in this county. It is too late to assume, as has some times been done, that it is a mere private speculation It is a public matter and concerns the convenience and accommodation of a large portion of the popula tion of the county. We think the numbers interested in it ought to command respect from the convention. We believe that in any other case where an equal number was concerned, let them be Whig abolitionists or Native Americans, there would not be much hesitation in acceding to their reasonable wishes. Why then should not the whigs of the several towns interested in this undertaking, be entitled to the same respect 2. If this is denied would there not be an appearance at least of truth in the charge sometimes made that whig legislators are but the serva nis of powerful corporations? Is it too late to ask, now that there are vacancies existing in the Senatorial ticket, that they should be filled by known friends and advocates of this measure? Let them be able and strong Whigs, and nothing will be lost while much may be gained to the harmony and strength of the party.

It will hardly be necessary for us to say that in these remarks we have not the most remote idea of any thing like dictation to the members of the Convention. Knowing something of the state of feeling exshall be more likely to be blamed for our moderation taneous invitation to settle as colleague with of the proposed road. We have spoken as whigs Walker, a friend and classmate of Dr Emerson, 25 feet apart. For the first three years of their and as such, we desire nothing so much as to avoid: distracting divisions in our ranks. In our next paper we hope to announce the nomination of such a ticke' as will command the united support of the Whigs of

The Whig Convention.

The great Whig State Convention assembled at Faneuil Hall, last week, was a glorious gathering and its spirit and proceedings were calculated to inspire the utmost confidence in the continued prevalence of right principles in the old Bay State. The Resolutions offered by a Committee of which J. T. Stevenson, Esq. of Boston was chairman, expressed the true principles which tance—a bright, intelligent mulatto youth, who should govern the Whig party. We have to regret, however, that they were so unreasonably long that whatever good things they may contain will fail to reach the public minu. These Resolutions are as long as a President's Message or a Governer's Speech, and few, comparatively, will find time to read them. We wonder that our public men have not yet found out that the mass of the people have something else to do besides wading through such long-winded public documents. A brief, pithy expression of the great and much more likely to affect favorably the mass of voters in the Commonwealth. Had these Resolves been of moderate length, we should have been 'pleased to publish them, but as they are our want of space forbids it.

FROM WASHINGTON .- The Union of Saturday contained an article from which the following is extracted: "The government of Mexico has determined to refer the President's overtures for negotiations for peace, to the constituent Congress of forty was chosen whose duty it is to guard a of Mexico, which will assemble in the beginning gainst a similar appression. of December, we believe. The more we see of New Suit .- The Salem Advertiser of Wednesprocrastination. The stronger we see the neces- which is a very neat one and is from the Foun

Essex Agricultural Exhibition.

The Agricultural exhibition at Lynn, on Thursday, was more fully attended than any previous one. It was a Muss Meeting of the citizens of Essex County. The exhibition of fruit was very fine. The department of domestic manufactures did not show so great and beautiful variety as usual. The ploughing match was ver, spirited and a large number of teams were entered. The animals in the pens were most of them very superior looking. The people of Lynn deserve great credit for their efforts in making preparations for the exhibition, which was done by the contributions from the citizens.

About one o'clock the company sat down to a wel provided dinner in the Hall under the church. Joun W. PROCTOR, Esq., of this town, President of the Sucicty, presided at the table. After dinner, Mr. Proctor made some very appropriate remarks after which he introduced to the audience his Excellency Gover-NOR BRIGGS, who was received with great applause. Mr. PALFREY, Secretary of the State, followed the Governor in a very fine speech. Hon. D. P. King, of Danvers and Hon. A. Abbott of Andover, after. wards made a few remarks. The address in the church by Moses Newell, Esq., of West Newbury, was well written and full of matter of a practical nature. After the Address the Reports of the Committees were read, and Officers for the ensuing year were elected. We notice that the first premium for ploughing was awarded to Hon. D. P. King, and not to Mr P. Marsh, as the Salem Gazette has it. The officers chosen were as follows:

John W. Proctor, of Danvers, President. Daniel Adams, Jr., of Newbury, Solomon low, of Boxford, Asa T. Newhall, of Lynnfield Royal A. Merriam, of Topsfield, Vice Presidents. William Sutton, of Salem, Treasurer.

Allen W. Dodge, of Hamilton, Secretary. Jedediah H. Barker, Andover, Andrew Nichols Danvers. Jeremiah Colman, Newburyport. Georg Hood, Lynn. Moses French, E. Salisbury. Andrew Wenham. James H. Duncan, Haverhill. Na Dodge, Wenham. James H. Duncan, Haverhill. Na-thaniel Felion, Danvers, Joseph How, Methuen. Frederick Howes, Salem. John M. Ives, Salem. Josiah Kimball, Boxford. Joseph Kitredge, Andover Wm. N. Cleaveland, Topsfield. Moses Newell, W Newbury. Dean Robinson, W. Newbury. Asa Nelson, Georgelown. Jacob Brown, Ipswich. Hobart Clark, Andover. Horace Ware, Marblehead. Daniel Northend, Newbury. Gardner B. Perry, Bradford. Lewis Allen, Danvers.

Rev. Dr. Emerson.

This venerable Divine has recently returned from his tour in Europe, and was most cordially received by his people. On the salibath after his arrival some very appropriate original verses were chanted by the choir, as a "Welcome" to their pastor, the whole congregation standing during the performance. Dr. Emerson then responded in a brief address, and signified his intention to address them on the succeeding sabbath. Accordingly on the last sabbath, he officiated in the pulpit the first time since his arrival, and, we understand, gave a most interesting statement of the events of his tour, his views of the religious and social state of the countries he visited, and a glowing description of a storm at sea,—the whole accompanied with such renections and instruction as were naturally suggested.

It is highly creditable alike to pastur and people that amidst the changes that are continually taking place around them, they have so long continned attached to each other and in such a highly prosperous and united condition. Dr. Emerson has been settled among them about forty years .-Early in the present century he received an invitation to settle over the society in this parish, as isting here on this subject, we are confident that we successor of Rev. Mr. Mead, and also had a simulthan commended for our zeal in behalf of the friends Rev Dr. Hopkius, which he accepted. Rev Mr tion has ever since existed.

Kidnapping.

Much excitement has been created in Boston, recently, by the unlawful seizing of an escaped slave, in that city. The circumstances of the ca se are substantially as follows:

The slave was found secreted in the hold of the Ottoman when she was a week away from New Orleans-lying naked upon the cargo, half suffocated and trembling with fear. Brought upon deck, he was discovered to be a familiar acquainused to bring milk on board from his master. It was decided to send him back to New Orleans by the first vessel which they should speak bound thinker. He was regard well until he reached sight of Boston. The slave was then hid on one of the islands in the harbor; whence he escaped to Boston, was re-captured, and put on board a vessel bound to N. O.

The friends of liberty claim that the man was free-free at sea, free on shore, and could only be arrested by a legal process. But he was seized in principles of the party would be more intelligible the streets of Boston, bound, and carried into slavery by those who had no more right to do so than has the slave trader to descend upon the coast of Guinea and carry off the inhabitants.

> The poor slave was put on board the bark Niagara; a Deputy Sheriff was sent in pursuit with a steamboat-but was unable to overtake the vessel. Last week an "Indignation meeting" was held at Fancuil Hall, to take measures for preventing a similar occurrence, at which Hon. John Quincy Adams presided and a Committee

Mexican diplomacy, the more it is masked by day last, came to us in an entire new dress, sity of prosecuting the war with all our energies. dry of S. N. Dickinson, & Co., who have lately Mechanic Levee in Salem.

The entertainment given on Thursday evening ast, by the Salem Charitable Mechanic Association was an unusually pleasant affair. The hall hough not crowded, contained a goodly number of professional men, merchants and mechanics, with their wives and daughters, who had met together on a common platform, for the enterchange of kindly greeting and social amusement and enjoyment, and if the smiling countenances and cheerful voices of those present betokened anything, we opine they were not disappointed in their anticipations of pleasure. In fact it could hardly have been otherwise, the decorations of the hall, which were rich and tasteful, and the display of beauteous faces and fair forms, must have been effectual in awakening the kindlier feelings of their better natures.

The attention of the assemblage was first culled to some remarks from A. G. Browne, Esq., Vice President of the Association, who also introduced several speakers, among whom were the mayor of Salem-Jos. S. Cabot, Esq., Gov. Briggs, Hon. D. P. King, E. M. Dalton, who severally addressed the audience in a very happy manner.

After the addresses the time was chiefly spent in dancing, spromenading, and in partaking of the bountiful refreshments which had been provided. About two o'clock the company separated apparently delighted and satisfied with their evening's entertainment.

"One Thanksgiving Day througout the Union,' says the Baltimore Sun and the Charleston News and we heartily second the motion .- N. Y

We say yea and amen to the motion and offer as an amendment, that Gen. Taylor and his army be excused from service on that day that they may have opportunity to express their gratitude that they are not all dead men, and that a double ration of salt-beef be allowed them. That the President cause a prayer of congratulation on the success of the army in shooting a few unfortunate desenceless Mexicans, (similar to that recently published in the English papers, which was read in all the churches in England,); to be prepared, and request that the clergymen of the different churches throughout the land repeat it to their several congregations, and that the President for his blood thirsty devotion to the cause of humanity be presented with the chime-bone of some Mexican soldier, for his own table, there being several now retained as prisoners of war who ought to be sacrificed to appease the wrath of an offended supreme Executive. Would it not be a glorious National Jubilee!

Peaches. The crop of Peaches this year has been unusually abundant in New Jersey, and they have sold in Philadelphia for 15 cents a basket, each basket containing about 3 pecks. Although there are not many peaches raised in this town, there is a kind of rareripe raised, the bare smell of a few of which brought tears to our eyes the other day. This fruit; while it effects the same purpose, is said to be superior to the celebrated chem ical preparation called "Odorific Cachunde" inasmuch as it is vastly cheaper, and the eating of a ingle one in its natural state after smoking, will most effectually improve the smell of tobacco by substituting a pleasant un-ion.

Cultivation of Peach Trees .- Peach trees do best on a rich sandy loam with clay. Lime or ashes are good for the soil. The trees should be set out in rows at distances varying from 20 to was afterward settled here, and between the two growth, until they commence bearing, the land societies and their pastors a most frater nal re la- may be cultivated to advantage, but after that time no other crop should be grown amongst them, yet it is then very important that the soil should be tilled at least 2 or 3 times during the season. They live ordinarily from ten to twelve years. Peach trees have two enemies to contend a-

gainst, the "peach worms" and the "yellows."the tree, and can be detected by the gum which he thus addressed Daniel Webster : issues. They very frequently are to be found in the bark between the surface of the ground and trunk, below the surface of the ground. The oil

the trees. To remedy this it is recommended to fessed; pluck off a part of the fruit when small in great pearing years.

with good success.

We are requested by Richard Osborne, Esq. to state that he declines being a candidate for reelection to the House of Representatives at the com-

DELEGATES FROM DANVERS.

At a meeting of the Whigs of Danvers, held at the Town Rooms on Wednesday evening last, Hon. Henry Poor was chosen Chairman, and ble of getting good help' in families. I have n Francis Baker, Secretary.

It was voted, that six Delegates be chosen to attend the County Convention on the 8th inst., and four Delegates to attend the District Convention to be held on the 8th inst., and the following gentlemen were chosen :-

For County Convention, -Benjamin Goodridge, Henry Fowler, Wm. D. Northend, E. W. Upton, are willing to elevate their condition, assist the Moses Black, jr., Edwin F. Putnam.

For District Convention,-Hon. R. S. Daniels, Lewis Allen, Jacob F. Perry, Elias Putnam.

Voted, That a committee of vigilance to consist of five, be chosen, with power to increase their number if they shall think it necessary. The following were accordingly chosen,--

William D. Northend, Elijah W. Upton, Geo. R. Carlton, William H. Little, Charles E Brown.

We have received a communication from a Saugus correspondent, in answer to one which appeared recently in the Salem Register un er the to her by some who want her in their domes signature of "Fair Play." We do not think establishments. It is only the accident of the proper to publish it, as we think some of our correspondent's impressions are erroneous, and as the remarks refer entirely to Salem, it should more properly be inserted in some of the papers of that city.

IFA fugitive slave says that the best "massa" he knows anything about is "Massachusetts,"-Cincinnati Enquirer.

Military .- The Danvers Light Infantry, under command of Capt. Asa W. Sawver, paraded on Wednesday last and made a very neat and soldiery appearance.

NINTH DISTRICT. - The Hon. Artemas Hale declines being a candidate for Congress in the ninth district. The Governor and Council have ap. pointed the 9th of November, the day of our State Election, as the time for voting to fill the existing

TAt the Loco Foco Convention, at Ipswich, on Wednesday, the following nominations were made for Senators for this County, viz :--

Nathaniel Frothingham, jr., of Salem-Dr. George Osborne, of Danvers-Mr. Lawrence, of Newburyport—Mr. Kimball, of Bradford—Eben H. Safford, of Haverhill.

Give us the credit .- We have noticed that some of our exchanges are in the habit of copying from us original articles and omitting all notice of their authorship. Now it seems to us but just and proper that when we are so fortunate as to pen an article worthy of perusal, insomuch that it is copied into some one of our exchanges, that they should give us the glory and not run away with our thunder. We have been led to these remarks on noticing that the Boston Odd Fellow in their last number had copied our article of the 19th ult. headed "The New City," which makes a column of their paper, and no notice is taken of the fatherly relation we bear to the article. A short time since we noticed in the Symbol, an article headed "The House that Zach. built" and credited to a Philadelphia paper, now the fact is, brother Symbol, we built that house ourselves and we ought to have whatever credit is due for the skilful construction and ingenious design of the edifice.

There are several other papers who deserve some consideration for similar offences but w forbear at present.

New Mills Lyceum.

We understand that our friends at the New Mills have made arrangements for an efficient course of Lectures before their Lyccum the ensuing season, at the New Hall recently erected by our enterprising fellow citizen, ASA SAWYER, Jr Success to the undertaking.

CHARLES SUMNER TO DANIEL WEBSTER .- In The peach worm eats its way under the bark of Mr. Sumner's remarks at the Whig convention,

There is a senator of Massachusetts, whom we had hoped to welcome here to-day, whose position the roots. The soil should be dug away once or twice every year the trunks are indicated in the respectful frankness of a constituent twice every year, the trunks examined and the and a friend. You have, sir, already acquired by gum scraped off. We were assonished to see the your various labors, an honorable place in the hishavoe made by these worms, a few days since on tory of our country. By the vigor, argumentation and eloquence with which you have upheld the some fine trees belonging to Mr. Squires Shove Union, and that interpretation of the constitution ing the Summer and upon removing the earth he the title of defender of the constitution. By the found a large number of these, worms embedded successful negotiation of the treaty of Washingfound a large number of these, worms embedded in the bark, some of a very large size. He killed the Oregon, you have earned another title—Defenthem, scraped off the gum, and then put leather them, scraped off the gum, and then put leather chips, which he got at the tanneries, around the trunk, below the surface of the ground. The oil ask you when you again take your seat in the on the chips he informed us serves as a protection senate, not to forget them. Dedicate, sir, the golden years of experience which are yet in store The cause of the yellows is not known but is supposed to originate from the over-production of to eloquence, higher than any you have yet con-

To heavenly themes sublimer strains belong.

Do not shrink from the task. With your marvel-The peach is a most delicious fruit and with ous powers, and the auspicious influences of an proper attention may be cultivated in this region awakened public sentiment, under God, who always smiles upon conscientious labors for the ways smiles upon conscientious labors for the ways smiles upon conscientious labors for the welfare of man, we may hope for beneficent results. Assume, then, these unperformed duties. We understand Mr. Dixon has secured his investion by a patent, and has taken measures to four the aged shall bear with repuire, as they repeat the cure the same in England, France, and Russia name of Webster; and the large company of the He will probably dispose of it to our own gove ransomed shall teach their children, and their children, and their children, to the latest generation, to it.—Mail. children's children, to the latest generation, to Call you blessed; while all shall award to you yet another title, which shall never be forgotten on nominated for Senators, William Carey of Amesbury, Ebenezer Hunt of Danvers, Dan Weed of the side of which that earlier title shall fade into of his letters published in the Christian Citiz

Help in Families. A great deal is said now-a-days about the trou

doubt that for much of this complaint there good foundation, but then I am of opinion that much greater part of it is owing to the manne in which girls are treated by their mistresses.-Accordingly we find that those ladies who are wi ing to regard their hired help as a part of the families, and instead of degrading them by haughty bearing, harsh language and refusing allow them a seat with them at the same tab n their lighter duties and manifest an interest their welfare—I say, these people are seldom muctroubled about good help. Most girls in Ne England have so much of a proper pride and se respect that they will not submit to the treatme of some mistresses who regard their help menials, and think it some how or other a disgra to themselves to treat them at all as equals in the families. I am perfectly aware of a certain ki of inequality which must always exist between persons holding these different relations, but I a not disposed to blame the independent spirit that highminded girl who prefers to work wi her needle or in a factory, rather than submit the degrading position which would be assign pecuniary circumstances which places her in t kitchen and her mistress in the parlor, and it her endeavor to prepare herself for a better sith tion, as she has hopes (which she has a right indulge) that she may one day occupy a snug pa lor of her own. Any person of the least observ tion must have noticed with what ease and cor fort the good housewife gets along with her dome tic affairs, who is not too proud to take a person interest in the affairs of the kitchen, and w chooses for her help a girl whom she is not ashan ed to regard as a companion. Such a person not troubled with frequent changes in her hel The girl is happy in the family and retains h self-respect. The mistress is satisfied with h faithfulness and only loses her services when s is called away to take charge of a family of h

Look now at the other side. The mistress wis es to ape high life; she considers the girl a ser ant-a drudge-a menial-not a human being li herself, with feelings that may be hurt and pri that may be wounded, and she requires her to pe form degrading offices, keeps aloof from her, she by her manner that she feels vasily above her, a hat she must not presume to be at all famil with her exalted mistress. The girl is of cou discontented and leaves to find a more congen place. The mistress gets another girl who so finds out the character of her new place and a leaves. So it is with another and another, a the lady is half her time without any help. S is exceedingly vexed with the unreasonableness the help, irets about the scarcity of good girls a scolds at the factories because so many are the employed, and at last gets a vagrant Irlsh girl w submits to any degradation, but perhaps has, good knowledge of cooking or house work. S is sent away and another vagrant is taken w the same result. Now all this trouble may prevented by a proper treatment of the domest Good American girls can new select good sit tions as they know pretty well the character places by the frequency with which the mistr changes her help. It is so clearly for the adva-tage of the mistress to maintain more of equal between herself and the girl in her family that is surprising that so many have not found it of and the trials and vexations they suffer seem the appropriate reward of their own indiscr NEW MILLS

The Warren Bank has declared a semi-annual I idend of 3 per cent.

Military.—The Divisionary Corps, the Sal Independent Caders, will parade for Inspect and Reveiw, on Friday, the 9th of October insta On Tuesday, the Light Infantry Regiment be mustered for Review; on Wednesday the tillery, in Beverly, and on Friday, the Cadets. We understand that the Marblehead Gua Capt. Carroll, will start for this town on Mon morning, where they will encamp during the n and march to the parade ground next morning The Glongester Artillery will spend one or days in Salem, next week, as guests of the chanic Light Infantry.

Serious Accident. On Saturday afternoon, he workmen on the railroad, near Washing street, were placing the rock upon a car, on the guys which held the deric, parted, and whole fell down. In falling, the deric struck young men, who were sitting, upon the emba ment witnessing the operations of those at w breaking the back of one of them, and stung and bruising the other. The one whose back broken, is about eighteen years of age and belo ed to Scituate. His name is Litchfield. He taken to Boston yesterday, to be placed in Massachusetts General Hospital. There is little hope of his recovery. The other yo man was so far recovered on Sanday, as to be led to go on board the vessel to which I were attached, and he was taken home. did not learn his name. This, we believe, is first accident which has happened on the road on this, the eastern side of the river. Gloucester Telegrap

Important Invention. We learn that Mr. Fu cis Dixon of Lynn has made a most impor improvement in the art of gunnery. It is equ adapted to pistols, muskers, rifles and cann and by its application balls may be discharat the rate of thirty or forty in a minute, the simple movement of a handle a cannon be made to load, prime, ignite, and discharge selt. It will also make discharges with equal cility whether advancing or retreating. In sit is one of the greatest improvements ever m in the art of gunnery, and must put great po into the hands of the nation possessing it. Co of the best rifle makers in the country, Mr. W. more, who understands the principle upon what acts, pronounces it inconceivably before a

passion. During the young man's usual sum-mer visit to his friends, he was the evening decoyed without suspicion of the fell purpose, into a neighbor's house, where he met the angry hus-band, and his brother, and was beaten in a das-tardly manner. After being threshed with a cowhide until the skin was nearly broken in

many places, he was knocked down, stamped on, and terribly pounded.

When his assailants were interrupted in their diabolical work by the timely arrival of a neigh-for, who had been called by a member of the family, one of them was kneeling on the young man's breast, and beating him in the face in a most brutal manner. He was fortunately rescued; but not until he had received severe injuries, from which he may not fully recover for

Such an affair as this might not attract much partention in a large city; but in a quiet and peaceable place like Newbury, it is the town talk. The assailants have been prosecuted, and it is hoped will receive full justice from a New England Court.

ARRIVAL OF THE GREAT WESTERN. The Great Western Steamship, which lest Liverpool on the 12th ult., arrived at New York Wednesday, bringing 8 days later from Eu-

on Wednesday, bringing 8 days later from Europe. We copy the following epitome of the
news from the Salem Gazette.
The accounts from India are distressing in
the extreme. The Cholera was sweeping all
before it in Scinde. In Kurache, where several thousand persons were destroyed in ten
days its rayages have somewhat abated though days its ravages have somewhat abated, though the troops had lost one fourth their number, O'Connel was at Derrynane, and compara-

tive quiet existed in Conciliation Hall. He es-timales the expense of feeding the Irish popula-tion until the next harvest, at fifty millons of dollars, which he intimates the Government is willing to advance. In business matters, there seems to be little

change. The European Times speaks of the failure of the potato crop as universal and as affecting the prices of all description of grain affecting the prices of all description of grain and of provisions.

Indian corn was in demand and the advance from the 1st to the 8th was 6s per quarrer, and on meal 2 to 3s per load. Cotton was steady without change in quotations, the advices from this country as to the amount of the crop being eagerly looked for. The money market was buoyant with every prospect that present prices would be maintained if indeed they did not advance.

MECHANICAL AND DENTAL SURGERY. Teeth at Cost, until Jan. 1, 1847

Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston. OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all and present the second such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared exof the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the chocks and hips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned; are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to ismedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets. Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manare moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquers of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being remove them, will invariably become offensive and taint the breath. Another advantage of paramount IMITATIONS OF WOOD, MARBLE importance which the carred work was done that of importance which the carved work fine over that of single teeth is; its perfect articulation; Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will

prove a source of continual anneymnes, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine fur themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execusion is overcome. I hey cannot fail to excite admireding from all who are pleased with close infitutions of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

CERTIFICATES. From Dr. John C. Warren, of Boston,

From Dr. John C. Warren, of Boston,
Having had occasion to observe, that some persons afflieted with Hernia, having suffered much from the want
of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform
myself of the competency of Mr. J. F. Fostor, to supply
the deficiency occasioned by the death of Mr. Beath.—
Alter some months of observation of his work. I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

quence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbus, Rozbury.

Since the death of Mr. John Beath, I have used, ir preference to all other Trusses those made by Mr. J. Foster, of Boston.

Boston, April 27th, 1816.

The undersigned is familiar with the ability of Mr. J. F. Poster, to manufacture twisses of the various binds of the various

F. Poster, to mainfacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

WM. ARCHER, Ja. LORRAINE'S PILLS.

All persons require Facts. Remember in all cases that you are not deceived by thing

that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable
Pills have in their composition two of the most
valuable medicines in the world, viz: Sarsaparilla and Tomatoes. These two articles need no praise, neith er do the celebrated Lorraine' Pills, when they have

once been taken.

Physicians, and people of every class are willing general debility, &c.

The Dandelion and Tumato Panacea is particularly recommended in cases of INDIGESTION and DYSPEPSIA. The following are some of its distressing symptoms, palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melaucholy, restlessness of c. It will cure the worst diseases of Rheumatism,

Sec a few public statements of men of truth and vir

Lynn, Dec. 17th, 1843.
Sir; I have sold all the pills I last had of you please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One latly, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where the cures have been as great, but have not time.

Yours respectfully, J. E. F. MARSH.

A hacking cough constantly annoyed me! Boston, Mass., June 1st; 1844

Sir,—In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered me truly miscrable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILIS and now every body tells me that I am well ;- I fee as well as ever I did. J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Str: Please send us one gross of Lorraine's Pills
we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we could have quite a number of highly respectable cer tificates from our citizens. Respectfully yours, E. MASON.

Chelsea. Jan- 3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole win ter, have had some of the best physicians of Bost and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Fills, I and no faith whatever, but I ook them, and it is a solemn fact that when I had aken but eight pills! my Kheumatism had entirefy eft me, and I have remained well ever since.

N.B. I never took more than one pill at a time and that on going to bed...

Yours respectfully, W. M. HALSTAL

Unable to raise the Hands to the Heads .

Challe to raise the Hands to the Head!

Sir—For three years, Scrofula, had produced such effect upon my constitution, that I was mable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I took LORRAINE'S VEGETABLE PILLS, which are reigned and have entirely entered. ga veimmediate, relief, and have entirely cured me.
Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !!

Loweill, Mass., }
April 20th 1944.

Sir.—For the last few months I have been afflic ad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr LORRAINE'S PILLS: J. BROOKS.

Sir. I could fill the whole of the Sentinel with I have sent many patients to be fitted with Trusses and Abdonnial Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of thair invertent application.

POETRY.

Take it Easy. Take it easy ! Life at longest But a lengthened shadow is, And the brave as well as strongest, Dare not call to morrow his Take it easy! for to-day
All your plans of wisdom lay.

Take it easy ! done with fretting, Meet your neighbor with a smile, From the rising sun to setting.
Live the present all the while! Take it easy I every vow. Make in reference to now.

Take it easy! what is hidden, Or is wrong, or seemeth so, Leave it as a thing forbidden, Out of which a curse may grow ! Take it easy! never pry Into what will cause a sigh.

Take it easy ! daily turning To the monitor within, On its altar always burning, Keep an incense free from sin ? Take it easy; never fear While you keep a conscience clear!

Take it easy ! ever leaning To the side of truth and right;
Happiness from virtue gleuming,
Peace of mind from wisdom bright! Take it easy! for at best, Life is but a sorry jest.

Love's Last-A moonstruck wooer one day las summer presented a rose to a lady, accompanied with the following lines.

Accept, dear maid, this beauteous rose, To deck thy breast most fair;
Observe its hue, nor wonder why
It blushes to be there!

THE LADY'S ANSWER. I will accept thy beauteous rose, And on my breast enslave it; But should it blush, I should suppose, Tis for the fool that gave it !

MISCELLANY ... no

Gold hand to cal

To those personally interested in the object, it Boston and Portland, in order to run down old To those personally interested in the object, it is one worthy their strongest effort. A new rail-road to Boston, as proposed by the petitioners in the petition of David Pingree and als., the two last winters, is essential and absolutely necessary to the continued prosperity of the town of Danvers. A direct railroad communication with the metropolis will give new life to her business, and vigor to her workmen. It will afford every facility for term Railroad should be the last to onnose this proto her workmen. It will afford every facility for tern Railroad should be the last to oppose this proto her workmen. It will anoral every facility for the narrota should be fine tast to pipe a the purchaser from abroad, to come to the various ject on principle.

The purchaser from abroad, to come to the various ject on principle.

But allowing, for one moment, that it is not a new avenue to her agricultural produce; it will good policy to charter a new road when it will opserve as a stepping stone to the establishment of erate ruinously upon one already built; even then new manufacturing interests in the place; it will we can claim a charter for this road. For it can call in strangers from abroad; possessing such a be demonstrated, that if this new road is built, the delightful location, it will attract hundreds from stock on the Eastern Railroad will be above par; its. It can but have a very powerful effect in giving an impetus to every department of business, and of improving materially in value the real estate of the town. The benefits it will confer will be neither few nor small; and the remark of an early friend to the project is replete with truth, which was, that the town of Danvers had better will the road if she never received one cent from large such injustice. particularly when it injures which was, that the town of Dahvers had better build the road, if she never received one cent from the capital invested. The advantages the road will confer on other towns on the route will be full as great, comparatively, as those it will confer upon Danvers. But I need not recapitulate or specify them. The interest which the people of those towns now manifest, and have, from the commencement of this project, manifested, in its success, show that they are neither ignorant of them, nor that they undervalue their importance. them, nor that they undervalue their importance our road, owing to the difference in the length of based upon facts sworn to by the most respectable from that increase would nearly support this road. of our citizens, show something of the importance Ves, the increase of travel for one year on the of the road. It was estimated that such a new road would receive, upon first going into operation, road would receive, upon first going into operation, road would receive, upon first going into operation, road which we have petitioned for. Taking them road would receive, upon arst going into operation; road which we have perturbed for. Laking them over 200,000 passengers annually, beside some on their own ground, they cannot bring a reasonation to this road.

character, which are involved in the success of er number. The decision of Judge Taney, chief this project. It is a contest for important principly stice of the supreme judicial court of the United this project. It is a contest for important principle justice of the supreme judicial court of the United pless and for principles which interest every one. Upon the chartering of the road we ask for, hang the principle clearly and distinctly; and I beg the chartering of the state. We have gone to the properity of the state. We have gone to the legislature for two successive winters, to ask a charter for this road, and for two successive winters we have been denied. We have asked, and ters which have been refused to us. I believe, sir, under the facts which have been shown, and the der the facts which have been shown, and the principles upon which our application has been case, of the proprietors of the Stowbridge cand, against Wheely and others, the court says based, that our right, in justice, to the charter, is against the canadhaving been made under an act of party and as the right was the court says. based, that our right, in justice, to the charter, is The canal having been made under an act of parties good as the right we have to our farms and our merchandise. It is a right guarantied to us by the constitution of the state of Massachusetts; ses, is a bargain between a company, of adventurities a right guarantied to us by the free spirit of our institutions; it is a right guarantied to us by the pressed in the state of construction it is a right guarantied to us by the tree spirit of ers. and the public, the terms of which are extended in the statute; and the rule of construction the whole previous policy of this state, stretching in all such cases, is now fully established to be from 1776 down to the present time; it is a right this that any ambignity in the torms of the congreat principles of equal rights. We must either favor of the public, and the plaintiffs can claim succeed in this struggle, or acknowledge that the mothing that is not clearly given them by the activities and right of the Eastern Railroad over all the travel which it can reach with its entry is favor in its true light by comparison with the the travel which it can reach with its spurs, is full and complete. It is purely a question of the power of chartered corporations. Sir, I do not object to corporations. I believe them to be, when rightly managed and controlled, beneficial in the highest degree to the community—that by their aid and that alone, great and important projects can be consummated. But I do believe, that when we give or concede to them undue power or influence, they become the greatest evil that can afflict any people; they are like a Bohan Upas, poisoning all within their influence; they are great running sores upon the body politic. They are, in plain words, monorouses; and, sir, a rail-toad monopoly is the worst kind of a monopoly. The Eastern Railroad Company, if they succeed in defeating this project, may set themselves up as a mature, full-grown, pure and undefiled monopoly. The Eastern Railroad, and the Eastern Railroad alone, oppose this important project; and they oppose this important project; and they oppose it on the ground that they are a monopoly on the ground that they have a right to this travel and business which prefers another route.

But what is this Eastern Rallroad Company? and whence did it have its origin? Why, sir, the held line of trader was but recturally and him. he bold hion of to-day was but yesterday an humhle suppliant herself. It is but a few years since that company applied to the legislature for a charter for their road; and after several years of persevering efforts on their part, it was granted them; and it was granted them, I think, rightly; and the charter given them was the night kind of a public and to the rights of the community, than charter. It gave them no exclusive privileges, and it ought not to have given them any. Then was the principle of parallel lines acknowledged. It was chartered to run parallel with the Andover and Willmington, now Boston and Maine Rail-road, and against their remonstrance; it was chartered to the complete ruin of stage companies; meeting in favor of the Danvers and Malden railand Baston Turnpike corporation; and, sir, I beroad, held at Lyan, Sept. 4, 1846. Reported by
lieve, on the ground of the public good, it was
lieve, on the ground of the public good, it was
a member of the meeting.

MR. PRESIDENT—We are assembled here to-day
for an object which is of the greatest importance
to thousands of our citizens personally; for an how has it been since? how sincer is the subsent for an object which is of the greatest importance the establishment of the Eastern Railroad. But to thousands of our citizens personally; for an how has it been since? how sincere is the subsciobject, which, independent of principles, affects quent conversion of the Eastern Railroad to the the interests and advancement of several of the

the city to take up their residence within her lim- and what advantage is it, except for private specu-Why, sir, the estimates made the last winter, the routes, it is safe to say that the fare received

no road asked for the last winter exhibited so good a reasoning, common sense, and experience, a prospect. The Eastern Railroad Company, when they peritioned for a charter for that road, never did and never could show anything like the prospect we have shown for this road.

All reasoning, common sense, and experience, show that parallel lines must be granted. Onr reshows the parallel lines must be granted. One reshows the parallel lines must be granted. One reshows the parallel lines must be granted. One respectively and never could show anything like the prospect. pect we have shown for this road.

But, Mr. President, I am speaking of facts which are known and telt by all present: For I trust that this meeting is composed, principally at least, the principal involved as one of the greatest importance for the encouragement of enterprise and works of improvement; that however the may operate the principal involved as one of the greatest importance for the encouragement of enterprise and works of improvement; that however the may operate to depreciate the property of men who have income of the road. But, as I have said, there are vested for speculating purposes, it is in the aggregate, which are involved in the success of er number. The decision of Judge Taney, chief

is shown in its true light, by comparison with the

English law upon the subject. He says: Borrowing, as we have done, our system of jurisprudence from the English law, and having a-dopted in every other case, civil and criminal, its rules for the construction of statutes, is there anything in our local situation, or in the nature of our political institutions, which should lead us to depart from the principle, where corporations are concerned? Are we to apply to acts of incorposon be assigned for excepting this particular class from the operation of the general principle, we for introducing a new and adverse rule of construction in favor of corporations, while we adopt and adhere to the rules of construction known, to the English common law in every other case without exception?. We think not; and it would present a singular spectacle, if while the courts in England are restraining within the strictest limits the alarment manager and avaluation principal. its the claims of monopoly and exclusive privileges in nature of monopolies, and confining corporations to the privileges plainly given to them in their charter, the courts of this country should be found enlarging the priveleges by implication, and construing a statue more unfavorably to the

f justice. I will read one more extract from the closing

part of the decision and view And what, he says, would he the truits of this doctrine of implied contracts, on the part of the states, and of property in a line of travel by a corporation, if it now should be sanctioned by this court? To what results would it lead us? sion on the different sides of the road?. The counsel who have so ably argued this case, have of the numerous railroads, established on the same line of travel with turnpike companies, and which have rendered the franchises of the turnpike corporations of no value? Let it once be understood that such charters carry with them these implied contracts, and give this unknown and undefined property in a line of navelling, and you will soon lind the old turnpike corporations awakening from their sleep, and calling upon this court to put down the improvements which linvetaken their place."

Such is the decision of the highest tribunal of the United States, upon the principles which are involved in our petition; and it becomes a serious question, whether a charten shall be denied us, and thus a precedent established more against the only objection to the charter of the new road. If there were no Eastern Railroad, then there

would be no opposition to this road. All objections to this road, as I have said, come from the Eastern Railroad Company. They are determined to prevent the chartering, if possible. They are determined to brow-beat and monopolize, in despite of the public. Their power and influence is truly immense; and if suffered to go on, they will, by heaping precedent upons precedent, and power upon power, entrench themselves into so impregnable a fortress, that no public expression or act can reach them. We shall have state in the Union, a monopoly more powerful and oppressive than any which England has seen oppressive than any which Englished has seen more, since the adoption of the Magna Charta, and this ince the adoption of the Magna Charta, and this in short, she was a fine natural character, as themselves. But, thank God, I have no fears for this result. The people may be deceived for a selfish and the conventionalities of society. Death time by the specious claims of finjured rights, and the independence which this beloved and the conjured ghosts of famishing widows, and the independence which this beloved and whiskered orphans, who own their thous-

poraty. People will look at remote results, as sisters, seemed to her over well as at immediate effects. They will look at for her irreparable loss, well as at immediate effects. They will look at principles, not only, as they, affect a few stockholders, but as they, affect the welfare and prosperity of the great mass of the people of the ancient commonwealth herself. Sir, the principles involved here do not apply to railroads alone.—
They apply to every enterprise, and to every project, for the public good. Look abroad over the state—at the workshops in every village, the mills on every stream, the 'huge factories' of our manufacturing towns; the steamboats on our waters, and the railways, binding the state together from its utmost bounds, in adaminatine chains from its utmost bounds, in adaminitine chainsat the prosperity of the state—at the enterprise of its citizens—and then say, shall all these works hallot pox; they visit our conventions; and is it not time—I would ask it in thunder tones—is it

From Douglas Jerrold's Magazine. A STAR IN THE DARK. "There is a future to all who have the virtue to repent and the energy to atone."—Bulwer Lytton.

'You may call it foolish and romantic, if you like, but I repeated, that I could more easily forgive fault, committed under strong temptation, and foreign to the natural dispusition, than a series of petty meannesses springing from and belonging to the character.

Thus spoke Helen Travers to her sister, Mrs.

Cunningham, and the thread of their discourse is taken up when first it was overheard. It was a strange spot for anything like a "confidential" conversation to have taken place, but every one must have observed, that subjects of interest the English law, and by implication make the terms of a charter in one of the states, more unfavorable to the public, than upon an act of parlitioned in an English court? Can any good reason be assigned for excepting this particular class. time to time dropped in, and certainly had not heard the footfall of a gentleman who entered and seated himself immediately behind them, at the

moment when some of the attendants were making a prodigious din, in their re-arrangement of the benches near the orchestra. I could not have married a man in whom I did not take pride,' replied Mrs. Conningham ; 'I am very sorry for people who have ever been led a-way to do anything wrong, but they must take the consequences of their own conduct; certain-ly, anything tike disgrace or the world's censure,

falling upon my husband, would crush me to 'Not if his fault were the one fault of all life,' re

sumed Helen; 'not if you loved him very dearly—Nay, I think his very suffering would draw you more together. I have a theory that the very happy do not love so deeply as those who have known surrow.

Grown sorrow.

I call such ideas perfect nonsease,

I know you do, replied her sister, with a faint smile and playing as she spoke, with the fringe of

'How should I know ?' 'Then believe-I would not deceive you... Though three and twenty, indeed I dread old maid-ism fur less than an ill assorted union.

the new comers. There was an end to their conversation, of course.

look that was caught now and then, the sisters were very different. The elder, Mrs. Conningham, was far the most beautiful, if exquisitely chiseled teatures and a brilliant complexion could make teatures and a brilliant complexion could make do so if you will. Life would be so worthless, he so. But though quick and clever, even with and accomplished she was deficient in sentiment and the powers of imagination; was a laver in detail; and therefore despised, because it was to her incomprehensible, the higher and generalising mind. A thoroughly worldly education had completed her character, and rendered her a cold-hearted selfish woman of the world, without with the dark knowledge in my breast completed her character, and rendered her a cold-hearted selfish woman of the world, without enough of heart to feel the necessity of affection, and yet possessing an insatiable vanity, that ted on universal admiration! With features less one on universal admiration! With features less the considered and insuperative means that the countenance was changeful as the this—this at least. And he fluing himself on the features that the countenance was changeful as the this—this at least. And he fluing himself on the features have been seed by the following the countenance was changeful as the sea; for it mirrored every thought and feeling as his knees before her and buried his face in her they swelled up from her woman's heart. Eurly garments. removed from the influence of worldly minded paremoved from the influence of worldy influently are rents, she had been reared by a widowed aunt, a high minded being, who had sought and found the sweetest, solace for her lown, early, bereavement, in the artless inture of her young relative. Although by no means a stranger to the metropo lis, or to society, the country had been Helen's hame. Her young heart had expanded beneath pression or act can reach them. We shall have the influence of nature; her taste had been refined the heart of the most free and enlightened the influence of nature; her taste had been refined her fancy quickened by it; and though she had her fancy quickened by it;

ands in railroad stock; but this will be only tem- her an object of envy to her unmarried porary. People will look at remote results, as sisters, seemed to her own heart no consolation

a memory; or with a moment where his attenits citizens—and then say, shall all these works be paralyzed, shall the arm of labor drop nerveless to the ground, through the illiberal and monopolizing spirit of our government? All this is involved in the principles we are contending for It is monopoly against the people. We have come to the issue. The enemy are abroad; they may be in our senate chamber; they may be in our senate chamber; they may be in our senate chamber; they are at work at the hallot nox: they visit our conventions; and is it man. A strange and awful youth had checked man. A strange and awful youth had checked and driven back the tide all emotions which benot time—I would ask it in innuder tones—is it and driven once the fide it might swell now not time to act—act energetically—act effect langed to its epoch, only that it might swell now with the concentrated might of a loffier sentiment a chastened tenderness, and restrained passion. He would—cre half that time had expired—have periled life to have touched her ungloved hand, or to have caressed the light ringlet which floated from time to time beyond her bonner!

It seemed, too, that fortune was to favor him for friends came up and addressed Mrs. Cunningham; murual introductions elicited that of Helen. He had but to follow them to their door, and now he knew who she was and where she lived. This he did with wonderful calmness. People always are calm on really great occasions-except indeed, people who are themselves too small to ever

wake or understand them.

Well—the pigmy of soul escapes through the entangling meshes which late weaves for man-kind, into the outer void of mere aritmal existence; they are the strong of heart and quick of power, but still to console, still to whisper

Peace, peace be ter thus than not to feel.

So felt William Johnson for by that common name must the stranger be known—so be felt in the bour of endurance, when that strong man. writhed in silent agony on the floor of the gorgeous apariments of which he was master.

Life is either one long chapter of incidents, or there is no such thing as an incident in the world Three days afterwards the stranger of the concert room was formally introduced to Helen Travers from was formany introduced to refer travers at the house of a mutual friend. Three months from that day let us listen to their words. They had been betroibed for weeks. The scene was a drawing room, in an antique country house. Both were the guests of Mr. and Mrs. Cunningham.

T have one care, William, one sorrow in the world, exclaimed Helen, pressing the hand which had fondly clasped hers between both his own -Oh, why this invstery—why this concealment?
You are free to do as you will, and so am I; though good, and generous, and true and rich, she added with a smile, as you are, my family, you well know would receive you with open

"The time is come; he seated," he replied in a tremulous voice, and releasing his hand, with a gesture that might have been, but was not, mis-taken for coldness. And white Helen sank on a lasting than a passing fancy, which one shakes neighboring couch, he leaned his aring for support, on the piposite side of the mantelpiece. His countenance was pale as ashes, but his voice grew

more steady as he proceeded.

The Brst time I saw you, he continued, heard you say you could more readily forgive this Helen Travers turned her head as she spoke, one great full if a life than habitual meanness and though she did not perceive the stranger, he caught the profile of her animated countenance.—
But the audience were by this time arriving, and the sisters drew nearer together to make room for the new comers. There was an end to their con-I take some gredit for enforcing secresy till I had summoned strength for the confession. For ersation, of course.

Notwirhstanding a certain family likeness, a if you reject me, and sprrow in the act, I believe you reject me, and surrow in the act, I believe you would rather not take the cold world into your confidence. And yet, if there be solace in revealing what I tell you, be free as air to do so if you will. Life would be so worthless, the betrayal of my secret would be but a feath-

pity tell me.'
'No; forgive me this last fault first.'
'Yes, yes,' she murimured, and her head leaned heavily on his choulder." The act unnerved him, and a shower of tears rained from his eyes. 'Tell me,' again she whispered.
'I cannot yet. Bear with me.'

Then I will guess.

With a shudder as she put each fearful ques-In short, she was a fine natural character, as tion, she began—'Have you shed human blood, protected by the laws of honor, and feel that selfish and the conventionalities of the

'I cannot recall to mind a lie that I ever told.' Once more Helen's hand sought that of her lover; but she withdrew it as a terrible thought rushed to her mind. She paused ere she could give it words. At last she sail, "Have you been guided by a code of man's moralities, and won a heart only to fling it from you? or—or been guilty of the deeper, darker

My conscience is singularly free from all such They who do these things speak not of them And he looked up and met the tearful as crimes. gaze of Helen Travers, without his own lids droop-

Then I will wed you,' she exclaimed, after a mo ment's pause, 'and only as your wife will learn this dreadful secret.'

You will? and William Johnson started to his feet as one who had received an electric shock.

For a moment she yielded to his embrace, but he re 'You would so wed me?' he exleased her unickly. claimed, but you shall not The dear memory of your words is a happiness. Fate cannot take from me; i gives me strength to complete the iragedy. Listen These limbs have borne the manacles the law furnish es to the convicted thief, this form has quailed in the felon's dock beneath the callous stare of the strange multitude; but then I did not lie. I owned that I had stolen the means to purchase food for a famishing mother. The name which I have dared to ask you to bear is forever enrolled in the chronicle of crime .-The convict crossed the seas, and was a slave for the seven brightest years of his youth. Helen-Miss Travers, you do not scream, or faint, or wither me with a Only tears, quiet common tears. Are you woman or angel?

Be calm and tell me all-You will believe I meant to replace the note-Istole, though the judge would not credit my story.

This is all I have to tell; for why should I picture the haunting presence of a memory, and the worthlessnes of that wealth which descend to me from the rela tive who exposed my youth to templation, and left my mother to perish?

The future the happy future. May it make you forget the past !- William !

At her feet once more, but now with childlike sobs and breathing passionate exclamations, and fervent

It was the next day; and the burst of wild, tumultuons joy had given place to a serence happiness on f William Johnson, while a softer and more thoughtful expression reigned on the face of Helen. Of the myriad real tragedies which are hidden be hind the veil of conventional life, not a few are there in which woman plays a ministering angel-and builds amid the wreck of happiness, a saving ark by the spell of her trusting faith, and wisdom that is of

DANVERS COURIER: SATURDAY MORNING, OCT. 17, 1846.

Whig Nominations. ELECTION MONDAY, NOV. 9, 1846.

GEORGE N. BRIGGS

FOR LIEUT. GOVERNOR JOHN REED OF YARMOUTH.

For Representative to Congress, from 2d District, DANIEL P. KING, Of Danvers.

For Senators from Essex County, DENNIS CONDRY, of Newburyport. GEORGE HODGES, of Andorer. JAMES GREGORY, of Marblehead. JONA. C. PERKINS, of Salem. JOHN P. ALLEN, of Manchester.

The Senatorial Nominations.

It is with extreme reluctance that we feel compelled to withhold our full approbation from the proceedings of the Whig County Convention .-We felt that it was no more than reasonable that some consideration should be paid to the earnest wishes of the Whigs of Lyon and Danvers even if it was thought that they erred in judgement in the advocacy of their particular measures. The course adopted by the Convention in treating so caralierly the claims of the Danvers Whigs, has given umbrage to many of our citizens who are not directly interested in the Railroad undertaking and made a breach in the party which it will not be easy to repair. We regret this as Whigs on several accounts. It was the very worst policy that could be adopted for the success of the party and shows that its interests are not entrusted to the that they originated in hostility to a project which its enemies at the same time say cannot be earried into effect if a charter is granted. Nobody can tell of any evil that could result to the party. by a more conciliatory course and everybody may see the evils of the course adopted. Our political opponents are ever watchhiol and have wisely placed on their ticket, with one exception, men of liberal opinions in relation to Railroad Char ters ... Here they are clothed with an immensely powerful weapon with which to go into the political contest, for it will not be difficult for them to convince the people that a Corporation which has exclusive privileges against all competition in a certain portion of territory, is a MONOPOLY.

The question will inevitably take this shape before the people, and it is timet o consider whether the Whig party is to adopt this spurious Conservatism to maintain a doctrine which every day's experience and the advancing state of spejety

Have you been a false triend, deceiving compelled to admit that in some points of State policy, they profess at least, doctrines which we regard as true and liberal, but which are discarded by Whig Senators, while they are sustained by Whig REPRESENTATIVES and the Whig People.

What then Ishall be done? Shall we vote for Democratic Candidates, who hold the right opinions on this question of Monopoly? We say unhesitatingly NO. Remember that this year there is an important National as well as State election and one by sympathy may affect the other .-Therefore support only Whig measures and good their seats go to their body respectfully with your petition. Remember for your encouragement that almost the whole of the people are with you. That four fifths of the Representatives are with you, and that the conservatism of a Massachusetts Senate may yield to the popular voice as well as a British House of Peers. Place your claims on the ground of right to an iron highway of your own and not so much on the exact number of passengers and tons of trieght you may carry upon it. Tell them that if denied you will ask again

School Exhibition.

The Wallis School, situated in District No. 1, under the charge of Miss Buttrick, held an exhibition on Thursday afternoon, in presence of those of the parents and others who could attend, and a goodly num her were present. The scholars showed a very commendable profictency in their studies, and entertained the company with singing, recitations and dialogues, and a valedictory. The whole affair was got up with but little preparation, and was very creditable to the children and their teacher, as well as highly gratifyng to the company present.

We think an occasional gathering of this kind i very useful, as it affords parents an opportunity to witness the progress of their children, and excites the latter to greater attention to their studies. In this instance the earnest efforts and animated countenances of the little pupils showed how much interest they felt in doing their part in the exhibition, and they doubtless felt themselves several inches taller in the opportunity afforded them to display their acquirements before so many full grown persons.

We hope that similar meetings of parents and pa pils will be held in all our schools, as we doubt not they would prove very beneficial to both the parties.

Daring Robbery.

On Monday night the store of O. F. Batchelder, on Main street, in this town, was feloniously entered and several pieces of cloths, and some fancy goods stolen therefrom. We are informed that the value of the goods taken for as associated is about \$100. It is supposed that the rogue entered by means of a false key. The money-drawer was broken open and: as there was only a few coppers therein the thief probably thought it beneath his dignity to rifle it. Several pieces of of friction matches, partly burned, sprinkled about it would thus seem that the thief desired light of Salem, and then sought that part of the town rather than darkness though his deeds were evil.

BEAT THIS WITO CAN .- An old lady of this town, more than eighty years of age, recently piled up three cords of Eastern wood between the hours of 7 and 9 in the evening. There are many able bodied young men who would consider such an exploit not a very

Freedom, died on Monday.

A CAUTION TO SCHOOL MA'AMS .- Otis H. Morrill, a school-master of Lowell, was tried before the Court of Common Pleas, for whipping one of the boys,' and had to pay \$20.00 damages, and \$5 costs!

Correspondence of the Courier.

Fairhaven, Oct. 13, 1846.

This pleasant town is situated at the extreme south part of Massachusetts, on Buzzard's Bay. It is on an arm of the sea which forms an excelfrom which place it is separated only by the creek before mentioned, across which is a bridge nearly a mile in length, connecting the two towns. They ness necessarily gives employment to a large sinte of the oil market, as the weather by the mercury of the thermometer.

Fairhaven presents a fine appearance as it is seen from the more elevated parts of New Bed- happens frequently that they are unable to fill up The broad expanse of water between, with the little islands, the noble ships affoat, and the the voyage hridge make a pleasant foreground to the landscape, while the well huilt town stretching out on a level plain is exhibited to the eye of a their heads uncovered. Although it was a novelstranger to the very best advantage. Among the Ly to us, we learn that it is a practice much oband not refrain from asking until the principle phjects which arrest the eye of an observer from but besides this there is a more substantial reason for the granted.

stranger to the very best advantage. Entrong the served in many places, and the effect is pleasing, but besides this there is a more substantial reason for the practice in the freedom it gives to the vocal lolly spire of a large gothic church, a structure which is very beautiful and noble of itself, but which certainly from its disproportionate size compared with the objects around it and the ex-

> able rank for their enterprising character, their attention to the religious and moral wants of the population, their interest in the education of youth, and their habits of friendly and social intercourse. The men have the appearance one: would expect from the nature of their employment. Almost Captain," and if he does not prove to be the doctor or minister; you will be likely to be night.
>
> Ask who owns this or that fine house, and you ire sure to be rold "Caprain" Somehody. Nor is this title a mere sham like that of the militia ommander, but is really an indication that the holder of it has held a post of danger and peril as well as honor. It requires skill, judgement, courage and energy, and is calculated to give strength and firmness to the character. Hence we find in such a population so many men c strong physical power and determined will, such the 19th to the 14th ult. inclusive. is are almost sure to succeed in the world.

This town is laid out very regular, the street running at right angles, and although there are some very elegant mansions the houses are more generally of moderate size, tasteful in their deign, and usually with sufficient room about them goodly sized garden. There is a freshness and newn is about that part of the town farthest from the water, which shows it to be in a flourish enterprising firm have just set a Steam Cotton Fuctory in operation, the only one in the place. on the Fairliaven side, which bear off a part of the British fleet in the last war. The bul ldogs which 19th to the 24th inclusive. The action lasted then barked so loudly are now quietly sleeping in

the trenches. By the kindness of our friends here, we were enabled to make an excursion about the town of Taylor allowed might have been continued much heavy goods were throwndown and an abundance New Bedford in their company, and notice some of its many attractions. Among these are its splendid mansions and elegant gardens. We the floor, as if they had been used in lieu of a lamp, went first through its business streets which exand contrary to the plain declaration of scripture hibit a scene of busy activity so much unlike that where its wealthy citizens reside in their princely residences. Here again we could not but com pare much to the disadvantage of the city of Peace these mansions with the square red houses of Chesnut Street in Salem. Here are many superb structures in every variety of architecture rom the many cornered cottage in the most flurid gothic style, its grotesque carvings and painted gables, to the stately granite palace in all the forcements! Gen. Taylor probably understands gables, to the stately grantic palace in all the lorements; Gen. Laylor propably understands ing he would give Gen. Ampudia one hou grace and dignity of Grecian columns and entablished with the content of the content latures. Scarcely any two are alike even in their great fault to let Ampudia's force escape from with his officers. general resemblance, and all are surrounded by ample grounds and splendid gardens. We visited Monterey, and that the result of the last encounone of these and may convey some idea of it to ter must be disadvantageous to our army. Farththose of your readers who have seen the famous er particulars may place the matter in a more fasay that for extent and variety and beauty of arrangement the latter will not compare at all with in very different manner from that of the affairs the one at New Bedford. Its winding paths, its rustic bowers and enclosures, its hedges and green-houses, its famous grotto studded with sea shells, cural and pearl, its beds of flowers, its grapevines and fruit trees and forest trees-all together make tached to the elegant and princely dwellings in the upper part of the town. New Bedford has a population of 16,000 inhab-

itants and is still a town. It ought to be a city but it votes against the alteration. There is here a great deal of immorality, and the low and vicious portion are opposed to a city form of governmen vor of it-because it would possess more energy and power and provide a more vigilant police to tull of renegades from that scens of violence and blood. With such materials for a crew it often requires the most careful and energetic conduc on the part of the officers to keep the men under a proper subjection.

Every thing here, as I hefore stated, depends on the state of the market for oil. It holds a more important place here than leather in Danvers, and you cannot expect to overhear conversation in the pishes the following particulars:

affort all the time from these two towns. Many of these are not residents here or anywhere else. and of the remainder many are without families, but it is said that more than a thousand married lent harbor, both for this town and New Bedford, men are all the time absent on voyages of from two to four years. Same of them do not live on shore more than six months in a dozen years. Their discousofate wives are here technically are also connected by a steam ferry. The prin-called Cape Hoyn widnes. It is often the case cipal and almost the only business of the place is that they do not hear for a long time from their the whale fishery, which is carried on from here husbands who are in the mean time exposed to to an astonishing extent. It is estimated that great perils and they may be real widows many there are now 380 wholing ships which sail from thouths before they are aware of their loss. It this barbor, making it the third or fourth port in may therefore well be imagined with what anxiety Whig men. After they are elected and taken the Union for amount of tonnage. The oil busiceived. The news is sought for with the greatest class of mechanics and others who are indirectly avidity by the whole population, women as wel interested in its success; and the prosperity of as mea, who wish to know the prospect of their these two places is as surely indicated by the friends, return They estimate the time of the voyage by the number of barrels of oil which they have taken and the number that it, will require to complete the cargo, Li however unfortunately the ships within the longest period assigned for

water is very fine as the town rises gradually from the harbor, and almost every building is in fair tent of the town, rather mars than adds to the view. The streets of the town are well lighted so that in the evening the town appears to be ilbeauty of the picture.

From what we could learn of the people of loudinated, the bright lights shining in every partition, what we could learn of the people of loudinated, the bright lights in the greate that risk Firm what we could learn of the people of the brilliant rows of lights in the streets that rise Fairhaven we should judge that they held a reput-the brilliant rows of lights in the streets that rise Fairhaven we should judge that they held a reput-the brilliant rows of lights in the streets that rise from the water, looking like a torch light progession only that they are stationary. In thus lighting up their town the inhabitants are offering at example, which it followed in other places, would open a more extensive market for their oil.

More News From Mexico. IMPORTANT BATTLE, CAPTURE OF MONTEREY.

A slip was received in Washington on Sunday evening, from the office of the New Orleans Picayune, dated Sunday morning, October 4, giving an account of the arrival at that port of the steam er James M. Day, from Point Isabel, and the particulars of Gen. Taylor's proceedings from

A great battle has been fought, and Monterey is in possession of the Americans, but we do not see that the victory is remarkable for anything except the obstacles overcome, or that it gives the Americans any great advantages. Although harder contested than the battles of May, the splendor of the result is far less than in those engagements ing and advancing state of improvement. An and we doubt not that the actual effect will be to raise confidence in the Mexicans. The story is quite too modestly fold, indeed, for a great victory, during four days, the 21st, 22d, 23d, and part of the 24th, and as appears by the terms which Gen. longer. Three Hundred Americans were killed, and two hundred wounded, and we shall likely enough find that five hundred were killed; the Mexican loss was LESS—as much as to say it was very triffing. The city was finally not carried by the Americans, but acquired by terms with the enemy, and what terms for a victor! Ampudia allowed to march out all his men with their arms even to a portion of their cannon and ammunition, als. and given seven days to occupy the stronger heights of Saltillo, improve his defences and collect reinvorable light; but not unless the news is reported in the commencement of the war. Newburyport

Gen. Taylor with 6000 men arrived before Montery on the 19th, and immediately commenced preparations to assail the town. Gen. Worth commanded the artack on the 21st, near the Bishop's palace, which was taken.

The town was found to be fortified almost be

youd belief; and so desperate was the resistance that the battle continued for three days. A portion of the enemy's works were first taken and then our capnon and what we had taken of

theirs, were turned upon the town. The whole number of Mexican troops at Mon terey is stated at about 10,000; -ours were only

On the 23d, Ampudia, the Mexican command Gen. Taylor at first refused the terms, but finally consented to them with a little modification.

The only alloy to this gallant exploit is the loss of about 300 brave fellows killed, and 200 wounded, on our side. The loss of Mexicans is stated to be much greater. The greatest loss to our troops was in the gallant attack of the 21st, on the enemy's cavalary

and artillery, who were strongly posted on an eminence near the Bishop's palace The later telegraph report, in the Times, fur-

A SISTER'S Love.—The editor of the 'Prisioner's and 'ship.' And why should it not be so? It is crations of Gen. Worth, and the 10 inch mortais Friently in a recent letter from Hartford says, in oit that gives them their support. Garland Two 12 p ders and I hewitzer, were captured in the fort 3 officers and 20 pr 30 men taken prisoners, One of the 12 pounders was served against

second fort, and defended it with captured am nition, during the remainder of the day by C Ridgely. The storming parties of General Wo division also captured two 9 pounders, which also immediately turned against their former of

On the morning of the 22d, Gen. Worth con ued his operations, and portions of his divi stormed and carried successfully the heights al the Bishop's Palace. Both were carried by a mand under Capt. Vinton of the Third Artiller The company of Louisiana troops under C Blanchard, and a part of Capt'. Vinton's comm

four pieces of artillery, with a good supply of munition, some of which were immediately t ed upon the enemy's defences in the city. On the evening of the 22nd, Col. Garland nis command were relieved, as the garrison of captured Forts, by Gen. Quitman, with the I

performed effective and gallaut service by ta

nies of the Kentucky Regiments. Early on the morning of 23d, Gen. Quitn from his position, discovered that the second third forts, and defences east of the city had entirely abandoned by the enemy, who appreh ing another assault on the night of the 22d retired from all his defences to the main plaza its immediate vicinity).

A command of two companies of Mississ and two of Tennessee troops, were then the hotly engaged with the enemy. These were supported by Col. Woods' Regiment of Texas I gers, dismounted, by Braggs' Light Battery Third Infantry, who kept on the enemy's he constant and uninterrupted fire from the st honsetops, barricades, &c. &c., in the vicini

This engagement lasted the best of the da Our troops having driven the scattered partie the enemy and penetrated quite to the defence the main Places, the advantage thus gaine was not considered necessary to hold, as the my had premanently abandoned the city; and lefences, except the main Placea, its immed vicinity, and the cathedral fort or citadel?

Early in the afternoon of the same day Ge

al Worth assaulted from the Bishop's palace, side of the city, and succeeded in driving the my and maintained his position within a short tance of the main Placea on that side of the

The mortar had also been planted in the certery inclosure, and during the right did great e cution in the circumscribed camp of the enem the Placea. Thus ended the operations of Early on the morning of the 24th, a comm

cation was sent to Gen. Taylor, from Gen, pudia, under a flag, making an offer of capit tion, to which the former refused to accede, a asked more than the American commander w under any consideration grant? At the same time a demand to surrender

in reply made upon General Ampudia, an 'clock at noon was the hour at which the fo tance or none acceptance was to be communic to the American General, At 11 A. M., the Mexican General sent

questing a personal conference with General I rank on either side accompanying their Ge After several offers in relation to the capital

tion of the city, made on citlier side and refu at half past 4 P. M. Gen. Taylor arose, and At the expitation of the hour the discharge of

mortars was to be the signal for the recomme ment of hostilities.

Before the expiration of the hour, however, officer was sent on the part of Gen. Ampudia inform the American' General that, to avoid farther effusion of blood, the national honor be satisfied by the exertion of the Mexican troops, had after consultation with his general offic decided to capitulate, accepting the offer of American General.

The terms of capitulation were in effect as lows:—That the Mexican officers should be lowed to march out with their side arms; he cavalry and infantry be allowed to march with their arms and accourrements; that the illery should be allowed to march out with onttery of 6 pieces, and 21 rounds of ammuniti that all other munitions of war and supp should be turned over to a board of American cers appointed to receive them; that the Mexi army should be allowed? days to evacuate city; and that the American troops should occupy it until evacuated; that the cathedral or chadel, should be evacuated at 10 A.M., and the cathedral day, 25th; the Mexicans then marching out. American garrison marching in; that the Me hauled down; that there should be an armis of eight weeks, during which time neither ar should pass a line running from the Rancon through Linares and San Fernando. This lenin offer of the American General was dictated v the concurrence of his Generals, and by morive good policy. This consideration was due to good defence of their city by the Mexican army

Official Despatches have been teceived fr Gen. Paylor which do not differ materially in the above account, while they give a less min description,

For the Courier

Senatorial Ticket. If the people of Danvers expect to get a new R ond to Boston, they must vote for men for the Sen who are in favor of it. Now I dislike as much any one to vote for any except the regular noming of the Whig party, but I cannot sacrifice initallet

ELECTIONS.

ALL HAIL PENNSYLVANIA. VICTORY, VICTORY, VICTORY ! COMMENTS OF THE OLD KEY STONE ON THE TARIFF OF '40,

The news received last evening, by the Long Island Mail, from the old Key Stone State, is glorious beyond the most sanguine expectations of any one. James M. Power, Whig, is without doubt elected Canal Commissioner, by a large majority, although the Natives have polled twonty thousand voies. The Legislature is, without doubt, Whig, as we have carried Camberland, Bucks and Schnylkill counties, all of Whish were Loco Focu last year.

Comberland, Bucks and Schnykhii counties, all of which were Loco Foco last year.

In the present Congress, Pennsylvania has ten Whigs, two Natives, and twelve Loco Focos. Thus far the Whigs have gained FOUR and lost NONE—
The Locos have lost four and gained one. The Natives have lost one. tives have lost one, L. C. Levin, Native, is re elected in the 1st Dis-

triot by 452 majority.

Joseph R Ingersoll is re-elected in the 2d, by two

In the 3d, Charles Brown, in place of John H. Campbell, Native. In the 4th, C J Ingersoll, re-elected.

In the 5th, composed of Montgomery and Dela-wore, Friedly, Whig, is elected in place of Jacob S Yost, Loco. In 1814, this District gave Polk 481 ma-

jority.
In the 6th, Bucks and Lehigh, J W Hornbeck, Whig, in place of Jacub Erdman, Laco. In 1814 this District gave Polk 617 majority.

In the Sth, Laucaster, John Strohm, Whig, re-elect-

In the 5th, Laucaster, John Strolm, Whig, re-elected by a large majority.

In the 5th, S W Strong, by only 1000 majority.—

In 1844, the Polk majority was 4544,

In the 14th, Dauphin, Lebanon and Schuyikill, G.

M Eckert, Whig.

In the 15th, York and Adams, Henry Nes, Whig gain, in Place of Moses McCleath. In 1844, Polk had a majority of 15thin this District.

In the 46th, J. Brady, Whig, in place of James Black, Loca. In 1844 this District gave polk 411 majority.

jority, The Whigs of the Ohl Key Stone have done won-

ders .- Bost. Allas. We have news from Maryland, of a most encouraging and unexpected Whig victory. The city of Baltimore is redeemed from locofocoism,

having elected the State Senator and two delegates to the General Assembly. In the Baltin ore wards which compose the 4th Congressional district, the Whig majority is 581! This will give us Mr. Kennedy, or some other good Whig, in place of Mr. Giles, who now misrepresents the district. The triumph is general throughout the State. There is scarcely a foothold left for loco-

GEORGIA.

The election for eight members of Congress, took place in Georgia last Monday. We have as yet only incomplete returns, but they are most auspicious. Savannah, in which the Locos usually have a majority, has given Hon. Thomas Butler King a majority of 211.

Maine. - The House now stands 55 Whigs to 52 Locos. The next trial takes place on Monday next.

North Danvers Lyceum.

Fictcher Webster, Esq., of Boston, is anguged to deiver two lectures on China, the first of which will be given at Granite Hall, on Tuesday evening next, the 20th inst, at 7 1-2 o'clock.

Mr. W's connection with Mr. Cushing's Mission to China, gave him great opportunity for observing the manners and customs of this wonderful people. Other distinguished lecturers are expected to follow Mr. Webster, once a fortnight.

At the Loco Foco Convention on Wednesday last, Geo. W. Dike, of Stoneham, was nominated as a candidne for Representative for the 2d District.

Our readers will notice the call in another column for a Whig meeting at "Granite Hall."

Acceptance of My. King.

Gentlemen—I have received your letter informing the that the Whig Delegates of the several lowns in this District, assumbled for the purpose of nominating a candidate to represent the District in the next Congress, have, with entire unanimity, selected melocomers, have, with entire unanimity, selected melocomers, have, with entire unanimity, selected melocomers, the very articles for Weddings and desire through you to express to the members of the Convention and to the Whigs whom they represent, any heartleft gratitude for this distinguished mark of their confidence, and for the kind construction they have given to my official conduct. If re-elected, I their confidence, and for the kind constructor, there given to my official conduct. If re-elected, I ols; Views in Switzerland, in guilt, highly ornamic prumise them zeal and induity; I wish my ability to serve a constituency so generous and confiding, was store of the serve as constituency so generous and confiding, was store of

serve a constituency so generous and confiding, was equal to my disposition.

In my opposition to the continuance and extension of the Slave power and the nanencessary and unhaly war which has grown out of it, I have been strengthened and encouraged by the conviction that the people of this District love freedom and pence and national huner too dearily to make a sacrifice of them for political influence or furthe acquisition of territory. In my attachment to the Union, and my regard for the Constitution and the general welfare, I have never forgetten that I am a Northern man, and a Massachusetts man; while I have a seat in the Councils of the Nation. I can gerer forget that I am the free representative of a free penale.

To me it is matter of satisfaction, that by no act of mind.

To me it is matter of satisfaction, that by no act of mind.

To me it is matter of satisfaction, that by no act of mind. To me it is matter of satisfaction, that by no act of mine To me it is matter of satisfaction, that by no act of mine has hunest labor been robbed of its just and merited reward; by no act of mine have the rights of the people been trampled man, or executive usurpations ententaged; by no vide of their representative have the people of this listrict been made partakers in the guilt and shame of a borbarous war—(for, at the hest, all war is barharous)—upon a feelile and distracted sister republic. Your letter, gentlemen, and the Resalutions adopted by the Convention of which you are the organ, assure me that I have the approbation of my constituents;—their approbation is a precious reward, and it shall by my carnest endeavor to deserve its continuance.

With assurances of respect and esteem,
Your obedient servant,
DANIEL P. KING.

Ta Hon. R. S. Dantols, and Ahel Nowhall, Esq.

We would recommend to all those who are suffering frum indigestion, loss of appetite, dyspepsin; or scrofulans humors, or any complaints that require a parifier of the bland, to procure a battle of Ransom & Stevens' Dandelion and Tomato Panacca, which is the best medicine now in use for the above complaints. If embaces in its composition the strong Extracts of Sarsaparilla, Dandelion, and Tomatoes, than which Sarsaparilla, Dandelion, and Toinatoes, that which there are no better medicine for dispelling disease from the system. It is highly spoken of by the press and recommended by physicians as the best medicine now in use. It is manufactured by James Kidder, new in use. It is manufactured by James Kidder, East Boston, and may be had of his Agents. See advented that it another column. 2w july 18. vertisment in another column. 2w july 18.

MECHANICAL AND DENTAL

OR the purpose of introducing more extensively in many important respects, in entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only, give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the morer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is posniarly and especially addapted to whole and half sets, where the alveolar or dapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that corted work in blocks, prepared expressly for each mase, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and hips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is consequently are thus fully met by this mode, and it is not cerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this bigoniously wrought black-work, to comedy the defects above referred to hlack-work, to remely the delects above reterred to that so many are unsuccessful in giving catalogical their plate-work.—especially in whole and half sets.

Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are modeled to fit the plate in the most perfect manage of the floor positions of magnitude ford. ner, the finer particles of masticated food, with the ner, the liner particles of missicated tood, with the liquors of the mouth, will, as a matter of course; pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and thint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in musticating food; otherwise, the whole work will prove a source of continual annoyance, by its instidbitity, folling down, and other inconveniences, only known to those who have worn them. There are ather advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the substriber's office which the public are respectfully invited to examing liquors of the mouth, will, us a mutter of course; pass which the public are respectfully invited to examine fur themselves. They consist of whole and half sets; and a variety of cases of smaller quagnitude, where great difficulty in execution is overcome. They can-

TERMS. Up to January 1, 1847, the following terms will be strictly chserved for all cuses of plate work from a single tooth to a whole set, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the paterials.

not fail to excite admiration from all who are pleased

that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilia and Tomatoes. These two articles need no praise, neither do the celebrated Lorraine's Pills, when they have taken to the composition.

Physicians, and people of every class are willing to come forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In act there can be no doubt but that Lorraine's veg-table Pills is the best medicine ever offered to the

Sec a few public statements of men of truth and vir

Lynn, Dec. 17th, 1843.

Sir; I have sold all the pills I last had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor. Lynn, Dec. 17th, 1843. her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where the cures have been as great, but have not

Yours respectfully, J. E. F. MARSH.

A hacking cough constantly annoyed me! Boston, Mass.,

June 1st; 1814 Sir, In February last, I took a sudden cold, after which a hacking cough constantly amoyed me, and this, combined with my other muladies, rendered me truly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILLS and now every body tells me that I am well;—I fee as well as ever I did.

J.E.S. McKEY;

Portland, Me., Nov. 7th, 1843

Str: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had uo fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable cer could have quite a number of highly respectable cer uficates from our citizens. Respectfully yours,

E. MASON.

Chelsea. Jan- 3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole win ter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith, whatever, but I cook them and it is a salemy fact that what. ook them, and it is a solemn fact that when I had aken but eight pills! my Rheumatism had entirefy eft me, and I have remained well ever since.

N. B. I never took more than one pill at a time N. B. I never took and that on going to bed.

Yours respectfully,

W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I took LORRAINE'S VEGETABLE PLLS, which gaveimmediate relief, and have entirely cured me.
Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !!

A severe pain, in both sides cured!!

LOWELL, Mass.,
April 20th 1944.

Sir,—For the last few months I have been afflicad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

Sir: I could fill the whole of the Sentinel with into the bowels, and causes a free circulation, annilar letters to the above, but believing the above lates the whole system, and thereby prevents Costaveness. extracts will serve for useful purposes for the present I omit more. MABDOMINAL SUPPORTERS. NEW ENGLAND TRUSS MANUFACTORY, BOSTON, MASS.

JAMES FREDERICK FOSTER

JAMES FREDERICK FOSTER
Continues to manufacture all the various approved TRUSSES, at his Old Stand, No. 305 (opposite No. 264)
Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at house nearly the whole of the time, day or evening. He has more room and better convenionces for the Truss business than any other, person engaged in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him.

Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Read's Spiral Truss, Rundell's du; Salmon's Ball and Socket; Sherman's patent French'do; Bateman's do, double and single; Stone's Trusses; also, Trusses for children, of all sizse; Dr. Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by, his wife, Mrs. Caroline D. Foster, who has had ten years experience in the business.

CERTIFICATES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons at

CERTIFICATES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons at flicted with Hernia, having suffered much from the want of skilful workinen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

In the sent many, patients to be fitted with Trasses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, donfidently helicing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

well fitted.

From Dr. Robbins, Rozbury.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. Foster, of Boston.

P. G. ROBBINS, M. D.

Boster, of Boston.

Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J.
F. Foster, to mainfacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will, favorably compare with that of other artists.

J. V. C. SMITH,
Editor of the Boston Medical and Surgical Journal.

Hints for the Warm Season. HIS wonderful compound combines MED HIS wonderful compound combines IME Ly 1CAL POWERS over all other preparations ever formed for the relief of those diseases for which it is recommended, such as headache, dizzmess, sleepiness, noise, in the Head, bad taste in the mouth, nausea, or sickness in the stomach, loss of appetite, indigestion, Dyspepsia fever and ague, pain after cating, sour stomach, hearthurn jaundice costiveness, determination of Heod to the head piles, coughs, eolds, pain in the side, back, limbs; and joints, rheumatism, all chronic diseases, scrofulous humors, Salt Rheum, and all Cutaneous cruptions of the skin, general debility, &c.

general debility, &c.

The Dandelion and Tomato Panacea is particularly recommended in cases of INDIGESTION and DYSPEPSIA. The following are some of its distressing symptoms, palpitation of the heart, hearthurn, loss of appetite, pain after eating, languor, melaucholy, restlessness &c. It will cure the worst diseases of Rheumatism, and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation.

The Dandelion and Tomato Panacea is as

POETRY.

The Indian Summer. It comes, it comes with golden sheaf,
In the time of the sere and yellow leaf,
And it fings the fruit from the bended tree,
And scatters it round in its reckless glee,
It plays on the brow of the maiden fulr,
And parts, with its fingers, her raven hair.

It comes, if comes, and its minstrel's wing O'er the glassy lake is quivering,
With music soft as the mellow strain Of zephyrs over the swelling main, It gladdens the vales as it floats along, And stream and mountain re-echo the song.

It comes, it comes, like a fairy sprite, Arrayed in robes of gossamer white, And the carpet of leaves on the ground is spread, And the flowers yield neath its conquering tread, For it strides along in its kindly way, Like shadows that flit at the close of day.

It comes, it comes, and the ripened grain
Is wreathing crowns for its golden rain,
And the bright eye sparkles with liquid light,
Like the star enthroned on the brow of night, And the teeming fields their offerings bring, At the sainted shrine of the Autumn King.

To a Rose. BY WALLER.

Tell her that wastes her time and me, That now she knows, When I resemble her to thee, How sweet and fair she seems to be.

Tell her that's young,
And shans to have her graces spied,
That hadst thou sprung
In deserts where no men abide, Thou must have uncommended died.

Small is the worth

Of beauty from the light retired;

Bid her come forth—

Suffer herself, to be desired,

And not blash so to be admired!

Then die! that she
The common fate of all things rare
May read, in thee,
How small a part of Time they share
That are so wondrous sweet and fair!

A Poor Scholar's Song. Oh 7 I'm a poor scholar,
And scarce worth a dollar,
But my heart is as light as my purse;
And the mud that I peel, From my oft cobbled heel . Is my landed estate-and no worse.

But oh! I'm a roamer
Of Plato and Homer,
Not a slave that for earthly dross delyes; Intellectual ore And the mines are you worm eaten shelves.

I pity, not curse,
Him of surfeited purse,
Who deems my worn sleeve is a sin;
Like my books, it will be found,
That, though seedily bound, Still I'm illumined within.

For the brow in its sweat Ever earthwards is set,
Till the soul is a worm in the clay;
But the toil of the brain Weans that soul from its chain Till it soar, like a falcon, away !

The long, oaken table was spread with its snowy cloth in the high, broad hall of General Irving, and choice but substantial luxuries that always compused the dinner of the hospitable owner, had been carefully arranged in their respective places.

The General, a noble looking middle-awas sented at the booking mi

The long, other chief with the second of the street of the second of the

assembled round that hospitable board, we would ask particular attention to Alice Irving herself, as one who claims a permanent place in this simple story. She was a wild, impulsive creature, as might be seen from her flashing glance, and the stuny smiles that danced amid the dimples of her face, and the thoughtfulness, that the next moment is stuny smiles that danced amid the dimples of her face, and the thoughtfulness, that the next moment is stuny smiles that danced amid the dimples of her face, and the thoughtfulness, that the next moment is stuny smiles that danced amid the dimples of her from the By her friends, however, she was well understood, and the occasional outbreaks of the frolicksome spirit it seemed impossible to repress, was amply compensated for, by the unvarying gentleness and warm affection of her dature. From time to time, during that pleasant dinner hour, the calm dark eye of Captain Forrest would rest reproving upon the fair girl, whenever her light laugh rang thrillingly clear through the long hall, and her wild mirth provoked a gentle repressible many this head, lest the witchery of that, look, Ferrest was fain to turn away his head, lest the witchery of that, look,

which he sat, or the plumes of his cap affixed to the venetian blinds of the window he might chance to be near, so that when he attempted to rise the cap forsook his head, and remained dangling above the casement. More than once had he received a shower of rose leaves into his face from an invisible hand, when he was sitting at twilight out upon the balcony of the house, or in taking down his sash that hung in the hall, and that constituted a part of his uniform, found it field and twisted into twenty love knots, that it might puzzle a philosopher to unravel.

'Alice, my darling,' said Mrs. Irving, as that little personage came flying into the saloon where the family were sitting, lier face all in a glow, and her apron filled with wild flowers, 'Alice, I would not wander every day so far for those roses. You have sweet ones in your own garden, and it is not safe to got a word distance from home. CHAPTER II. is not safe to go at a great distance from home a-

'Yes, Sis, exclaimed Charles Irving, Mother is right. The tories are prowling about the neighborhood, and next news, will capture you in your wild wood rambles."

ild wood rambles. And the state of the state dear mamma! these flowers are so much lovelier than my garden ones, and sweeter too! see!! she added, displaying her fragrant burthen, 'are they not darlings! let me fix this rose in your hair; O I how lovely, and she kissed her mother's check

warmly as she spoke. tion is, I regret to say, far from unnecessary. I Irving uppermost. At the close of the afternoon, take, while so many lawless plunderers are cruising tound. In think we must interdict them? Allice and less of the lore on the lore was speaking, and ther large wild eyes that grown large and wilder till she chanced to meet the strange wild eyes that grown smile of young Porrest, then the sweet laugh in a few tought the room.

A Backwoods Jury.

In think we must interdict them? Allice is gone, has been taken brave Captain Forrest, who will run after the red coats and rescue me. Would you note Captain? The press of the afternoon, and in the large wild one word of greeting, or token of received and rescue me. Would you note Captain? The press of the afternoon, and in the sat, scattering half a dozen bright flowers over I am in 'pursuit of the distardly scoundrels. coats and rescue me. Would you not, Capthin? to us! Alice! our Alice is gone, has been taken of morals, was induced, amprisoned, and about to she added, as she danced towards the sofa where from us before our eyes, scarce ten minutes ago, he tried for stealing, certain smoked hog—better the sat, scattering half a dozen bright flowers over the carpet, and nestling at his side. The young man laid his hand caressingly upon her soft, disheveled curls, and gazed with affectionate feeling into the dimpled face upraised to his.

(Charles, 'he said, 'be calm, and extending and extern it my high-left?)

(Charles, 'he said, 'be calm, and extending and at the urgent request of the unfortunate vicinity of the dimpled face upraised to his.

(Charles, 'Miss Irring and extern it my high-left?)

into the dimpled face upraised to his.

'Certainly, Miss Irving, and esteem it my highest honor, unless,' he added playfully, 'I should find my coat fastened to a chair, so as to impede my progress.'

A shout from Charles, who had frequently him-

sary to sustain an equilibrium. Forrest could scarce restrain a smile, as his eye fell upon the gipsey-locking rider, but the smile vanished in an instant, when Charles added, 'She is going out into the road, Forrest! and may be mistaken for an ... American regiment by the red coats prowling the bushes yonder, I must go after

'I will accompany you then,' said Forrest eagerly, 'though I must go hatess.'
They crossed the lawn, and had nearly reached the gate, when a sharp rifle echo fell upon their through the gate. The next mo-

Captain Forrest in complete uniform, was about

Captain Forrest in complete uniform, was about taking leave of the friendly little group, by whom he had been so kindly cherished. It may be two or three years, he said clasping General Irving's or three years, he said clasping General Irving's extended hand, 'before I shall see you all again.' When he turned towards Alice, her bright eyes were full of tears, they were the first Forrest had ever seen there, and his heart grew sadder, as he noticed them. Drawing her gently forward from hehind the cluster of jessamines were she stood half concehled, he bent to kiss her sweet forehead, and murmuring a 'God bless you,' turned hastily away.

The half concehled, he bent to kiss her sweet forehead, and murmuring a 'God bless you,' turned hastily it before.'

Captain Forrest felt the same hand he ventured to high from his touch, and those brown eyes that once looked so laughingly into his, droop beneath his gazë.

She has chaaged,' he thought, 'but her present one head in, with a small hole for the smake, and half concehled, he bent to kiss her sweet forehead, and murmuring a 'God bless you,' turned hastily away.

CHAPTER IV.

Nearly three years flew by, and the war had drawn nearly to a close, though the retreat of the vanquished British, was marked by unusual outrage

dwelling, intending to allow the troops a halt of several days, while he went forward to call on his friend. He sent a message to apprize the General of his intended arrival, and an answer was returned of warm welcome. turned of warm welcome.

Early in the morning of a cloudless June day, Captain Forrest set out upon his visit, with a pleasant feeling at his heart, and thoughts of Alice

A shout from Charles, who had frequently himself suffered from his sister's depredations, at rested the gay retort that rase to Alice's lips, and
turning suddenly round, 'you need not laugh so
wickedly Charlie!' she exclaimed, 'for Lam sure
you would be second, if not first in my defence,
even if your coat was fustened to twenty chairs,
lean I confess now I would you not it.

And now that we have introduced each person guileless of saddle and bridle, with Forrest's cap a frantic cry, dashed into the small band of tories, assembled round that hospitable board, we would sak particular attention to Alice Irving herself, as ferance rendering the support of one hand necessfollowed by Forrest and the attendants, the former, followed by Forrest and the attendants, the former, are not place in this simple sarv to sustain an equilibrium. the nuttering of temale garments, plunged through the midst, and opposed, face to face, a dark, fiend-ish-looking man, upon whose arm lay the apparation of the Times.

ently lifeless form of Alice Irving.
Yield her or die! was his only exclamation, as
he aimed repeated thrusts at his adversary, who, burthened by the lovely girl upon his shoulder, made an ineffectual resistance, and Forrest received his captive upon his own bosom.

No sooner was Alice once more safe, than the

a bewitching smile and a glance so full of an irrepressible glee, Captain Forrest, was, fain to turn away his head, lest the witchery of that lock, should, prove contagious. But, he had known Alice for some time, and was begoning accustomed to her, wildness, he was beginning, too, to feel the inflence of her sunny temper, though he often the plumes of the sunny temper, though he often the plumes of the sunny temper, though he often the plumes of the sunny temper, though he often the plumes of the sunny temper, though he often the plumes of the sunny temper, though he often the plumes of the sunny temper, though he often the plumes of the sunny temper, though he often the plumes of the sunny temper, though he form, which he say the three years, while the sunny in the plumes of the sunny temper, though he form, while the sunny temper, though he form, while the sunny temper, though he form, while the sunny temper, the plumes of the sunny temper, the plumes of the sunny temper, the plumes of the sunny temper. The sunny temper the sunn Captain Forrest was at her side in an instant, and resting upon his and her brother's arms she walked slowly between them to the house.—Scarce had they crossed the threshold, however, before she sank back upon Charles's bosom in a denth-like swoon. For sevenl days she remained quite ill, until the wound in her arm gradually healing, she recovered strength and spirits.

It was a bright morning sometime, after Alice's recovery, that the family of General Irving were assembled out upon the piazza before the house.

Captain Forrest in complete uniform, was about the lawn to aid in the search for his captured daughter, and still no signs of life were evinced in Alice. It was not until her mother folded her in a warm embrace, that she nuclosed her eyes and spoke. A happy family party were assembled that evening in General Irving's parlor, and Captain Forrest found it impossible to withdraw his eyes from one fair form, that seemed suddenly to have engrossed his whole attention. And Alice, when she met his dark eloquent gaze, strove in vain to restrain the glow that rose to her cheek, I and the indefinable sensations that thronged her have engrossed his whole attention. And Alice, Farmers' Club at New York.

It was a year, and a little more, from the time

of Alice Irving's capture by, the tpries. A brilliant welding had taken place the preceding day at the hospitable manistion, and in the twilight, near Captain Forrest, returning with his regiment the window, were sitting all alone, Captain Forrest and Alice. She looked as though she had heen coaxing back to her sweet face, the wild dwelling intending the neighborhood of General Irving's than ever use resting his cheek upon the bright head pillowed against his shoulder, he whispered, 'My own little wife.'
They had been married but the day before.

'Judge,' said the released culprit, with a knowle ing wink, 'eight on' cm had some of the bacon!'.

The rascal knew perfectly well that the erabanence of the counsel would shelter the Jury in

Queen Victoria's Empire.

The Queen of England is now Sovereign over one continent, a hundred peninsulars, five hundred promentories, a thousand lakes, two thousand and rivers, and ten thousand islands. She waves her hand, and five hundred thousand warriors march to battle, to conquer or die. She bends remaining tories were suffered to escape, leaving two of their number wounded by the road side, in the extreme haste with which they dispersed.

My sister my sweet sister 2 exclaimed Charles, and one hundred thousand sailors perform the earth and one hundred and twenty millions of human them, without his rider. Heavens! exclaimed in the extreme haste with which they dispersed. She walks upon the earth and one hundred thousand sailors perform here. The exclaimed them, without his rider. Heavens! exclaimed to her! My sister my sweet sister a exclaimed Charles, and taking his charles Irving, some harm has happened to her! The earth and the condition of the carry willions of human and one hundred and twenty willions of human and one hundred and twenty willions of human and one hundred and twenty willions of human here. A turn in the road brought them in sight of his gallant friend, and taking his lifeless burden from his arms, Forcest looked there, and one hundred and twenty willions of human being feel the slightest pressure of her footstep. Come, all conquerors, and kneel before the Queen of England, and acknowledge the superior extent on her brother's bosom, fair, pale and still as of her dependent provinces, her sublugated king-death, the long, dark brown burds streaming wild-like the superior extent of her dependent provinces, her sublugated king-death, the long, dark brown burds streaming wild-like the superior extent of her dependent provinces, her sublugated king-death, the long, dark brown burds streaming wild-like the superior extent of her dependent provinces, her sublugated king-death, the long, dark brown burds streaming wild-like the superior extent of her dependent provinces, her sublugated king-death, the long, dark brown burds streaming wild-like the superior extends the superior extends the condition of the ocean. She walks upon the earth and one hundred thousand sailors perform her and a hundred thousand sailors perform her and a hundred thousand sailors perform her and a hundred thousand sailors perform her and one hundred thousand sailors perform her and one hundred thousand sailors perform her and stream her and stream her and the superior death, the long that the superior death and th Charles Irving, 'some harm has happened to there.'

A turn in the road brought them in sight of lifeless burden from his arms, Forgest looked there, Alturn in the road brought them in sight of lifeless burden from his arms, Forgest looked there, Alturn in the road brought them in sight of lifeless burden from his arms, Forgest looked there, Alturn in the road brought them in sight of lifeless burden from his arms, Forgest looked there, Alturn in the road brought them in sight of lifeless burden from his arms, Forgest looked there, Alturn in the road brought them in sight of lifeless burden from his arms, Forgest looked there, and the rescaled as she lay upon the ground, and a red siam oozing from her arm, dyeing her snowy mustin sleeve. The Arabian sleeping death, the long, dark brown burls streaming wild-death, the long, dark brown burls streaming wild-deat tory than Tamerlane, the Tartar, ever spurred his horse's hoofs across. [Finch, boundaries of Empires.

Superior Mode of Curing Hams,

Agreeable to your request, I herewith send you that evening in General Irving's partor, and Captain Forrest found it impossible to withdraw his cyes from one fair form, that seemed suddenly to of the American Agricultural. Association and the

I make a pickle of two quarts of salt, to which I added one onnce of summer savory, one ditto of and the indefinable sensations that thronged her sweet marjoram, one ditto allspice, half ditto saltpetre, and one pound brown sugar; boiled the whole tagether and applied the mixture boiling.

Good Advice .- Dow, ju, in his sermon of last week gives the following very excellent; advice to the young ladies of his fluck :— The buxom, brigh: eyed, rosy checked, full

breasted bouncing lass—who can darn a stocking mend frowsers, make her own frocks, command a regiment of nots and kettles, feed the pigs, chop wood, milk cows, wrestle with the boys, and never fall under, and 'a lady withal in 'company,' is just the sort of girl for me, and for any worthy man to marry; but you, ye pining, moping, loll-ing, screwed up, wasp-waisied, doll-dressed, puttyfaced, consumption mortgaged, music-murdering, novel devouring daughters of Fashion and Idleness—you are no more fit for matrimony, than a

Winter is Coming.

We are admonished by the lowering sky-tha chilling winds-the frosty nights-the pattering rain—the mod—cold fingers, and sundry other unmistakeable signs, that winter is at hand—and her? The British, Forrest, answered Charles Irving by an effort controlling his wild haste, 'a party of skirmishers, five or six in number. I saw them disappear with her over the hill yonder but a moment 'ago, for she was out on the road-side when they seized her. And she is at their mercy defenceless and alone! Forrest,' he added, with a dash of the spur that made the noble animal he that a spring forward and tremble all over. Forthe bacon was found in his actual possessive the bacon was found in his actual possessive the bacon was found in his actual possessive the bacon was found to be could do nothing for taking the fee, saying that he could do nothing for taking the fee, saying that he could do nothing for the back to cold. Calk up every crevice and cranny, for old taking the fee, saying that his conviction was certain.

Prisoner—But, Judge, I want you to get up and frosty breath. He'll nip the budding plants that frosty because here were a with so much tender care, to

and only let the symp simmer, as hard boiling breaks the truit. Take it out when the apple is tender through. At the end of a week, boil them once more in the syrup.

DANVERS COURIER: SATURDAY MORNING, OCT. 24, 1846

Whig Nominations. ELECTION MONDAY, NOV. 9, 1846.

GEORGE N. BRIGGS

FOR LIEUT. GOVERNOR JOHN REED

For Representative to Congress, from 2d District, DANIEL P. KING,

For Senators from Essex County, DENNIS CONDRY, of Newburyport. GEORGE HODGES, of Andoner.

JAMES GREGORY, of Marblehead. JONA. C. PERKINS, of Salem... JOHN P. ALLEN, of Manchester.

The War.

There appears to be no present prospect of the terinination of the war in which we are now engaged with Mexico. Even the brilliant success of Gen. Taylor in the capture of Monterey, only be done with the aid of a locomotive and train of grav shows how subborn are the Mexicans in their de- el cars. Two of these cars are now on the road contermination to defend their country. So much is veying gravel from the cut at Safford's point towards the old Spanish pritte of the race aroused at what the Wallis mill dam. It is said that the portion of they regard as the unjust invasion of their territory, that they seem disposed to dispute every inch of ground. The government, if we may judge from their official organ, seem to regret that Gen Taylor did not push on with his success and whip For escundly othe retreeting Mexicans. But Gen. Taylor knows better what is the prudent course than his superiors at Washington. He knew the sacrifice of life it had cost him, and the probability of greater sacrifice had he continued the conflict. He had found a foe whom it would not do to despise. He was in the enemy's territory and dependent on them for his supplies. His nring was weakened by the carnage in the battle The troops behind him from whom he might expect reinforcements were suffering from sickness, If he went farther he must leave a large part of his force to garrison Monterey, or abandon it. In a word he evidently has a different opinion of the courage and disposition of his opponents, and of the difficulties in conquering the Mexicans, than have the Cabinet at Washington.

The volunteers who started with such alacrity at the first call to cover themselves with 'glory,' are returning disgusted with the service. They come back sick, broken down and poor, and have wholly abandoned the idea at present of 'revelling in the halls of the Montezumus.' As the war continues it will grow more unpopular with the people. To reach the city of Mexico, will require an army of at least 50,000 men, including the forces required to keep open a communication in the rear. Where are these men to be obtained? Volunteers cannot be found and the regular army New Mills Lyceum which has adopted this plan, is but a handful. The pay of the soldier must b raised to secure his services; and the expense, now so great, will soon be enormous. It will astonish the people and frighten those who originated the wii. A lieavy war debt will press upon the nation and all will join in condemnation of the rulers who caused it. Thousands of widows and tens of thousands of orphans who have been made such by this war, will join in their maledictions on tlose who have brought them to this condition.

We are compelled to ask, why all this stirring un of evil passions, this blood and carnage? Is territory wanted? Then buy it. We verily believe that half the cost of this war would have bought half the Mexican territory without the loss widely varying views of distinguished commentaof a drop of human blood. But it is not territory tors, concerning the mode of interpretation and and the Territories. This effort of Mr. Barstow alone, it is Slave territory that was needed. The authenticity of certain portions of the biblical stirred up a perfect Locoloco harricane, which fulr lands now free were coveted to blacken with writings. There is also an ingenuity displayed the curse of Slavery, and the sons of Africa were in many of the arguments of the author, which is to be pastured on a larger domain. More Senators too often wanting in some of the religious publicawere needed to help crush down the free labor of tions, the vacancy being supplied by positive as the North, and we were required to assist in this sertions, which of course can never convince the war to aid in the extension of Southern peculiar institutions and the overthrow of our own.

The Archbishop of Canterbury.

By the arrival of the last Steamer we learn wat His Grace the Archbishop of Canterbury had neen directed by the Queen to draw up a form of Prayer to be used in the Churches in view of the alarming prospect of Famine in the British Islands, This is the same Acchbishop of Canterbury who a few months since framed a form of Prayer in acknowledgement of the success of the British arms in destroying the lives of some thousands of human beings in India-a calamity quite as grent as that whose threatened ravages the prayers of the British nation are ubw'called for in avert .-In the prospect of such a calamity as that with threatened, it seems very app prints that all who were broken, and as is hoped, no internal injury ncknowledge the divine hand in conducting the events of life, should devoutly pray that its approach may be averted and its evils lessened by offerding aid to the destitute from those who have Salem.

been blessed with means with which they can afford food and confort to the afflicted. If the wealthy members of the English Church, Establishment-Lolders of office in the kingdom as well as almost all the possession of great individual wealth-if these should all with devout sincerity pray for the amelioration of the condition of the poor and needy in Ireland and England-it would be done. The very act of praying in sincerity for an object, supposes a desire in the petitioner to use his own endeavors to secure the good prayed State. for, and the very act of prayer should have the effect to produce acts in accordance with the words ut of Canterbury to lead the devotions of the British WHICS, six Locos, one Native. Among other people should have this effect on the hearts of the petitioners, it will bring down showers of mercy, blessing those who give and those who receive.

Essex Railroad.

laid from Carltonville almost to the Southwick Tannery, with the exception of the short cut through the Safford estate, which will probably be finished in abont a week. Besides this the piles have been driven about balf the remaining distance to the Wallis mill dam, and the grading has been continued across Cen. tral St. into the pond, a part of which we are glad to see is to be filled up for a Depot. A more convenient and central situation for such a purpose could not have been selected. It is to be hoped that this opportunity will not be allowed to pass without making such other important improvements in that location as the place is susceptible of, and such as the welfare of the town as well as the interests of that immediate neigh borhood seem to require.

The arch under the street at Carltonville, is turned and it is understood that as soon as the remaining portion of the grading is completed to the cut at Crowninshield's, the filling up in the North River will the road between North Bridge and the entrance to the Tunnel, is to be built on piles; if so, the road will be sooner ready for the public travel.

The work is also progressing at Waters' river, between the south and north parishes. We feel some what anxious to see some movement towards con. structing the remaining part of the road to join the Boston and Maine Railroad. In view of the advan tages this work promises to Salem, it seems surprising that its inhabitants do not take hold of it with the utmost vigor. The first spade-full of earth moved in the determination to carry the work forward to completion, will increase the value of real estate in Salem more than the whole cost of the foad; and by the time the whole is completed, it will increase i more than four times its cost. This may at first view seem extravagant, but when we consider the aggre gate value of all the real estate in Salem, a very slight increase will cover the cost of such a road.-Let them take hold of it then in good earnest.

Lyceum Lectures.

We learn that at a Meeting of the Institute of D. Northend was Chairman, was chosen to make arrangements for a Course of Lectures the coming season. We also learn that some progress has been made in the required preparation, and that a popular course of Lectures may be expect-

We would suggest to the committee whether i may not be well to try the experiment of fixing the price of tickets at 50 cents, to extend as far as possible the benefits of the Lyceum and ensure a full hall. The very flourishing condition of the augurs well for the success of such a scheme. case the above plan should be adopted it will be necessary to have the lectures every other week, which would be more satisfactory, to the public than to have them oftener and the course proportionably shortened.

lection of historical facts, and the several and mind of the thinking reader.

The above work is for sale at the bookstote of S. Dodge, Allen's building.

The Latest Case of Absent-minde iness .- The editor of the Salem Advertiser after reading the late election news from Pennsylvania, and con sulling his mirror, imagining he saw a beast foam ing and raving like a mad hull.' We hope the edi tor doesn't show signs of hydrophobia; ...

Acadent at Salem .- Hon, George Wheatland o Salem, was considerably injured in that city or Tuesday morning, in an attempt to stop a runa way horse. The horse, attached to a butcher's cart, was running furiously up Essex street, and Mr. Wheatland kindly attempted to stop bim but failing in the attempt was thrown and run ov which the inhabitants of the British isles is er. He was a good deal bruised; but no bones sustained.

> There will be a Baptist State Convention or Wednesday next, at the First Baptist Church in

ELECTIONS.

ENNSYLVANIA-BETTER AND BETTER

The Political Revolution in Pennsylvania is se verwhelming and entirely unexpected, that the reported results seem almost incredible. Every succeeding day has hettered the aspect of affairs and now the grand result is stated as follows:-

Whig Canal Commissioner elected by several thousand majority-voted for throughout athe

Senate. 19 Whigs-13 Locos -1 Native. House. 59 Whigs-41 Locos. Whig majority in Joint Ballot, TWENTY-FOUR!

reportant consequences, this secures the vote of Pennsylvania for the Whig Presidential Candidate, in case there is no election by the people. The Lideos have met with a Waterloa defeat,

This road has so far progressed that the rails are OHIO ALL RIGHT! THE WHIGS VICTO-

We have the gratification of adding to the ennsylvania victory another brilliant triumph in WE HAVE A WHIG GOVERNOR.

A WHIG LEGISLATURE, TWELVE WHIG MEMBERS OF CONGRESS, and an dependent Tariff man, against eight Loco Fo o members. In 1844, Clay carried the State by 5940, -bu

he present Whig Governor, Bartley, was elected ne month before by 1277 only. The Whig Governor has now from 3500 to 4000 majorny.

MEMBERS OF CONGRESS PROBABLY ELECTED,

*James J Faran, L.F. David Fisher, Whig gain *Rubert C. Schenck, Whig.

Richard S. Canhy, whig, *William Sawyer, L. F. prob. Rodolphus Dickenson, L. F. Thomas L. Hamer, L. F. J. L. Taylor, Whig, gain. Thomas O. Edwards, Whig, gain.

Daniel Duncan, Whig, John K. Miller, E. F.

*Samuel E. Vinton, Whig, prob. Perley B. Johnson, Whig, gain. Samuel Evans, Whig. William Kennon, jr. L. F. prob. *John D. Cummins, L. F.

*George Fries, L. F. Samuel Lahm, Ind. Tariff L. F. John Crowell, Whig. *Joshua R. Gildens, Whig.

*Joseph M. Root, Whig.

Total as above, 12 Whigs, 8 Locos, 1 Independent. Whig gain 4, including Lahm, the Inde-nendent, in the 18th district; 3 districts marked prob., to be heard from. The last representation

Irom Ohio stood 8 Whigs to 13 Locos.

Senate.—The Senate consists of 36 members—one is t elected annually. 9 Whigs and 9 Locos hold over. Already chosen, 10 Whigs and 7 Lucos—one to be heard from, probably Whig, which will make the Senate stand 20 Whigs, 16

House. - The House consists of 72 members who last year, divided thus: Whigs 44. Locos 28. So far we have heard of the election of 39 We learn that at a Meeting of the Institute on Whig members, and 26 Locos: leaving 7 to be Saturday evening last a committee of which Mr.W. heard from, which last year divided 4 Whigs and D. Northend was Chairman, was chosen to make 3 Locos. This ensures a Whig majority in each House and on joint ballat.

Florida .- The Journal of Commerce gives the onte of seven counties in Florida, Where Cabell (While) in the cornest for congress, has gained 62 votes, compared with the former election, when Brockenbrough's (loco) majority in the State was 50. This dooks encouraging, as, likewise, does

At the meeting of Whigs of this town, held a Granite Hall, on Monday evening last, Kendall Oshorn and Albert G. Bradstreet, Esqrs., were nominated as candidates for Representatives.

New Hampshire Democracy.

A grand Mass Convention of the unterrified de mocracy of the regenerated State was held a Concord, on the 15th inst, at which it was expect ed such a united and harmoniaus demonstration would be made as to result in the overthrow o Eight Historical and Critical Lectures on the the 'allied army' in the next election. But, Bille, by J. Prince, Pastor of the 2d Universalist church, Danvers. The above is the title of a work lately published, a copy of which has been presented to us by the author. In bears evidence of deep research and successful labor, in its column some of our readers will recollect as one. of the Loco orators in our own State in 1840,) endeavored to secure a declaration in favor of th abolition of slavery in the District of Columbia would have done no discredit to Tammany Hall even. Isanc Hill, Frank Pierce and Harry Hib bard, aided most appropriately by C. G. Atherion, made a violent onslaught upon Barstow and his resolutions, gagging him from, and interrupting, his defence, and affording yet another illustration. of that 'Democracy', which extends the 'area of freegags the liberty of speech while prolessing the doctrine of freedom and equil rights. The Locofocoism of Massachusetts was most appropriately represented by two of its sovereign beauties. B. F. Hallett and I. H. Wright, who are both fairly entitled to the designation of Soldiers of Fortune. The Independent Democrais held a Convention

nt Concord on the same day, and were addressed by Hon John P. Hale, from which good results tre anticipated, although much greater good is expected to follow from the manifest divisions in the old Loco party, especially if Mr. Barstow bridge, in Beverly. The fire was occasioned by should become an ally of John P. Hale and his the ignition of some bundles of laths which were coadjutors, as is predicted.—Salem Reg.

The Treasury .- We learn from our Washing-The Treasury.—We learn from our Washing- the loss amount to about three thousand to correspondent under date of the 20th, that the lars in stock, besides the building, which belong bubined were in session, and mining other busi- ed to Dr. Manning, of Inswich, and was valued tess before them was that of raising additional at about \$800. No insurance. The shoemaker's means for carrying on the war with Mexico, and shop of Mr. Willium Putnam, adjoining was form ar obtaining the necessary means for the support of the general sgovernment. The Treasuly de-arrment is not only embarrassed, but begins to affer from its embarrassments." How could it be therwise with such a war as we have, and such inanciers as those who have originated the Sub-Pressury law?—N. Y. Express.

ARRIVAL OF THE CALEDONIA.

Fifteen Days Later from Europe. The steamship Caledonia, Capt. Latt, arrived

t Boston last Tuesday night, at a quarter past 11 o'clock, from Liverpool the 4th instant, via Halifax, with 110 passengers.

The steamship Great Britain, Capt. Hosken, left Liverpool on the 22d ult., for New York, with 185 passengers, and on the same night she wen ashore at Rathmallin, in Dundrum Bay, coast of Ireland. The passengers were all salely landed. At the latest accounts she had not been got off.— Her cargo had been discharged ...

The royal marriages in Spain form the prominent points of discussion in the European journals. The London Times and the Morning Chronicle protest in strong terms against the Montpen-

The European Times says :- "The Government seems disposed to do all that it can to meet the evil in Ircland. Every means is being taken to find the people employment, which is equivalent to finding them with food, and large spocks of provisions are forthcoming from America and elsevhere. Nevertheless, there have been some fam-

ine riots in various parts of Ireland."

...A. Circular says—There are now unloading on the Dublin quays two American vessels, freighted with potatoes from the United States. of excellent quality, and selling at the rate of ten-pence per stone. We understand this is but the pence per stone. We understand this is but the commencement of an extensive import trade of

the once stable commodity of Ireland.

The first number of a new novel by Digkens, called 'Dombey and his Son,' bas appeared in the sale has been immense. The work' London. The sale has been immense. The work is to be completed in twenty, parts. The tale, it is said, is based on a foundation sufficiently ample to develop all Mr Dickens's powers. It promises o embrace the commercial life of London, and all kinds of Cockney life, from the thriving merchant down to the humblest costermonger.

Thomas Clarkson, Esq., of Playford Hall, Suffolk, died on the 16th ult;, aged 86.

There had been large sales of Coston, and prices, if apything; were a shade higher and it is the The market for all kinds of produce conflined buoyant and at rapidly advancing prices. The news from the continent is not important.

LETTER FROM MR. PALFREY TO THE NATIVE AMERICAN PARTY.

The Bunker Hill Aurora publishes the following letter which was written by Mr. Pulfrey in reply to a circular addressed to him by a committee of the Native American party. The letter was written by Mr. Pultrey at a time when it was altogether improbable that he would now be the candidate of the Whig party for Representative to Congress,

Boston, Secretary's Office, July 30, 1846. Sir, -your note of the 27th instant; mailed for me to Cambridge, has been forwarded and reach-

mportance of protecting our institutions, and the ballot box which sustains them, against aliens without intelligence or sympathy will our repub-lican system. But, sir, there is going on, under the present government, a sudden importation of dangerous foreigners, to an extent vastly greater han that which enters through the Atlantic ports. Sixty thousand such, more or less; awith their slaves to swell their vote, has just been entered. by Act of Congress, at the South West, and haruralized without further form or delay; and if the signs of the times do not deceive, the government is about to conquer and annex, no one knows how many provinces of Mexico, with their foreign inbts, and their nameless Indian and mongrel breeds. And, if the Slave Power continues to be strong enough, they will be admitted into the Union with constitutions, forced on them by artifice and intimidation; and recognising and perpetuating slavery and giving to every vagabond, who may own five human chattels, as much power through the ballot box as any four free citizens of the North.

Let the Native Americans and all patriotic men look to this. This, morning's mail has brought the news of the passage of a bill, which takes the bread from the mouths of the free and intelligent working men of Massachusetts. It was carried has been repeatedly tested, and found an unfaili ie Senate by the votes of itwo persons from Texas, who had no more right by the constitution which our fathers framed, to act on your affairs and mine, than any two persons in the

ain respecting the organization of a new party. Il Holland gin, pour both liquor and roots into a d do not concur. The times call for a cordial and canter, cork it right; and let it stand twelve hour efficient union of the free....They want all their Dose for an adult. Half a wine glass every threstrength and cannot afford to lose any part of hours, day and night. If it hanseate too muc strength; and, cannot afford to lose any part of the by, divisions, among, themselves, I am not the dose may be varied. Effect seen in three without smong hope, that, under the auspices of the four days." purified and regenerated. Whig party, we are beore long to; see the beneficent principles of the Constitution once more recognized and operative and the country once more happy and safe. Heaven speed that consummation to Very respectfull Your friend and fellow cirizent Very respectfully,

or the FIRES: bearing mer year

Between 1 and 2 o'clock Thursday afternoon, re was discovered in a brick building, occupied as a barn, and standing a few inches from the lower end of the Almshouse, on the Neck. The Fire Department were soon on hand, with an abundant supply of water, and little or no dimage was done to the main building, but the interior and contents of the barn were consumed;-the damage amounting, probably, to a tew hundred dollars. "The Master of the House, Mr. Stevens. who is very 'teeble from' protracted and severe' illness, left his sick bed, to meet the emergency, and several of the inmates of the house are quite ill; but fortunately there was no occasion for revited Fall business with an earnesings not to moving any of them.

BEVERLY. About 8 o'clock on Wadnesday eyening, a fire broke out in the India Rubber Lacto ry, owned by Standley and Larabee, near, to laid upon the furnace to dry, it spread with great rapulity, and the building was consumed. -The loss amounts to about three thousand doldown, to check the spread of the fire .- Salem Gazette.

Death of Thomas Charkson - The Caledonia horse; second that we paid him for the use

for more than half a century, name immortal. The anti-slavery movement the present century-directed first against t slave-trade, and subsequently against slavery hs -received its first impulse from the early cons cration of his noble powers to the great work, His death took place at his residence, near I wich, at 4 o'clock. A. M., of Saturday, Sept. 26, The Ipswich Express says: 'His spirit burn bright to the last, and while he ceased not to rect his thoughts to the great question of the mancipation of the human race, he calmly look forward to the 'crown of life' laid up in Hear for the faithful followers of the Cross. He w horn at Wishech, in Cambridgeshire, on Man 28th, 1760. -N. Y. Tribuue.

NOTICE.

To the Essex County Whig Committee :

You are requested to meet at Whig He Quarters, Mechanic Hall Boilding, Salem, Monday, October 26th, at 12 o'clock, M., for purpose of selecting some person to be suppor as Senator for Essex County, in the place JOHN P. ALLEN, Esq., of Munchester, who co clines the nomination made by the Convention

Ipswich, the 8th of October, By a vote of said Convention, the Chairmen he several Whig Town Committees, are ex-office members of the County Committee, and are to

Per order, WM. PIERCE, Chairman Co. Com. Andover, Oct. 19, 1846.

[Magnetic Telegraph Report to New York.] STEAMER NEPTUNE SAFE-RUMORED BATTLE.

Baltimore, Wednesday Evening The steamer Neplune, for whose safety greeners were entertained, has arrived safe at Ne Orleans. We learn from the Delia, of that ci of the 14th inst., that there is a rumor of anoth attack on the American Army by the Mexican The Mexicans have been again defeated. T Western Mail contains no news of importance, We have no local news worth mentioning. O merchants are waiting with great anxiety. for m rices by the steamers; meanwhile all operation n Flour and Grain are at a stand.

Coroners Inquest .- Yesterday morning, a ba el, containing the trunks of two human bodie three heads, four legs and three arms, was four floating in the upper basin of the Mill Dam. T barrel was got ashore by several persons, who su posed it to he a barrel of beef or pork, and it w then unheaded, and the mangled remains of the human bodies were exposed to view. The collects of the barrel were conveyed to the De-House, by the order of Coroner Prait, who sun moned a jury of inquest over the budies, who la evening returned a verdict "that the said person same to their death from some cause to the jui unknown; and the jurors afore said further sa that the bodies of the said persons have been use or anatomical purposes, and whoever had sai hodies, after having used them for the purposes aforesaid, packed them into a batrel and cause them to be thrown overboard, thereby neglective to bury the remains decently, as required by law -Buston Atlas.

The new constitution of New York propo s that naturalized foreigners should not be permi ed to vote until at least two days after their na turalization. This would be a considerable che n preventing the fraudulent votes which have e cited such general and well founded indignation throughout the country; but the period is not lor enough. It ought to be at least a year. By the new constitution of Louisiana, no person is a horised to vote, who has nor lived in the count at least two years subsequent to his naturalization Such a provision could be as well established statute as by the constitution, and combined wi such a Registration law as we have in Massach tetts, would almost entirely prevent the possibity of fraud at the ballot box.—Salem Gaz.

Cure for the Dropsy .- We are requested by correspondence (says the N. Y. Sun) to give i sertion to the following, which we are assure specific for a very troublesome malady. T prescription for water on the cliest is as follows

"Take a quarter pound of dried milk weed, c neart of Ireland and France, and the state small, pour on it a pint of boiling water, simm lo the views which I understand you to enter to one pint when cool add a point of the be

> Death of Mr. Fow, little British Minister .- I Hon, Henry S. Fox, Inte Her Britanic Majesty Plenipotentiary to the Government of the Univ States, died at his residence in Washington Tuesday last.

Another immense Steamer, said to be the la zest in the world, has just been completed at Ne York. She is called the Isaac Newton, and is run hetween New York and Albany. Het leng is 340 feet by 40 feet wide. Her engine is 13 horse power, and has a 12 foot stroke. The shafts and cranks each weigh 32,000 pounds. Twelve tons of white lead, and twenty tons paint were used in painting her 2344 yards carpeting were used, with 500 inatresses, 500 pi ows and other bed fixings to match,

Mr. BENJAMIN EDWARDS, of the Fashionab Clothing Emporium in Front street, has gone in mistaken. His shop is well flitted with every thin that can adorn the outer man. His prices a tair, customers many, and he will spare no pain o give full satisfaction to all who may favor his with a call - Sqlem Advertiser.

Amiable and Sepsible Women: There is nothing by which I have through life profited more, that it the just observations, the good opinions, ar the sincere and gentle encouragement of amiah and sensible women: - Str Samuel Romilly.

A Strong Position. Gentlemen of the Jury There are four points to this case. In the fir place we contend that we never had the plaintiff brings us tidings of the death of the venerable the horse; third, he agreed to let us use the horse Philamthropist, Thomas Clarkson, whose labors for the abolution of the slave-trade and of slavery that his horse is a jackass.

te committed against the new citizens; and all law a horogated in Nauvoo, and every thing there is until the control of an organized mob. The state of der the control of an organized mob. The state of things there has been represented to the Governor, who has just sent abroad his proclamation.—[Spring-(Ill.) Journal, Oct, 15th.

Execution.—We understand that the unfortunate non-Smith, Black and Flowers, underwent the sentince of the law yesterday, in Gadsdeen county—strick and Black met their fate without any apparent shrinking. Flowers, however, came near cheating the gallows of its prey, by opening a vein in one of his arms sometime during Thursday night with a piece of glass. When discovered, life was nearly etinict. The bleeding was stopped, and stimulants given, which revived him somewhat. He was conveyed to the gallows, ut there placed in a chair, while the rape was adjusted with Smith and Black, he was then launched into eternity.—[Tallahasse Floridian, Oct. 10. piece of glass. When discovered, life was nearly extinct. The bleeding was stopped, and stimulants given, which revived him somewhat. He was conveyed to the gallows, ud there placed in a chair, while the rupe was adjusted with Smith and Black, he was then launched into eternity. [Tallahasse]

MUTUAL LIFE INSURANCE.

The subscriber has been appointed agent or Danvers and vicinity, of the New England Mutual Life Insurance Company. This Company is formed upon the surest foundation. Its rates are based upon the latest and liest observations of the decompany.

Company. This Company is binned upon the surest foundation. Its rates are based upon the latest and hest observations of the degrements of life, according to the experience of the oldest of the English Companie. It is the most carrelully managed of any of the kind in the country, and has been thus far remarkably successful.

Since commencing, February 1st, 1844, to April 1st, 1846, has issued 986 policies.

The amounts from 200 to 8t0 000 each.

Are fund accumulated (owing to the favorable turn of risks thus far) 889,500 besides gnarantee capital.

Surplus to be refuuded to members at the end of every five years from Detember, 1843.

Directors—Willard Phillips, Robert Hooper, William Parsons, Charles P. Curtis, Francis C. Lowell, James Read, George W. Kuhn, William W. Stone, R. B. Forbes, Peter Wainwright, Thomas A. Dexter, Ous Tufts.

President—Willard Phillips. Sec'y—Jonathan Amory. A person in his thritieth year in order to secure one hundred dollars to his family at his decease, pays annually, Juring his life, 82.23; of he pays \$22.80 to insure \$1000.

Any one in the 24th year of his age, who needs a credit of \$500 for three years, to begin husiness, where the only obstacle to his obtaining the credit is the uncertainty of life, may obtain the same by paying annually, for that period, \$5.15. Or if he needs \$5,000, he gets the credit by paying annually, \$1,50.

A creditor may frequently give himself additional secur.

on, so. 15. Or it he needs \$3,000, he gets the credit by paying annually, 51,50.

A creditor may frequently give himself additional security for his debt by insuring his debtor's life.

One, while he is solvent, may secure a provision for his family on his decease, though he may die insolvent.

Lile insurance is better appreciated by the community, with every day, and it cannot be long hefore its benefits will be as generally acknowledged, as those of fire insuringe are now.

Hank forms of application, tables of rates, and any additional information will be given on application to W, D. NORTHEND. Danvers May 28, 1846.

ECEIVED THIS DAY, at No. 2 Allen's Building, a fresh assortment of new and interesting BOOKS, among which are:—Willis Poeins, with a akeness of the author—Poems by Mrs F. S. Osgood—Lattles', Casket," an elegant gift book—"Friendship, by a friend to Youth:"—a variety of Toys, Song Books, Alphabet Cards, &c. &c.

Also—just out of the press, the "Wreck of the Glide," a true narrative of thilling interest to the mizens of this vicinity, as three of the most promipent actors in the trying scenes of this Shipwreck and subsequent Captivity were our own townsmen and neighbors. Call and see.

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 18471 Office, No. 266, opposite to No. 307, Washington, Street, corner of Avon Pluce, Boston.

TOR the purpose of introducing more extensively, in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to uffer such term, for a limited time, as will not conly give to the public generally an opportunity of testing the practical value of his theory, but will offer a larg apportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of wo or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or denial ridge has become uneven and irregular, by the bsorbing of some parts more than others. such cases, it will be readily seen, by an examination of the jaw, that curved work in blocks, prepared, expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and hips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any othermeans. It is the want of this ingeniously wrought black-work, to temedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work .- especially in whole and helf sets. Another advantage of carved work,—and one of great importance stonges its "clearliness." Unless the teeth are modified to hit the plate in the most perfect man-ner, the finer particles of masticated food, with it a liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to renint the breath: Another advantage of paramount single teeth is, its perfect articulation. Each tooth hould meet its opposite in the most exact mainer in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other mountennes, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by un examination of specimens that may be seen at the subscriber's office. which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fail to excit admiration from all who are pleased with close unstations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and haish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their danstruction, which will be less than one half the price usually paid; and after wearing them six mouths if perfect satisfaction is not their given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing C. A. TRUSSIS, at his Old Stand, No. 365 (opposite No. 264)
Washington street, entrance in Temple Avenue, Boston
where he has been for the last ten years—and his residence and business being both in the same building, he
can be seen at home nearly the whole of the time, day or
evening. He has more room and better conveniences for
the Truss business than any other, person, engaged in it
in this city or any other.

evening. He has more room and better to the the Truss business than any other person, engaged, in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him.

Convex Spiral Trusses, Dr. Chace's Trusses, formerly sold by Dr. Leach; Trusses of galvanized metal that will not rust, having wooden and copper pads, Real's Spiral Truss; Rundell's du; Salmon's Ball and Socket; Sherman's patent French do; Bateman's do, double and single; Stone's Trusses; also, Trusses for children, of all sizse; Dr. Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss. Thompson's Kachet Truss, and the Shakers' Rocking Trusses, may be had at this establishment. Whispering Tubes and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroline D. Foster, who has had ten years experience in the business.

CERTIFICATES. CERTIFICATES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons afficied with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called appoin to recommend him to my professional brethren, and to the public, as a parson well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have scut many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well hited.

The Dr. Rehbins Raghing.

From Dr. Robbins, Roxbiry.
Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. B. Foster, of Boston. P. G. ROBBINS, M. D. Foster, of Boston.

The undersigned is familiar with the ability of Mr. F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

J. V. C. SMITH,

Editor of the Boston Medical and Surgical Journal.

Hints for the Warm Season. /THIS wonderful compound combines MED ICAL FOWERS over all other preparations ever formed for the relief of those diseases for which it is recommended, such as headache, dizanness, sleepiness, noise, in the Felid, bad taste in the mouth, nausea, or sickness in the storiach, loss of appetite, indigestion, Dyspepsia fover and gue, pain after eating, sour stomach, hearthurn, jaundica, costiveness, determination of blood to the head, piles, coughs, colds, pain in the side, back, limbs; and joints, rheumatism, all chronic diseases, scrofulous hurrors, Talt Rheum, and all Cutaneous eruptions of the skin, eneral debility, &c.

The Dandelion and Tomato Panacea is particularly recommended in cases of INDIGESTION and DYSPEPSIA. The following are some of its distressing symptoma, palpitation of the heart, heartourn, Joss of appetite, pain after eating, languor, melancholy, restlessness of the undertaken, and will crue the worst diseases of the system infinitely fast-

Rheumatism, and will cradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation.

The Dandelion and Tomato Panacea is, as all must be aware, from the ingredients of which it is compounded, the best as well as the safest

Eynn, Dec. 17th, 1843.

Sir, I have sold all the pills I last had of you, please send another lot immediately: The sale of Lorraine's vegetable Pills is rapidly on the increase Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. Isell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Ear her time, after having taken 3 boxes only of *Lor raine's Pills!* I might name many other cases where the cures have been as great, but have not

Yours respectfully, J. E. F. MARSH.

A hacking cough constantly annoyed me! Boston, Mass., J June 1st; 1844

Sir, In February last, I took a sudden cold, after which a hacking cough constantly annoyed the, and this, combined with my other maladies, rendered me truly miserable, as everybody told me that I was in a consumption. Since, I have taken Lorraine's Pilis consumption. Since, I have that I am well;—I fe and now every body tells me that I am well;—I fe a well as ever I did.

J. E. S. McKEY. as well as ever I did.

Portland, Me., Nov. 7th, 1843 Sir: Please send us one gross of Lorraine's Pills we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we could have quite a number of highly respectable cer tificates from our citizens our citizens.
Respectfully yours,
E. MASON.

Chelsea. Jan-3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicisus of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I ook them, and it is a sclemn fact that when I had aken but eight pills! my Rheumatism had entirefy eft me, and I have remained well ever since,

N. B. I never took more than one pill at a time and that on going to bed.

oing to bed.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head! Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I too't LORRAINE'S VEGETABLE PLLES, which gaveinmediate relief, and have entirely cured me.

Respecifully, your ob't serv't,

JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !!

Lowell, Mass., April 20th 1944.

Sir,—For the last few months I have been afflical with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to day that, I was cured immediately upon taking one dose of Dr. Lorraine's Pills. J. BROOKS.

Sir: I could the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present New England Office and General Depot, No 10

POETRY.

The Parting of Summer. BY MRS. HEMANS. Thou'rt bearing hence thy roses,
Glad Summer; fare thee well!
Thou'rt singing thy last melodies
In every wood and dell:

But in the golden sunset
Of thy latest lingering day,
Oh! tell me o'er this conquered earth
How thou hast passed away?

Brightly, sweet Summer! brightly
Thine hours have floated by
To the joyous birds of woodland boughs—
To the rangers of the sky:

And brightly to the forests,
To the wild deer bounding free;
And brightly 'midst the garden flowers, To the happy, murmuring bee.

But how to human busoms,
With all their hopes and fears;
And thoughts that make them eagle wings To pierce the unborn years?

Sweet Summer! to the captive Thou hast flown in burning dreams
Of the woods, with their robes and leaves,
And the blue rejoicing streams;

To the wasted and the weary, On the bed of sickness bound, In sweet delicious fantasies, That changed the very sound;

To the sailor on the bill ows, In longings wild and vain
For the gushing founts and breezy hills,
And the homes of earth again.

And unto me, glad Summer ! How hast thou flown to me? My chainless footsteps naught have kept From the haunts of song and glee.

Thou hast flown with wayward visions, In memories of the Dead— In shadows from a troubled heart, O'er a sunny pathway shed;

In brief and sudden strivings To flight a weight aside;
"Midst these thy melodies have ceased,
And all thy roses died.

But oh ! thou gentle Summer!

If I greet thy flowers once more,
Bring me again thy bouyancy,
Wherewith my soul should seer! Wherewith my sou

Give me to hall thy sunshine With song and spirit free; Go in a purer land than this May our next meeting be!

Sweet Star of the Eve.

Sweet star of the eye ! sweet star of the west 1 Bright with the smiles of the pure and the blest, How soft fall thy beams far away in the blue, On the weary, ah! many; the joyous how few! Thou speak'st of the past; of gone, rapid hours, When youth's buoyant step trod only on flowers; Thou speak'st of the lowly, the tender, the brave; Of the love they was given; the love to was gare. Of the love that was given; the love, too, we gave. Thou wakest the dead from the sleep that enthrals

them;
They come, at the voice of the mourner who calls

They come, at the them;
them;
They come from the cottage, the mountain the main
And we meet them here still, again and again.

Sweet Star of the eve! sweet star of the west Dost thou bring but the dead of all we love best? Oh! rests there not one, but one with us here, To give smile for smile, to weep tear for tear? Yes, thou canst bring us the loved, too, of earth, From dim chambers of woe, wild revels of mirth; Though parted by desert or sea, gentle star, We see them, we love them, wherever they are; They bring us old smiles to gladden and cheer us ; The ask back our own, to bless and endear us;
They come with bright looks from the valley and rill, And tell us, though parted, they love us there still.

Sweet star of the eve! sweet star of the west!
Oh! hast thou not still one lingering guest?
Though parted we roam, though the cherished have

past,
Yet shall we not dwell unsevered at last?
Tell us, tell us; the future to thee, too, is given;
That heaven unites what earth has seen riven; That glory awaits on earth's pilgrimage here, Like the smile of a saint, or a penitent's tear.
We ask, shall we meet with the loved ones who love

us. In bright happy homes of you heaven above us? Oh! say, we shall meet, pretty star of the west, In the mansions of God, with the holy and blest.

disclosed to her view a man struggling on the disinferested than his conduct towards the young ground, not more than twenty yards from the house, under the weight of his horse, which Fortune, that fickle jade, had not been so favortention, and a flash of lightning at the moment

ished speaking, and guided by the cries fo the stranger, soon stood by his side. The stranger was a young man, about twenty-

two or twenty-three years of age, dressed in a plain suit of black; but there was that in his appearance which at once bespoke the silent. Flora was seated under some hawthorns,

Is yer honor much hurt? enquired the woman

my seat, replied the stranger. Well, I'm glad it's no worse; but yer honor got a good soaking, and it ud be as well for ye to take off yer wet clothes before ye catch a cold through it, said the woman, at the same time de-

positing some clothes on a chair in a small room off the kitchen; for him to put on.

A very short time served for the stranger to change his dress, and he soon entered the kitchen in a full suit of home-made fiteze, which had once belonged to the good man of the house.

Mary McBride, for such was the woman's name was the mother of a large family. Her husband died of the typhus fever, leaving her in very poor circumstances; but being of very industrious and persevring habits, she managed to ride over all difficulties, and in the end became quite wealthy. She was kind to the poor and none could ever say that she turned the needy from her door. A night's lodging and a warm corner at the hearth were never refused them. She had every one's ferent toward me. blessing, and when harvest time came, all the neighbors were ready to lend the widow a helping hand to take in her crop. If the season proved bad, Mrs. McBride prospered and had plenty.

The raiters of her little kitchen groaned under the raiters of her little kitchen the heavy flitches of smoked bacon which were sus-

It was early the next morning when the stranger arose, but early as it was, the sturdy housewife was up before him, and had his clothes ready and breakfast prepared.

I hope yer honor feels nothing the worse for the fall ye had, said Mrs. McBride, as he entered the room.

Not the least. I wish I could say as much for | venged. my horse; I'm afraid his knees are badly cut.
Oh, ye need n't trouble yerself about him! I
heard Eddy say that he's as lively as s two-yearing a chair, with her apron, for him to sit up-

But the breakfast needed no apology. A fine fat pullet, flanked on each side with a dish of fried ham and eggs, with plenty of oatmeal bread steward, starvation stared her family in the face.

to mount, he inquired what was to pay.

What's to pay! ejaculated Mrs. McBride.—

And do ye think I'd be charging ye for the bit and sup ye had? No! they'll never have it to say that I did such a mane thing; I'd scorn to do the for admittance.

like, yer honor!
Well, perhaps your son here will accept this purse, in renumeration for the trouble! have put

During the last assizes at Lewes, a gentleman asked Mr. Sergeant Onslow what was meant by an alibi: "It is a lie by which matty a gentleman to by an alibi: "It is a lie by which matty a gentleman to by an alibi: "It is a lie by which matty a gentleman to by an alibi: "It is a lie by which matty a gentleman to by an alibi: "It is a lie by which matty a gentleman to be a lie by which matty a gentleman to be a lie by which matty a gentleman to gentleman to be a lie by which matty a ge

The carriers are not allowed to sell any coption of the carriers are not allowed to sell any coption of the dearth, and around which some half a dozen young people were sitting, enjoying its warmth. It's an awful night for any one to be out. Flora, shut the window shutters; it'll help to keep out the rain.

A young girl, of about sixteen, arose to do her and ou reasonable terms.

A young girl, of about sixteen, arose to do her hidding, and was about to shut them, when a cry, and if it ever happens that you require any assistance, one line, pens that you require any assistance, one line, sens that ring, sent by a messenger to No. 30

Stephens Green, Dublin will bring me to you.—

Two years rolled round. Mrs. McBride's daughter, and galloped from the door.

Two years rolled round. The set was as remembrance, and if it ever happens the pens that you require any assistance, one line, the pens that you require any assistance, one line, the pens that you require an A young girl, of about sixteen, arose to do her bidding, and was about to shut them, when a cry, as of some person in distress, attracted her athe was a pretty good scholar, gave him a pretty situation under himself. Nothing could be more

self.
Run, run, Eddy I there's some person has fell with his horse, and it'll tramp him to pieces! said the girl, addressing a young man who was seated by the fire. Hurry, or you'll he too late.
But the person addressed needed not the warning; he was out of the house before she had finished speaking, and guided by the cries for the

It was a beautiful night in the month of August. The stars twinkled brightly in the azure sky above; not a leaf stirred, and, except the mutmursilent. Flora was seated under some hawthorns, the branches of which, twining overlread, formed a sort of rustic bower. It was a favorite retreat of

More frightened than hurt, my good friend. The lightning frightened my horse, and he reared and plunged so violently that I was not able to keep my seat, replied the stranger.

Her cousin's, and she was waiting for him.

Eddy, have you come at last? she said, as a rustling in the branches drew her attention. A man sprang over the hedge, but a nearer view showed her that it was not her cousin, but the

You're not going to leave me so soon, said the steward after coming nearly fout miles to have the pleasure of speaking to you? If you but knew the flame you have kindled in my heart, you would not treat my advances so scornfully. Mr. Parsons, I must request of you to let me

free. I don't know of any encouragement I gave you to treat me in this manner, said Flura, throwing the arm which he had put around her waist

Say not so, dearest creature! The happpiest yours in my life were those when I thought that in the course of time I might be enabled to call you

Mr. Parsons, I'm sorry that you have viewed

It was Eddy, who had come so timely to the aid of Flora. Taking her in his arms, for she had fainted, he bore her to the house, and then return-fainted, he bore her to the house, and then return-receipt from me, whereby I release Mrs. McBride so great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me, whereby I release Mrs. McBride to great had been the impulse, that the check receipt from me are great and the great from the mean that the check receipt from me are great from the mean that the check receipt from the great from the mean that the check receipt from the mean that th ed to seek out the steward, but he had disappear-

Great was the grief of Mrs. McBride, when she Oh, ye need n't trouble yerself about him! I was informed next day, that Eddy had been are heard Eddy say that he's as lively as a two-year ould, this morning. Sit down and take some well what was the next step he would take. A breakfast it's ready wer honor, and the some breakfast; it's ready, yer honor, and I'm sorry I note was left at her house, the next day, request-had n't somethin' better, said Mrs. McBride, dusting payment for the last year's rent, due within a week, or that legal means would be taken to en-

fresh butter, and new milk, was what any man in good health might be satisfied with, and the stranger did justice to the good things before him which the stranger had given her when he departand make a hearty meat without the aid of tea, ed. His words as he placed it on ber finger recurr which the good woman regretted greatly not have do to her memory, and she resolved to seek him ing in the house. After breakfast the stranger requested his horse to be brought to the door, and when about to mount, he inquired what was to pay.

What's to pay! ejaculated Mrs. McBride.—

What's to pay! ejaculated Mrs. McBride.—

What's to be shared as the stranger bad been among them that she dispaired of any success. But Flora determined on going and sei off for Dublin by the mail accompanied by a younger brother.

It was late in the evening when she presented herself before the stranger's residence, and rang

Well my good woman, what do you require?
asked a powdered lacquey, as he opened the door.
I wish to see the master of this house, replied
Flora.

charity.

With tears in her eyes, Flora was about to turn

ger, as he heard of the steward's conduct towards

And how many days does he give your mother

According to promise, the stranger was with them on Friday. After hearing the particulars more fully from Mrs. McBride, he advised her to hide any of her moveable property that was

No sir, said Mrs. McBride; I could never think of cheating the landlord of his just rent; it shall never be a stain on my children, that their

mother was dishonest.
Well, well, I did not mean that exactly, said the stranger, who seemed pleased with her answer, and did not mention the subject again.

swer, and did not mention the subject again.

Early next morning the neighbors began to gather at Mrs. McBride's house, for the news of what was going on had spread through the neighborhood. Many of the men had cudgels, and even the women, stones in their aprons, and it only needed a word to them from Mrs. McBride, and they would have fallen upon the officer whose duty it was to see nothing carried away.

Just say the word, Mrs. McBride, said a stout burley Irishman, with the bosom of his shirt open

burley Irishman, with the bosom of his shirt open disclosing a chest, as red as crimson from exposure to the weather, say the word, and, by me soul, we'll flake them for ye!

After seizing what was in the hay-yard, in the way of hay, &c., the steward directed his steps towards the house.

Och, murther! look at that! said Shamas Fith

intending to help the men, and who would probably have done some execution if she had been al-

owed.

The steward turned pale as he entered the house ad saw so many dark grim faces about him; but seeing that they offered no violence, he plucked up courage. A fine fowling-piece which hung over the mantle-piece, was the first thing which attracted his attention, and he was about to lay his

from all rent due up to this date.

beat the officer, as she saw the steward take his in general. In what manner, however, I cannot say. This is the first man that has been departure.

As for the stranger, he remained at Mrs. Mc est injury. Bride's. Her hospitality to him, an entire stranger, on his first visit to her house, on his way from the Kildare races, and, afterwards, her honesty in refusing to cheat her landlord of his due, by removing her property, when very few would have withstood the temptation, had secured her his esteem. The conduct of his steward raught him a lesson which he never afterwards forgot. It induced him to see more after his property personally, and leave less of it to the management of strangers, who care not about the difficulties of the

hard-working peasants.

Eddy was icleased, and the debts he owed were paid by the stranger; and six months afterwards the minister of the country-town was called upon to unite the young people in the bonds of holy wedlock; Eddy receiving the blushing Flora from the hands of his landlord, who had come down on purpose for the occasion.

You to.

Eddy's only one brother's son, yer honor; but on, that's impossible; he's engaged at present, for all that, he's got too in the fitther's spirsaid the servant, shutting the door in her face, it in him to take money from a stranger that supposing her to be some person petitioning for umph of Americanism in the old world. In Ireland, it must take the place of potatoes. We remember (we think, for we have not the article before us.) that Coubet, in some of his papers, pronunces potatoes the great curse of Ireland. We before us.) that Combet, in some of his papers, pronounces potatoes the great curse of Ireland. West
do not recollect his mode of illustration, but probably he thought that the esculent which was usliquor, but such was the state of his credit that no

Flora put a note in his hand, in which was en-closed the ring which he had given her. He at once recognized it, and a few moments found Flora in a large drawing-room with the stranger. His face grew dark, and his brows knit with an-labor or cultivation would promote habits more labor or cultivation would promote habits more favorable to improvement. But Cobbet was corn mad at one time. He saw things correctly in every thing but time He was tao soon by twenty years, and he depended on cultivation, rather, than importation. He wrote about Indian corn And now many days does not give your mother to pay up the rent? inquired the stranger.

Only four more, and he threatened to distrain for the rent, if not torthcoming then, replied Flora.

Ah! he intends losing no time about it; but I will disappoint him. I shall be there, myself on Friday, and for the evening you will remain here.

But Flora who was anytous to return, declined But Flora, who was anxious to return, declined stopping, and returned home by the evening in London, many years ago, he saw placed in the front of Mr Cobbet's shop, a monstre corn stalk. that seemed to attract as much attention as a

full blowing cactus would in this city.

Cobbet was right in part, and events will show it. Ireland will grow fatter on imported Indian corn, than on home raised polatoes. Besides, the polatoes themselves rebel, they are too much, too hardly used. The potatoe is a good attendant,

but not a principal. It is

An esculent lusty and lasting,
No turnip, nor other weak babe of the ground,
Waxy or mealy,
It hinders from fasting,
Half Erin's inhabitants all the year round.—U. S. Gaz.

AN EXECUTION ON BOARD THE U.S. SQUADRON OFF THE COAST OF MEXICO. Correspondence of the New York Tribune.

OFF VERA CRUZ, Sept. 25th, 1846. On the 17th inst., I was one of the edified witnesses of the supremacy of the law over natu-

showed her that it was not her cousin, but the steward, Mr. Parsons.

Why do you start? he said, as Flora retreated a step or two. I hoped for a pleasanter meeting than this; and catching her hand he attempted to kiss it.

You're not going to leave me so soon, said the A sailor named Samuel Jackson, belonging to

merous and solemu, a regular programme hav-ing been issued by Commodore Conner and cir-culated through the squadron several days pie-

All labor in the different vessels was forbid-

Och, murther! look at that! said Shamas Fill and it's a mane spiritye've got, Mrs McBride, or ye would not allow a bla-guard like him to be takin' yer few traps, and so many dacent boys here to help ye!

Trout, that's the truth for ye, replied one of the women who had slipped off one of her stockings quietly, and in the heel of which she had placed a round stone of some five pound; weight intending to help the men, and who would proba-tributed in such places. tributed in such places as would best enable them to take as much of the spectacle in view as possible. Here they were kept on the tip-toe of anticipation for more than half an hour, when the same signal that I, before mentioned was hoisted, without the 'preparative.' and the curiosity of the spectators was very materially enhanced thereby. In a few moments more the victim made his appearance on the 'top-gallant forecastle' of the St. Mary's attended by two or three officers, and the Master at Arms of the ship, and by Rev. Fitch W. Taylor, Chaplain of the Cumberland. Stepping over the forecastle railing on the scaffold which had been elected there for the occasion, the prisoner seated himself on the railing appears. The ratters of her little kitchen groaned under the heavyfilitches of smocked bacon which were seven the heavyfilitches of smocked bacon which were subsymbled from it, and the meal ark was always pended from it, and the meal ark was always full. The neighbors considered her a woman of some substance, and many were the suitors for some substance, and many were the suitors for seventeenth year; but none of them received a received any the recoverage ment from Flora; her heart was already another's. Edward Franklin, her cousin, had been her schoolellow from childhood up. Have sweet revenged in any many were the suitors for the seventeenth year; but none of them received a received a received any the steward, looking around upon the crowd, with let, and thus the early age of twelve his aunt Mrs. McBride, took him hone to rest, which were have that sits action! You have refused mental aroof.

A substantial supper was soon prepared by Mrs. McBride for the stranger, to which he sat down with an appetitie which the rain and the fall had not deprived him of, but rather improved; and after partaking of it heartily, he retired to rest, which example was soon followed by the others.

The ratters of the many were all suppers was soon prepared by Mrs. A substantial supper was soon prepared by Mrs. McBride for the stranger, to which he sat down with example was soon followed by the others. The more of the principal act was for your interest that I did so, replied the form the ground as it she had been a feather. Now, we'll see whicher you'll see which which which the rain and the fall had after partaking of it heartily, he retired to rest, which example was soon followed by the others. To know the stranger thanks the fall had the partake in the prepared whim of, but rather improved; and after partaking of it heartily, he retired to rest, which example was so

Ah! ah! bad scran to ye! Ye got yer gruel now, haven't ye? said the woman who had la-ed the interests and safety of society, infinitely, mented Mrs. McBride's not allowing the men to and exerted a vast influence upon civilization Soon after, the officers retired, and the greater killed, on the part of the navy, during the war. part of the country people returned to their homes. not a Mexican having yet received the slight.

Clerical Pun.

A minister was once invited to preach in a house recently built, where the congregation were noted for their somniferous propensities. He commenced the service in the usual manner and proceeded to deliver his sermon. According to custom the good people disposed themselves to rest, and in a short time the preacher was saluted with a variety of discordants issuing from the nasal organs of the drowsy sinners. He stopped suddenly and surveyed the scene before him.— The audience aroused themselves from their unseemly attitude, and started inquiringly at the venerable man.

'I have,' said he, 'been admiring the fair proportions of your new house, and have but one fault to find.

'And what is that?' exclaimed a man whose pride for the new fabric would acknowledge no blemish. Why, replied the preacher in a tone of irony, reperceive you retain the old sleepers.

YANKEE TRICK.

DANVERS COURIER:

SATURDAY MORNING, OCT. 31, 1846.

Whig Nominations. ELECTION MONDAY, NOV. 9, 1846

GEORGE N. BRIGGS

FOR LIEUT. GOVERNOR JOHN REED OF YARMOUTH.

For Representative to Congress, from 2d District, DANIEL P. KING,

For Senators from Essex County. DENNIS CONDRY, of Newburyport. GEORGE HODGES, of Andover. JAMES GREGORY. of Marblehead. JONA. C. PERKINS, of Salem. JOHN W. LOWE, of Glouceester.

A Disciple of Judge Kane.

Mr. Dike, the locofoco candidate for Congress, from this District, in replying to the letter of a Committee informing him of his nomination by the Lynnfield Convention, says :-

"Believing as I do, that the existence of Slavery in a Republican government like ours, is a serious and lamentable evil, if elected to the office to which I am nominated, I should never give my vote for the admission of new slave territory into

Such language from the mouth of one, "in whom," the official organ of the locos, says, "the Democracy place the utmost confidence, without fear of betrayal; all their interests will be safe in his hands:" sounds discordant with the notes the party have all along been singing. We query whether he approves of the annexation of the slaveterritory of Texas. Would he, if he could have an opportunity, vote against the formation of new Slave States in Texas? Does he approve of the present war with Mexico-the consequence of "the admission of new slave territory into our Union," -and the object of which is to acquire more slavepasture? Would he sanction its continuance and recommend its prosecution with vigor, until the American flag shall float over the city of Mexico, and the conquerors shall revel in the halls of the

What is the essential difference between his professions and the course adopted by the independent and patriotic champton of Liberty from New Hampshire—John P. Hale,—as regards this single question of annexation of slave territory? Was it not because the latter gentleman dared to act independent, and as Mr. Dike he will, if he gets the chance, that he was tried by a party-tribunal and condemned by its short-sighted missuided zealots to political death, and has not the alem Advertiser and kindred prints used towards nim ever since, none but the most bitter and denunciatory epithets? Where can be found a shadow of consistency in all this course? Why does not the favorite journal of the Lynnfield Convention administer to its candidate a severe rebake for this departure from the true democratic policy, and commence immediately the pleasing task of initiating him into the hidden mysteries of their party principles, as laid down by their lead- of life. The moral and religious portion of the and Lowell Journal.

We were really much surprised on reading the letter of the honored candidate in the Advertiser that that paper instead of throwing him overboard nomination of a genuine democrat, should devote a considerable space in extravagant enumeration and the aggressions of the Slave Power, the highof his unequalled qualifications and worth, among est honor and lasting remembrance. He has long which is the fact, that when there were but twofoolish voters in Stoneham he was one of them and voted for Andrew Jackson, and through his influence mainly the great town of Stoneham now bonsts of a majority of loco-focos.

After all we are inclined to the belief that it has its parallel in the famous letter of Judge Kane, and is merely a tempting bait, covering a barbed hook, which the wire-pullers are endeavoring to fasten in the gills of those repentant democrats who have been awakened to a sense of their duty by the severity of the recent Hale-storm.

Mr Clay's Paper Stopped .- The True American of Wednesday last announces that that will be the last issue of that paper. The reason given is, that Mr Clay's attorney is unwilling longer to take the responsibility of continuing it. The editor, however, says he is not without hope anothor will soon be started in its place.

The Loss of the Two Tongues.

We have been favored by a venerable friend with the following lines, which were written more than thirty years ago, at the time of the twice repeated loss of the tongue of the "little bell" which formerly swung in the steeple of the old-"old South meeting house' in this village. They were probably written by one who was then, as since considered the Poet Laurence of the village, and besides their genuine merit as ballad stanzas of the John Gilpin school, they will recal many a familiar scene connected with that ancient and time-honored edifice. There are many who well remember the consternation which was caused by the discovery of the loss of the first tongue. and the deeper horror which was depicted on at countenances when the second sacrilege was committed. It was a great and important event in this, then quiet village. Rewards were offered and the depredators most unsparingly denounced, but who they were remains a mystery to the present day. True it is, that some young mad-caps of the place were suspected of the sacrilege, and it is now shrewdly guessed that the two tongues are still sleeping side by side in that part of the Wallis mill pond nearest Gardner's bridge. It is hardly necessary to say that the object of the perpetrators was accomplished in causing a subscription to be raised to buy a bigger bell, which was in due time duly installed in the tower, in place of its tongueless predecessor. But we are keeping from our readers the verses, which are dated Danvers. Nov., 1813.

LINES ON THE REPEATED LOSS OF THE TONGUE OF THE BELL.

Our fathers, rather meek than proud, Procured a little Bell; And thought tho' 'twould not ring so loud, 'Twould answer just as well—

To call the minister to prayer, (For he lived very near) And if themselves were later there, The less they had to hear.

One generation passed away, Another took its place;
"Our fathers bought this Bell," said they, 'Twill not their sons disgrace.'

"Besides, a heavy Bell would shake This aged steeple down; It would our peaceful slumbers break, Should fire break out in town."

"And who this heavy tax would pay? Fools only throw their cash away To purchase empty sounds."

Time passed on : this little Bell Toll'd many to their graves; It still the "meeting time" could tell Until some "Rogues or Knaves"

Who long had scorned the small shrill voice, Tore out its tuneful longue! No merry peal is rung.

Some sober-minded men there are Who curs'd the "theft profane;" Some hoped-dear reader, do not stare, 'Twould never ring again.

But hark! the blacksmith's anvil rings. His bellows swell with pride,
"Another Tongue" the Sexton brings, Our wants are well supplied.

Too soon, alas! ill fated Tongue, Thou too must silent be!
No peel or knell by thee was rung, Nor will there ever be !

Gov. Briggs, ol Massachusetts, at the dedication of a Normal School at Westfield, over the ceremonies of which, as the Chief Magistrate of the State he presided; wiping away a tear from his eye, said, "I can recall the case of a poor boy who sat upon the hard plank seat of one of these schools, in one of the poorest districts of this State, while his father was toiling at the anvil for his daily bread, who, under the smiles of a kind Providence, has since been honored by his fellow citizens infinitely beyond his deserts, and who, as Chief Magistrate of this commonwealth, is now addressing you."

REPRESENTATIVE IN CONGRESS. Hon. DANIEL P. King, the candidate for Congress from this So. Reading; Lilley Eaton; John W. Proctor, District is widely and well known by the people Esq., Danvers; and Josiah Newhall. in all parts of the district. And wherever he is known, he is honored and respected for his ability sound principles, energy of character und purity tiser, Boston Atlas, Boston Post, Danvers Courier, public, recognise in Mr. King a candidate of their choice. He has always been among the foremost to advance the cause of Education, Temperance, All interested in the above measure are invited to and other moral enterprises of the day. His attend. at once, and recommending a Convention for the whole course in Congress has merited unreserved approbation, and in regard to the Mexican War and closely observed the course of public affairs and is, in every sense, eminently qualified to represent this district with honor to himself and benefit to his constituents. There should be a generous and whole bearted enthusiasm for his election by the whole people he would represent, and especially by all the true hearted friends of the Whig party and measures .- Salem Gazette.

Hardened Indifference.-Hollohan, who was nung on the 4th inst., in Florida, rode to the gallows, dressed in his shroud, and smoked a cigar as he went. The procession passed his house where he saw his wife and children weeping, but with no concern on his part.

We learn that John G. WHITTIER, of Amesbury Mass, the Quaker poet, narrowly escaped seriou injury, a few days since, from a gun carelession Danvers and Malden Railroad.

The project for a Railroad from Danvers to Malden, will be resumed the coming winter, and new petitions in its favor will be circulated among Cotton Mill as compared with one at Lowell, by have from the commencement regarded it, as a one in which our citizens without regard to parperseverance with which they have pressed their application for a charter, and the assidutty with which they have labored in its behalf, show that they do not undervalue its importance. That the oad is a feasible one, and that if a charter is granted it will be built, needs no stronger evishare of the patronage which is now given to that road. If they supposed the road would not be built, they would not have expended such large sums of money as they have the two lust years to construction of this chimney, and it cost Forty oppose a charter for it.

But aside from this, the business of the town of Danvers, upon a very moderate calculation, will support six miles of Railroad. The business of Lynn will support as much more, and the business of Saugus and of the other towns near the route cannot be estimated at much less, and we believe that although the road should not at present enter Salem, yet that it will receive a great amount of b isiness from that city." The immense superiority in the location of the road, would be felt, and it would not be one year before the people of Salem would be as anxious to connect with it, as the people of Danvers are now to obtain a charter for the road.

We hope, then, that our people will this winter make a stronger effort even than they have hereto the drooping interests of the town, and recognizing the great principles which are involved in us success, they will not be intimidated by the power of monopolizing corporations which are apposed to all new internal improvements. There is much to cheer the friends of the road in the fact that strong friends of the road from other. counties, who advocated it in the House the last winter, are this year candidates for the Senate, and will probably be elected. They have also much to cheer them in the fact that similar applications are to be made from different portions of the State, and that the people are in all quarters determined to defend themselves from the oppression of monopolies. A strong and united effort the coming winter, will, we are confident, insure the charter. Shall it be made?

Ratirond Meeting-Agreeably to public notice, a meeting was held at Lynnfield Hotel, on Monday afternoon, Oct. 26, of those in favor of renewing the application to the Legislature, for a Railroad from Salem to Lowell and the interior, through Danvers, Lynnfield, South Reading, &c.

The meeting was called to order by Hon. Ass T. Ne whall, of Lynnfield, Chairman, and Edward Mansfield, of South Reading, Secretary.

The subject was freely discussed, and much inerest manifested, and hope of success entertained

The following are among the votes passed on

by those present.

Voted, That a Committee of five be chosen to

Chosen: H. E. Perkins, Danvers; Hon. Lilley Eaton, So. Reading; Gen. Josiah Newhall, and Edward Upion, Lynnfield; Capt. Aaron Foster, So. Reading.

Voted, That a Committee of seven be chosen o confer with friends in Lowell and other places, for the furtherance of our object.

The following gentlemen constitute that Committee: Gen. James Jaques, Wilmington; Asa T. Newhall; H. E. Perkins; Daniel Norcross,

Voted, That the Secretary cause the doings of this meeting to be published in the Salem Adver-

Adjourned to meet at the Hotel in South Readng, on Wednesday, Nov. 4th, at 2 o'clock, P. M.

ASA T. NEWHALL, Chairman. EDWARD MANSFIELD, Secretary. So. Reading, Oct. 27.

Our everlasting gratitude is due the Salem Advertiser, for its very flattering notice of our humble, though not Convention-approved sheet, and we would gladly, should opportunity occur, return their kindness ten-fold; ay, we would even exert ourself in quieting those turbulent, narrow-sighted members of his party, who recently suggested in some of their meetings, the necessity of establishing a democratic paper in Salem, by informing them that the late Convention at Lynnfield, re. solved, unanimously, that the improved appearance of the present speaking-trumpet of the office-hold ers and seekers in Salem, gave them much pleasare, that they approved its course, and recommended it to the tender mercy of the democrats of he District and County; and furthermore, even consented to let them publish the proceedings of knife, with which he the said Alexander Roy then he Convention. All this would we do, Mr. Ad- and there had, and with which he did stab the veriiser, and even then we should feel ourself said Alexander McIntosh twice in the abdomen, discharged by some boys at play. A portion of the charge passing through his cheek and came out under the car. Granite Freeman. ces a most pleasant and healthy state of your mind | charge of murder. Bost Times.

Tall Chimneys.

The Salem Register recently gave an account of the height of the chimney at the Naumkeag the citizens of the county. We regard, as we which it appears that the Salem chimney is 136 feet high and 12 feet square at the base. This project of great interest and importance. It is is truly a tall chimney but compared with one in the vicinity of Glasgow at the St. Rollox chemity have ever been warmly interested, and the cal works, it diminishes to a dwarfish size. The THOUSAND, THREE HUNDRED AND reason assigned for constructing a chimney of such TY NINE DOLLARS, if assersed by die enormous height, is to avoid the deleterious effect, ation, but, as the revenue is collected mos imports upon merchandise, and as the per of the poisonous gasses generated by the manufacture of chemical substances.

The great Chimney at Glasgow is a structure four hundred and fifty feet high !- being 150 feet dence than the fact that the Eastern Railroad higher than the Steeple of the new Trinity Church Company have from the commencement opposed in New York, and 90 feet higher than the cross it with such power and vehemence. That Com- on the top of St. Paul's in London. It is within pany well know the importance of this road, and a few feet as high as St. Peter's at Rome or of that if it is built it will receive a very generous the largest Pyramid in Egypt. It is more than three times as high as the Naumkeag Chimney in

Nearly two millions of bricks were used in the Thousand Dollars !- Perhaps the best idea of its immense height could be gained by supposing three such steeples as that of the South Church in this town, (which is 150 feet high) one above the other which would be just the height of the Chimney at the Chemical Works at Glasgow,

The breadth of this chimney at its base is 40 feet or equal to the space occupied by a large sized house and it gradually contracts to 11 feet at the top. Within this chimney is another 106 feet higher than the Naumkeag Chimney.

The Vole in Pennsylvania. The official return of the votes, at the late election in Pennsylvania, shows that the Whig candidate for Canal Commissioner leads the Loco candidate 8,899 votes.

The Congressional election stands 16 Whigs, 7 Locos, and 1 Native American. The State Sentofore. That feeling the importance of the road ate 18 Whigs, 14 Locos, 1 Native. The House of Assembly 56 Whigs, 44 Locos.

> Оню. The Senate stands 18 to 18; the House 39 Whigs to 32 Locos, and 1 Independent, chosen by Whigs. Whig majority in joint ballor, 6 over all others.

> Bebb's majority for Governor will be more than

The Columbus State Journal says that the reurns ensure the election of Mr. Vinton to Congress in the 12th district. His majority over Case is about 250. The Ohio Delegation will stand, therefore, in the next Congress, 11 Whigs, 9 Locofocos, and 1 Independent. The Ohio Press consigns Mr. Lahm, the Independent, to the Whigs. On the issues lately forced upon the country, he will undoubtedly vote with us.

THE TRIAL OF ALBERT J. TIRRELL .- The trial of Tirrell, for arson, in the house of Mr. Lawrence at the time Mrs. Bickford was murdered, will no: take place until the first week of January next.

Maine Elections .- So far as heard from since the last trial to elec: Representatives, the House ow stands-Whigs 61; Democrats 53.

Our readers will notice in another column the call of the Town Committee for a meeting to nominate candidates for Representatives to the next Legislature.

The Lowell Courier says :- We commend o the Locofoco papers, who are charging the whigs with seeking the dissolution of the Union, draft and circulate a petition to be presented to the following extract from Mr. Benton's speech in their discharge, as we understand it; was innocence of the accused, but that public U. S. Senaie, June 15th, 1844:-

> "I have often intimated it before, but now pro-claim it, DISUNION IS AT THE BOTTOM OF THIS LONG CONCEALED TEXAS MACHI-NATION. Intrigue and speculation co-operate, but disunion is AT THE BOTTOM; and I denounce it to the American people,

Mr. Myers connected with the late tragedy at Richmond, is worth \$500,000. Precious little prospect then of his being punished.

At the meeting of the Whig County Committee, on Monday, JOHN W. Lowe, Esq., of Gloucester, was nominated as a candidate for the Senate, in place of John P. Allen, of Manches-

The Charlestown Murder .- ANOTHER RUM TRA-GEDY. We mentioned in our second edition, yesterday a case of murder which occurred in Charlestown on Sunday night. An examination of the parties has since been made, and following are the leading facts: The name of the mordered man was Alexander McIntosh, of Pennsylvania; and that of the murderer, Alexander Roy, a Scotchman. The two boarded and roomed together, at the house of James Potts, in Perrin street, Charlestown. They appear to have been men of intemperate habits, and to have spent the day (Sunday) in roaming about and drinking and smoking together. They retired to their room between 9 and 10 o'clock. Another man by the name of Sinent occupied the same room with them. Roy went last to the room, and as it appears, did not go to bed. In the morning when the men were called to breakfast, McIntosh was found dead in his bed, Sinent asleep, and Roy, sitting on a chest. Roy confessed that he had killed McIntosh, in revenge for some personal injuries he had attempted to inflict on him. An inquest was held on the body, and the Jury returned for a

That Alexander McIntosh was killed by Alexander Roy, of Charlestown, marble worker, between the hours of 9 P. M. of October 25th, 1846, and 7 A. M. of October 26th, 1846, with a jack-Roy has been arrested and committed on the

Enormous Taxation! \$2,212,389!

A Bitter Pill for old Massach The portion of the expenses of the War for the present year, which will fall sachusetts to pay, allowing the whole a be only fitteen millions of dollars, will b MILLIONS, TWO HUNDRED AND TO Massachusetts consume far more of impo ticles according to her representation, than ern and Western States, her share cannor a than THREE MILLIONS OF DOLLARS much for upholding slavery in a single year is equal to over four dollars on each perso the State, and for a family of six persons am

the State, and for a taminy of six persons and to twenty five dollars!!

What thipk you, men of Massachusetts of taxation as this? Do you recollect the omade by the loco focos when our State go ment assessed a tax of only seventy five the dollars? A tax too, that was necessary if support of a sound and able judiciary, 10 pi suitable asylums for those afflicted classes of community the deaf and dumb, the blind, an insaue, and to carry out that splendid syste internal improvements which with the institu already named has made your State the prid how eloquent their erators were upon this st and what distress they betrayed in anticip fo. you from this cause?

Let these same men now tax you nearly ! hundred times as much and for the suppostance too to say nothing of the men slaug ed, the families made desolate, and tall the edness perpetrated in consequence of the wa then cooly turn to you and ask you to give your votes again! Will you not give them a rebuke for this, as it becomes Massach men to administer .- Massachusetts Spy.

MYSTERIOUS CIRCUMSTANCE. Theobo beautiful young girl, apparently not twen the dock, at the fact of Chinion st. " Hast ? She had been but a short time in the water seemed nearly as tresh and blooming as wrapped in a calm and gentle slumber the never breathing sleep of death. She fishionably attired had long, luxuriant har eyes, and exquisitely white and regula with leatures and form of almost perfect There appeared no clue to her name of re--her pockets containing only a few smi of some kind of foreign money, either Sw German, together with a trunk key and brush. On the bosom of her chemise we letters "R. T.," which initials may, perhaps to her being identified. The appearance chody was singular—the physician on the corinquest testifying that the cheeks were still flu although otherwise the appearance indicated by drowning, that that this ribe

In Attlehorough, Sept. 26, Mrs. Astaall King, wife of Milton Stanley, aged 33 years and 11 mos, formerly of Danvers.

Danvers.
In Saco, Me., Mrs. Saran P. Shineve, aged 38, wife of Capt. Samuel V. Shrove, and daughter of Mr. Win. Price, of Salem.

WHIG MEETING.

The Whigs of Danvers are requested to meet at Upton's Hall on WEDNESDAY EVENING next, at 7 o'clock, for the purpose of nominating two candidates to represent the town in the next Legislature.

A full attendance is requested.

Per order of Town Committee.

WILLIAM D. NORTHEND, Chairman. Danvers Oct. 31, 1846.

NOTICE-The present limits are inadequate to on 1st of February next, I shall commence to erect a "Stupendous Warehouse," sufficiently large to accommodate friends and numerous customers. as the present House is, it is not sufficiently large;" Spacious, it is not sufficiently spacious: Brilliant in appearance, it is not sufficiently brilliant. This Gigantic House, the Glary of Boston, is to come down, Gigantic House, the Glory of Boston, is to come down, and a Larger, more Spacious, and Brilliant Establishment is to take its place. These names have been applied to my Establishment by those who are acquainted with the real character of Oak Hall: Such as 'a superior Mart,' 'a Princely Warehouse,' 'a vast Trading Area, 'a Mathless Establishment,' 'a Theatre of Unbounded Trade,' 'a Stupendows Spheme,' 'an extensive Markel,' 'a Triumphant Achievement,' 'a Sphere of extraordingry Operations,' 'an Unapproachable Wonder.'—Such annes will probably apply to my new constructive when completed. I might as well undertake to confine the vast ocean in the limits of our Pand on Boston Common, as to carry on my large trade within the walls of these present limits. The public are a ware that my triumphant statements are not overrated. The trade at my extensive Ware-rooms may be ed. The trade at my extensive Ware-rooms may be compared to a large Monster, whose bulk and mighty stature have become so great that it requires a larger sphere for its present movements. This Warehouse, erected in 1842, has stood unrivalled in the metrapohs for extent and magnitude, and yet it is lar, fur from being equal to the extent of my heavy trading operations. So liberal a parronage must have a lar-ger house for the unfettered movements of its enormous form. An Establishment fac surpassing the present one is absolutely necessary, and one is shortly to be erected that will surprise and delight all interested in my wellare.

G. W. SIMMONS,

P. S. Being obliged to move to make these stu-P. S. Being obliged to move to make these stupendous alterations, the Large, Fresh Stock of Fashionable Ready-made Clothing, Piece [Goods and Rich Furnishing Goods, adapted to this present Fall and coming Winter, amounting to upwards of one hundred land twenty-five thousand dollars, will be closed up at prices much below the extreme low prices I have been selling. All the furniture of the present establishment for sale—Large Mirrors, Clocks. Chandeliers with Bich Cut Drups, Counters, Show Cases &c., &c., oct 31.

MECHANICAL AND DENTAL SURGERY. Teeth at Cost, until Jan. 1, 1847; Office, No. 266, opposite to No. 807, Washington

Street, corner of Avon Place, Buston. OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an epportunity of testing the practical value of his theory, but will offer a ratiopportunity for the poorer classes, whose means a too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is psculiarly and especially adapted to whole and half sets, where the alveola dental ridge has become uneven and irregular, by absorbing of some parts more than others. In such cases, it will be readily seen by an examinal of the jaw, that carved work in blocks, prepared pressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is conferred, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work .- especially in whole and half sets. Another advantage of curved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the fiver particles of musticated food, with the liquors of the mouth, will, as a nutter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carred work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction The subscriber has been appointed agent or Danvers and vicinity, of the New England Mutual Life Insurance of Company. This Company is ion med upon the surest foundation. Its rates are based upon the latest and hest observations of the decrements of life, according to the experiment of the decrements of life, according to the experiment of the decrements of the kind in the country, and has been thus far remarkably successful.

Since commencing, February 1st, 1844; to April 1st, 1846, has issued 986 policies

The amounts from 200 to \$10 000 each.

Net find accountiated (owing to the lavorable turn of risks thus far) \$\$95,000 besides guarantee capitul.

Surplus to be refunded to members at the end of every will be attended to in the most thorough, faithful and isks thus far) \$59,500 besides guarantee capital.

Sarplus to be refunded to members at the end of every will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For tilling common sizad cavities with gold, \$1; For other kinds of "tiling, from 50 cents to \$1; For seting on gele poor, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper ations warrauted.

Carved work in black for whole and half sets will se got up for other dentists on reasonable terms. S. SIOCKING, Surgeon Dentist.

All persons require Facts. Remember in all cases that you are not deceived by thing

that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and wall appear to a particles need no project neith Tomatoes. These two articles need no praise, neith er do the celebrated Lorraine' Pills, when they have

once been taken.

Physicians, and people of every class are willing o come forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In act there can be no doubt but that Lorraine's veg-table Pills is the best medicine ever offered to the

Sec a few public statements of men of truth and vir-

Lynn, Dec. 17th, 1843.

Sir; I have sold all the pills I has had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them ited I nave noticed, that no one that has used them iteds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for the time, is now cured and able to work most of the time. her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where the cures have been as great, but have not

Yours respectfully, J. E. F. MARSH.

A hacking cough constantly annoyed me!

Boston, Mass., June 1st; 1844 Sir,- In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and amis, combined with my other maladies, rendered me consumption. Since, I have taken LORRAINE'S PILIS and now every body tells me that I am well;—I fee as well as ever I did.

J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Str: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens.

Respectfully yours.

Respectfully yours, E. MASON.

Chelsea. Jan- 3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston

and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I ook them, and it is a solern fact that when I had a ken but eight pills! my Rheumansm had entirefy eft me, and I have remained well ever since.

N. B. I never took more than one pill at a time and that on going to bed.

oing to bed.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir-For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violental medicines recommended and no good. At last, I took LORRAINE'S VEGETABLE PILLS, which gaveimmediate relief, and have entirely cured me. Respectfully, your ob't serv't,

JAMES CODSON, Esq.

Bath, Maine. July 16th, 1944,

A severe pain, in both sides cured !!

Lowell, Mass., April 20th 1944.

Sir,-For the last few months I have been afflicstr.—For the last tew months I have been afficient and with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

The form the last two fields that the latitude to the true of these instruments, and inguious in accommodating them to the variety of cases which occur. I feel my-list a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

ABDOMINAL SUPPORTERS. NEW ENGLAND TRUSS MANUFACTORY, BOSTON, MASS.

JAMES FREDERICK FOSTER

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved TRUSSES, at his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or the Truss business than any other person engaged in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him. Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Read's Spiral Truss; Rundell's du; Salmon's Ball and Socket; Skerman's patent French do; Bateman's do, double and single; Stune's Trusses; also, Trusses for children, of all sizze; lir, Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss. Thompson's Kachet Truss, and the Shakers' Rocking Trusses, may be had a't this establishment. Whispering Tubes and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

see, may be nad at this establishment. Whispering Tubes and Ear Trunpets; that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses waited on by his wife, Mrs. CAROLINE D. FOSTER, who has had ten years experience in the business.

CERTIFICATES.

From Dr. John C. Warren, of Boston,
Having had occasion to observe, that some persons atflicted with Hernia, having suffered much from the want
of skilful workmen in accommodating Trusses to the pecultarities of their cases, I have taken pains to inform
onyself of the competency of Mr. J. F. Foster, to supply
the deficiency occasioned by the death of Mr. Beath.—
After some months of observation of his work, I am satisfled that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodat-

From Dr. Greene, Boston. I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in conse-

quence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Roxbury.

Since the death of Mr. John Beath, I have used, i preservence to all other Trusses those made by Mr. J. Foster, of Boston.

P. G. ROBBINS, M. D,

Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J.
F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

POETRY.

LOVE TO LIVE.

WRITTEN BY A. LADY. As he gaily played with his new hought toy,
And a merry laugh went echaing forth,
Frum a bosom filled with joyous mirth.

I love to live !'-said a stripling hold; if will seek for fame—I will toil for gold;' And he formed in his leisure many a plan To be carried out when he grew a man.

I love to live ! - said a lover true ; Oh; gentle maid, I would live for you; I have labored hard in search for fame, And have found it but an empty name.

'I love to live !'-said a happy sire, As his children neared the wintry fire; if For his heart was cheered to see their joy, And he almost wished himself a boy.

I love to live?—said an aged man, Whose hour of life was well nigh run ; Think you such words from him were wild ?-The old man was again a child.

And ever thus in this fallen world, Is the banner of hope to the breeze unfurled; And only with hope of life on high, Can a mortal ever love to die.

I LIVE TO LOVE. BY A GENTLEMAN, AFTER READING THE ABOVE.

'I live to love ?'-said a laughing girl," And she playfully tossed each flaxen curl;
As she climbed on her loving father's knee,
And spatched a kiss in childish glee.

I live to love !'-said a malden fair, As she twined a wreath for her sister's hair;
They were bound by the cords of love togeher,
And death alone could those sisters sever.

Il live to love !'-said a gay young bride, Her loved one standing by her side; Her life told again what her lips had spoken, And ne'er was the link of affection broken.

I live to love "-said a mother kind I would live a guide to the infant mind.'
Her precepts and example given,

Gulded her children up to heaven. I shall live to love "-said a fading form ; And her eye was bright; and her cheek grew

As she thought; in the blissful world on high ald live to love, and never die.

And ever thus, in this lower world, Should the barner of love be wide unfurled; And when we meet in the world above, May we love to live, and live to love.

MISCELLANY.

From the Norristown Register.

Things hardly to be believed.

Well I declare, this is hardly to be believed! exclaimed Mrs. Granby, as she threw down a letter which she had been perusing, and turned towards her daughter, who was recling on a crimson cushioned lounge, in the most approved style of dress, attitude, and expression. The young lady lifted her jewelled hand raised her sleepy lidded eyes with inquiring interest, as she breathed forth an affected tone of music;

an affected tone of music;
Pray, what have you found, dear mamma? I ain longing for something to chase away this

your Uncle Neek has written to me, that he intends to send his daughter Lacy; to spend the winter with us. I cannot refuse to receive her,

me, she will be a fine subject for ridicule.

And so the matter stood,

Mrs. Grandy was just on the eve of a grand
party to which she had invited the 'aristocraey' of the city. She was occapied in finishing her arrangements and adding the crowning grace to the labors of servants and upholsterers, when she was stunned by the intelligence that Miss Lucy Meek

Tam astonished, cried Mrs. Le Grand, I can were so much admired.

Well now exclaimed Mrs. Le Grand, I can deadly believe these things possible. And Miss Meek is so young, and such perfect little hands.

Yes, replied her aum, and you should see her nice flaunched by the intelligence that Miss Lucy Meek

Tam astonished, cried Mrs. Le Grand why she

ter descended to the parlor, determining to treat the awkward country girl with all the condescend-

the awkward country girl with all the condescending kindness possible.

Their surprise was no less overwhelming than agreeable, when they beheld, seated perfectly at ease, with a book which sie had taken from the centre table, a lovely little girl, fair as a lily, with a so Miss Meek has refused Mr. Colby, and centre table, a lovely little girl, fair as a lily, with centre table, a lovely little girl, fair as a lily, with very small hands, and a foot peoping from be-neath her travelling dress, as if delying competition which it might have done with salety. She no sooner perceived her relatives, than she sprang to meet them in the most affectionate manner, and returned gracefully the embraces and kisses which they bestowed upon her with real pleas-

When Amina, after showing Lucy to her chamber, joined her mother in the saloon, she ex-

Oh manima! I could hardly have believed that Oh manma! I could hardly have believed that a young lady educated in the country could have been so perfectly genteel as cousin. Lucy is. I love her dearly, already. And then her wardrabe — why ma, her dresses are really elegant. So simple and tasteful in style, just like her sweet self; she has never been mured to labor, I am contain.

Certainly not, replied Mrs. Grandy; and I am happy to find my sister's daughter a real lady.— I am glad now that she has arrived before the

I'm astonished, cried Mrs. Le Grand why, she stunned by the idelligence that imas Day was in the parlor.

Good beavens! what shall we do? she cried, addressing her daughter, who was sauntering by her side, and lauguidly criticising the arrangements. If only she had staid until after the party!

What can we do with her?

We must at least proceed to the parlor, and try to welcome her with civility, remarked Amina.

She may not be so unpresentible as we have pictured her; and the high-bred mother and daughter descended to the parlor, determining to treat the conformal confortable. Amina is improving the descended to the parlor, determining to treat the conformal confortable. Amina is improving the descended to the parlor, determining to treat ginning to be of her opinion, that in this country where the rich to-day are poor to-morrow, and vice versa, young ladies should be educated in ing her opportunity and learning of Lucy to cook every kind of flesh and fish, and to make cakes

gone home to her father's, remarked a ynning lady to ber benu, as they walked beneath the soft sun light of early spring.
It is very strange, was the reply—and poor Col-

by is nearly distracted. I never supposed he had so much heart. He sets out in a few days for Europe. The young lady must have been presenting aged, for independent of his wealth, he is a fine roung man.

young man.

He is so sighed the lady. And Miss Meck only
in farmer's daughter! I declare it is hardly to be
believed, that she rejected him.

We will pass overithree years, and listen to
the conversation of this same lady and gentleman

How man and wife.

Well, dear, I have been informed that Lucy Meek is married to flyoung farmer of her own

neighborhood, whose father used to follow the hambering hasiness on the Ohio: They say, however, that he is a really active and intelligent young buckeye; but it is singular that she should make such a choice, after having rejected Colby

he a great stout looking creature, like a man, with sunburnt face, and coarse lands and feet, and voice like a market woman. And then she will be so awkward—ob dear! what shall we do be so awkward—ob dear! what shall we do with her?

Why, ma; you really frighten me; you must not be received introduce such a coosin to society; and certainly. I never could introduce such a coosin to society; and certainly. I never could introduce such a coosin to society; and certainly. I never could introduce such a coosin to society; and certainly. I never could introduce such a coosin to society; and certainly. I never could introduce such a coosin to society; and certainly. I never could introduce such a coosin to society; and certainly in the such of the south or in Europe, for our brainly farty. She must have so unsophisticated, that we can do with her as will a mass and a pleasure, and remain at home with her.

I cannot receive her, dear Amina; but she is so unsophisticated, that we can do with her as well and has never been from home until she came and has never been from

the churning. She never asked me to do it, but then she-why it was done just in this way. She finished breakfast just before me one morning, and elimina areas that the table of the finished breakfast just before me one morning. and slipping away from the table, she filled the churn with cream, and sat it just where I couldn't help seeing what was wanted. So I took hold regularly enough, and churned till the butter come. She did n't thank me, but looked so nice and sweet about 1 that 1 felt well paid. Well, when the next churning day came along she did the same thing, and I followed suit and fetched the butter. Again and again it was done just so, and outter. Again and again it was done just so, and I was regularly in for it every time. Not a word said you know, of course. Well, by and-by, this began to be rather inksome. I wanted she should just ask me, but she never did, and I could n't say anything about it, to save my life so on we went At last I made a resolve that I would not churn another time, unless she asked me. Churning day came, and when my breaklast—she always got good breakfasts-when that was swallowed, there stood the churn. I got up and, standing a few minntes just to give her a chance, put on my hat and walked out doors. I stopped in the ward to give her time to call me, but never a word said she, and so with a palpitating heart I moved said she, and so with a palpitating neart 1 moved and distress will assail them. From the dark on: I went down lown, up town, and all over them, the thinders will be heard town, and my foot was as restless as that of Noah's dove. I felt as if I had done a wrong—I did n't exactly feel how—but there was an indescribable sensation of guilt resting upon the worn traveller, as thou hiest prostrate in the dust never would come, and as for goin—home one the dark and fromning borders of that cloud which all the forenoon. It seemed as it dinner-time never would come, and as for going home one minute before dinner, I would as soon cut my cars off. So I went freiting and moping around town till dinner hour came. Home I went, feeling very much as a crimnal must when the jory is out, having in their hands his destiny, life or death. I could int make up my mind exactly how she would be et me, but some kind of storm I expected. Will you believe it? she never greeted me with a sweeter smile, never had a betgreeted me with a sweeter smile, never had a better dinner for me than on that day; but there stood the charn, just where I left it! I felt confoundedly cut, and every mouthful of that dinner seemed as if it would choke me. She did n't pay

Oh! in everything he is a man of fine, be-nevolent leelings,' was the reply.

LUDICROUS POLITENESS.

Insincerity and extravagant adulation often bed tray people into uttering the most ridiculous abstraities, quite unintentionally, as the following instance? will show:

will show:

A great man, addressing the House of Lorde, said;
it is my painful duly to inform your leading the last pleased the Almighty to release the King from the sufferings. This was equivalent to saying that Leading was sorry the king's sufferings were over.

A maid of honer, in France, being asked the now by her royal mistress, obsequiously replied, What your majesty pleases!—an answer even less definite than that of the cow-boy, who, after looking up at the town clock, said it was only half an interpretable eight.

the town-clock, said it was 'only rall an iner pareight.'

A nurse, wishing to give a very polite answer to a gentleman who inquired after the health of a sich baby entrusted to her care, said, Oh, sir, I flatter my self the child is going to die.'

A nobleman told a visitor he had been salking, to him in a dream. 'Pardon me,' replied the other, I really did not hear you.'

A lady of rank having had the professional service of a village piper at a little sete which she had gives on her estate, received the following ludicrotts give note: 'Your ladyship's pardon for my boldness in thus applying for payment, would be almost suit cient compensation for the labor of your humble per patrick Welch.'

At the battle of Trafalgar, a generous British ser man, seeing a brother tur bleeding profusely from the labor.

man, seeing a brother tar bleeding profusely from a severe wound, ran to his assistance. He had no sooner raised him from the deck, on which he felt, than the wounded man said—Thank you; Jack; and please God, I'll do the same for you before the fight is uver.'

The Sun behind the Cloud.

The children of God bave an eternal and overflowing fountain of consolation opened, in the plan of gospel discipline and salvation which is set hefore them. There is no condition, no trial, no sorrow, no gloom and heaviness of spirit, to which it is not adapted, and to which it is not fully adequate for all the relief that it is best for them to deceive. Journeying through this vale of tears they must needs pass through many a dark and gloomy avenue. Storms, yea, tempests of sorrow and distress will assail them. From the dark shine, when darkness and stortu-when all other suns and stars shall have passed away. It will beam on your math, and conditet you and cheer you onward to that blessed place where the Lord Jesus will be your everlasting light, and the Ba-

tiful to look upon we mean, who turned up her prefty nose at a sheemaker, and refused to acknowledge a painter in the street, who finally married a dashing for, the son of a wealthy man. Poor girl! a few years of misery passed away and her bushand became reduced, and she to maintain him actually tonk in washing. Many a sheemaker's wife and many a naintsary to show some of many thought it necestary to show some of many thought it necestary to show some of many thought it necestary to began to cast about in "Orlic's daings."

They define the confirment of the state of the state

LAUGHTER. There are cive to happiness and long life lags more conductive to happiness and long life lags more conductive to happiness and long life lags more conductive to happiness and sternly utilitarian times, for plodding, mercenary people to define the laughter, notwithstanding the outrageous and crying injustice, not to say cowardice, of attacking a person who is obliged to be constantly 'holding both his sides,' and is therefore 'incapable of other self defence than that of suickering at his as ailants.' But who ever How came your sister to marry, a farmer, manufar for the manuf

visage; and 'How are you, my dear, delightful fellow? is the exclamation with which he is every where greeted. Beware of a man who can not laugh. Of none such comes good. He is cross as a soulded bear, and five times more dangerous. He looks sourly on his best friend. growls at the blessed sun in heaven, and as for his enemy, he can hardly keep his hands from his throat. [Yank ee Blade.

SATURDAY MORNING, NOV. 14, 1846.

Terrible Earthquakes!

Great consternation has been excited in consequence of a succession of violen: carthquakes, attended with loud reports and causing great destruction of life as well as property. Accounts are continually reaching us of their effects in all parts of the country, although it appears that they are much more destructive in some places than in others. In New York, for instance, the shocks have, been very violent and destructive. Ohio, Pennsylvania, New Jersey, Maryland, Indiana, and even the granite hills of New Hampshire have also experienced their ravages. We hear of their effects in the most remote sections of the Union. -in Florida and Georgia as well as Maine and Vermont, and now we have accounts of a terrible shock in Iowa. In Massachusetts, we experienced a frightful explosion last Monday, which has been attended with rumbling sounds ever since. It is impossible at this time to estimate the destruction which it has occasioned. Among its lamentable effects we hear of the loss of no less than three Governor candidates and as many Lt. Governors, besides many other distinguished characters. These have been buried so deep in the earth that it must be a long time before their remains can be dug from the ruins. We may be able to give farther particulars in a future paper.

heard at Washington, where they caused great alarm. At the White House, it is reported that the explosions were absolutely terrific. Its inmates have been frequently awakened by a series of reports loud enough to appal the stoutest hearts. Mr. Polk has grown exceedingly nervous, and frequently has to turn out of bed and call his cabinet about him from excessive fear. It is related of one of his cabinet ministers, that when the reports of the destructive shocks at New York were heard, in his haste to condole with the President, he absolutely caused an awkward rent in his pantaloons. This we do not believe, and even if it were true, it can be of no sort of consequence, as his native state will willingly bear the expense of the necessary repairs. It is said also that Mr: Polk is troubled with imaginary fears about the stability of the White House itself. He is continstability of the White House itself. He is contin- Allas claims a majority of 14 for Mr. King. But ually hearing strange noises, and often fancies from the best information we can get, Mr. King's that he feels its foundations move, which is only the effect produced by his own trembling limbs. He is also much excited by a report which some mischievous persons have put in circulation that he and his cabinet, like Korah and his company, are to be swallowed up by an earthquake in the year 1848.

These calamities have caused more sensation at Washington than any where else. Accounts are fast reaching the capital, of the extent of the destruction occasioned; by the earthquake, and it is already ascertained that more than thirty members of the present Congress have been swallowed up! It is reported that the vaults and iron chests of the Sub Treasury have been sadly shattered by the series of explosions, and fears begin to be encertained that they will never answer the purposes for which they were intended—even if under the new Tariff bill anything will be found to put into them. All sorts of speculations are indulged in us to the cause of these calamities. Some think they are owing to subterranean fires in the iton region in Pennsylvania, and others to the great Hale storm in New Hampshire. Others again think they had their origin in our present connection with that country of earthquakes-Mexico, and some learned geologists have connected the events with the Clay region of Kentucky. Whatever may have been the causes, the effects of these terrible earthquakes are seen all over the country, and the greatest apprehensions are entertained that they will continue until the worst fears of the unhappy gentleman at the head of our government, are realized.

ROBBERY.

On Sunday night last the store of Mr. Joseph Merrison, on Walnut street, was broken open and robbed of several pieces of cloth, some boots, hdkf's etc. to the value of about \$500. A horse and wagon was seen about twelve o'clock on said night, in the vicinity of Mr. Morrison's shop, division's terwards, containing two men men and answer-Boston, and a wagon of the one above mentioned, ing to the derley's Hotel in Lynn, on the same evening, and while there, the men committed sundry depiedations, and took from the house a lamp. On Monday two young men, named Sayward and Twiss, the former the keeper of the Dye-House hotel, in Lynn, and the latter a youth of some eighteen years of age, were arrested on suspicion. The examination was postponed until Thursday, at which time sufficient evidence not having been produced to identify them as the persons seen in the wagon, they were discharged.

A reward of \$100 has been offered by Mr. Morrison for the detection of the thieves or thief, and the recovery of the property, or one half that amount for the recovery of the goods, and it is to he noped that active measures will be taken to serret out the rogues, as this is the second robbery of the kind in this town, within a few weeks.

STATE SENATE.

SENATE .- Five Whig Senators have been elected in Soffolk, three in Essex, two in Hampshire, two in Franklin, three in Bristol, two in Plymouth, and probably five in Worcester, and two in Hampden and three in Norfolk, but the vote in these Counties 15 very close and the result doubtful. The Whig Senators are also, without doubt, elected in Barnstable, and Nantucket and Dakes. Probably no choice in Middlesex. Twenty Whigs elected, twelve in doubt, and eight no choice.

REPRESENTATIVES TO CONGRESS. District No. 1. Robert C. Winthrop chosen by a majority of 2.621 over all others.

No. 2. Daniel P. King. Probably elected-to be determined by official returns. No. 3. Amos Abbott re-elected by a majority of

No. 4. John G. Palfrey falls short of an election

by 534 votes. No. 5, Charles Hudson re-elected by a majority

of over 1200. No. 7. Julius Rockwell re-elected by about 750 majority.

No. 8. John Quincy Adams has over 1600 majori No. 9. Artemas Hale-probably elected. Mus

wait for official returns. Total. - Seven Whigs certainly elected, two doubtful, and in 4th District no choice.

Vote of Danvers.

The following is the vote in this town for State officers and Representative to Congress, on Monday last:

For Governor-George N. Briggs had 484; Isaac Davis 98; Samuel E. Sewall 172; F. Baylies 11; scattering 7.

For Lieut. Governor-John Reed had 491; John M. Brewster 169; Geo. Hood 107; Charles W. Moore 11; scattering 4.

Hodges 256; J. C. Perkins 500; James Gregory formed about a year since at a very large conven-354 255; John W. Lowe 483; Geo. For Representative to Congress-Daniel P. King had 490; L. Gott 169; George W. Dike 104; I-H. Brown 11; scattering 4.

The New Planet.

This celebrated luminary can now be seen any clear evening, with the help of a glass of very moderate power. It is seen in the North West near the constellations Buckeye and Wolverine, and the learned savans have given it the name of IOWA. It has created great sensation at the observatory at Washington, and fears are enter tained that its 'disturbing forces' will seriously affect the motions of the Jupiter of the White House, and the four Asteroids of the Cabinet. It is said that Vice President Dallas is nightly watching for the appearance of two satelites which are supposed to attend this planet, and he is very fearful that they may disturb the motions of the system of which he now holds the balancing power.

Charlestown has voted to apply, for a City lions of dollars Charter by a majority of 23.

Great Yield of Indian Corn. In a late paper we gave an account of a great

crop of Indian corn on a piece of land in this town, cultivated by Mr Daniel Osborn. We are now enabled to make a record of another extraordinary crop, raised the present year by one of our farmers on land situated in Salem on the line of the Eastern Railroad and near the Marblehead Depot, It is a piece of meadow, and had not previously yielded an income of a dollar per acre. The proprietor Mr Nathan Peirson, after ditching and ploughing the land, with common manuring has harvested from 5 rods less than half an acre, as faithfully measured by Mr. Joshna Buxton, Nincty two and a half bushels of corn in the ear, ster's lectures on the great Celestial En equal to at least forty-six bushels of pure grain and the manners and customs of that stree or at the rate of more than one hundred bushels people, have everywhere excited the great of shelled corn to the acre. Surely, if land in attention. He attended the embassy of New England can be made to yield at this rate by skilful tillage, there is little occasion to emigrate west. Mr. Peirson richly deserves a premium from the Agricultural Society for his success in the cultivation of this very important arti- low price of 50 cents each; but we hope cle of wholesome food.

MISSING!

Strayed away in the eatly part of this week rom his anxious friends that aged and well known individual Mr. Sun. He took advantage of a thick fog and a shower of rain and went off bareheaded. He has always been very regular in his habits, is never seen out, nights and has heretofore conducted himself with the greatest propriety. He is a fiery looking fellow and may be known by his ruddy countenance and the beams he is constant y carrying about with him.

Also, disappeared about the same time, Miss Moon and it is conjectured by some that they may have gone off loge ther. She is known as a very capricious individual, quite subject to change and is a notorious night-walker. She is also addicted to casting reflections on all sorts of people She may be known by her carrying her head very high and having a down look when spoken to.

He sometimes passes by the name of Sol and she has been known to take the name of Luna.-Whoever will give information where the above fugitives may be found, shall be liberally reward-

Dickens's New Work. Dealings with the firm of Dombey & Son. We have received from the publishers, Messrs. Bradbury & Guild, Boston, the first number of this interesting work, by Boz. It is very neatly printed and at the price at which it is offered, only 12 1-2 cts. should be purchased by every lover of this inimitable writer.

We understand that General Cass has accepted an invitation to deliver an address in the city of Boston, on the 25th instant, in Salem on the 26th, and in Lowell on the 27th. -- Bost.

The recent daring robberies in this town llustrate conclusively the insecurity of personal property and real estate, during the night, from the lawless depredations of the midnight assassin, and we can but believe that two or three faithful and vigilant night-watches, would remove the attraction in a measure for store-breaking, and discourage any attempts at arson.

State Teachers, Association.

We have received the circular which we publish below, from the society of the "Massachusetts For Senators - Dennis Condry had 501; Geo. Teachers' Association." The association was should be guided and controlled by men of other professions, as they almost invariably are. Menvotes 776. Necessary to a choice 389. Henry are presumed to know their own profession better 1049 Fowler had 348; E. W. Upton 324; Wm Wal-than those not engaged in it, and we hope and coft 177; Otis Mudge 171; Andrew Porter 101; trust that this association of teachers strictly, will supply wants long felt and be productive of essential good to the great cause of education.

The "MASSACHUSETTS STATE TEACH. Monday and Tuesday, 23d and 24th inst.

The following exercises may be expected:

On Monday Evening, at 7 o'clock, Elbridge Smith, Principal of the Worcester High School,

On Tuesday, at 9 o'clock, A. M., a Lecture on "The First Principles of School Government," by John P. Cowles, Principal of Ipswich Fenale Seminary, At 11 o'clock, a Lecture on "Tenching Gram-

mar," by Samuel S. Green, of the Phillips School, Boston.

At 3 o'clock, P. M., Ariel Parish, of the Spring-field High School, will lecture on "The Management of the School Room." At 7 o'clock, P. M., Joseph Hale, of the Johnson School, Boston, will give a Lecture on "Tho-

rough Instruction." Each Lecture will be followed by a Discussion. You are most earnestly and affectionately invited to be present and contribute to the interest of the

occasion; and you will confer a favor by extending an invitation to Teachers in your vicinity. Very Respectfully, CHARLES NORTHEND, Cor. Sec'y.

SALEM, Nov. 4, 1846.

Expenses of the Wur. The Washington correspondent of the New York Tribane says:

Were the war to be brought to a close forthwith the best judges compute the aggregate of all its expenses, to say nothing of the thousand of our brave officers and soldiers who have been slain in battle, and thousands that have perished by sickness on the Rio Grande, at no less than one hundred and fifty mil-

This sum in silver, it is computed, would lend four-

teen hundred six-horse magons, and would train of teams to draw it, more than twen

All this expended in carrying on the Medical thus long, under the management of this 'eco this self-styled-'Democratic' Administration, is generally believed that we could have Peace, California and the Rio Grande for a to for a sum not exceeding ten millions of dellars beautiful business!

Lyceum.

It will be seen by the advertisement of Committee of the Institute that the Lyceum commence next Monday evening, with a leg from FLETCHER WEBSTER, Esq. (eldest Hon. Daniel Webster) on China. Mr Cushing, ane his descriptions of events whi he witnessed while among the Celestial's a exceedingly entertaining and instructive. notice that the tickets this season are put at number to be sold will be limited to the cap ac of the hall, or that one of the churches may opened for the remainder of the course.

Hon. Caleb Cushing, says the N. Y. J. press, owing to the reception of the news of t death of his brother, was compelled, it is said, return from Chicago, immedialely home. It m not be generally known, this gentleman has a quired by contract, (for the company of which is a principal member) the valuable mills a lumbering property at the falls of St. Croix, w the intention of carrying on a largely increabusiness. Mr. C. will be there again in the ter or spring. So says the Telegraph.

For the Courier. Danvers and Malden Railroad Mr. Editor-I have understood from relia sources, that the Eastern Railroad Company to been to Mr. Russell, one of the counsel for t Danvers and Malden road, the last winter, and deavored to retain him to do nothing ... Not on it appears, is the wealth of this overgrown Corr ration to be lavished on the most able counsel oppose the project openly, but large sums are be spent to provent able counsel from being en ployed by the Petitioners. They remited M Derby in the same manner winter belore last, as last winter made a disgraceful attempt to suppre the publication of Mr. Choate's argument. Wh the publication of Mr. Conductings?

Danvars and Maldan Railroad.

Mr. Editor—Every plan that can be devised brought forward to defeat the project for a Ra road from Danvers to Molden. Very strong form are being made in draw Interest from the control of road to the project for a road from Danvers Lowell, via Reading. This is merely a ruse to vide the friends to a new road to Buston. Eastern. Railroad are at the bottom of it. The are connected with it in the same manner the they were connected with the Andover road k winter. They have got that charter on the shoulders now, and to get rid ut the clamor again them for not building it, they are turning pub attention to the Reading road as one that will us its place. We say, oppose it! Make the Essu Railroad finish the road to Andover, which in say will be so profitable. It is to be hoped the hi has gone by when that company could humb the people as they please.

A new and direct avenue into Boston is requir by the public. The Malden road is the thost rect that can be constructed. It is the only of that can ever be built. Then if our citizens go forward united there can be little doubt t that they will get a charter from the Legislatu

We have news from Monterey, to the 17th of Oc ber. The fever and ague were spreading rapi through the army, where, also, the children we spreading that to conquer peace, a more decisible must be struck at Tampico and Vera Cruz. Commodore Conner was preparing for another

Matamoros papers say that the Mexicans have tally evacuated the whole country this side of S They have dismantled Saltillo, destroying whate

attack on Alvado.

might be of use to our army.
Thus there is now nothing left for General Tay to conquer, but a barren region of rugged mounts

and thirsty plains, afforded neither water nor prosions for the subsistence of man or beast, over the tance of 200 or 300 miles, to San Luis Potosi. Letters from the city of Mexico, Sept. 28th, that Santa Anna left that morning with 2000 cava and 1000 infantry for San Luis Potosi, where he w concentrate the whole Mexican force.

STATE ELECTIONS

The intelligence from Michigan and Iowa is clusive as to large Whig gains, and the Whigs of to have carried lowe, and I or 2 of the three members of Congress in Michigan. On the other hand, democrats claim to have elected all three of the Mile igan members, one by 150 majority, and the other a close voic. These States have been overwhelmin ly democratic. Iowa seems to be all Whigh the The election in Delaware took place on Monday.

Local causes have elected Thorn, Democrat, Governor, by about 150 majority. All Whigs are elected to Congress by a decided majority. The elected to Congress by a decided majority. The elected to Whig Senator is secured in place of Thomas. Clayton. Boston Transcript.

Mn JOSIAH SHAW (late of North Danwer Ms.) having left his wife in a destitute condition and without, as she thinks, any cause have been given on her part, she earnestly implor him to return. If this should meet the eyesany one who may know of the whereaboats said Shaw, she asks, in the name of a distres ed woman, that they will use their influenced persuade him to return, and his mules shall b freely forgiven.

Will papers disposed to and aniordual woman have the goodness to copy the above?

The Secretary of War has issued an order a lowing a bounty of modellars for each able bodied man broughted the rendezvous, and at cepted for public service:

MARBIAGES.

In this jown, on Thursday evening, by Rev. Mr. Field, Mg George P. Daniels, to Miss May, daughter of Mr. Righted Loring.

NOV 7. MR. EDITOR,-If there are any of your

readers who are not acquainted with my place for the sale of HATS, CAPS, and every description of FUR GOODS, will you please inform them, that it is the Old Stand, 173 Washngton street, Boston. Wholesale Rooms, 2d and 3d stories. W. M. SHUTE.

LOST. On Thursday Evening, in the vicinity of the Post Office, a Black Crape Veil. The finder shall be suitably rewarded by leaving it at this office.

NOTICE-The present limits are inadequate to commodate my numerous retinue of customers.accommodate my numerous retinue of customers.—
On 1st of February next, I shall commence to effect
a "Stapendous Warehouse," sufficiently large to accommodate friends and numerous customers. Large
as the present Hause is, it is not sufficiently large;"
Spacious, it is not sufficiently spacious! Writhaut
in appearance, it is not sufficiently brilliant. This
Gignuic Hunse, the Glory of Boston, is to come durin,
and a Larger, more Sourcious, and Brilliant. Establish. Gigantic Honse, the Glory of Boston, is to come driven, and a Larger, more Spacious, and Brilliant Establishment is to take, its place. These names have been applied to my Establishment by those who are acquainted with the real character of Oak Hall: Such as 'a superior Mart,' 'a Princely Warehouse;' 'a vast Trading Area,' 'a Matchless Establishment,' 'a Theatre of Unhounded Trade,' 'a Scapendays Schemes,' 'an extensive Market,' 'a Tramphant Achievement,' 'a Sphere of extraordinary Operations,' an Unapproachable Wonder?

trainet, 'a trampant Achievement,' a sphere of extraordinary Operations,' an Unapproachable Wonder'.

Such names will probably apply to my new constructure when completed. I might as well undertake to confine the vost ocean in the limits of our Pond an Rosion Common, as to carry on my large trade within the walls of these present limits. The public are athe walls of these present limits. The public are a the walls of these present limits. The public are a the walls of these present limits. The public are a the walls of these present limits. The public are a the walls of these present limits. The public are a the walls of these present in yet entered to a large Monster, whose bulk and might statute have become so great that it requires a larger sphere for its present inovements. This Warehouse received in 1842, has stood unrivalled in the metropolis for extent and magnitude, and yet it is far, far from being equal to the extent of my heavy trading operations. So liberal a paironage must have a larger house fur the unfettered movements of its enormous form. An Establishment far surpassing the most form. An Establishment far surpassing the present one is absolutely necessary, and one is short-

mous form. An Establishment far surpassing the present one is absolutely necessary, and one is shortly to be erected that will surprise and delight all interested in my welfare, G. W. SIMMONS, and one is shortly to be erected that will surprise and delight all interested in my welfare, G. W. SIMMONS, and one is shortly to be erected that will surprise and delight all interested in the state of the state o Oak Hall, Boston.

P. S. Being obliged to move to make these stupendous alterations, the Large, Fresh Stock of Fashionable Ready—made Cluthing, Picce (Goods and Rich Country) for this present Fall and coming Winter, amounting to upwards of one hundred and twenty-five thousand dallars, will be closed up at prices much below the extreme law prices I have been selling. All the furniture of the present establishment for sale—Large Mirrors, Clocks. Chandeliers with Rich Cut Drops, Counters, Show Cases &c., &c., oct 31!

Cas SIMERES.

English black and green, 250 to 450 to 45

We would recommend in all those who are suffering from indigestion, loss of appetite, dyspepsia, or scrafulous humprs, or any complaints that require a purifier of the blood, to procure a hattle of Ransom & Stevens' Dandelion and Tomato Panacca, which is the best medicine now in use for the above complaints, It embaces in its composition the strong Extracts of Sarsaparilla, Dandelion, and Tomatoes, than which there are no better medicine for dispelling dismase from the system. It is highly spoken of by the press from the system. It is nightly spoken of by the press and recommended by physicians as the best, medicine now in use. It is manufactured by James Kidder, East Buston, and may be had of his Agonts. See ad-

east Buston, and may be had of this working the yertisment in another column. 2w july 18, UDDING KNIVES for sale by ADAMS & RICHARDSON, and 1 207 Essex street, Salem.

IMPROVED PERIFOCAL SPECTACLES HE Subscriber has been appointed Sole Agen for Essex County, for the sale of Grover & Bolles's Superior Periloga or Improv-

ed Periscopic Spectacles.

The perfect shape, quality of materials, and fine polish of these glasses, render them superior to any now in use for those who require the aid of spectales, either on account of age or weakness of sight.

Having for same years past devoted particular attention to the wants of those in pursuit of artificial aid tention to the wants of those in pursuit of artificial aid for the eyes, the subscriber has much confidence in recommending these glasses, confidently believing that they will answer the expectations of all, and fully sustain the high reputation which they bear.

Arrangements have been completed with the manufacturers by which an extensive assortment in Gold, Silver and Steel Bows, will be kent constally on hand.

Silver and Steel Bows, will be kept constatly on hand Silver and Steel Bows, will be and Steel Bows, will be and superior article, are requested to call and examine these glasses before purchasing else. WM: ARCHER, Jr.

Nov 14 JOHN MURPHEY, R. C.

THE HUTCHINSON FAMILY. A fresh supply of the beautiful Songs, sung by these populas singers, at their recent Concerts. He doeth all things well. The Burial of Mrs. Judson. Eccllesior. May Queen, 3 parts. The cot where we born, and Old Granito State. Also their other Sougs, viz: Go call the Doctor, or Auti-Calomel; Soldier's Funeral; 'We're a' Cutting'; The Grave of Bonaparte; The Snow Storm. For sale at the Masic Establishment of JOHN P. JEWETT 6; CO., opposite the Manston House, Salem. nav.14

TEWART'S DIARY; for A847, or Daily Register for private Families, and persons of business, containing a blank leaf for every day in the year. Just published and for sale by W. & S. B. IVES, Salem.

DUNBAR'S BLACK INK. J. P. JEWETT & CO. have just received their Fall Supply of
this beautiful Ink, put up in quart, pint, half pint, and
smaller bottles—also by the gallon.

The following from the Boston Daily Bee, will show
what those think n' it who have tried it —Dunbar's Ink
is a superior article in point of color and Ireedom with
which it flows from the pen. Containing no acid, it is the
very thing for a steel pen. Though pule when first used
it soon becomes a jet black. It is decidedly a good artiele."

This ink is very conveniently put up for Ceuntry Deal-ers—bottles being packed in saw-dust. For sale at whole sale or retail, at the Manufacturer's pricss—at the Book and Stationery Establishment, opposite the Mansion Hunge, Salem.

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

POR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Miueral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will affer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts innre than others. In all setch cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by, any other neans. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in offer such term, for a limited time, as will not only cerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate work. their plate-work.—especially in whole and half sets.
Another advantage of carved work,—and one of great
importance too, is its cleanliness. Unless the teeth
are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to re-move them, will invariably become offensive and thint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instaoility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, we're great difficulty in execution is overcome. They annot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in the salem, will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not their given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warn with smelt-inconvenience, will be exchanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Clemsing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 cents to \$1; For setting on gold pivot, \$2; For Cleansing \$2; Extracting to the filling terms, viz. The setting on gold pivot, \$2; For Cleansing \$2; Extracting to the results of the regulation of Children's Teeth.

N.B. For sale as above; a first rate article of TOOTH POWDER. 25 cents. Examinations and advice gratis. All oper ations warranteds

Carved work in block for whole and half sets will he got up for other dentists on reasonable terms.

ABDOMINAL SUPPORTER S. NEW ENGLAND TRUSS MANUFACTORY BOSTON, MASS.

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved Trusses, at his Old Stand, No. 305 (opposite No. 201) Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

CERTIFICATES:

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persous afficted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is aften lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well litted.

The Best De Belleis Bester.

From Dr. Robbins, Roxbury.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. Foster, of Bostow.

P. G. ROBBINS, M. D.,

Boston, April 27th, 1846.
The undersigned is familiar with the ability of Mr. J.
F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favoraly compare with that of other artists.

Also—just out of the press, the "Wreck of the Glide," a true narrative of thrilling interest to the citizens of this vicinity, as three of the most promient actors in the trying scenes of this Shipwreck and subsequent Captivity were our own townsmen and neighbors. Call and see;

MUTUAL LIFE INSURANCE.

The subscriber has been appointed agent or Danvers and vicinity, of the New England Mutual Lafe Insurance Company. This Company is founded upon the surest foundation. Its rates are based upon the latest and lest observations of the decrements of life, according to the experience of the oldest of the English Companies. It is the most carefully managed of any of the kind in the country, and has been thus far remarkably successful.

Since commencing, February 1st, 1844, to April 1st, 1846, has issued 986 policies.

The amounts from 200 to \$10,000 each.

Net fund accumulated (owing to the favorable turn of the factors of the serious country five years from December, 1843.

Surplus (ar) \$33,506 besides guarantee capital.
Surplus (ar) \$33,506 besides guarantee capital.

five years from December, 1843.

Directors—Williard Phillips, Robert Hooper, William
Parsons, Churles P. Curtis, Francis C. Lowell, James Read,
George W. Kuhn, William W. Stone, R. B. Forbes,
Peter Wainwright, Thomas A. Dexter, Otis Tufts.

President—Willard Phillips. Sec'y—Jonathan Amory.

A person in his thirtich year in order to secure one
hundred dollars to his family at his decease, pays unnually,
during his life, \$2 28; or he pays \$92 80 to insure \$1000.

Any one in the 24th year of his age, who needs a credit
of \$500 for three years, to begin lusiness, where the only
obstacle to his obtaining the credit is the uncertainty of
life, may obtain the same by paying annually, for that period, \$5.150 or if he needs \$5,000, he gets the credit hy
paying annually, \$1,50.

od, 55. 15. Or if he needs \$5,000, he gets the credit hy paying annually, 51,50.

A creditor may frequently give himself additional security for his deht hy insuring his dehtor's life.

Onc. while he is solvent, may secure a provision for his family on his decease, though he may die insolvent.

Life insurance is hetter appreciated by the community, with every day, and it cannot be long hefore its henefits will be as generally acknowledged as those of fire insurance are now.

Blook forms of application, tables of rates, and any additional information will be given on application to W. D. NORTHEND. Danvers May 23, 1816.

Esser Mechanics M. F. Ins. Co. Office No. 208 Essex St. Mechanic Mutual Fire Insur-Ance Company give notice, that they continue to issue policies on property not considered extra hazard-ous, for any term of time, from one month to five years, at J. C. PERKINS, Pres't.

A Brooks, Sec'y, may 30 W. D. NORTHEND, Agent for Danvers.

business, and doing his work well, to merit a share of

patronage.

POETRY.

Honor to Labor. From the German-By Mary Howitt. Whoe'er the pondrous hammer wields,
Whoe'er compels the earth to flourish,
Or reaps the golden harvest fields,
A wife and little ones to nourish; A wife and little ones to motion,
Whoever guides the laden bark,
Or, where the mazy wheels are turning,
Toils at the loom till after dark,
Food for his white-haired children earning—

To him be honor and renown!

Honor to handicraft and tillage!

To every sweat drop falling down

In crowded mills or lonesome village!

All honor to the plodding swain

Who holds the plow!—Be't 100 awarded

To him who works with head and brain,

And starves! Pass him not unregarded.

Whether in chambers close and small, My netner in enamoers close and small,
Mid musty tones he fancy smothers,
Or, of the trade the bondage thrall,
He dramas writes, os songs for others;
Or, whether he, for wretched pay.
Translate the trash which he despises—
Or learning's sorf, and day by day Or, learning's serf, put day by day,
Dunce corps through classic exercises.

He also is a prey to care, To him 'tis said, 'Starve thon or borrow !'
'Gray grows betimes his raven hair, wray grows bettines his rayen hair,
MAnd to the grave pursues him sorrow!
With hard compulsion and with need,
He like the rest, must strive untiring, And his young children's cry for bread. Maims his free spirit's glad aspiring.

Ah! such a one to me was known;
With heavenward aim his course ascended;
Yet, deep in dust and darkness prone,
Care, sordid care, his life attended.
An exile, and with bleeding breast,
He groaned in his severest trial;
West ground hum to long nurest. Want goaled him to long unrest, And scourged to bitterest self-denial,

Thus, heart sick, wrote he line on line, With hollow cheek and eye of sadness; wante nyacinin and leary vine
Were fluttering in the morning's gladness.
The throstle sung, and nightingale,
The soaring lark hymned joy unending—
While thought's day laborer, worn and pale,
Over his weary book was bending. While hyacinth and leafy vine

Yet, though his heart sent forth a cry,
Still strove he for the great ideal;
For this,' said he, 'is poesy,
And human life this fierce ordeal?
And when his courage left him quite;
One thought kept hope his heart alive in,
Thave preserved my honor upright. And for my dear ones I am striving!

At length his spirit was subdued! At length his spirit was subdued!
The power to combat and endeavor
Was gone; and his heroic mood
Came only fitfully, like fever.
The Muses' kiss, sometimes at night
Would set his pulses wildly beating;
And his high sool soured toward the light
When night from morning was retreating.

He long has lain the tarf beneath: The wild winds through the grass are sighing: No stone is there, no mourning wreath,
To mark the spot where he is lying.
Their faces swoll'n with weeping, forth

His wife and children went—God save them!
Young paupers—heir to naught on earth,
Save the pure name their father gave them!

All honor to the plouding swain
That lolds the plow.—Be't too awarded
To him who works with head and brain
And starves! Pass him not innegarded! To toil all honor and renown! Honor to handieraft and tillage! To every sweat-drop falling down In crowded mills and lanely village!

MISCELLANY.

Two or three ineffectual attempts were made, but at length, one more agile than the rest gave a triumphant shout, the bough was firmly set, and the group departed, to perform the same important rue at their respective dweltings. Song and laugh, and jest, passed from lip to lip: the and laugh, and jest, passed from lip to lip: the quick retort, the lively repartee were heard, and ever and anon a burst of silvery glee, the infallible token of Besse Callender's presence. quick retort, the lively repartee were heard, and lage; a circumstance which she considered more ver and anon a burst of silvery glee, the infallible token of Besse Callender's presence.

The late Rev. Daniel Isaac was both a great wag was both a great smoker. 'Hat here you are,' cried a great smoker with a pipe in his back, directly under the bough, back, directly under the bough. It seems, then, that I have a claim on you have to go the company of an inheritance. 'He seems, then, that I have a claim on you have to go the company of an inheritance.' The seems, then, that I have a claim on you have to go the company of an inheritance. 'He seems, then, that I have a claim on you have the size. I came first under your Maystick, who waits for dead men's shoes, may have to go who waits for dead men's shoes, may have

tnorning, girls! Call this evening, and tell me who comes under your Maysticks! So saying, after loitering a few moments over the dewy jonquils, pansies and dalfodils that were blooming in the garden, she skipped gaily with her basket of wild Mayshowers into the cottage.

She had just finished her breakfast—for their walk had been before sunrise—and was wiging the coffee cups, when a low rap was heard at the door. She ran to open it, and lo! within the porch, and directly under the Maystick stood Mr. Kingslev! She was too much surprised at seeing

said Bessie, growing every minute more interested in the child—perhaps, also, in the father.

Thank you! and I will call every morning and receive it, replied Mr. Kingsley, smiling more cheerful than usual as he departed.

Bessie's interest in the stranger was now fully twakened, and she longed to see his little sick,

UNDER THE MAYSTICK.

Or Choosing a Bride.

There was a sound of bappy voices and merry laughter in front old Moses Callendar's cottage; for a party of gay young girls was gathered before a party of gay young girls was gathered before a party of gay young strict was described before a party of gay young strict was gathered before a party of gay young for the before with the broad shadow of its rooftree, laden with may be passed and comes. There was a sound of the protect withing in order when Mr. Kingsley have every thing in order when Mr. Kingsley have every thing in order when Mr. Kingsley have every thing in order when Mr. Kingsley and wash-room in search of the kitchen, pantry and wash-room in search of the was soon so familiar that he encalled; for he was soon so familiar that he encalled;

listered unto him? could be notice unfeelingly th

And what is the meaning of the Maystick? inquired Mr. Kingsley. I have been absent from New England so long I have forgotten its rural customs. Say, Bessie, what is this mystery? Bessie blushed deeply, hat would not explain. I appeal to Minna, then. What has 'coming under the Maystick? to do with a young lady's true?

Why, bless me, Mr. Kingsley, have you passed nuder Bessie's so often, and not yet found out? why it has everything to do with her fate; for the

What a silly thing to do! said Bessie. 1 will never be guilty of such a foolishness again.

Very wise in you! cried Minna, laughing, as the sprang out of the porch, and looked back at try.'

I noticed a tall, handsome man, in a searlet coat, with a gold button hole in a black collar, the she glided into his own darker musings, and acquaintance, and passed on with a graceful bow.

The wag consented, and the little newsboy soon got his figures straightened out so he could understand them—but we saw him a few minutes afterwards, sitting down on a cutb stone, with a cent in one hand and a five cent piece in the cent in one hand and a five cent piece in the course, for the benefit of the Leicester Infilmary, I noticed a tall, handsome man, in a scarlet coat.

A DILIGENT STUDENT. A young law student at Paris, who paid more attention to ladies than law, lately received a visit from his father, an honest procureur of a liftle village of Diampagne. The good inan had come to the city for the first time, and was fully resolved to see all its wonders in regular routine.

'Do not be concerned, father,' said the young man 'I shall conduct you.'

After a hurried breakfast, the were soon encoute. They first visited, as provincials always do; the Jardin des Plants, then the Colonge de Vendome, and, in due course, came

They rushed together, and running one another through the body, both died honorable deaths.

Ancedate of Millon.—James H, when Duke of York took it into his head to visit Millon, merely out of curiosity. In the course of conversation the Duke asked Millon 'whether he did not think the loss of his sight was a judgement upon him for what he had written against his father,—Charles the First.'

'No sir,' said Millon, with becoming confidence; 'for if, your Highness, the calamities that befull us here are indications of the wrath of Heaven, that wrath must have been severer against your father than against me, for I have only lost my eyes—he his head.'

It has for some time past been our intention to make some improvement in the appearance of our naper, in acknowledgement of the favor which as been extended to us by the public, in the gradual enlargement of our subscription list. We have at considerable expense supplied our office with new type, and provided a new Vignette heading, and we hope to come out in the new dress on Thanksgiving week.

Representative from Second District. It is much to be regretted that our present able and faithful Representative-Hon. Daniel P. Kingwas not re-elected at the late election. As nearly ascan be ascertained, without an official count, the vote of the district stands thus ;-Mr. King 4,635; all others 14,648; making Mr. King fall short 13 votes. Should the official count confirm the above result, the district must be subjected to the expense and trouble of another trial, which might all have been avoided had the score of whigs in this and every other town in the district, who would have voted for Mr. King, had tained in the Post Office at Meiamoras. I have they voted at all, only been possessed with written home four times since that date, but know they voted at all, only been possessed with not whether you have received any of the letters, patrotism and energy sufficient to have carried If I do not get an answer to this, I shall begin to them to the polls. We trust and confidently be-think, either that you are all dead, or that you have forgotten me. lieve that another trial will re-elect him by a handsome majority, and may we not hope that our friends of the Liberty Party will lend their assistance and deposite their votes for the man whom the loco-loco papers have stigmatized as the enemy of his country and a traitor because he voted against the 'ten million Appropriation, War bill.' Read the following from the Salem Advertiser and then say if they shall again have occasion to draw such an inference, which is in itself sufficient to make a thousand slaveholders

Daniel P. King who voted against it (the Mex-

Rev. Chas. C. Sewall.

We are glad to see by the election returns that this gentleman has been chosen to the Legislature from the town of Medfield. It is highly honorable to the citizens of that fown and must be very gratifying to Mr. Sewall that he was elected by their Representative. It is also a source of grati- with smoke. fication to the numerous personal friends of Mr. be, he wins the respect and confidence of the peoexcellence and purity of his character, his tender sympathies and conscientious devotion to the back to the Castle. good of others, for which he has been so distinguished in his chosen professior, will recommend him in the discharge of the new and important duties devolving upon him as a legislator.

KEEPING A SECRET.

Some people find it the hardest thing in the world to keep a secret. The troublesome thing until at last it is in possession of so many that it is not considered worth keeping and the tremenheard it related of Washington, that he once had cans 1200. in view an important expedition the direction of But I have not time to write any more now; officers to be told the particulars. At last Washington, becoming tired of his importunity, said to him in a confiding tone-"can you keep a seeret ?" "Yes," said the officer. "So can I," was the reply of Washington:

SPEAKER OF THE HOUSE.

have suggested for speaker of the next House of officer he has no superior. He is a very prompt, one can be selected who will be so universally

Railroad Disasters. On Monday last, at the Boston and Lowell Station, a manifell under the wheels, in attempting to enter the cars while in motion, and was frightfully mutilated. On Tuesday a man named Gustavus Follen was run over and killed on the track of the Boston and Providence Railroad, between Boston and Roxbury, by the Dedham train, coming in. He stepped from the track to avoid the steamboat train, which was just going out, and it is supposed, did not see the Dedham train, which was going the other way, by which he was struck and run over, cutting his body in two.

Accident .- Yesterday forenoon, as we understand, Mr. George Bancroft of this town, a very industrious mechanic, who was employed at the wind sawing-mill, of Mr. Jefferson Taylor, had the three first fingers of his hand badly cut, the cila Justice of the Peace for the County of Essex. middle finger being split from the nail through the sesond joint, and nearly to the third, by coming in contact with a circular saw while in motion. The numerous accidents of a similar nature, which are chronicled almost every day, should serve to warn those whose occupation obliges them to use or be constantly near these saws, to exercise the utmost caution.

From the Seat of War.

We have been permitted to take a copy of the following letter from a citizen of this town, now a U. S. soldier in the regular army, addressed to has been on the track. The rails are now laid all his friends in this place. It will be interesting to the distance from the foot of Andover St. in Saour community, as it comes from one well known our community, as it comes from one well known lem, to Southwick's tannely in the ligence from Europe.

there, who bore a part in the scenes which he the rate the work now goes on, we may expect the ligence from Europe.

The Royal Mail Steamship Acadia, Capt. Hardescribes. The writer of the letter, partook of the iron horse will be near the site of the Depot at dangers of the Florida war, was in Fort Brown Wallis Mill dam in another week. The only part at the time of the severe Bombardment during the then remaining to be done, will be the short dis- via Halifax, having accomplished the passage in absence of Gen. Taylor at Pt. Isabel, and survived touce from the Aqueduct point in North river to 12.34 days, including the detention at Halifax. the perils of the seige of Monterey. Among the the bridge. At the portion of the road between minor evils of war, the manner in which the ser- the bridge and the tunnel, the piles are all driven 4th. vices of the humble private soldier are overlooked, the world, strongly exhibits the injustice of the remove a portion of the wall on the western side system. The writer of the following is a private of the tunnel. From the progress already made, in the 7th Regiment of Infantry, and has served we are inclined to adhere to the opinion formerly several years in the army. We helieve he first given, that the passenger cars will pass over the enlisted at Charlestown, as a marine.

Monterey, Mexico. Oct. 8th, '46. MY DEAR MOTHER,—I improve the first opporthat I am alive and well-hope this will find you and my sisters the same. I have received no letter, nor heard from home in any way, since you wrote me May 12th. If you have written any letters since then, they have probably been de-

I suppose before you receive this, you will see an account of the great battle we fought with the Mexicans in taking this place, in the public prints. We arrived in sight of the town, on the 19th of September. The Mexicans commenced firing up-on our advanced guard, and the first shot—a twelve pound cannon ball-struck within three feet of Gen. Taylor. We fell back and encamped in a beautiful grove of live oaks, about three miles from their Batteries,-for having marched fifteen miles that forenoon, we needed some rest before commencing the Fandango which came off

Sunday morning.
Our division, under Gen. Worth, was ordered to march to the rear of the town and take a posiican War) has in all probability been defeated before the people of this district. What a striking
evidence this, of the UNPOPULARITY of the time the other two divisions gave them pell-mell in front. We started off, and came to a halt that night at the base of a high mountain, on the ton of which, was a Castle and two Batteries, from whence those who were stationed there, kept up a continual discharge of bomb-shells and rockers, blazing away at us all night. The next morning we commenced the attack, but the enemy at first had all the advantage. Being above us, they could look down from the top of the mountain, gratifying to Mr. Sewall that he was elected by and survey all our movements, and point their the union of those of opposite political parties, who artillery where it would tell with the most deadly were only desirous of selecting the best man as effect; while we were obliged to charge upwards in the very mouth of their cannon, almost blinded

Our Yankee boys rushed up the hill, firing and Sewall in this place, to see that wherever he may yelling like so many fiends broke loose from he pit; while the Mexicans, not fancying the sharp points of our bayonets, began to break their and retreat in confusion, and before night we had taken the two Batteries and driven them

The next day we stormed and took masses of the Castle, and the Mexicans fell back into town. On the third day, they fought us in the streets and from the tops of the houses, but on the fourth, finding it in vain to contend any longer with Uncle Sam's boys, they laid down their arms and surrendered.

It was a terrible spectacle to behold after the fight was over, I assure you. The hills were covered, and every street and lane and alley was worries them so much that they feel obliged to filled with the mangled bodies of the dead and call in three or four friends to help them keep it, wounded. Groans and cries were heard on every side. At the commencement of the battle, the Mexicans had 20,000* men under arms, while Gen. it is not considered worth keeping and the tremen-Taylor's force was only 7000. Our loss in killed dons secret becomes common property. We have and wounded, was about 500; that of the Mexi-

Yours affectionately,

B. V.

*The writer probably includes in this estimate the inhabitants of the cily of Monterey, capable of bearing arms.

Bound to put it through-Since the decision of the Myers case, murderers in Virginia are in Several of the Whig papers in this county high glee. At the Superior Court of Richmond. William King, charged with the murder of his Representatives, Hon. EBENEZER BRADBURY, of wife was put on trial on Monday. The case was Newburyport. Mr. Bradbury is every way well submitted without argument to the jury who qualified for the duties of the office; as a presiding promptly rendered a verdict of acquittal. On Tuesday, Pedro Antonio, charged with maliciousefficient and impartial man, and we doubt if any by stabbing Mr. Jordan, the jury could not agree. On Wednesday, John F. Dentler, charged with maliciously shooting Charles Nevins, was acquit-

Essex Rail Road.

This undertaking has been prosecuted with more than common vigor since the locomotive lem, to Southwick's tannery in Danvers, and at and ready for the superstructure. In connecting while those of the officers are trumpeted forth to with the Eastern Railroad, it will be necessary to decline in prices had been submitted to. road to the principal Depot in Danvers, before the commencement of the new year.

Marriage by two Clergymen.

A notice is going the rounds of the papers, that ertain couple has recently been married by two clergymen. If any such marriage has taken place, the same couple has been married twice over. Marriage is a civil contract, the parties assenting to the union before a minister or magistrate. The religious services on the occasion are, therefore, no part of the legal solemnization of the marriage, and there may be wenty clergymen present who may engage in these servi ces, but only one can solemnize the contract.

We have heard of a learned and eccentric magis rate in a neigliboring city, to whom a couple applied to be joined in matrimony, while he was busily engaged in writing. The groom handed his certificate to the magistrate, who asked them if they wished to be married to each other? They of course answered 'Yes.' 'Well then, you are maaried,' said the magistrate, resuming his writing. This was a legal mar-

At a town meeting in Brighton, the Selectnen were instructed, by a vote of six to one, to prosecute all violations of the license law, and in one person voting against it.

An interesting fact was, as we learn from the Philadelphia Inquirer, elicited in this city a few days since, in the decision of a bet between two gentlemen, in reference to the day set apart by the Constitution for the inauguration of the President of the United States, viz: the 4th of March. It was supposed by some that that day might come on a Sunday, and therefore the ceremony should be postponed till the following day. By referring to the debates of the Convention that formed the Constitution, it was found that the 4th of March in every fourth year, would not fall on Sunday for the period of three hundred years, and drum Bay on the 2d inst. it was on that account selected by that body as the nuguration day. [Ex. paper.

There must be some mistake in the above. It will be well recollected that the inauguration of President Monroe took place on Monday, the 5th March, as the day preceding was Sunday, The question was then mooted, whether as the preceding term of office expired on the third of March, and the oaths of office were not taken until the fifth—the United States was not without a plpes, with Messrs. Cyrus Alger & Co. of Boston, President on the intervening day. As, however, and the West Point Foundry, in equal quantities, no serious practical difficulty arose from the want at \$47.50 per ton. For the 16 and 12 inch pipe, with Mr Leonard Fuller of Poston, at \$47 per ton.

CALL FOR VOLUNTEERS.

It is announced from Washington that several thousand more of volunteers are called which he thought it prudent to be kept private, but battle published in the papers, better than I can graph reports that the War Department has made requisitions calling into carry on the Mexican War. The Telebattle published in the papers, better than I can graph reports that the War Department has made requisitions calling into carry on the Mexican War. hade requisitions calling into service eight additional regiments of volunteers. One from eastward. each of the following states: Massachusetts, New York, Pennsylvania, Virginia, North Carolina, South Carolina, Louisiana, Mississippi, and one of Mounted men from Texas.

THE CALL FOR TROOPS .- The following are the places of rendezvous for the nine regiments called for in yesterday's orders by the Secreta-

rv of War :-States. Rendezvous. One regiment from Lousiana, New Orleans. Vicksburg, Charleston, Mississippi, South Carolina, North Carolina, Wilmington. Guyandotte. Pittsburgh. Virginia, sylvania, York. N. York City. Massachusetts, Boston. Texas. The Governor is author ized to designate the place of rendezvous, and to report the same to Gen. Taylor. The troops are to serve during the war, and are es imated to amount to from 6,500 to 7000.—Union.

ALL FOR LOVE. On Saturday night two barns and other outbuildings on Magazine street, INSTALLATION. Rev. Mr. HITCHEOCK, was on Cambridgeport, Mass., belonging to Mrs. Tafis, Wednesday evening last, installed as pastor of the were burnt, with hay and a horse and cow,-Loss about \$2500, insured in Concord. The Boston Post states that a person who had been employed about the premises was arrested soon after the fire, and at once confessed that he had set it, and that he was paid \$18 for doing the deed by an individual who wished to marry Mrs. Taft's daughter, but whose suit had been

> We learn that since the stranding of the Great Britain, Capt Hosken has had the misfortune to lose his most eslimable wife, and that with his public and private griefs, his mind is truly in a distressed condition.

Hon. William Findlay, formerly Governor of Pennsylvania, died at Harrisburg on Sunday, in his 79th year. He was the father-in-law of Gov. Shunk.

ARRIVAL OF THE GREAT WESTERN AND

The steamer Great Western, Capt. Matthews, arrived at New York, on Monday night at 12 o'clock, from Liverpool, which port she left on the 31st of October-bringing eleven days later intel-

rison, arrived at Boston on Tuesday morning, at half past 9 o'clock, from Liverpool, the 4th inst. The dates are from London to the evening of the 3d inst., and from Liverpool to the morning of the

The Cotton Market was depressed, and a slight The Produce markets had also declined consid-

Indian Corn still commands extreme rates. The London Sun says it is notorious that the wheat season has been plentiful, and the supply is more than the average; it is notorious, also, that the farmers are keeping back their grain, to raise it to starvation prices-and that the government is fully justified in not listening to the clamor for opening the ports.

A considerable decrease is taking place in the price of our home produce. Flour, at Marklane, on Monday, receded in the better description as much as 4s. a sack; and at the Liverpool market Tuesday, there was a decline of 4s 6d. per barrel on United States and Canadian flour. All descripions of Wheat declined from 3d to 4d per 70 lbs. Trade in the manufacturing districts continues dull, and many of the manufacturers are working

It is stated by the London journals, that money continues abundant in the discount markets, and capitalists have a difficulty in employing it. Parliament has been further prorogued to the

12th day of January.

Another formidable revolutionary movement has commenced in Portugal, which threatens to be very serious in its results.

Two mails from India have arrived in London, but the news they bring is unimportant.

The Times of the 3d inst. states that the relations between the French and British governments were becoming hourly less friendly, on account of the Montpensier marriage question.

The Royal muil steamer Hibernia arrived a Liverpool on Thursday, the 29th ult. at an early hour. Her news was looked for with the greatest anxiety, by the merchants and speculators in cot-South Reading a similar vote was passed, only ion and breadstuffs. The latter were somewhat disappointed at the more favorable accounts respecting the cotton crop, and the abundance and low prices of all kinds of breadstuffs in the American markets.

Mr. Bancroft, the Minister of the United States arrived at Long's Hotel in London, with dis hay and family, Oct. 31. Mr. B. went out in the Great Western, which left New York Oct. 8.

The unfortunate steamer Great Britain still re mains on the sands in Dun drum Bay. Mr. Mack-intesh, an American, has concluded an agreement is now making arrangements with Capl. Hösken for that purpose. They both proceeded to Dun-

STON WATER WORKS.

The Water Commissioners have closed contracts for 4500 tons of iron pipe, of different dimensions, to be delivered in equal monthly installments during the next summer, from March to October inclusive.

These contracts are made with five highly respectable and substantial houses, on the following of a President on that day, the discussion of the and for the 6 inch and 4 inch pipe, with Messrs subject was not thought to be of much impor- A. M. & B. W. Jones and Messrs Colwell & Co., both of Philadelphia, in equal quantities, at \$45 per ton-each contract to include the required proportions of curved and branch pipe, and the whole o be delivered in Boston. There were 22 offers, including 2 from Great Britain.

The Water Commissioners have purchased sev-

eral millions of bricks, a part of which are already delivered along the line of the aqueduct, and they are daily making purchases from in the vicinity, and of bricks brought from the

We understand it is their intention to procure a sufficient quantity during the present autumn, to ensure the regular prosecution of the work on the whole line, from the earliest period at which it can commence in the spring, until further supplies can be furnished, of the manufacture of the next sea-

Before the opening of the season, proposals will be invited by public advertisement, for the masonry, in sections. A single contract has been made, on which the work is commenced, by way of specimen. This commencement is in West Needham. The work will probably be soon suspended by the cold weather. Boston Advertiser.

A letter from Monterey, from James A Jackson, a Washington volunteer in the Baltimore batilion, describing the late, battle, says :-

I was almost thirsted to death; and upon casting a disconsolate look around me, I saw a poor fellow lying dead close bp; I stooped down to see if there was any water in his canteen, and it was full; I took a drink, and swung the prize to my side. I soon passed another poor fellow, with both legs carried away; he had been thus woundboth legs carried away; he had been thus wounded ever since morning, and was groaning and calling in a very feeble manner for water. I stooped to give him a draught, and he emplied my canteen. I had not got one yard from him, before a grape shot came and cut him in two-throwing little pieces of flesh and blood all over

I. O. O. F.—A new Lodge of Odd Fellows was instituted in this city on Wednesday evening last, entitled "FRATERNITY Longe-No. 118." The ceremonies took place at the Hall of Essex Lodge in Lynde Place. The officers were installed a follows:—James Kimhall, N. G.; Stephen Whit-more, Jr., V. G.; J. F. Worcester, Secretary;— Thomas H. Lefavour, Treasurer. It appears that there are now 1IS Lodges in Massachusetts. The number of members of the order in the United States is about age hundred thousand.—Gaz.

We are informed, (and fear it may be true,) that Hon. John Quincy Adams had an attack of

Principles. Our fathers branded him as a traitor, who s nis principles to his interest. And if there is living 10-day, who perpetrated that deed in '7 score years and ten' has not proved a sufficient of time to wipe the stain from his politited

Yonder Monument tells you at what a few Whig principles were adhered to and sustained in days of our failners; and those very sloves weep blood, should the fellow citizens of the ever here prove recreant. Perhaps some sprig of eign growth might be found to do the deed tempt to lead others astray; but, for a son of the to be found so far fallen from the high-souled pr ples of his sires, would give him an Arnold fam consign his name to oblivion. What mean those ures cut in deep gashes on you Monument's side. They are the names of Men. They are Sentine Not only sentinels of liberty, but sentinels of pr ples which won that liberty. They point you to deep wounds of the living men-to that trick! crimson current, which was their life-blood, and price paid by them to establish that liberty, and tain those principles. Should those principles, es lished at such a cost, ever waver here, those that names would take the form of life—their eyes fi ing from Corner to Corner, demanding, Whence of this deteliction in duty? what selfish, sordid soul dared thus to blast the reputation of the place of

Can it be that it is no longer a problem, wit multitude of the Whigs of Danvers, when princi and self-interest come fin contact, which of the shall receive their homage?. The election is ove shall receive their homage? The election is ove The results are passing through the minds of the p ple, leaving on them all, its pitible record. We is the friendly hand broad enough to place over blurred, blotted, shaundul page of our history, hide it from posterity.

Let us not despair. Although there is chaf

mongst the wheat; still there is much wheat reming. The original stalks are not yet all dead. It at the polls on that day, several old men: one them, a very aged man, whose hasty steps; on trying day, the sad events of which have been so triotically recorded by their fellow citizens, led his the battle of Lexington; there his comrades fells he sull survives, to attest to the value of Whig diples, striving by his example to perpetuate the mong the generations away down the lapse of that they might be persuaded to suffer even, and than to sacrifice principle. It was not him, I trus was no son or descendant of his, who should be the o waver for a moment, under these circumstance Let principle triumph, though self-interest suffer. For the sixty-ninth time that old veteran depos his vote in the ballot box of his native towny for Whig Governor. He says, Let us have Whigh her laws, while I live, and ever after if you wis

Let not the holy trust that he and the like of dre so sacredly delivering to our hands, be thus it y trampled upon. Their warning voices will s lie upon our ears. Their tottering steps willis ease to bear them to the polls, and their heady perity will soon fail of their persuasive elaquence, word and in deed, to keep them back from their n

areer of rashness and rum! The cart appropriate Ponder, friends! See if Whig principles are worth preserving. They supported our fathers un the most trying circumstances. They raised old M sachusetts to her elevated position among her si-States, and lif not abused, they will, under God, p ect and shelter all who put their trust in them. Pall 11. 12

Union and Strength

Salem and Andover Railroad. Mr. Editor, -I see by the papers that the East Railroad has various projects for accommodating country trade. One is through North Danvers to thuen direct—another is through Topsfield and f ford to Methnen-another through Topsfield, Box and Georgetown to Methuen-another through No Reading to Lowell-another through South Read to Lowell. We suspect, from appearances that Se Reading is their favorite project, as they have stop work between the North and South Parishes of D

We are inclined to think that the country people not be quite so verdant as to be sucked in by th movements. The project for a road through So Reading, and from thence to Lowell, will of cov be opposed by the Boston and Lowell road, with its power; as it gives a parallel road from Lowel Boston, against the privileges given that road in

A COLD WINTER COMING. Christmas day befi on a Friday this year, says the Mirror, an we are to have faith in an ancient ballad we are to have faith in an ancient ballad hard winter is expected. The ballad run thus:

"Yf Crysmas day on the Fryday be, The fyrste of winter harde shall be, With froste and snowe and with flode, But the laste ends thereof ye goods,'

Professor Schenbein, the reputed inventor the "Gun Cotton," has transmitted a specim of that article to the President of the U. S. in sealed packet, with an admonition that it opened only in his presence. It is said that packet also contains some hints in relation the mode of preparing the death dealing arcle. And it is estimated that 200,000 bales cotton will be required for this purpose. The will tend to enhance the price of cotton som

SANTA ANNA.—As Santa Anna did not st ceed in obtaining the two millions from N ceed in obtaining the two millions from M Polk, he was supplied himself by seizing a conducta on the way to the coast with that amount and we really think that the Administration owe a deep debt of gratitude to Senator Day for killing the bill, as otherwise Mr. Polk wou have had the whole would laughing at him, it having given Santa Anna the money to are and equin his army to fight against us, while and equip his army to fight against us, whi would have been the application of it, had been paid over to him.—N. O. Bulletin.

Teeth at Cost, until Jan. 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases, of two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carred work in blocks, prepared expressly for each case, is necessary; for restoring that which has been removed his absorption, and for bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be avercome in form fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-broke to remediate the defendance of the sound of work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work - especially in whole and half sets. Another advantage of curved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to retaint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in musticating food; otherwise, the whole work will prove a source of continual annoyance, by its instahility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, weere great difficulty in execution is overcome. They annot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a whole set, viz. When a fit and finish of the work are produced, to the satisfaction

TERMS.

of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one hulf the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work' that has been warn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivol, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c. will be attended to in the must thorough, faithful and scientific manner, and on the following terms, viz. For filling cammon sized cavities with gold, \$1; For other kinds of Filling, from 50 cents to \$1; For setting on gold pivot, \$2; For Cleansing \$2; Extracting 25 cents. Examinations and advice gratis. All operations warranted.

ations warranted. Carved work in block for whole and half sets will heegot up for other dentists on reasonable terms.
S. STOCKING, Surgeon Dentist.

ABDOMINAL SUPPORTERS. NEW ENGLAND TRUSS MANUFACTORY, EOSTON, MASS.

JAMES FREDERICK FOSTER

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved Tausses, at his Old Stand, No. 305 (opposite Ao. 264) Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any, other person engaged in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back, Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all gases that may come to him.

Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr., Leech; Trusses of galvanized netal that will not rust, having wooden and copper pads, Read's Spiral Truss; Rundell's di; Salmon's Ball and Socket; Sherman's patent French do; Bateman's do, double and single; Stone's Trusses; also, Trusses for children, of all sizes. Dr. Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss. Thompson's Kachet Truss, and the Shakers' Rocking Trusses, and be had at this establishment. Whispering Tubos and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, wited on by his wife, Airs. Canoline D. Foster, who has had ton years experience in the business.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons at

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons at dicted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. Foster, of Boston.

DANVERS, (MASS.) SATURDAY MORNING, NOVEMBER 28, 1846.

NUMBER 36

Our young and gentle friend, whose smile Made brighter summer hours, Amidst the frosts of autumn time Has left us, with the flowers.

No paling of the cheek of bloom Forewarned us of decay;
No shadow from the silent land Fell round our sister's way.

The light of her young life went down As sinks behind the hill The glory of a setting star-Clear, suddenly and still.

As pure and sweet, her fair brow seemed Evernal as the sky, And like the brook's low song, her voice A sound which could not dic.

And half we deemed she needed not The changing of her sphere, To give to heaven a Shining One, Who walked an angel here.

The blessing of her quiet life
Fell on as like the dew;
And good thoughts, where her footsteps fell,
Like fairy blossoms grew.

Sweet promptings unto kindest deeds Were in her very look;
We read her face, as one who reads
A true and holy book:

The measure of a blessed hymn,
To which our hearts could move;
The breathing of an inward psalm,
A canticle of love.

We miss her in the place of prayer,
And by the hearth-fire's light;

We pause beside her door to hear Once more her sweet "Good night!" There seems a shadow on the day Her smile no longer cheers; dimness on the stars of night,

Like eyes that look through tears. Alone unto our Father's will One thought bath reconciled: That he whose love exceedeth ours

Has taken home his child. Fold her, oh Father! in thine arms, And let her benceforth be A messenger of love between

Our human hearts and thee. Still let her mild rebuking stand Between us and the wrong, And her dear memory serve to make

Our faith in goodness strong. And grant that she who, trembling, here Distrusted all her powers,
May welcome to her holier home
The well-beloved of ours.

MISCELLANY.

Turning a New Leaf.

BY ABEL REDTOP.

'Dad, 1'm goin' to turn over a new leaf next week, said Sam Dana, junior, to his parental progenitor, Sam Dana, senior,—they were hocing corn together near the Dana family domicil, in

the town of Bow. The two Sam Dagas looked as near alike as two peas, especially Sam junior;—he looked a shade younger—otherwise he might have been taken for a chip of the old block, block and all. At the sound of the other's voice, the elder Dana peaced his chiefe on the best terms as a second big of the other's voice, the elder Dana peaced his chiefe on the best terms. restel his chin on the hoe handle, and peered at his sturdy offspring, as if doubtful of the meaning and intent of the familiar words. Sam, junior, immediately fixed his sharp bazel eye on that of his dad, and went on :- Yes, dad, I'm goin' to turn over a new leaf, You've often told me to do it. Next week you know. I'm one and twenty, out of my time; I'm off. You see, dad, I've worked on this patch of land ever since I was born, and I calculate I have been a smart boy haven't 1? (Sam, senior, nodded his head.)—
'Well, I always stay here, I shall always be a smart boy and nothing else. I want to go round, I want to speculate, I want to be somebody, I want to speculate, I want to be somebody, I want to put the dollars into my pocket; darn it, want to put the dollars into my pocket; darn it was a put the dollars into my pocket; darn it was a put the dollars into my pocket; darn it was a put t want to speculate, I want to be somebouy, I thing by turns. Sam Dana was fairly crazy with dad, I want to go it, I'm off, I've made up my dad, I want to go it, I'm off, I've made up my joy.

Sam drove on. An hour and a half after he mind—no use to try, nothing cant alter me. I'm sam drove on. An hour and a half after he left his father's house, he hitched his horse in Reveille.

Sam came to a full stop, and straightened up with a no less emplutic 'Dad?'

What in thunder are you working so hard for?' demanded the senior, and at it he went again, still harder than before, and after him went Sam the younger, as hard as he could dig; and if the dinner horn had not sounded in a moment they would have worked themselves out of their boots. The moment he heard the horn, the elder Dana shouldered his hoe and struck a bee-line for the house: Sam following in the steps of his predecessor; filed into the shed, lung their hoes in their proper places with military, precision—

tinguished their hoeing for the last hour, wiped, ash, and merely remarking that he didn't know as he should want any more ware, wished the room, and down to the table they sat, face to face, and again they looked fiercely at each other—

'You're a fool!' said Sam Dane

'You're my dad!' said the other Sam:
'You're going to make a fool of yourself.'
'I calculate not,' quietly replied Sam.
'What's the matter now?' asked Mrs. D.
'That boy, that boy's the matter,' said her husband, in tones that told his feelings were ruffled.
'Nothing, mother, only talking a fittle.'
'Only talking; do you hear that? He says he's only been talking—did you ever hear anything like that?

'You're my dad !' said the other Sam:

thing like that?
'Well dad, did I do anything olse?'
'Do? Did? You talk like a lool Sam.' 'Now husband, do keep cool-you get so wrathy if things, don't suit you-now what's the

'Ask Sam.'

'Sam, what's the matter?'

'Well. I guess you had better eat your dinners, and vou'll feel better after it, replied Mrs. Dana

Dinner disappeared wonderfully quick-the elder Sam laid to it with great strength and speed; the younger Sam kept his eye on his father, and strove to keep pace with him to all his movements
—they finished together. They left the house in
precise order—they shouldered their hoes as order y as veterans—they recommenced their labors in in the field at the same moment, nearly two hours, they toiled as if hoeing for a wager—the silence was broken by a sharp, quick. 'Sain!' from the eldest Dana, at the same instant

coming to a full stop. 'Well!' was the instant reply. Go to the tailor and get measured for a freedom suit,'-and at it they went again; another half hour passed in silence, and then came again,

Well ! said the individual. 'Pil give you one hundred dollars to start with. 'Another half hour passed; they began to slacken their speed.

Well? 'What are you going to do?'

Going peddling.' They hoed a full hour at a moderate pace. 'Well?' 'I'll give you the red horse and wagon.'

A few minutes more of moderate hoeing, and the elder Dana gueseed that it was time to drive up the cattle; so Sam started for the house—the

Sam went to town for his freedom suit—his old clothes were nicely mended, washed and packed away in his chest—his mother and sisters were busy all the remaining time of his minority, fixing off Sam, and when the day came for him to leave home, all were pleasant, and with a light heart he drove off.

Sam owns you—old horse, you're mine.
Sam's property—a cool handred in your pocket, Sam—a chest full of clothes, (here he threw up the lid) twenty pair of socks, sixteen shirts and lots of drawers, a suit of new clothes bright luttons, six pair of boots, and what is this? two innince pies, some cheese and a pound cake—that is spitton.

Low the lid twenty pair of boots, and what is this? two innince pies, some cheese and a pound cake—that is spitton. Sam's property—a cool hundred in your pocket, Sam—a chest full of clothes, (here he threw up the lid) twenty pair of socks, sixteen shirts and lots of drawers, a suit of new clothes bright hutlots of drawers, a suit of new clothes bright hutlots, six pair of boots, and what is this? two mince pies, some cheese and a pound cake—that is some of the girl's work. I own the whole of this crowd—horse, wagon and driver, ha, ho! and Sam Dana laughed long and loud; then he hal-Sam Dana laughed long and loud; then he hal- three years.

On arriving at the homestead, he unharnessed his old horse and turned him out to feed, lugged the chest up stairs to its accustomed place, rigged himself in his working suit, shouldered his hoe, made for the cornfield, and went to work. Sam Dana; junior, is entirely cared of his straying notions—he says he got cared for something less than fifty dollars, and he intends in future to keep clear of all attacks of the troublesome complaint—in short, he means to spend his days on the land where he was brought up—free and happy, turning the sod for a sure return of profits and an independent livelihood. Sam Dana is a sensible independent livelihood. Sam Dana is a sensible follow, and there are others who might as wolf profit by his experience and example.

Cause of Divorce. BY OYSTER KNIFE.

Some eight or ten years ago, the Legislature of the Wolverine State contained a goodly show of the rare ones perfect characters, in their way. Among them was one, belonging to that branch which he denominated the Sinnit, who was remarkable among other things, for enorations quids of tobacco, copious ejections of the saliva consequent thereon, and frequent addresses to 'Mr Speaker,' on 'pints of order.' Among the many ancelotes related of him. to that branch which the definition of the life; who was remarkable among other things, the enormous quids of tobacco, copious ejections of the saliva consequent thereon, and frequent addresses to Mr. Speaker, on 'pints of order.' Among the many angulates related of him, a 'Pontiacker' vouches for the veracity of the collowing selections. Much of the most be watched. The perience less painful reflections. Much of the most be watched. The proceed is a good time to dig muck to be used next spling where trees are, to be set—and now is a good time to dig muck to be used next spling where trees are, to be set—and now is a leisure time when almost every farmer can thought is (almost) always right; and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those and the men who succeed best in life, are those are the second. The succeed is a leisure time when almost every farmer can be succeed.

following:

To crown the dignity of his position, the honprable semater became the happy husband of a buxom widow, endowed with an indomitable will of her own. Having both used up a large share of those usually allotted to mortals for

reconney, and declared his intention to be natu-ralized, or, in other words through the medium Creator enstamped upon it. It spreads its quiet of a divorce, to be restored from his unnatural wings above the grave, and seems to promise that state to the natural one he enjoyed prior to his all shall be peace beyond it.

for the term of five years.

The senator shonk his head sorrowfully in

That his the occasion, 'squire, said the sena-tor, only that we aint had three years of it yet. Divorce may be decreed for inconstancy.

Another shake of the head. For impotency.

Impudency! that's it impudent as thunder!

the home of angels.

They are gone—gone from us, but we cherish their remembrance, and forget them not in our daily walks through life. They are trans-nlanted to another land, while love casts a fideless garland upon the green turf which covers them. covers them

The Second Thought.

It is a saying of politicians that the soher sec-ond thought is always lest, and, if they have no other good motto, they deserve credit for this one. Many of the evils which are encountered in this world, might be avoided if the second thought were taken. Men act too hastily; they go ahead too fast. If I had thought, comes too late. They act upon impulses, and then stop to reflect.

If I had thought be drinked, says the your g

woman who for the first time has witnessed her husband's inebriation, I should not have married

him. Certainly not, says her neighbor, but adds to herself, She did not stop to think.

If I had thought he would fail, says the merchant, I would not have trusted him. But in his enginess to sell his goods he did not stop to

think.

If I had thought a second time, says a man with a scolding wife, I never should have married that woman. His remark to true, and he knew it. Just so with many folks. They never stop

for the second thought.

A parish settle a minister. They have heard him prench one or two sermons, and are carried nawy by his eloquence. A bargain is immediately struck up, and he is settled among them. In a very short time you hear, Oh if we had thought he would have preached so, we never should have hired him; I wonder we did not think. Well, whired him; I wonder we did not think. Well, hired him; I wonder at the same thing—the every bolly else wonders at the same thing—the would act less hastily, and consequently experience less painful reflections. Much of the perience less painful reflections. Much of the little was a good time to dig muck to be used trouble of life arises from acting on the first

Evening.

111 41 1

There are two periods in the life of man in which the evening hour is peculiarly interesting, youth and old age. In youth we love its mellow moonlight, its million of stars, its southing shade earthly sojourn, it may be well imagined that the process of assimilation was slow, and it resulted that ere the honeymoon had waxed into the falness of a happy maturity, the become bread of discord alone remained, and the comb, the shape of a three-leged stool, had been the shape of a three-leged stool, had been firely used. Plats of order, were raised in the slumber of a monlicht in the shape of a three-leged stool, had been inetr endess babuath there. We mak abroad on freely used. Plats of order were raised in creation, spread in the slumber of a moonlight vain: order could not be restored. Unfortuvain: order could not be restored. Unfortunately, there were two speakers, and the house
was divided. In contending for the privoleges,
breaches were made, which could not be mended, except as the senaton thought, by the State.
Elated with his bright idea, for which he was
indehted to Mr. Marcy, no doubt, he repaired,
at once, to a lawyer of celebrity in an adjoining
ornny, and declared his intention to be naturalized, or, in other words through the medium

SABBATH ADVICE.

To Ministers.—Don't let your prayers exceed ten minutes, nor your sermons half an hour. Never give out more than five stanzas to be sung by the choir: read notices before the sermon, and if you have or initted any, the deacons will have time to give you notice. Besides, notices after the sermon may have had a had effect on the minds of the congregation.

The Barrats—Don't carry crying babies to church

the attention of others, and disturbs those who wish to hear. The church is no place to display dry goods, carrying smelling bottles and peppermints, or to faint away. Remember this, and act accordingly.—

he bridge over which he himself must pass;

IRISH CORRESPONDENCE.

The following letter, a contemporary thinks, might be entered at Cattle Show, offering a premium for the first, second, and third best Bulls, and the writer would pocket the cish without dispute : ...

From Pat Owen in Ircland, to his Brother in America.

My Dear Nephew,—I have not written to you since my last before now, because I had moved from my former place of living and did not have to the very melancholy news of the very sudden death of your only living uncle Milpatrick, who died very suddenly after a lingering illness of a bout ten months. Pour sowl, he was not well two days together during the whole time of his sickness; the poor creature lay perfectly spachless, crying incoherenity all the time for water, water, and herefully all the time for water, water, water, and they would not give him a drop, but as soon as he breathed his last, the doctor gave over all hopes of his recovery. You have now not a single relation in the world except myself and your two cousins which the world except myself and your two cousins which were killed in the last war, his property now devolves to next akin, who all died some time ago, his property was something very considerable the one half he lost in a horse race, the other went to pay his debts, it was the opinion of every one at the time that he certainly would have won the race, if the other horse had not been too fast for him. I cannot dwell longer on this mouraful subject. I must close and seal it with you uncles coat of arms; I beg you not to break the seal when you open the letter, and done you open it within 3 or 4 days after you receive it, by that time you'll be prepared for the melancholy tide ings from your affectionate uncle, ings from your affectionate uncle.

PATOWEN. P. S. Don't write to me again 'till you received

Care of Young Trees.

Trees that have been set this fall should be protected in some way against the winter winds. When the ground is frozen bard they will stand firm but before that they need a prop and in spring they will need the same.

As it is not prodent to keep straw or litter a. bout the trunks through the winter, and as stakes prove injurious by fretting and lacerating the bark, to say nothing of the cost of procuring them; we advise to support them three the winter by a hank of earth, in case the soil is already rich enough, and if it is not, then by a wheel-barrow full of manure that is not so strawy as to invite the mice to make nests. The manure that is made at the sink drain-suds, ashes, and such

matter intremixed, is better insuch cases than any, Peat muck is excellent to be intermixed, for it keeps the earth more moist through the succeeding summer than any kind of highland earth; and this muck should be used on setting the crees, but it should be dug long hefore it is used that it may necome fine and uningle readily with the other

From the Maine Cultivator. The Sugar Beet.

We have read many accounts recently, in various agricultural journals respecting the Value of this root as a feed for horses, oxen, cows, sheep and swine. For our own part we are al-most wholly ignorant of its merits, having never cultivated it on a scale sufficiently extensive to admit of any very accurate or extended experi-ments being made to test it. Although from the very limited knowledge we have gained by our own circumscribed efforts, and the representations of those whose statements we deem worthy of the most ample credence, we are inclined to regard it as a vegetable deserving a very high rank among those of its class, and especially when appropriated as a winter feed.

PETER DIEHL, of New Oxford, Penn., in a com. munication to the publishers of the Albany Cultivator, says :--

I have tried, during the four years past, various methods of cultivating the sugar beet. On our soils, which we call red land, but which I suppose you would call alluvial, the following plan I find the best. I work my ground till it is well pulverized, with a good supply of manure, if it is poor. I then draw furrows about two feet apart, into which I put a reasonable quantity of manure. I then run my plough both sides of the furrow, which will cover the manure and raise it on a ridge. I plant the seed from ten to twelve inches apart—on the ridge. In this way I have been tolerably successful. Last year I had an extraordinary crop, but I did not take time to ascertain the number of tons to the acre. This year I had two acres, and got twenty-six tons, though I do not call it more than half a crop, it having been a very dry season.

Mr Martin; the barrister, when addressins the jury in the Nisi Prius Court, Liverpool, in re-ply to some severe remarks made by one of his earned brethren on the apparent hesitation of a witness, said, My friend put to the witness a ques-tion which was a mixture of truth and falsehood, and because he stopped a little before answering, to separate the two, he accuses him of unfair heat-He who refuses to forgive an offence destroys know this was the case. Why, it is one of our

DANVERS COURIER:

SATURDAY MORNING, NOV. 28, 1846.

WHO'S TO BLAME?

The official return of votes given in the Second District, for Representative to Congress, is as follows:

Whole number, 9282 Daniel P. King has George W. Dike has 2773 Lemuel Gott 1261 Increase H. Brown. All others have

The Majority against Mr. King is eleven, and there is no choice.

Thus the Whigs of this Congressional District, have failed to elect their Representative, by the remissness of twelve of their number, who neglected to go to the polls. How many are there in this very town, who call themselves good Whigs, but who now have to reproach themselves for not attending to their terest. high political duties on the day of the election? We think they must by this time have felt the responsibility of their position and that they will hot again put the voters of the District to the trouble and inconvenience of a third trial. There is no need of this. We are strong in our numbers, in the popularity of our candidate, and the soundness of our principles. It has been our fault that we have felt too strong, and depended too much upon the prevalence of be sustained without strong and continued efcandidates, the opposition of three parties.

The Governor has assigned Monday, the 28th of December next for a second trial in this and the Fourth Districts.

THANKSGIVING.

"We are all here ; Father, mother, Sister, brother, All who hold each other dear; Each chair is filled—we're all at home, To-night let no cold stranger come. It is not often thus, around Our old, familiar hearth, we're found. Bless, then, the meeting and the spot; For once be every care forgot. Let gentle peace assert her power. And kind affection rule the hour. We're all-all here."

The recurrence of another of these New England Festivals so gladdening to the hearts of many thousands of families, whose scattered members the family board, ought to awaken in all, those the season. What a blessing to the poor, who on the auditors. are at this time relieved, temporarily at least, from It is to be regretted that owing to want of time want and privation from the bounty of their the good things of life, that they can act as almonacts of attachment to our suffering brethren opportunity will soon supply this omission. whom we have seen, that we can best shew our love to God whom we have not seen. Alas—hov many there are who do not sufficiently regard their wealth as a gift from God, as means of doing

How pure and holy ought to be the feelings with which we should cluster around the family hearth, and more especially so when one who formerly graced that circle is missed from the social board! How sad to miss that countenance which was wont to shed its gentle radiance on the bright scenes of this joyful holiday. The voice whose kindly tones fell like music on our ears, is hushed, the hand we grasped is still and in many, very many family circles, its members may say, in the words of the gified poet whose lines we have quoted above-

"We're not all here!" Some are away—the dead ones dear, Who thronged with us this ancient hearth, And gave the hour to guileless mith. Fate, with a stern, refentless hand, Looked in, and thinned our little band: Some, like a nignt-nam, payby day.

And some sat lingering, day by day. Some, like a night-flash, passed away, The quiet grave-yard! -- neme And cruel ocean has its share We're not all here."

The Lyceum.

Is will be seen by the Notice in our advertising columns that Hon. CALEB CUSHING, is to lecture on Mexico. The high standing and reputation of the Lecturer, the interesting nature of the subject at the present moment, and the fact that Mr. Cushing travelled through the Mexican territory on his return from his mission to China, will combine to make this Lecture worthy the attention of all who would wish to be informed in relation to that people with whom our country is now at war. There are to be no evening tickets sold, yet we think the sears will be well filled by the holders of season tickets which may be obtained at the usual places. We hope the audience will be at the hall at an early hour.

Our new Dress.

We are unable to appear to-day with our new type nd head, as was announced last week, having been disappointed by the engraver, who did not perform his part of the work until it was too late to obtain a stereotype plate for use this week. We have however made such arrangements as will enable as next week to fulfil our engagements.

School District No 1.

On Friday evening of last week, an exhibition it the principal school in this district, took place auder the direction of its teacher, H. P. Andrews. The school room on this occasion was tastefully decorated with evergreen and appropriate mottos. At an early hour the large room was densely thronged, and we are sorty to learn that numbers were obliged to go away, not being able to gain room were able to obtain sents, yet under these old, who weighs 51 pounds. unfavorable circumstances the exercises were listened to with much attention and apparent in-

The exercises consisted of dialogues and recita tions of single pieces, both original and select by the pupils of the higher classes, who all acquirted themselves exceedingly well, especially if we consider that they had but a little more than a week to make preparation. The Introductory exercise was an appropriate original piece, spoken with much distinctness and grace by one of the younger girls. Another original piece, entitled "Pocahontas," was recited with fine effect, and Whig principles in the District, as if they could elicited the warmest commendation. The same may be said of the recitation of that beautiful potort. It must be recollected that there are em of Charles Sprague, "We are all here," which four Richmonds in the field-and Mr. King has had on this occasion an echo accompaniment,had unlike any of his colleagues who have been Also the "Missionary," and the "Old Clock," whose measured clicking hushed the audience to It is true there is no possible chance of success a profound silence. Of the dialogues, the two with two either of the opposing candidates, and original ones of "Novel Reading" and the "Indian their only hope is to defeat an election and put Doctor," were well sustained in all their paris, the people to the trouble of repeated trials, the latter by boys and the former by two of the when they know their own cause is a desperate larger girls. There were also several other diaone. This state of things calls loudly upon all logues spoken by younger pupils in a creditable true Whigs to redouble their efforts, and shew manner, and single pieces among which we might at the coming trial that they can carry in name "The Hours" and a beautiful original poem their candidate by an overwhelming majority. entitled, "And such is life."

We might go on and particularise until we had enumerated all the exercises, but suffice it 10 say that the whole evening's performances were highly creditable to the pupils and their gifted and accomplished teacher. At the close of the exercises, J. W. Proctor, Esq. at the request of those near him, expressed in behalf of the auditors, the high gratification that had been experienced at the appearance of the school and their appreciaion of the efforts of the instructor.

Thus ended this exhibition of pupils in a common district school, and if such occasions are considered necessary at the close of every term in an Academy, why cannot they be useful here? Besides the more obvious benefit to the scholars, it is well to entice the parents occasionally into the school room to witness the attainments of their children. We wish that such exhibitions might at this anniversary seek to meet again around take place in all our schools, especially if they are so conducted, like the one we are speaking off,feelings of gratitude and charity so appropriate to as to convey and impress a sound moral influence

the audience could not be gratified with an exhimore fortunate neighbors and how doubly blessed bition of the Philosophical and School APPARATUS to those whom Providence has so provided with which has been furnished by the liberality of some individuals in the District, and which has ers of this bounty, in making the hearts of the wid- been found highly useful in illustrating various ow and orphan to leap with joy. It is by such subjects of study to the scholars. We hope som e

Temperance.

During the last few months, a series of Lectures has been delivered in this village, at the request good and not to be hugged and hoarded for selfish of the officers of the "Danvers Washingtonian Potal Abstinence Society," commencing with an Address by Asahel Huntington, Esq., which was delivered in Upton's Hall-and followed by Rev. Mr. Collyer, Mr. I. Alden Putnam, Rev. Mr. Field, and on Sunday evening last, by Rev. Mr. Appleton, at the Unitarian Church. The interest in this subject appears to increase, if we may judge from the increase of numbers at each successive lecture; the two last have been delivered to very large audiences. The different speakers from first to last, seem to have had different and sometimes opposite views in relation to the great subject, both in regard to the causes which hinder

> The Boston Post publishes a list of disasters which have happened to the vessels engaged in the Marblehead fisheries, during the past sea. son, by which it appears that ten or eleven schooners have been wrecked, and sixty-five men and boys have lost their lives. The number made widows by this calamity, is forty three, and 151 children fatherless.

A correspondent of the Boston Traveller, writing from Marblehead, says: -"This community is at present in the midst of painful, boding suspense—I might say deep grief—'hope has almost sickened into despair,' on account to this place, which have been sent out on the Grand Banks since May last, and which should have been in about this time, with good freights'. It is known that many of these ther. were dreadfully torn and scattered in the late September gale."

Consecration .- The new Episcopal Church, at the new city of Essex, was on Thursday last, conscerated by Bishop Eastburn.

Gloucester Rail Road.

We understand that this public improvement s going on with its usual rapid progress and that the Engineers think it probable if the Direciors of the E. R. Road think it advisable and the Gloucester people think it desirable, and it nothing happens to prevent, that sometime next year an additional wheelbarrow will be put on the route. If this should take place and if rail road iron in the market is not too hard and locomotives are sufficiently buoyant, we may have reason to expect that the railroad will be finished our ride, the beauties of the morning bland and mild as by the baubles of pomp or gaudy show, on the as soon as it is completed.

The editor of the Portsmouth Journal has een visited by a boy named Stephen Bennett, from Wells, Me, who is 9 years old, and weighs 152 lbs. 8 ounces. He has a brother 13 years admittance. Probably not half of those in the old, who weighs 134 pounds, and a sister 6 years

Fremont, to be Governor of California.

Smoking .- According to the Worcester Trancript, the ladies in that town are getting along very fast. One of them was seen lately promenading the streets in company with a gentleman, puffing away at a cigar, just as though she loved it and 'nothing else."

'Taking in the Flats.' We see by the published proceedings of the City government of Salem that they have given to the Essex Railroad Corporation all the 'Flats' on the line of their route within the limits of the city. This act of the city of Salem not only shews the immense power and influence of Railroad Corporations but is calculated to arouse the indignation of all true lovers of liberty who deem it to be sinful to hold property

FREDERICK DOUGLASS. The Salem Observer learns that the friends of this fugitive slave in England have raised the sum of \$750 which has been brought to this country in the Acadia, to be sent to his former master, that he may not be forcibly taken back to bondage by the slavehold-

Douglass was the occasion of a curious scene, which occured at a public meeting in London a short time since, and is illustrative of the difference of opinion there and in this country with egard to colored persons. It is stated that a Dr. Collies from New York, arose to address the meeting in defence of slave holders, and insisted, when referring to Frederick Douglass, on styling him that colored man, Douglass. The audience at this were highly indignant, and rising en masse. demanded that he should say 'Mr. Douglass,' or to take his seat. The doctor positively refused to comply, and in consequence was obliged to take his seat, as they refused to hear him except on this condition.—Salem Gaz.

For the Courser.

Mr. Editor-In your last paper you allude to an years; and it was on that account selected by that body as the inauguration day."

This may be an "interesting fact," as it would be a wonderful fact, but for the simple fact, that it is a false fact. For the fact is, if figures do not ated things, that have ever, and will ever prove adoption of our constitution; actually falls on that tomb:day, during that long poriod, no less than nine times, to wit: in 1821, 1849, 1877, 1917, 1945, 1973, 2013, 2041 and 2069, and thence forever after, in every year when the Dominical letter is G. and in no other year, so long as what is termed no revision for many centuries to come.

This being the fact, perhaps he who made the rounds of the newspapers, will discover his error-if not before-when our next President is inaugurated into office, as that event will either take place on Sunday, or will not take its advancement and the means of promoting its place on the 4th of March-for figures say that the 4th of March, 1849, must fall on Sunday. Boston, Nov. 4th, 1846.

For the Courier. NEW MILLS LYCEUM.

SOLAR CYCLE.

The lecture on Tuesday, Nov. 10th, before this Institution, was delivered by CHARLES SUMNER; Esq., of Boston. The subject was the employment of Time. It was an excellently written, and delivered production, -evincing not only an able intellect, but a well read mind, stored with valuable facts and useful knowledge. A large audience gave the speaker its undivided attention, and departed well satisfied with the entertainment and instruction of the evening. Mr. of the number of fishing schooners belonging Sumner is well-known to the people of Massachusetts, as a free and eloquent advocate of Human Rights, and his lecture needs no higher eulogy than to say of it. It was well worthy its au-J. W. H.

Among the bills found by the Grand Jury yeslerday, we understand, was one against Mr. Dantel E. Sickels, Member of Assembly elect, for stealing. Also, one against Michael Walsh, another Member elect, for libel.—[N. Y. Tribune.

first, were silently dropping upon this sacred spot. Here in this secluded valley, while looking upon the grave of this great man, my mind was carried over the water, and dwelt upon the ostentation, vain show and gaudy trappings, at the tombs of many of the unworthy kings of

All this might have lion to drive with all the speed he was capable of ob- choice of Washington, had he made a selection taining from his sleek looking, well fed beast, to Mount it consistent with the boasted pride, the power a Vernon. The first mile, we rolled over a smooth road of this great nation, acknowledging their weight with tolerable despatch congratulating each other upon tions to the hero and christian who sleeps un the indian summer of New England, the object of our his own wood, where nature alone sheds the hale morning tour, &c; but soon our coach became very rest- over his grave—a country which owes its prese less and uneasy, laboring and heaving like a steamer af- perity to this great and good man?' We had ter leaving the smooth and unruffled waters of the river, and riding upon the mighty waves of old ocean-tossing us from side to side until we were obliged in order to save our hats to take them off and confine them upon a vacant seat. I hallowed to Snowball to know if he had not missed the road; 'No sar, dis be all de road dar be It is rumored that Col. Benton is coming to Mount Vernon, right or wrong—and dis be de best out strongly in favor of Mr. Polk's measures, eend on't too, sar,' said he. After hearing of the miseand the reason given, is the appointment of his rable state of the Virginia roads, we began to think we son-in-law (as it has leaked out) Lieut. Col. should not suffer for want of exercise to create an appetite for the breakfast we were to partake of on our return to Alexandria. After two hours hard traveling, we arrived at the outer gate of the premises once occupied by rived at the outer gate of the premises once occupied by our neighborhood by railroad cars, att Washington,—a distance of nine miles. The scenery with the loss of limb. On Thursday after upon the road was neither wild or sublime-occasionally s we ascended some hill, we could see in the distance the seats of the planters, scattered among the hills, and also the huts of the slaves as they spotted the plantations. This gate was a large quarter of a mile from the Mansion. Upon each side stood a small but occupied by slaves. An old negress who had withstood the storms of some seventy or eighty winters, came out to perform a duty which to all appearances she had long been accustomed to-that of opening the gate to visitors-with her gentle courtesy turned her face up to the window of the coach, Dr. Morton's anodyne compound, admir expecting as a matter of course, some small pittance ed by Dr. Fisk. The effect lasted but from all strangers who passed her gate. We rode about minutes, during which time the operation half way to the Mansion, but finding the carriage road so bad we preferred some different exercise, and sent the boy back to the gate to await our return. Following but had been as eep and thought she around this serpentine path, we soon came in sight of the beautiful river Potomac-calm and placid as a lake, its waters only disturbed by the paddles of steamers, as they glide along upon its bosom to and from Alexandria. Washington and Georgetown. Keeping the path a little farther, we entered the old gate-way, around which were a number of small cabins resembling the corn barns, hen houses, &c. of a farmer's barn yard. As we approached the main house, we passed a long row or block of low brick buildings, which as we were informed by that the wheels passed over it, crushing an aged slave, were built by the General for slave houses, but have long since been abandoned by them, and now roofless and much dilapidated, are converted into pens for cattle and swine. Still farther on, the great yard in rear of the Mansion, was mostly enclosed by comfortable houses of small size, which the slaves now improve .-We now walked around this venerable House of Wash-We now walked around this venerable House of Wash-that his leg had been amputated, and greington. Although simple in structure, it is pleasant and surprised that this had been done. He a deligntful in location-standing upon one of the most lovely spots in the world,-facing that noble river, and taking the eye of every passer-by upon its waters, who gaze upon the spot with a reverence natural to the feelings of every American; and even foreigners look upon it with the respect due that great man. The house stands 'interesting fact," learned from the Philadelphia upon a gentle swell of land fronting the river; it was Inquirer, viz. "that by reference to the debates of formerly painted white, but the paint as all other parts the convention that formed the constitution, it was of the premises, bears marks of the ravages of that fell found, that the 4th of March in every fourth year, destroyer, Time. The plazza, extends the whole length would not fall on Sunday for the period of 300 of the front, about one hundred feet, and is almost sur rounded with trees of heavy growths of oak, locust and pine. After satisfying ourselves around the house, we took a narrow foot-path leading down some twenty rods, -then entering a pasture through an old gate way on our right, just on the skirt of a pine wood, we came to lie (and perhaps I may say, they are the only cre- Washington. This tomb is of brick and nearly one hundred feet deep from the old garden wall to the front fourth of March, instead of not falling the only inscription is chiseled into a small marble slab on Sunday for the space of 300 years from the and set in the brick work over the gate way entering the

"Within this enclosure rest the remains of Gen. GEORGE WASHINGTON, About twelve feet from the front is a partition, in which

is an iron door enclosing the family vault; and without the "new style" shall exist as the basis of our gate, stand the marble sarcophagi,—one upon each side the partition, enclosed in front by an open-work iron chronology, and this is sufficiently accurate to need On the right, sleeps the great and good Washington; and on the left, his worthy consort-Martha Washington .-But to describe the emotions of my bosom while lenning this important discovery, which has been going upon that gate, would be the very height of absurdity: I was carried back in imagination to the early history o our beloved country-to the severe workings of that great mind in its dark and perilous hours-I could see in that care-worn countenance, the deep anxiety for his almost forlorn followers in their desperate situation, when pressed upon by a powerful and far superior force, -but are quite yellow to the core, and the sour qu to use the language of one more competent to do justice to this subject, and who visited the same spot,-"Who can analyze his feelings as he stands before that sepulchre? Who can tell the story of his associations, or do justice with his pen or with his tongue to the emotions which the memories of the past awaken there?-The history of a whole country is overpowering him at once-its struggles-its darkness-its despair-its victories rush upon him-its gratitude-its glory-and its loss pass before him-and in a moment he lives through an age of interest and wonder." While lost in the deep reverie of these reflections, my friend left me to roam on some other part of the ground. On looking around and finding myself alone, I could hardly realize that I was standing by the tomb of Washington-the very name of which strikes a thrill into the heart of every true American. The morning was beautiful in the extreme-not a cloud to obscure the full rays of the glorious sun as they were shed upon the locust growing from the very mound of earth beneath which rests the good man. The leaves too, touched by the autumnal frost, were silently dropping upon this sacred spot. Here pings, at the tombs of many of the unworthy kings of

the old world; and although undcubtedly others would have been the spot of Washington tion, had he made any choice, yet I could not It was one of those delightful autumnal mornings, toclaiming to myself,-'Here in hidden obscuri the great savior of his country-the way to wh wards the latter part of the last mouth, just as the sun was touching its golden tints upon the spires and other is only marked by a rude hard beaten foot-pa lofty objects of the old city of Alexandria, that we step. many pilgrims who go hither to look upon the all of interest about the place, and at my friend left the tomb, and we wended our way back to t where we found our black boy enjoying the be the morning in gambles with the slaves. We into our coach, and about noon reached Alexand a good appetite for our breakfast.

learned much from that classic tasts and beautiful symmetry, with which by his handiwork he had imitted many of the loveliest and most rare of riature's beauties. Yet, this alone were but a poor tribute to his memory. With a mind fond of study he had acquired a degree of intelligence which gave to his friends and associates an interest and pleasure in his society. Possessed of a modest and pleasant deportment, a kind and peaceful disposition, he gained in his brief existence many friends, who were endeared to him through life, and who will cherish his memory. Could be sufficiently as the sufficient of the present establishment for sale—Large Mirrors, Clocks. Chandeliers with Rich Cut Drops, Counters, Show Cases & c., &c., oct 31.

to him through life, and who will cherish his memory, long after time shall have dimmed his monument of art.

"Cold is that heart, in which were met
More virtues than could ever die,
The morning star of hope is set,
The sun adorns another sky,"

F.

He had been afflicted with a long and grievons illbut until his last hour, he manifested the utmost pa-tience and resignation. To his parents he adminis-tered that consolation which seemed to belong to him-self; and to all who visued him, he was cheerful and self, and to all who visited him, he was cheerful and calm, and pleasant in his manner and speech. With an understanding beyond his yours, an acquired knowledge beyond that belonging to those of his own age, and a faith in God, and hope in heaven, which to earthly storm could shake, he was a worthy example to young and old. His spirit was brave and strong, but the frail tabernacle in which it resided was too weak, and it fled away. The body has gone to dust, the spirit is a crowned angel. The parents and friends of the deceased have not buried their hopes with the body of loved one—they centre ahopes with the body of loved one,—they centre a-round him, who long a victim to pain and distress. has left them on the earth, and with the blest around the throne, freed from all sorrow and sadness, re-juices in an inheritance of bluss and ineffable felicity. et the parents take comfort. Rest in hope on God Be not afflicted, but rather rejoice.

"Deem not that they are blest alone, Whose days a peaceful tenor keep; The God who loves our race has shown A blessing for the eyes that weep.

The light of smiles shall fill again The hils that overflow with tears, And weary hours of wo and pain. Are earnests of screner years."

In Bound, on Thankery, if the story.
In Bound, on Thankery, Mr. Assos Wesser, of M. K. Loren, and In this town, (North Parish), 19th inst., Alderar, son of Albert and Mary Spaudiding, aged it of years.

On Sunday last, Mrs. Assos Wesser, and of Mr. About, and the story of the stable stablishment of the tot in the comparatively few women, to have passed through a greater variety of trials, and to have gained strength from all. To have braved stratened circumstances so successfully, as not only to have supported harding to the heavy flow of the strains of the milkers Establishment by those who are equalitied them, but to have found means also of making here self a benefactor in sickness and in need, to all who had the good for use to be be registed to med, to a strain heavy of the strains of the milkers Stablishment of her helped and the gibber and the discoundarts of a slavy, luggering out of an inactive when completed. I might as well undertake to discoundarts of a slavy, luggering out of an inactive when completed, a large number of children, several of the stable and the discoundarts of a slaw, luggering out of an inactive when completed to a large fund by the places and the stable and the medical med, where the whole and the signal of the color of particular of life and the signal of the color of particular through the stable and the medical of life and th ture when completed. I might as well undertake to confine the vast ocean in the limits of our Pond an Boston Common, as to carry on my large trade within the walls of these present limits. The public are a were that my triumphant statements are not overraled. The trade at my extensive Ware-rooms may be compared to a large Monster, whose bulk and mighty stature have become so great that it requires a larger sphere for its present movements. This Warehouse erected in 1842, has stood unrivalled in the metropolis for extent and magnitude, and yet it is far, far from being equal to the extent of my heavy trading from being equal to the extent of my heavy trading operations. So liberal a paironage must have a lar-

oct 10 W. M. SHUTE.

We would recommend to all those who are suffering from indigestion, loss of appetite, dyspepsia, or scrofulous humors, or any complaints that require a purifier of the blood, to procure a bottle of Russom & Stovens' Dandelion and Tomato Panacta, which is the best medicine now in use for the above complaints. It embaces in its composition the strong Extracts o Sarsaparilla, Dandelion, and Tomatoes, than which there are no better medicine for dispelling disease from the system. It is highly spoken of by the pross and recommended by physicians as the best medicine now in use. It is manufactured by James Kidder, East Boston, and may be had of his Agents. See advertisment in another column. 2w july 18.

NOTICE is hereby given that the subscriter bas been duly appointed administrator of the estate of DENNISON W. BROWN, late of Danvers, in the cennty of Essex, victualler, deceased, and has taken upon himself that trust by giving boads as the law directs. CHEAP MUSIC.

GREAT VARIETY OF SHEET MUSIC, published in elegant style, by E. Ferrett & Co.
Philadelphia, may be found at the Book and Music Store

Philadelphia, may be found at the Book and Music Store 1193 ESSEX STREET.

This music is printed in a very pandsome and convenient style, and comprises many of the gens of the most eminent authors. It is sold at, to say the least, one fourth the usual price !!! The catalogue is extensive, and contains extracts from the best operas—arranged for the piano, flute and guitar—Waltzes, Polkas, Galopades, Quadrilles and Quick Steps, besides all of the best and most popular Songs extant. Among them are songs and arranged pieces from the operas of the Bohemian Grid—Leoniera—Fra Diavola—Maritana—Tho Euchantress—The Postillion—La Somnambula—Gny Marks—Norma.

Also: Russell's—Lover's—Moore's—and many other songs—together with sacred duetts and songs from the hest composers.

The limits of an advertisement will not permit us to enumerate a hundredth part of the pieces which are published by Ferrett & Co. in this cheap and beautiful style. Most of them are sold at about two cents a page. Catalogues may be seen at our store.

logues may be seen at our store.

I think we could have quite a number of highly respectable cereficetes from our citizens. tificates from our citizens. Respectfully yours,

E. MASON.

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more tran temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I cole them, and it is a solemn fact that when I had ook them, and it is a solemn fact that when I had aken but eight pills! my Rheumatism had entirefy eft me, and I have remained well ever since.

N. B. I never took more than one pill at a time

Unable to raise the Hands to the Head! Six-For three years, Scrosula had produced such effect upon my constitution, that I was unable to also my hand; the bones were in different places extroyed by ulcertion, and I seared it might reach be brain or vital organs. My pains were violent—rugmedicines recommended did no good. At last, I dalaLORRAINE'S VEGETABLE PILLS, which Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured ! !

Lowell, Mass., April 20th 1944.

Sir,—For the last few months I have been afflictivith a severe pain in both sides, at times so hard at I could scarcely get my breath. * * * It a pleasure to feel well,—but a nuch greater one to ay that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS. dose of Dr Lorraine's Pills.

Sir : L could Mi the whole of the Sentinel with smilar letters to the above, but believing the above atracts will serve for useful purposes for the presen

New England Office and General Depot, No 10 rattleSquare, Boston.

Sir; I have sold all the pills I last had of you please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact have noticed, that no one that has used them finds any fault with them, they have wrought some

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an apportunity of testing the practical value of his theory, but will offer a rare apportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially a-dapted to whale and half sets, where the alvenlar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and has to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is con-cerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingehiously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work. - especially in whole and bulf sets. Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manier, the finer particles of masticated food, with the ignars of the mouth, will, as a motter of course, pass netween the teeth and the plate; and after being reained there a few days, it being impossible to re move them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will rave a source of continual annovance, by its instaility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of laithfully executed.

RUSSIA IRON PANS, and all kinds of Stove apparatus specimens that may be seen at the subscriber's office may be found at our establishment.

Also—OIL AND FLUID CARNISTERS; JAPAN and BRITTANNIA WARE. which the public are respectfully invited to examine for themselves. They consist of whole and half ets; and a variety of cases of smaller magnitude, we ere great difficulty in execution is avercome. They an not fail to excite admiration from all who are pleased with close imitations of nature, and would inspire confidence in their merits, that the wearing of then would only fend to strengthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the rice usually paid; and after wearing them six months f perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be efunded. Old plute work that has been warn with much inconvenience; will be exchanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz-For filling common sized cavities with gald, \$1; For other kinds of Filling, from 50 cents to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper tions warranted.

Carved work in block for whole and half sets will

he got up for other dentists on reasonable terms.
S. STOCKING, Surgeon Dentist.

Poetry.

Voices from the Shore. "On the shores of the Adriatic Sea, the wives of the fishermen come down to the beach about sunset and sing a melody from Tasso's Gierusalemnie Liberata. They sing the first verse, and listen until they hear the answer from the fishermen, who are thus guided by the sounds to their own village."

When daylight obbs ofer the Adrian sea, And night spreads out her sombre pall, And the wind has ceased o'er the dancing waves To pipe its merry Madrigal-Then the fisher folds his dripping not, As he looks for the light on shore; And he furls to the mast the flapping sails, And he sturdily plies the oar; And music floats from the distant land To the wanderer on the sea. And marry shouts from the fishers' bark, Answer the welcome melody. Thus Tasso's harp which revealed his love, And wrought him a prisoner's doom,

Italia's daughters strike again, And the faithful are guided home. So, when the sun-lit sea of our life Stealthily steals the darkness o'er, When breeze and tide shall chb with the light, We'll list for a voice from the shore.
And as o'er the last of its wayes In the twilight our barks are driven, May Angel voices guide us along, And welcome us home to heaven.

Boston, September 15, 1846.

THE WEDDED ONE.

She leaves her home to-day, a bride! She we have loved so long and well; And henceforth by another's side 'T will be her chosen lot to dwell.

No more she knows a mother's care, A father's band no more may guide; But now a husband's lot to share Must be her future aim and pride!

She leaves for my her home of youth; And, fortune's footsteps to explore, Ske gives to thee her heart of truth

See that thou prize that heart aright; See that thou keep and cherish true The faith which it is thine to plight, The love which she has plodged to you.

In sorrow, gladness, pain or health, Thy kind and prompt assistance lend; And, doomed to poverty or wealth, Be still to her a faithful friend.

And may she prove to thee as kind, As fond, as duteous as to-day; May Time affection strong er bind, And lead thre' love and virtue's way !

Miscellany.

A Wedding Seventy Years ago.

It was Wednesday morning, and Mr. Lyndhurst, young clergyman, who had just accepted an invitation to take the pastoral charge of a congregation in a thriving country town near Boston, was in his study nibhling lus pen, preparatory to making a few alterations and amendments in what he considered his best sermon, with which he intended to address his flock the ensuing Sunday, when two or three smart raps were heard against his

phrases, which he thought would be likely to make a very favorable impression on a certain portion of his anticipated audience, among whom a fair blue-eyed girl, with golden hair, skin like a snow-drift when tinged with evening's last rose-colored beams, and lips of a delicious vermillion, was not the least conspicuous, he op-

'Are you the minister of this 'ere place?' inquired a sunburnt, sturdy looking young man, dressed in a tow twice as fine as this best lawe hendkerchief of mine. other garments, and grasping in his hand a staut, sharpomer garments, and graceping in the force, he had rap- said, but hoping by that time the cap was satisfactorily that he might serve as a portial screen, he acquitted ped at the study door.

over to our town to-morrow, and do a little job for Ben age had failed at the trying moment, Mrs. Platts, the his shoulder. Platts, un old playmate of mine. I told him he was silly, bridegroom's mother, a councly matron of fifty, dressed and tried to put him off, but the black eyes and red in a brown silk gown which she had worn at her sessed of so much imperturbability as to prevent him

Your friend wishes me to marry him, I presume,'

for he says that Hetty, whom his mother took when a child, will be for going off when she is eighteen, where drooped gracefully over the small looking glass, and a she can get good wages, and that they cannot get another girl so smart and capable; but if it were not for her black eyes and red cheeks, and the pretty and taking way she las with her, he would not care a straw wheth- throat, for the words stuck in it like Macbeth's amen, er she went or not.'

What is the distance from here to where Mr. Platts lives?' inquired Mr. Lyndhurst.

miles, or somewhere thereabouts, but you live the near- to her great surprise, as she afterward said, she soon est of any minister I know of, hesides being right on the found herself talking with him just as if he had not been main roud that leads to Boston, where I am going to bar- n minister. ter away a little produce for some ten and sugar and get any small enough for her.'

ucceeded in saying, 'It is a very pleasant day, sir.' Remarkably so,' he replied, and as he was naturally very sociably inclined, and had the happy talent of mak-Well, I suppose it is the value of twenty five or thirty ing persons of whatever class feel dasy in his presence,

Hetty listened with as much surprise as was experiallspice, and a pair of morocco shoes for Hetty, if I can enced by Mrs. Platts, and finding that he was far from being the stiff, solenon personage that she supposed every The distance is so great that it will consume more minister must be, soon glided in a very noiseless and unto he guilty of playing off those coquettish airs in favor 'Yes, you must try to, for if you don't, Ben will be of the school-master, of which she had been accused .awful disappointed, and to tell the truth, I don't think If any one, however, had looked steadily into her bright Hetty would feel very well pleased if she found I couldn't eyes, a world of reguish mirth might have been detected

Mrs. Platts' brown silk gown was a kind of heir-loom, 'You may tell the young couple that they may depend | having originally belonged to her great grand mother, and on me,' said Mr. Lyndhurst, to which the young man re- what wonderfully enchanced its value in the estimation plied with a nod of approbation, and then took leave. of its present owner was, it was purchased in the great Mr. Lyndhurst, who was an excellent equestrian, was city of London. But for Hetty a silk wedding dress was rough one, a great part of it having been recently cut been obtained short of the sacrifice of every web of cloth for vehicles of any description less substantial than wag- She was, therefore, obliged to content herself with one ons drawn by oxen. But the asperities of the road were of her own manufacture, consisting of linen, which, a less serious obstacle to a horsenum, and nothing could though it must be confessed, was sunewhat coarser than have been more exhibitating than the cool, dear air of the much fabrics from the India looms, was fully equal the morning laden with the perfume of flowers that fring to them in whiteness, and was refleved by some delicate

'Hetty,' said Mrs. Platts, having under pretence of putting samething in place, rose and approached the chair the trees having been felled around it so as to form an where she sat it is high time, according to the sun, for open space of ten or twelve acres, not a single tree being Sam Thurlaw and Dolly Chase to be here, and I guess I left so as to break the glare of the mid summer sunbeams had hetter sound the horn to let Ben and David know

Hetty blushed and cast a sidelang glance at Mr. Lyndhurst, her natural hashfulness scarcely conquering the Even over the barn, placed on the opposite side of the inclination she felt to laugh at the entire faith which Mrs. road, and in every instance presenting a much handsomer Platts appeared to have in the efficacy of her loud and

'Don't you hear, Hetty?' said Mrs. Platts, placing her lips close to the damsel's ear, and repeating what she

'I don't know,' replied Hetty, 'whether you had het-

Well, I know if you don't' said she, somewhat indignantly, for the turkey and pudding will both he done ringing sound of a woodman's axe broke in upon the too much if we wait much longer,' and passing briskly stillness. A few minutes afterward he came in sight of into the kitchen, she in a very emphatic manner took a log house, which, at the first glance, he suspected was the tin horn from its peg, and going to a window blew two or three notes so loud and ringing as to wake the doubt but that the taste of some lass, bright and beautiful cchocs sleeping andd the distant hills, and to cause the From five to ten minutes had claused, when Mrs. Platt, looking out of the wimlow, said-I can see Ben and Daseveral shade trees, so that it looked as comfortable as a vid coming, and two more with them. Laok out, Hetty,

Jonathan and David Shaw, David's brothers, I be lieve,' replied Hetty.

It was not long hefore Mr. Lyndhurst could see the young men from the place where he sat. The two for-All doubt on the subject was removed when he stop- ward ones had each an axe on his shealder, in one of ped opposite the house, for a face with rosy cheeks, and whom he recognised him, who the day preceding had a pair of such of sparkling black eyes, that they could be called to engage bis services. The other he at once made long to no one but Hetty, appeared an instant at the open window, and were then withdrawn. Slipping the that neither of the others, though they had the advantage bits from the horse's mouth, that he might with comfort of being dressed in their Sunday clothes, would be at all crop the clover and grass surrounding the house like a to the taste of the brudsome Hetty. Like his companions, he was deeply bronzed by exposure to the summer ry to the usual practice on a bright day in summer, was sun, but his countenance was bolder and handsomer, closed; thus affording a temporary harrier between the and whenever he spake a set of firm, even teeth, coverinmates, and what, in those days of primitive simplicity, ed with enamel of dazzling whiteness, imparted their own peculiar charm to his fine mouth. A mass of short, regarded with a reverence nearly approaching to awe, an glossy carls of a rich dark brown rested on the unbleached ordained minister. By the quiet appearance of all around, | collar of his farmer's frack, and a pair of lively blue eyes vein of interlining his manuscript with a few capital it was evident that no bridal party had as yet assembled, that looked as if sunbeams were darting from them, were but he was confirmed in his conjecture as respected the not without their agency in redeeming his features from identity of the house, by hearing a voice say in a very that over bashful expression, which, with the exception of the messenger, was so conspicuous in those of the othter knocks, and see if my cap is put on right, and if the ers, as to awaken a feeling of compassion in the breast of

Having made their cutree at the back door, neither of neck cloth, did you see that? The driven snow was them till young Platts and his fellow laborer had arraynever a mite whiter and I will warrant you that it is cd themselves in their hest appared, ventured to enter the "fore room." When ten minutes afterward the bridegroom made his appearance, with David Shaw's two adjusted, he ventured to knock. He was immediately himself extremely well although he had lost a little of that hid to enter, which he did in season to catch a glimpse of natural freedom and grace perceptible in his appearance

shook hands with him very heartily

Mr. Lyndhurst ussured him that they were quite ex-

'There,' said Mrs. Platts, who stood looking out at the door, 'Sam and Dolly are coming at last, and I can sure I am glad. I thought,' added she turning to Mr. Lyndhurst, 'that Hetty ought' to have a girl near her own age at such a time, to talk with about her ribbous und curls, and all that kind of nonsense; so we sent for Dolly, who is the only young woman we are acquainted with, who lives within twenty miles of here, that is not married.'

The horse which the young couple rode betrayed his ntimate acquaintance with the cart and plaugh, though his master took care to spur him to his briskest trot as they approached the house.

Dolly, a pretty brunette, who rode helind Sam on a oillion, nodded and winked to Hetty, who had gone out singing the Indian Philosopher, which had just began to welcome her as she dexterously slid from her horse, while her heau was preparing in a very solemn and deliberate manner to assist her in what he considered the nost genteel style.

'La, what will the minister think to see you get off all done,' said he, vexed at having lost so good an opporunity of exhibiting his knowledge of politeness.

If Dolly heard him she made no reply, her attention cing engrossed by Hetty, who was earnestly inquiring in a voice so low as not to be heard, if she had brought the breast-knot of blue ribbons she had promised her.

'Yes,' replied Dolly, 'it is safe in my pocket, done up in a piece of paper, and a white ganze handkerchief with it. Why what a handsome piece of linen your gown is. believe you have heat me'-and she held the skirts of their blue and white dresses together that they might

'Come, girls,' said Mrs. Platts, calling on them from the window-'you mustic't stand there talking all day.-It is high time that Hetty was ready.

the gauze handkerchief and the blue ribbons.

he window frame and coarse white curtain. And she excused,

of your breast-knot, and this sprig with one rose and which proves to be white and nice; and mother and three buds I am going to fix in your hair. How hright Hetty did not forget to send one of their best and largest your hair shines through the powder—it makes me think cheeses. of gold with frost lying upon it.'

this moment thrust inside the bed-room door. 'Come, make them a visit the lirst good sleighing.-Ladies' Nas you look full well enough both of you and we are tired lional Magazine. of waiting.'

Hetty and Dolly throwing into their countenances an expresssion of becoming sobricty, followed Mrs. Platts to

The marriage ceremony was soon performed, which was followed by a short and appropriate prayer, afte which Mrs. Platts and the bride, assisted by Dolly, bnsied themselves in preparing supper. The nunister who went out to breathe the fresh air and look at Hetty's vines and flowers, was soon accosted by young Platts. 'You thought rather strange, I guess,' said he, 'at no

finding the customary fee enclosed in the certificate, but the truth is, I have not a cent of money in the world, and am in no way to get any. I shall not forget you, however, when harvest time comes. You see that the corn and turnips look pretty thrifty, and over yonder we have a large field of winter rye that looks complete .-Mother and Hetty too, have a cheese-safe fall of nice, new milk cheeses, which by the time will be dry enough

The produce of your farm will be just such pay as I shall like,' replied the young minister, 'for by harvest into I hope to be so fortunate as to pursuade some lady to commence housekeeping with me, who will make as in the doorway near by. charming and as good a wife as Mrs. Platts promises to

His companion seemed much pleased with this answer, and related with some pride the labor it had cost him to hring so much wild land into such good enttivation.

Soon afterward they were summoned to supper, Mr. yndhurst felt sure by the satisfied and somewhat busting appearance of Mrs. Platts, that the turkey and podding were done in such a manner that she felt no doubt as to the honor they would confer on her, as regarded her skill in the art of cookery.

The turkey was placed in the centre of the table, flanked on one side by the pudding, and on the other by a large loaf of warm, brown bread, the steam rising from each commingling in a cloud which shed savory odor broughout the apartment. Instead of patataes, which vere scarcely known at that early period, was a large plate of turnips, hoiled just enough to preserve their snowy whiteness and their sweet and pleasant flavor .-Plates filled with slices of spongy rye bread, others with golden-hued hutter, and a soncer filled with honey, clear as amber, filled up the interstices; but there was no loaf of wedding-cake, nor did Hetty, although she had heard feel annoyed at its absence.

checks of little Hetty Welwood have perfectly bewitch- own wedding, and a stiffy starched cap, with the from standing in awe even of a minister, accosted Mr. I minister, a "We did not reckon on your getting here before six for him to carve. He, therefore, requested the privilege, clearing up, as he liked to observe human nature in its been recently strewn on in such a manner as to bear, brighter and happier phases, the idea of the wedding in shape, some resemblance to medalions more or less thought we would work till five, for if we don't improve some little trepidation and nwkwardness on the part of regular. In a corner stood a low hed enclosed with every minute we shall hardly have time to get the timber the more timid portion of the company, occasioned by the 'Yes, you have guessed right,' replied the young man, green stuff enriances, and near by a chest of drawers that out for a house, which we calculate to have ready to presence of the minister, which manifested itself by the steadiness of hand in conveying the food to the mouth that some of it was dropped in its passage, finding that his manner of eating did not essentially differ from their own, they took conrage and addressed themselves more earnestly to the pleasant task of doing justice to the wholesome and plentiful fare.

The declining sunbeams were pouring their partiag radiance over field and forest, and fringing with gold the purple and crimson clouds, when they rose from the table. It was of course too late for Mr. Lyndhurst to think of returning home that night, and Dolly Chase, after being urged by Mrs. Platts and Hetty to remain till morn. ing, concluded to let her beau ride home by starlight without her company. As he was, however, considered the best proficient in psalmody of any one in the region, he was prevailed upon to remain long enough to assist in to come in vogue at weddings. His performance proved ninch to the edification of Mrs. Platts, as she not only bent time with both hands and one foot, but, to use her expression, 'quavered when he sounded some particular

notes in a very moving and pathetic manner. The satisfliction and self-complacency afforded him by his exhibition of his musical talent was very seasonable, suffering us he was from the slight he had received from Dolly, by her declining to return home with him. Durng his salitaty ride, many an innocent bird was startle t from its slunders by his attempts to repeat some of the more brilliant 'quaverings' that had so edified Mrs. Platts, in order that he might, now that his mind was calm and unruffled, have a more accurate idea of their effect. Tho result was even more satisfactory than he had anticipated, causing him, for his delectation, to repeat many of the notes several times, and he was often afterward heard to say that he never enjoyed a ride so well in his life,

It was about three months after the wedding that Mr. Lyndhurst, who had just risen from the breakfast table, Hetty blushed, and both slipped round to the back at which a very beautiful fine-eyed lady had presided, loor and into her little hed room, that they neight arrange was told that a young man was at the door who wished to speak with him. He with much pleasure found that 'Oh, I am glad your white rose-bush is in bloom,' said it was Benjamin Platts, whose loaded wagon stood oppo-Dolly, as she caught sight of a spray full of bads and site the house. Mr. Lyndhurst urged him to go in that flawers that had insignated itself into the room between he might introduce him to his wife, but he begged to be

'I am not,' said he, 'exactly in trim to see a minister's Here, let me put this one just blooming in the centre lady, and have only called to leave a few hashels of rye,

Mr. Lyndhurst assured him that he was well pleased 'You lazy, idle creatures, what are you about so long?' with both the grain and the cheese, and before his desaid Mrs. Platts, whose rosy, good natured face was at parture exacted from him a promise to bring his wife to

Scene at the Telegraph Office.

A hrace of legs, thrust considerably too far through a pair of mottled pants, and attached to a cauple of the largest sized feet, which were encased in twin cowhide brogaus, formed the underpinning to a loug, slub-sided body of otherwise generous proportions—the whole heing surmounted by a head, which was covered with a grey five year old' (at least) seal skin cap. This sum total legs, pants, feet, shoes, hody, and chapeau-was the property by possession, of Mr. Zenas Humspun,

ZENAS had been on a that' during the night previous, and had squandered full half a dollar on himself, in white-eye and sweetening. But his returning senses unde him feel philosophical—and, on the morning wa speak of him, he stood, at an early hour, in Street, gazing mechanically at the Telegraphic wires soliliquizing, thus wise: '--- ic !-- That's the telergaff -W --- 'ic-well, I don't poorceive nothin' per--'io -culier 'bout them strings-on'y one's bigger 'en t'oth-That's the light nin' line, the big'un-said an urchin

W'en does she-'ic-start ?

You'd better ax in thar, Whar?

In the office, up thar.

The loafer was shown to the door of the building, and y hook or crook found his way up three flights of stairs, into the Telegraph office. The attendants enquired, what the gentleman had to forward?

For'ud ?- 'ie-who's she? What will you send?

Send Whar? This is the Telegraph office, Sir.

Well-'ic-who'n thunder said it wasn't?

I supposed you had business, Sir.

Nuthin' o' the sort, -ic -quite the re-ic -verse o' the contrairy.

What will you have?

I want to make some-'ic-quiries,

The hour being early and little doing, the clerks very charitably determined upon some fun with the fellow, with a view of soliering him. The opportunity for anything gratuitous escaped them however-for as they commenced a consultation upon the best means to benefit that there was such a thing, imagine so essential as to the intruder, he stepped up to one of the batteries, which happened, fortunately to be but lightly charged-and,

concluding that the knobs were portable, he pulled his cap over his forehead and attempted to remove one of the balls; the next moment Zenas lay sprawling upon the floor!

He arose as best he could, and turned to the clerk, with-

Look yere, Mister-'ic-wot's-I kin lick as many sich like skunks as you, as could be druv into a forty aiker lot! Wot in --- did yer-'icnock an innersent man down that way for ?-Eh?

Nobody touched you! said the clerk.

The ___ they_'ic_didn't! No, Sir. You took the

Took.wot? Yere's your corntemptible copper-and, proceeding to dash a loose penny towards the attendent which lay upon the machine-his fingers came in contact with the battery, and away he went again, heels over head across the floor!

Look yere!! continued the sufferer, who by this time was well nigh sobered-od blast yure infernal picture wot in thunder are you baout ?

You musn't handle the tools, observed the clerk, nearly bursting with laughter.

Look you! Mr. Wot's-your-name-I ain't to be fooled this yere way for nuthin'-I arn't. By thunder! I'm a inderpendent individuoal, I am-and this yere nockin people down, without notice of no kind, arn't the thing, by -! Ef you'll open that yere door, I'll go out o' this and no questions axed.

That's the door, sir.

That brass handle F

I'm blowed of you do, though! [This child don meddle with no more hard ware in this trap, no how.

The door was opened by the clerk, and the fellow sidled out. A suppressed laugh pervaded the counter nance of the attendant, as Zenas departed-which, a the door closed, vented itself in a broad haw, haw.

You're a smart young gentleman you are, bawled the loafer, through the key hole, as he held the door fast with both hands-von're a very smart young man You'd like to git out o' that, and go to your , breakfast, bimeby, may be. An' ef you do get any grub lafore noon, jes let a feller 'bout my size know it-will yer ?-I'll teach yer to knock people down, simultanously-fer nothin'-I will-and, from the preparations making or the outside, the prospect was that the 'insiders' were to

A thought struck the attendant. He disconnected the wire, and placing it in contact with the knob of the door upon the inside, his companion let on the battery.

The door flew open instantaneously, and our valiant strunger, with the seal skin cap, was discovered in the act of an anti-angular descent down stairs, the side of his head scraping the paint from the edges of the steps, and his legs, mean time, performing an involuntary pirouette, which would have done infinite credit to a French däncing master.

It so happened that Zenas had purchased a bunch of lucifer matches the night before, which he had deposited in his coat pocket. In his progress down stairs, the matches had become ignited, and by the time he had reached the bottom of the first flight, he had partially recovered from the first effects of the shock'-but the fluid tingled through his veins, his cont tails were on fire, and he was not 'set forward' in his imagination by this last effort of his tormentors. He discovered the fire, and presuming it was part and parcel of the cossid invention?-he sprang to his feet, and with both hands briskly at work behind him, for the purpose of smothering the flane, which was roasting the seat of his inexpressibles -he 'put' for the street door at full gallop!'

Fire! Fire! Help; yere! Ow!! murd-fire! help! shouted the victim, as he darted into the street.

Away he dashed towards Baltimore, at a speed which the 'lightning line' itself might be proud of. Luckily, a square off, he discovered a servant with a hose attached to one of the hydrants, busily engaged in washing off the pavement. He rushed to the spot, and turning short his voice, for God's sake to 'put him out.'

Perhaps his sable friend's eye did'nt glisten, and may. be his ivory did'nt shine, as he charitably turned the current of that stream upon the unmentionable portion of that poor devil's netherments! The fire was extinguish. ed without serious damage, as the papers say-the loafer was thoroughly saturated-and having exchanged his Treasury department, Mr. Walker? 'heavy inside wet' for a skin drenching, he departed, perfectly sober; amidst the jeers of the crowd who had witnessed the final—most vociferously cursing all improvements in magnetism and combustibles .- Spirit of the

AMERICAN INGENUITY STILL IN THE ASCEN-DANT. There seems to be no end to the triumphs of Yankee ingenuity. An article of great economy and utility for family use has just been shown us, which is to be known by the name of Dummond's Patent Candle Maker. It is simply a candlestick which wicks and makes the candle as it burns, and by turning the cylinder or reservoir containing the tallow, (which is poured in while in a melted state, a short or a long length may he procured, as is desired. One of the greatest features of this new notion is that it requires to be filled but once a week, and we recommend all neat and economical housekeepers to look at them, inasmuch as any or all waste grease that can be hardened may be used in them. We know from experience that candles made in the Patent Candle Maker will burn at least one-third longer than those made in the ordinary way .- N. Y. Gazette.

The Boston Chronotype, an abolition paper, speaks thus in relation to the course generally pursued by

'We do not care one straw what party a man may nominally stand in, who has DONE, in regard to Slavery, what Mr. Palfrey has done. We say in plain terms, cut where they will, to the men of formulas and thorems who, laboring to free the slave, do not welcome and trust such a man as Palfrey, that they are guilty of heing a set of fools who do not know their own friends! Looking through the green spectacles of their formulas, they entirely overlook precious and glorious facts-they overook human nature-they overlook their own history .-They roll themselves up in their Anti-Slavery saintship, ike hedgehogs and Pharisees, and say-Come not nigh us, O ye profane—certainly not till you are fully converted. We are afraid to seem to manifest any confidence in you till you have come out and taken your hats off before the universe and acknowledged the truth of our the-

THE STORM. The late storm was very severe on Cape Cod. The new Universalist Church at Truro was blown down, and much other damage was sustained.

Danvers Courier.

SATURDAY MORNING. DEC. 5, 1846.

Our new Head.

It will be seen by our readers, that in this number of our piper, we make our appearance in an improved form, with new and beautiful type, and a viguette head. In the latter, the artist has been successful in his designincorporating as much that is local and poculiar to our place as the room would allow. The monument, the means of most of the contributors, have hastened to consteam bark will, the train of cars coming in on the Malden railroad and the shoe factory, will all be recognized as appropriate; but we have to regret the omission, for will probably be paid from the Rechabite and Odd Febwant of room, ancient and respectable gentleman, "one Simon, a tanner," who ought to be represented "by the sea-side," drawing hides from the water.

It will be our earnest endeavor in future, in ac knowledgment of the liberal support we have received, to make corresponding improvement in the matter contained in our columns, and thus deserve the continued confidence of the public.

Attention! Shoulder Arms! March:!

The Massachusetts Regiment of Volunteers for the inasion of Mexico is called for by Messrs Polk and Marcy, and men are wanted to fill up its ranks. The Salem Advertiser is calling beseechingly on the citizen soldiers of this state, to show their patriotism by rushing to the reeruiting rendezyous. It even hints that those who are utterly opposed to the war, who conscientiously believe it to be cruel and unjust as well as impolitic-if they are Americaus-that even these will be gladly received into the ranks and have the honor of marching behind a drum and fife through the pestilential marshes and prickly chaperals of Mexico towards the "Halls of the Montezuma's." We almost tremble in anticipation of the Advertiser's thundering denunciations of the treasonable expressions of dislike and opposition which are now so rife all over the country. In order to divert some portion of its fury from our devoted heads we insert an extract from its valiant calls to arms, that all who feel inclined to fill the places of those poor fellows, who have been shot down or crippled with wounds or died in camp,-may rush to the rendezvous and be "unstered into service" at \$8 per month. We will go farther and advise all good Democrats who are in favor of this war. to follow the example of the Salem Artillery and resolve to go-but by all means to stay at home-or if their patriotism will not allow them to keep away from the field let them remember that

"He who fights and runs away May live to fight another day.

"Let not men standarguing and equivocating about the justice of the war, at this trying moment; but let all true Americans be ready and willing to engage with the common foe in mortal strife, and hurry on the glorious day of mon foe in mortal strife, and hurry on the glorious day of trinmphant peace. Come to the rescue, freemen of Massachusetts! Revenge the slaughter of your country's sons! Remember the brutality and vengeance of Mexican fury, and backle on your armor for the fight. A few more blows and Mexico, will sue for peace. Shut up your ears to the voice of arrant treason? Dismiss from your souls party spirit, and stand forth Americans—AMERICANS ONLY, on this trying occasion of your country."

Mr. Polk in a Fix.

Scene.-Cabinet Meeting at the White House.

Marcy. Well, Mr. Polk, the expenses of this Mexican War are becoming absolutely alarming; they outrun all our calculations, and worse than all, I can't see any end to the war. Scott masu't so far out of the way in his calculations after all, when he took that hasty plate of

Polk. Don't name Scott to me, Sir!. The stubborn Mexicans are to be beaten, they must be beaten-they want more slave territory to keep it killed. We must to he subjected to them increasing as they do with the go on with the war, and get California.

Mason. Only see, Mr. Polk, what bad luck we have had in my department, owing to that bungler, Baneroft. poration, bound to travel over that road, no matter what before him-a posteriori-he begged him at the top of Our naval success in the Gulf, take it altogether, is not the convoniences and accommodations are, or else go in very promising. The shallow water in the Mexican

Polk. So you are shallow, Mason. What do you think of the present posture of affairs, Walker? Walker. Why-Mr. Polk-hem-aha-m-

unless_nuless_

Polk." Unless what?

Buchanan. Then it must be altered, it must be modiwar without it, you must lay more duties on iron and coal.

the south will not submit to that.

Walker. Put the duties on tea and coffee-these are free articles.

Marcy. That won't do. It comes too near home .-It will make the war unpopular with the poorer classes, to tax ten and coffee.

Buchanan. I say, iron and coal-

Walker. I say, tea and coffee. Polk. If we must after your Tariff Bill, Mr. Walker,

right—we must tax tea and coffee. shire, Maine, New York, New Jer-

I can get California. They shan't accuse me of backing ten on the brow of the child, as he lay in his innocence them, long strings attached, with a hole in the end, for assiduous study, no prodigy of intellect of which ont as they did in that Oregon business. I'll tax tea and unseparated from his mother even in death—inasmuch their arms to go through, that the floats might pull them world has ever heard would be for a moment to be coffee, and every thing else that won't help the manu- as the corpse was but slightly braised; from the ashore. Their heads were then tied up by Licut. M., pared with him. Yet not a single volume has he facturers and mechanics.

ing the most exalted station in the world. A most that purpose, LLUSTRIOUS MAN.

Polk. Father Ritchie, you must say in the Union, with the utmost vigor."

Polk. With increased vigor. Ritchie. "Increased vigor."

THE MARBLEHEAD SUFFERERS.

ng of the Selectmen and ton other gentlemen, to assist n relieving the distress of the unmerous widows and orphan children, whose husbands and fathers were lost in Narwich and Worcester Railroad Company, and emthe eleven Grand Bank schooners, which were overwhelmed in the gale of the 19th of September.

hoice of Rev. John Bartlett as Chairman, Geo. Wilson, Esq., as Treasurer, and Sanuel Goodwin, Esq., as Sec- ing particulars: retary. The people of Marblehead, small as were the tribute \$900 for the relief of the sufferers, whose distress we are assured, is heart rending. About as much more lows' Lodges to the families of their deceased members. A subscription has been commenced among the business men of Boston—and a small sum (we hope the precursor of more) has already been contributed in Salem. Their will be commensurate. - Salem Gazette.

Awful Calamity.

A committee has been chosen, in Murblehead, consist- DESTRUCTION OF THE STEAMER ATLATIC! FORTY LIVES LOST!

The steamer Atlantic, Capt. Dustin, owned by the ployed to connect their road with New York, was lost on the Sound, on Thursday of last. week, and from thirty This Board of Relief has been organized by the to forty human beings perished with her. From the various accounts given in the papers, we gather the follow-

The Atlantic sailed from New London about midnight of Wednesday, and when about four miles outside of New London harbor, in the midst of a heavy storm, the boat was struck by two heavy seas in quick succession, and almost simultaneously a most deafening and terrific explosion was heard, caused by the breaking off of the steam-pipe running into the steam-chimney, by which the boat was at once rendered unmanageable. The captain immediately gave orders to anchor, but such was necessities are great; we know the efforts for their relief the force of the wind and sea, that the boat continually dragged her anchors, although there were four of them over, besides 3000 lbs. of iron attached to a cable. The Atlantic gradually drifted towards Fisher's Island

day morning, lay within a cable's length of the breakers. At about half past 4 the stern touched, and both "The Whigs of the North oppose the war because its cables instantaneously parted. The boat was then dashegitimate effect is, as they contend, the extension of ed stern-foremost upon the rocks, by three successive Southern territory and of Southern slavery. to speak, managed and overruled, is no less extraordinary than the gift itself. It is uniformly held in entire subordination to some important use. He makes no revelations, offers no advice, expresses no opinion, which would give one person an undue indvantage over another. Though evidently possessing in his adnormal state, supermitural knowledge, no worldly inducement has the least effect toward persuading him to exercise it for any purpose which would not conduce to the good of the purpose which would not conduce to the good of the traordinary Operations, an Unapproachable Wonder.—whole. The most urgent solicitations have been made Such names will probably apply to my new constructo him to aid individuals in the accomplishment of schemes of private interest, but all in vain. He invariaschemes of private interest, but all in vain. He invaria- Boston Common, as to carry on my large trade within bly turns a deaf car to all such propositions. He refuses the walls of these present limits. The public are abecause he says it would not he right, and because it would endanger the continuance of his clairvoyant power for higher and holier purposes.

As to the Lectures in which he is engaged he maintains that their grand scope aims directly at the regencration of society; that a great moral crisis is imponding in this world's history; and that he is selected us a humble instrument to aid in a particular sphere, in its accomplishment."

Perhaps the most astonishing circumstance connected with these developments is the fact, that without ever having read a page of Swedenborg, he has reproduced, in the course of these Lectures, the leading features of his uhilosophy of the Universe, and several instances the coincidence is all but absolutely verbul. Of this I give a striking example in my work. Yet Swedenborg's philosophical writings, as distinguished from is theological, are of exceedingly rare occurence in this county and as they have been hot recently translated into English, and us the exact number of copies imported is known, as also in whose bands they are, it is easy to reduce the uniter to a moral certainly that he has never consulted one of them. Indeed, I should feel entirely safe in offering a reward of one thousand dollars to any person who will exhibit evidence that Mr Davis has ever rend or seen a copy of the 'Principia,' the 'Animal Kingdom,' or the 'Economy of the Animal Kingdom' of Swedenberg, which are the works containing the ideas that he most frequently echoes in his Lectures. He has, moreover, in several instances, quoted his works by their Latin titles, some of which are not known to be in existence in the original on this side of the Atlantic, and of which it is utterly incredible that he could previously have known anything at all,

Viewed in any light whatever the case of this young man presents a problem of the most astounding character and one the solution of which will be seen to be indissolably involved with that of the question of the truth of Swedenborg's ulleged revelations of the spiritual world. This question, I am persuaded, cannot be much longer staved off from consideration. It is pressing upon the general mind of Chistendom in every direction with an urgency that cannot be resisted, and there are a calmlywaiting few who ask for no assurance beforehand as to the manner in which the question will be decided. Re-GEO. BUSH. spectfully, yours, &c.

P. S .- Let me embrace this opportunity to say that the representations given in Swedenborg's extatic state, and the solutions offered of it in certain so called Lectures on Pathetism (?) now in course of delivery in this city, are not only heaven-wide of the truth in regard to him, but a downright lampoon upon all the higher and more important phenomena of Mesmerism. A theory or exhibition which would fain resolve phenomena into a fantastic play of certain organs of the brain, artificially excited, needs no more offectual refutation than the plain fact of Mr. Davis's case. And, as to Swedenborg, such Lecturers will soon learn that they have a different task to accomplish from what they have ever imagined, to make out the insanity of a man whose alleged wildest vagaries are daily being turned into scientific truths, and that, too even by the pitiable extravagances produced by these very Lectures; for Swedenborg has explained them all. This assertion may be taken in trust as usual; the proof G. B. is forthcoming.

IMPROVEMENTS IN TIDE MILLS.

This invention consists in the construction and arrangement of two gates in such a manner that either the ebb or flood tide will act on the water wheel in such a manner as to turn it in the same direction. This arrangement of gutes is claimed in combination with a water wheel, though we are not informed what particular kind of a water wheel is preferred. We think this an ingenjous and useful invention .- Scientific American.

may 30 W. D. NORTHEND, Agont for Danvers. MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

TOR the purpose of introducing more extensively in many important respects, an entire nev mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his thenry, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially a-dapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought black-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work .—especially in whole and half sets.

Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to re-move them, will invariably become offensive and aint the breath. Another advantage of paramount mportance which the carved work has over that of ingle teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's affice which the public are respectfully invited to examine for themselves. They consist of whole and half ets; and a variety of cases of smaller magnitude, w ere grent difficulty in execution is overcome. They annot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a state of them. confidence in their merits, that the wearing of them would only tend to strongthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six mouths if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warm with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and will be attended to in the most introduct, factoring scientific manner, and on the following terms, viz. For filling common sized cavities with gald, \$1; For other kinds of Filling, from 50 ceuts to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper ations warranted.

Carved work in block for whole and half sets will be got up for other dentists on reasonable terms.

S. STOCKING, Surgeon Dentist.

ABDOMINAL SUPPORTERS. NEW ENGLAND
TRUSS MANUFACTORY,

evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. CERTIFICATES.

CERTIFICATES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persous afficied with Ilernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfiest that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

In the sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of such instruction in the second it of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Roxlury.

Since the death of Mr. Jahn Beath, I have used, in preference to all other Trusses those made by Mr. J. Froster, of Boston.

P. G. ROBBINS, M. D. Foster, of Boston.

Boston, April 27th, 1846.
The undersign ed is familiar with the ability of Mr. J.
F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required hy invalids, and fully believes that the character of his work will favoraodly believes that the contracter of the states, bly compare with that of other artists.

Poetrn.

THE FADED ONE. BY WILLIS GAYLORD CLARK. Gone to the slumber which muy know no waking, 'Till the loud requiem of the world shall swell; Gone where no sound thy still repose is breaking; In a lone mansion through long years to dwell; Where the sweet gales that herald bud and blossom, Pour not their music, nor their fragrant breath-A seal is set upon thy beaming bosom, A bond of loneliness-a spell of death!

Yet 'twas hut yesterday, that all before thee Shone in the freshness of life's morning hours: Joy's radiant smile was playing briefly o'er thee, And thy light foot impressed but vernal flowers. A restless spirit charmed thy sweet existence, Making all heautious in youth's pleasant maze; While gladsome hope illumed the onward distance, And lit with sunbeams thy expectant days.

How have the garlands of thy childhood withered, And hope's false anthem died upon the air, Death's cloudy tempests o'er thy way have gathered, And his stern bolts have burst in fury there. On thy pale forchead sleep the shade of even-Youth's braided wreath lies stained in sprinkled dust Yet looking upward in its grief to Heaven. Love should not mourn thee, save in hope and trust.

> From the New York Observer. GENTLE WORDS. A young rose in the summer time Is beuntiful to me. And glorious the many stars That glimmer on the sea. But gentle words and loving hearts And hands to clasp my own, Are hetter than the brightest flowers, Or stars that ever shone.

The sun may warm the grass to life, The dew, the drooping flower, And eyes grow bright and watch the light Of Antumn's open hour-But words that breathe of tenderness, And smiles we know are true, Are warmer than the summer time, And brighter than the dew.

It is not much the world can give, With all its subtile art, And gold or gems are not the things To satisfy the Heart; But ah! if those who cluster round The Alter and the hearth, Have gentle words and loving smiles, How beautiful is earth!

THE TWO MAIDENS. One came with a light and laughing air, And cheeks like opening blossoms, Bright gems were twined amid her hair, And glittered on her hosom; And pearls and costly bracelets deck Her round white arm and lovely neck, And pride and joy were in her eye, And MORTALS bowed as she passed by.

Auother came-o'er her mild face A pensive shade was stenling, Yet, there no thought of grief we trace, But that deep, holy feeling That mourns the heart should ever stray, From the pure fount of truth away! And faith and hope were in her eye, And ANGELS bowed as she passed by!

Miscellany.

The Red School House.

BY MRS. CAROLINE ORNE. It was a proud day at Greenvale, that witnessed the last stroke of the hammer, which secured the last shingle to the roof of the new school house, but a prouder one still, that saw portion after portion of it brightening under the touches of the painter's brush, till at last the whole exterior was covered with a coat of red paint. It was the only building in the place which had been suvored with such an honor; even the outside of the meeting-house had been suffered to grow grey and accumulate moss, instead of being defended by a little paint from the rudo touches of time, and the still rader touches of the weath- replied Olive, But come, let us make haste, or we er. But the spirit of enterprise and improvement was shall not finish by three o'clock, and Muster Packer, you not so rife at the time the meeting-house was built as at know, is muictual to a minute,'

the more fortunate era that witnessed the erection of the !

In those earlier days, innovations of any kind were not tolerated. The fathers of the place did as, their fathers did before them, even to the wise and sagacious practice of putting a piece of rock into the mouth of the meal bag, just heavy enough for an equipoise to the grist, when placed apon the back of Dobbin, peparatory going to mill.

The red school-house stood on a piece of ground of gentle elevation, at the meeting of four roads, so that those who dwelt in the different quarters of the town, not only possessed equal facilities of obtaining access to this fountain head of learning, but could regale themafter the lubors of the day were fluished, they seated themselves at their own doors to breath the fresh air .-It moreover answered a valuable purpose as a directory to travellers, who, when they inquired the way, were generally told to go straight forward until they came to the red school house, and then turn to the right or left as the case might be.

Another circumstance, that greatly enhanced the value of the new school-house in the estimation of that portion of the inbabitants who owned the more central arm=houses, was, that they had for several years, each family in its turn, been obliged to permit their spacious kitchens to be converted into school-rooms; the old in towards an opposite point, having been left lonely and descried by the way side, like a weather-beaten hulk when descried by the waves.

The tenth of September was the memorable day on which the new school-house received its second and last coat of Venitan red, and it had been for some time predetermined, that whenever that desirable event did happen, the afternoon of the ensuing duy should be appropriated to a spelling match, under the direction of the veteran school-master, who had for ut least twenty years the person you choose to have stand pext to you. been the sole and undisputed lord of the ferule and hirch.

The damsels of Greenvale, who were resolved that the inside of the school-house should not disgrace its showy exterior, filled the huge fire-place with Pine houghs, and interwove cart loads of oak leaves which were hung in festoons around the walls and interiningled with evergreens, which were twisted into various fanci- sel. ful shapes, the most numerous, being hearts and true love knots. The school-master's desk in particular was decorated with much care, and one mirth-loving girl twined a garland of flowers around the handle of the new ferule which she had by some means procured, as well

As there had been no holiday in the place since the cold collation, or, as Jabez termed it, 'a cold bite.'- in on either side as most convenient. There was, therefore, on the morning of the eleventh, a general frying of dough-nuts and baking of apple and pumpkin pies, as well as many a careful inspection of the cheeses, to ascertain their quality and flavor, there being no little pride and competition among the dairy wo-

The girls, who repaired at an early hour to the school house, in order to give a finishing hand to the decorations, every now and then took a peep into Webster's Spelling Book, many of which were lying about, and would open of themselves at all the hard words. It was whispered, however, that the schoolmaster, who was known to be owner of a quarto dictionary, would put out many of the hard words in that as well as in the spelling book, which to most of them occasioned no little anxiety.

But there is Fanny Newman-she don't care whether he spells us out of the dictionary or not-it comes so natural for her to spell, that she can spell anything,' was whispered from one to the other, as with eyes full of mirth, she crowned the rod, she had been garlanding, with m immense crimson hollihock.

As Fanny Newman and Thomas Corey were allowed to he the very best spellers in all Greenvale, they would of course, be opposed to each other, and have the priviego of alternately choosing from among those whose mowledge of orthography rendered them desirable class-

'I know who will be Funny's first choice,' said Lucy Berry, whispering confidentially to Olive Wyman.

Who will it be?' enquired Olive, as she handed her ompanion a winter-green heart, stack full of marigolds to place in the centre of a festoon. Why, Peter Smull, to be sure, for every body knowed

that, next to Thomas Corey and herself, he is the best speller in the place,' Now I guess that she will choose William Parkman,

every body knows that a handsome nose and handsome

eyes does not make a good speller.' William has improved a great deal since last winter,

I have just turned the hour glass for one. 'We must indeed make haste, then,' said Lucy, 'for

the folks will begin to come in by two.' The decorations were now spots completed, and the

'The South-Road hoys are coming,' said Olive Wyman, who was standing at the door, At this annunciation, several directed their eyes to

Fanny Newman, for William Parkman lived on the south-road, and although she went on talking with the girl who stood next to her, without even looking round, benefit, was hastily passed round, into which each took out missing a single note. This was a triumph of skill selves by the sight of its gay and cheering aspect, when a hasty peep, to see if curls and ruffles were in proper

I guess the West-road boys will be here about as sooe as the South-road ones,' said Lucy Berry.

It was now Olive Wyman's turn to blush, but as none present except Fanny Newman knew that Thomas Corey had walked home with her from singing school on the evening previous, her blushes excited no observation.

It was not long before all who intended taking part in the spelling match had assembled, and soon afterwards the parents, the uncles and annts, and the older brothers and sisters began to drop in. The hour glass had just turned fur 3 o'clock, when Master Packer, with the school-house, owing to the tide of improvement setting quarto dictionary under his arm, entered with a grave countenance, and proceeded to his deak without looking right or left.

'It is n't fair,' whispered several, eyeing the dict ionary askance.

'I perceive,' said the schoolmaster, unfolding a piece of paper which he took from his waistcoat pocket, 'that Thomas Corey and Fanny Newman are selected to choose the spellers. Fanny Newman, you may take your place on the cust side of the school room and name

Fanny took her place, and her black eyes sent an eloquent flash towards William Parkman, but her courage failed her, and with a faltering voice she pronounced the name of Peter Small. Peter rose with an air that combined an admixture of triumph and bashfulness, in its effect somewhat ludierous, took his place beside the dam-

Master Packer again spoke:

'Thomas Corey,' said he, 'take your place opposire Fanny Newman and make your selection. Thomas certainly did not feel exactly satisfied in his

mind, that next to the three already on the floor, Olive as round a very formidable looking rod, which she had Wyman was the best speller, but her blue starry eyes herself broken from a fine thrifty birch, and despoiled of and cheeks as fresh as the first June rose, half shaded its glossy leaves, that during the process rustled and by curls of a sunny brown; appeared irresistable, as he fluttered as if prescient of the pain and mortification it glanced at them, so that the name that was in his heart was hereafter destined to inflict in its corrective capacity popped out of his mouth, and it then was too late to whether to arouse the stupid, sober the volatile, or con- think of Silas Lambert, who had all the hard words in the spelling book at his tongue's end.

It was Fanny's turn to choose next, and she ventured ruising of the school-house, the youthful portion of the to name the name of William Parkman, but in a voice heart's content. community were resolved that this should approximate so low that the master did not hear, and he requested her as nearly to one as the nature of a spelling match would to repeat what she had said. A repetition of the nature, the real school house when they emerged from the s nearly to one as the nature of a spennig match would be part to the second nodes when they emerged from the permit. After forming and rejecting several pluns, they with all eyes fastened upon her, was more than she could grove. Peter Small, with his bass viol enclosed in a finally concluded to follow the suggestion of Juhez Green venture on, so she hesitated a moment and then said Silas and one or two others, which was, after the uffair had Lambert. Thomas Corey chose once more, and then the been decided, or, in modern phraze 'come off,' to repair master said that, as time was possing, and us the rest to a pine grove at no great distunce, and partuke of a were probably pretty equally matched, they might fall

The trial by spelling book came first, and all the hard words were spelt with a facility which was as astonishing as it was edifying to the listeners. Those which were considered the easier words proved the stumbling blocks, und in half an hour, as according to rule each one that missed was obliged to leave the class, only four were left on Thomas Corey's side, including himself, and on the other only three, two of whom were Fanny Newman und William Parkman. The number on either side did not diminish until the master had recourse to the dictionary, after which Peter Small, who through the whole trial had maintained his place by Fanny's side, soon sat down. But the advantage on the rival side was soon

lost, the pretty Olive Wyman and one of the others being obliged to follow the example of Peter Small. It was now nearly five o'clock, at which time the trial was to terminate; it therefore began to be suspected that the laurels would be equally shared by the rival spellers .--One of the numerous and dignified family of the 'ologics was destined to be the means of gaining for Fanny Newnan the victory. It was the only one that Thomas Corey was unacquainted with.

'But who,' said he, addressing Siles Lambert, 'ever heard of such a word as psychology, or having heard it, would have guessed that it began with P?'
'Not any one,' replied Silas, 'Except Fanny Newman,

nd she always guesses right about everything.

'If she does,' said Lucy Berry Thomas Corey and Olive Wyman will be murried before the year is out.— But you need n't get into a passion, and turn so red, Thomas,' added she, laughing, for I dare say she meant As she said this, she finished tying on her bonnet, and

arm-in-arm with another young maiden as light-hearted us herself, followed those who were already on their way to the grove. 'I am sare I don't know,' replied Lucy. What can

'She will be a simpleton if she does,' said Lucy, 'for it be?' said she to Silas Lambert, who was walking by

'It is funny that neither of you know.' said Silas, 'Why, it is Peter Small, playing on his hass viol.' 'I never heard one before,' said Lucy, 'what tune is

the bass viol.' They accordingly made a little more haste, and were so fortunate as to secure seats on the fallen trunk of a tree opposite the performer. Inspired by the presence of so many spectators as well as listeners, and the influence they were pretty certain she blushed. A pocket looking of so many bright and sparkling eyes, Peter Small tranglass, which one of them had brought for their mutual seended himself, performing even the allegro part withever the perverseness of wire and cat-gut which he had

never been able to achieve before, and while it afforded great delectation to himself, it yielded no little pleasure to his unfustidious audience.

It would not be expected that such inspiring sounds would fail in exciting a sympathetic influence over that portion of the listeners who were themselves musically inclined. First one voice and then another were added to the tones of the bass viol, so that before the ode was finished the old pine grove resounded to a full chorns of voices, each bearing testimony to the soundness of the

'Now,' said Jahez Green, 'let us sing it again, and all start fair together.'

I say that,' said Peter Small.

'I will stand by Peter and beat time,' said Jabezand mind, let us all begin when I have counted three. Jabez took his place by Peter's left hand, and in a loud and distinct voice counted 'one, two, three.'

Several, not remarkable for their musical skill, by a kind of spasmodical motion of the hoad were enabled to catch the first note at the very moment, while others who prohably belonged to that class who are 'always too late,' did not fairly got begun till near the close of the ode. The performance, however, was entirely satisfactory to the majority. It was only a few of the juveniles, whose predilections leaned towards gastronomy rather wards certain baskets, carefully covered with snow white for it. napkins, which encircled a large tree. When, at length, the closing note floated slowly away and left the grove in silence, they could not readily refrain from audible naturally took for one of those spontaneous bursts of upplause which from being unpremeditated are the more flattering. The young Masters and Misses, ignorant of wants. But their curiosity not being of that active and ing for one; I uint had any far a week. troublesome kind, which induces to pry into the motive, they were content to enjoy its consequences, which appeared in the shape of numerous and generous pieces of their favorite pumpkin pie, till they had feasted to their

The evening sunbeams were brightening the front of green baize bag, the young hoys clustering around him on bourd. like bees round a hive, was in the van. A little wuy behind, Fanny Newman, with a crown of oak leaves resting lightly upon her bright, curling hair, which, with { an air of mock dignity, she wore in commemoration of her recent triumphs, was chatting gaily with her companions, while William Parkman gradually drew nearer and nearer to her side. He was even so absent minded that when they arrived at the red s hool house, instead of the south road he took the west, which led directly to a large and substantial farm house, owned by Mr. Newman. What was singular, Thomas Corey made a similar mistake, and walked by Olive Wyman's side till she reached home, though his own house was in the opposite

'A FIRE IN THE REAR.'

One of the Latest Jokes. There was fun as well as fighting down in the neighborhood of the Rio Grande last summer, and a Yankee in that section, albeit a tolerably shrewd specimen of the genus, 'got fire in his rear' which raked down and demolished the hest calculations ever made for a small fortune, and at the same time raised a laugh which filled the adjoining chapparal for a mile in every direction. Water was scarce during the heat of summer at Bra-

necessities of the sojourners required. It was at one of those thirsty seasons that our Yankee, by some hook or crook, got hold of a harrel of tolerably fair cider, and with this small stock in trade he at once 'set up' basiness. To rake and scrape together a parcel of boards and old bits of canvass, enough to build a small shanty, was the work of but a short hour; to set his barrel upon Oak. a couple of skids in the back part of a tent, to tap it, and to commence retailing the cider at a dime a glass occupied but a short time more.

Customers flocked in by dozens, the cider went off at a rapid rate, and the Yankee was making his etarnal fortin' at a stride that would have clated John Jacob ed that a dime a glass for cider, which was not worth outrageous price; but the times were hard, the retailer's ing from 6 to 10 cents per square foot, conscience easy-he had all the cider in the market, and could not afford to sell any cheaper,

This state of things went on for an entire day, the 'I cannot tell certainly,' replied Silas, 'but I guess it Yankee's quarters being heset by throngs of patron .— they should be broken smallish; having made this quite

is the Ode to Science; for he has been practising it all On the following morning and before the cider was you the leisure time he could get, for more than a fortnight.' half sold, they began to thin off gradually, and by the 'Yes, it is the Ode to Science,' said Lucy; and he has middle of the afternoon it was only now and then a now just come to the British yoke and the Gallic chain. straggling stranger that visited the shade and cider of the But come, let us walk faster, or they will all gather retailer. What was the matter? What had caused around him so, that I shall not be able to catch a sight of this sudden falling off of customers? The reader will

Towards night a new face appeared in the shanty and called for a glass of cider. It was drawn, swallowed, and the customer took out his purse enquired the prices.

One dime.' said the Yankee,

'Oue what?' retorted the customer. 'One h-ll,' snarled the customer; why, I can get just s good cider here at five cents a glass.'

'N-0 y-0-u c-a-n-'-t,' drawled the Yankee, 'I mint a pint of cider 'cept what I've got in that are barrit this side of Orleans, I'm dained if there is.'

'I know better,' ejaculated the customer, tartly. 'I bought a glass of cider, not two hours ago, and only paid ive cents for it.

T'd like to know where you effected that small transaction,' queried the Yankee.

Right round here,' was the answer.

I gaess it was right round here.' Right round where, 'd like to know? continued the cider vender. Why close by here somewhere-just back of your

place,' returned the customer. 'I'll bet you tu drinks you didn't,' spoke up the Yan-

see, 'and we'll go right round and sec.' 'Done,' said the customer, and off they started.

Sure enough, 'right round here' they found another ider establishment in full blast. A second Yankee had rigged a small shade in the rear of the first Yankee's shanty, had tapped the other end of the latter's barrel of cider through a board, and was retailing it at five cents a glass to a perfect rush of customers! [N. O. Picayune RATHER COOL .- A fresh-water sailor, who had

shipped as seaman, on board Com. Dallas's flag ship, but, owing to the absence of the commodore, be had never seen and did not know him. Gotting strapped for tobacco, he went to one of the men, and said, I want a than music, who sent frequent and impatient glances to- claw o' tobacco very bad, and I don't know what to do 'Do you?' replied the man to whom he addressed

himself, who was one of that class of mischievous persons denominated practical jokers; 'do you? well, go to demonstrations of delight, which the performers very that old fellow that has just come aboard; he'll give you some, for he keeps all the tohacco.*

The 'old fellow' to whom he was directed, was no less a personage than Commodore Dallas himself; but the this misapprehension on the part of their Seniors, were greenhorn, ignorant of this, went up to him, and, slansomewhat surprised at the attention paid them by Peter ping him on the shoulder, said, in the usual rough, sail-Small and a few others, who, not being particularly fond or-like way, when addressing one of his equals, 'I say, of children, had never before been so attentive to their old chap, give us a chaw of tob icco, for I'm nost starv-

> The commodore was taken all uback by this musual mode of address, and, looking at the man, he asked,-'How long have you been in the service?'

'Only six days,' replied the man, still unaspecting of his error.

'And have you had no tobacco yet?' asked the commodore.

'No,' he replied, 'not the first chaw since I have been The commodore hauled out a hunk of tobacco from

'Now, do you know who I am?' he asked.

'No.' was the reply. Well, I'm Commodore Dallas, the commander of this

his pocket, and, cutting off a piece of it, gave it to him.

'You don't say so!' exclaimed the man, who was now in his turn, taken all uback, and felt slightly fearful of the consequences of his familiarity; but, recovering his selfpossession in a moment, he replied, with true sailor boldness, 'Well, you've a tarnal good berth of it!'

The old commodore, tickled at the joke, forgave him. quickly guessing that the mistake was not a wilful one. hut originated by some of the practical jokers aboard the ship. He however, ordered that, after that, tobacco should be distributed among the men every day.

A SOUTHERN 'MISTAKE.' We gather the following facts from a communication in the Baltimore Saturday Visitor. A colored man has been lying in the prison in New Orleans four years who was originally confined by mistake, having been taken for another man. The error was discovered in a few days, but the imprisoned man was not discharged. He sustains a good characterand the Warden of the prison testifies to his uniformly excellent conduct. The attention of the Grand Jury of zos Island, and liquor not so plentiful at times as the the city has lately been called to this case, and they, after stating the fact of the man's imprisonment by mistake, the good character he sustains, &c., 'most respectfully recommend (we quote the language of their report,) that, if in the power of the court, he be ordered to he sold for his jail fess, rather than remain as he now is, at the expense of the State, and in idleness.'[Charter

Cement for Yards and Floors.

A correspodent of the Agricultural Gazette speaks of he value of 'tar compost,' so called, for forming ground floors for carriage houses, barns, stables, also for walks, barnyards, &c., for which purposes it is represented to Astor in his early days. Some of his patro s complain- be excellent being thoroughly dry, wholesome, cleanly smooth, easily repaired, noiseless under motion, and inmore than two dollars a barrel at the outside, was an imical to vernin, besides being so very cheap, only cost-

Danvers Tourier.

SATURDAY MORNING. DEC. 12, 1846.

The President's Message.

This document was received here on Thursday morn ing last, and as most of our readers have probably had an opportunity of perusing it ere this, and as the publication of it in our columns (it being very lengthy) would require so much space, we have thought it better to ex-28th of May and 15th June, 1845. tract from it such parts only as are of more general in-

A large portion of the Message is devoted to the allengrossing topic of our present unhappy position with Mexico, and the President has enumerated the many 30th, to which I have already referred. wrongs and grievances which from time to time have been suffered by our government, and which were committed long before the annexation of Texas to the United States. Among these causes for redress, the President states the following:

"Scarcely had Mexico achievel her independence, which the United were the first among the nations to acknowledge, when she commenced the system of insult citizens engaged in lawful commerce were imprisoned. their vessels seized and our flag insulted in her parts. If money was wanted, the lawless scizure and confiscation of our merchant vessels and their cargoes was a ready resource; and if to accomplish their purposes it hecame necessary to imprison their awners, captains and crews, it was done. Rulers superceded rulers in Mexico in rapid succession, but still there was no change in this system of depredation. The government of the United States made repeated reclamations on behalf of its citizens; but these were answered by the perpetration of new outrages. Promises of redress made by Mexico in the most soleron forms were postponed or evaded. The files and records of the department of State contain conclusive proofs of numerous lawless acts perpetrated upon the property and persons of our citizens by Mexico, and of wanton insults to our national flag. The interposition of our government to obtain redress was again and again invoked, under circumstances which no nation ought to disregard."

The President then proceeds to say that "the annexation of Texas to the United States constituted no just cause of offence to Mexico. The pretext that it did so, s wholly inconsistent and irreconcilable with well authenticated facts connected with the revolution by which Texas became independent of Mexico."

Mr. Polk, maintains the Rio Grande to be the Western boundary of Texas, so maintained from 1803 to 1819 On that day the Secretary at War directed Gen. Taylor -so ceded to Spain-so claimed by Texas-and so maintained by our Sccretary of State in 1842-so assented to by Congress in their acts of establishing a Custom House and post roads west of the Neuces; nor did Congress complain at their last session of the advances of our troops to the Rio Grande. Subsequently, Congress passed an act "establishing certain post rontes," extending west of the Nucces. The country west of that river now constitutes a part of one of the Congressional districts of Texas, and is represented in the House of but refused to receive, our minister when sent, and it was avowed that war was the only alternative of Mexico, and on the 4th of April, 1846, orders were issued to commence the war by an attack on our troops east of the Rio Grande.

Our Military and Naval commanders were instructed in no event to commence hostilities, hut to resist aggression. Mexico was not for the Neuces only, but for all Texas, such has been the ground of Mexico from the beginning.

Paredes was the enemy of the United States and the friend of monarchy, and he rose to power upon the war spirit. There was no liope of peace with him-Santa Anna was not a monarchist and not committed to the

Our Naval commanders were instructed not to oppose his entrance to Mexico, if attempted, and hecause there was a better prospect of peace with him than with Paredes. He recapitulates the achievements of our Army and Navy-the conquest of New Mexico and California, Conhuita and Tamaulipas-and recommends a vigorous prosecution of the war as the surest means of obtaining a

An extract from Mr. Webster's recent speech at Philadelphia, will show at a glance that this assumption of the Rio Grande as the western houndary of Texas, was entirely unauthorised and unfounded; and is put forth as a pretext to render as justifiable as possible the uttack on a weak sister nation, the real object of which was an acquisition of territory instead of a defence of boundary

That I may misrepresent no one, I will state to you three propositions, which in my opinion are fairly maintainable, from the correspondence submitted by the Ex-

ecutive to Congress.

1st. That the President directed the occupation of a territory, by force of arms, to which the United States had no ascertained title; a territory which, if claimed by the United States, was also claimed by Mexico, and was at the same time in her octual occupation and possession.

The Texas Convention was to assemble July 4th, 1845, to pass the annexation. Before this date—to wit, on the 28th of Muy—Gen. Taylor was ordered to move towards Texas; and on the 15th of June was instructed, by a letter from Mr. Bancroft, to enter Texas, and concentrate his forces on its 'swestern boundary,' and to select and occupy a position 'on or near the Rio Grande, to protect what, in the event of annexation will be our western border,'?

That the United States had no ascertained title to the That the United States had no-ascertained title to the territory, appears from Mr. Marey's letter to General Taylor, of July 30th; 1845. General Taylor is there informed that what he is to "occupy, defend and protect," is "the territory of Texas, to the extent that it has been occupied by the people of Texas." It appears in the dispatch last quoted, that this territory had been occupied by Mexico.

114. Balance in the Treasury on the 1st of July, 1846, \$9,126,439.

The public debt, including Treasury notes, on the 1st of December, 1846, was \$24,256,494. Outstanding on the 4th of Murch, 1845, \$17,788,799. Incurred since \$6,467,594.

Mr. Marcy goes on to say:
"The Rio Grande is claimed to be the boundary be-

territory; for it admits that Texas only made a claim to it, Mexico having an adverse claim, and having also active the price of the public lands.

to al possession.

2.d That as early as July, 1845, the President knew as well as others acquainted with the subject, that this territory was in the actual possession of Mexico—that it contained Mexican settlements, over which Texas had not exercised jurisdiction up to the time of annexation. On the 8th of July, the Secretary of War wrote to Gen. Taylar, that

"This Department is informed that Mexico has some Military Establishments on the east side of the Rio Grande, which are and for some time have been in the actual occupancy of her troops."

On the 30th of July, the Secretary wrote as already nientioned, directing Gen. Taylor to except from his proican settlements over which the Republic of Texas did not exercise jurisdiction at the period of annexation, or shortly before that event.

mation of his purpose, to take possession of this territory by force of arms, however unwilling Mexico might be yield it, or whatever might turn out on examination to Mexican force; otherwise his acts and instructions are inexulicable.

The Government set up and affirmed from the first. that the Rio Grande was the western boundary of Tex-

On the 15th June, Gen. Taylor was instructed to take of annexation, will be our western boundary." In ac-

On the 6th of August, the Secretary wrote to Gen. Taylor, "although a state of war with Mexico, or an invision of Texas by her forces may not take place, it is nevertheless deemed proper and necessary that your force should be fully equal to meet with certainty of saccess, any crisis which may arise in Texas, and which would require you by force of arms to carry out the instructions of Government." He is then in the same etter authorized to procure volunteers for Texas, &c.

On the 23d of August, the Secretary instructed Taylor: "Should Mexico assemble a large body of troops on the Rio Grande, and cross it with a considerable orce, such a movement must be regarded as an invasion of the United States, and the commencement of hostiliies." He is then instructed how to assemble a large

force, &c.
On the 30th of August, he was instructed in case any Mexican force crossed the Rio Grande, "to drive all Mexican troops heyond it," that any attempt by the Mexicans with any considerable force, would be regarded as an invasion; and that on such an event, namely—'in case of war either declared or made manifest by hostile acts" he was not to confine his action within the territory of Texas.

On the 16th of October the Secretary wrote that "That information which we have here renders it probable that no serious attempts will at present be made by Mexico to invade Texas " But is still instructed to hold the country between the Nueces and the Rio Grande.

Previous instructions will have put you in possession

He is instructed to put his troops into winter quarters coordingly, as near the Rio Grande as circumstances rill permit. Up to this time, and to the 11th of March, will permit. 1846, Gen. Taylor was at Corpus Christi. The open and decided step was taken on the 13th of January. to march to the Rio Grande, and to take up a positio opposite Matamoras. In so doing, he is instructed, in case Mexico should declare war, to assume may open act of hostility, not to act merely on the defensive.

Throughout the correspondence, it is plain that the in-

Representatives. The Senators from that State were closen by a legislature in which the country west of that river was represented. Mexico withdrew her minister of war, and put into his hand a conv of General Mexico. of war, and put into his hand a copy of General Me-

pa's proclamation to that effect.

General Taylor put his forces in order of hattle, crossed the stream and pushed on, the Mexicans retreating He arrived on the Ria Grande opposite Matamoras on the 29th of March.

Here Mr. W. read a letter from Mr. Buchanan to Mr. jia's proclamation to that effect.

so much 'vigor,' whenever Congress should perm.!! Did he mean the prosecution of a general war ogainst Mexico? Was it a general war of invasion, and acquisition and conquest that he intended to wage as soon as he should obtain the permission of Congress? If that was his purpose, I think it would have been much better for him to have adhered to it, and to have waited till Congress did give him authority. It was an act leading to war, and Congress was then in session. Why should the Excentive, on its own mere authority and discretion, take a step is investigation of the consideration of the constraint without considering Congress, at a time when important without consulting Congress, at a time

so important without consulting Congress, at a time when Congress was actually in session at the capital? That is a grave question to be asked hereafter.

And here allow me to say, as a matter of history, that hefore, and at the time our troops were ordered to march to the left bank of the Rio Grande, no apprehension whatever was entertained of any invision of Texas by Mexico, or any acts of hostility on the part of that power. (Here Mr. W. quoted several letters from Gen. Taylor, which established conclusively two propositions:)

1st. That we danger existed of any invasion by Mexico.

1st. That it danger existed of any invasion by medicined 2d. That it was the abject of our Government to take possession by force of the disputed territory, and then to treat, if Mexico chose to treat. In other words, that the President did, without the authority of Congress, that which he could only do by its authority, viz: make a military movement on a country then at peace with the United

The defeated appropriation of two millions is adverted to, and again proposed, but with no elucidation of the manner in which it was or is to be employed. It admits that Santa Anna was permitted to pass the blockading quadron, by orders from our Executive.

The issue of naturalization papers and letters fact having been received. It is intimated that privateers sailing under these, will deserve to be hanged as pirates, and Congress is requested to make provision for that end.

The budget comes next. The imports for the fiscal year ending June 30, 1846, were \$121,691,797, of which were re-exported \$11,346,623. The exports were \$113,488,516, of which \$102,141,893 were domestic products

The receipts into the Treasury were \$29,499,427, of which from customs were \$26,712,667, and from public lands \$2,695,452. The expenditures were \$28,031,-114. Balance in the Treasury on the 1st of July, 1846,

of December, 1846, was \$24,256,494. Outstanding on fence was campailted in Douglass, in March last. The written above will not apply to them; if however there the fee, and swore that she would never yield unti-

A farth er loan will be required to meet the war expen ses of the present fiscal year and the next. If the war tween the two countries, and up to this boundary, you are to extend your protection, only excepting any posts on the eastern side thereof which are in the actual occupancy of Mexican forces, or Mexican settlements over which the Republic of Texas did not exercise jurisdiction at the period of annexation, or shortly before that event."

The essumate requires a loan term of the community of the strength of the Treasury, to gnard against contingencies. It is estimated that \$2,500,000 might be produced annually by event." This makes it perfectly clear that the United States imposing duties on articles now inported free, and that and mi ascertained title (and no apparent title) to this from \$500,000 to 1,000,000 might be obtained by reduc-

It is reccommended that the loan be for 20 years with

A Growing Evil.

One of the greatest evils connected with our State legislation, is the manner in which business is transacted in Committees. The practice of allowing petitioners to employ counsel to forward their schemes in the Committec rooms has increased to such an extent as to becom a great and positive evil, by obstructing and delaying tection "any parts on the eastern side thereof" [of the Rio Grande] which are in the actual occupancy of Mexmittees to report the first part of the session doing alnost nothing, meeting at 11 o'clock adjoining at half It manifestly appears to have been the intention of the past twelve or one. It is thus, the session is prolonged, President, from the 28th of May down to the consumble convergence incorred and no good effected. Comsel, learned and unlearned, are in the meantime employed in the Committee rooms cross questioning and puzbe her right to claim it. He intended to extinguish the zling honest witnesses, making long harangues about irrevalent matters and wearing out the patience of the auditors as well as the Committeemen. It is believed that courtesy aften obliges the Committees to listen to these party and the country by keeping on good terms with the special pleodings long ofter they have fully made up their minds on the principles and details of their reports On the 15th June, Gen. Taylor was instructed to take such a position "on or near the Rio Grande," as "will be best to repel invasion, and protect what, in the event come a custom almost as strong as law. This practice is not only a public abuse but it has become a serious evil to petitioners themselves who now feel obliged to left the country for China. Since his return from Chiemploy counsel to sustain their case against opposing ounsel. It is thus that the wealthy individual or corporation has the advantage over his poorer opponent to ed from receiving any office from the Executive. On his whom justice becomes so dear that he hardly dures to return, he found Mr. Webster, with whom he had al-

To any one who has had experience in our legislation, other evils besides those named above will suggest themselves, and it seems quite time that a remedy should be applied. We do not censure, of course, those who are employed to go before these committees, or the committees themselves who are governed by a despotic custom which however may be dispensed with by the adoption of such rules and orders as will limit the practice to those cases of public and general importance as the two nouses by joint action shall permit. It is amply suffieient in most of the petitions referred to legislative com- that Mr. Cushing had with it for which he should be osmittees to hear the unvarnished statements of sound tracised. It was an honest difference of opinion which common sense men on both sides by which the members he and Mr. Webster entertained with the Whig party, will better understand the case than after the most learned and elaborate arguments of counsel.

The Marbiehead Sufferers.

We learn that those who have been made Widows and Orphans in Marblehead by the receet disasters to of the views of the Government of the United States, not the fishermen on the Grand Banks, have been generously only as to the extent of the territorial claims, but of its relieved by various contributions of the benevolent in that town and in other places. Not only have the Societies of Odd Fellows and Rechabites given liberally, Tariff went into operation. but large contributions from citizens of Salem and other places have been tendered to the Committee for distribution among the sufferers. We learn that among other liberal donations, a gentleman of Boston sent one hundonation has been received from a gentleman of this tention was to extinguish the Mexican title to this territo- town, of the very useful and seasonable article of flannel. ry hy armed occupation; and the instructions are explicit, to treat every assertion of title or movement on the part lars. For the Courier.

Hon. Caleb Cushing.

We have noticed a disposition in some of the Whig papers, to exclude Mr. Cushing from the Whig ranks. Perhaps good and sufficient reasons can be given for this prescriptive course, but we must confess we have never been able to see them. Mr. Cushing, when a portion of the Whig party first made issue with John Tyler, thought with Daniel Webster and some other prominent members of the party, that more good could be effected for the President and making the best of him. He acted in accordance with that belief, and in no ease, as we are advised, did he differ in opinion from Daniel Webster during their connection with the President; and on the same day that Daniel Webster left the Cabinet, Mr. Cushing na, he has never, as we have understood, committed himself to the Administration party, and he has abstainways acted, in full favor with the Whig party, but not a paper of that party greeted his arrival. He has been at home now more than a year without having received favorable notice from the party with whom he has alvays acted. He was a few weeks since elected to the Legislature from his native town, by an overwhelming majority, and he is spoken of in the papers as an Independent member,

We do not like to see this, unless there is better reason for it, than we now know of. We did not agree with W. Holmes, who was called in, and we are ha the course of John Tyler, but we can see no connection and one for which they should neither be condemned.

The Whig party owe much to the exertions of Mr. Cushing. From the time of his first entrance into Congress until he left it, he was an eloquent and uncompromising advocate of the great principles of his party, and even after he was denounced by a majority of his party in Congress for not opposing the President, he made use of his great influence over Mr. Tyler to induce him not tracted mother replied—'Tell me not of resignation to veto the Tariff of 1842, and it was undoubtedly owing to Mr. Cushing's earnest and continued efforts, that that

Mr. Cushing, when disposed to denounce his course,-Above all let them not prescribe him without reason. If he has deserted the great and conservative principles of the Whig party, upon which the prosperity of the country depend, if he has ever proved recreant to the trusts that have been confided in him, then we should be among News-Letter, that a woman by the name of Carte the first to denounce him, but if on the contrary, he still, as we believe he does, holds those principles dear, if he ton called New Boston, was, by some rowdies of Mexico, as an act of hastinty, and to proceed accordingly and resist it.

in the face-and he begs for immediate execution.

BREACH OF PROMISE. A suit to obtain damages for the failure of a pramise to marry was tried last week nt Bristol R. I. The fair plaintiff was 21 years of age, and a tailaress-the indappy defendant was a stordy farmer of sixty. The premise was clearly proved, and the damage was estimated at \$2000, about the whole of the old man's property. So fir had proceedings gone between them, that the bams were published, both parties procured wedding garments, the day was fixed, the strategies become so great that it requires a larger solver for its present movements. This Warchouse guests invited, the clergyman attended, but the bridesgroom was missing. His only explanation was, 'Pve by for extent and magnitude, and yet it is far, far and magnitude, and yet it is far and magnitude. gi'u it up.' This was ant considered entirely satisfacto-Fy to the lady and her friends, and thence the sait. In the defence it was sought to be proved that the reputation of the plaintiff had sast dard a flaw at some forme periods. The juror gave a verdict of two hundred and sixty-two dollars.

A BROTHER'S DYING CARE.-In the breast packet of Mr. Charles French, who perished in the wreck of the Atlantic, was found the miniature of his only brother, Benjamin. It was a favorite and beautiful painting, executed in London; and to preserve this, whether he escaped or perished, Charles carefully wrapped it in a linen handkerchief, marked with his whole name, and placed it in the breast pecket of his cont, thus showing that some of his last thoughts were upon his brother.-The miniature, by heing thus protected, escaped without being materially injured; though the case was so soaked in water as to full apart. This picture, with a penkaife and a small key, were farwarded to French's friends on Wednesday. Nathing has yet been heard of his watch, parse or valise .- Boston Trav.

THE PEARE SOCIETY .- This society are still ener-

as Attorney General; Mr. Mason, Secretary of the Navy, &c., all of which will be confirmed of course.

He will also nominate some one as minister to France,

INSTITUTE LYCEUM. Lecture on McDNDAY evening next, at 7 1-2 o'clock by Rev. Thomas B. Fox, of Buston.

ILTNOTICE-The present limits are inadequate to EFFECTS OF REMORSE.—Mosler, who was convicted last Thursday at Philadelphia, of numering his wife hong himself in his cell on Monday evening with pieces of his hed sheets. The nail came out, and the fall of his holy brought a watchman into his cell, when measures were taken to prevent any hother attempt to destroy himself. This wretched arm is in a most frightful state of mind. He is continually hunned by the apportion of his nurdered wife, who is ever before him—her gashed throat, with the blond streaming from his staring him. ed with the real character of Oak Hall: Such as a superior Mart, a Princely Warchonse; a vast Trading Area, a Matchless Establishment, a Thentre of Unbounded Tradie, a Supendans Scheme, an extensive Market, a Triumphant Achievement, a Sphere of extraordinary Operations, as Unapproachable Wonder.—Such names will probably apply to my new constructure when completed. I might as well undertake to confine the vast occan in the limits of our Pand on Boston Common, as to corri on my large trule within his for extent and magnitude, and yet it is far, far from being equal in the extent of my heavy trading operations. So liberal a pareniage must have a larger house for the unfettered movements of its enormous form. An Establishment far surpassing the present one is absolutely necessary, and one is shortly to be erected that will surmise and delicht all interly to be erected that will surprise and delight all interested in my welfare, G. W. SIMMONS,

Oak Hath Boston, P. S. Being obliged to mave to make these stu-pendous alterations, the Large, Fresh Stock of Fash-imable Ready-made Clothing, Piece Goods and Rich innable Ready-made Clothing, Piece Goods and Rich Farnishing Goods, adapted to this present Fall and coming Winter, amounting to upwards of one hundred and twenty-five thousand dulars, will be closed up at prices much below the extreme low prices I have been selling. All the furniture of the present establishment for sale—Large Mirrurs, Clocks. Chandeliers with Rich Cut Drops, Counters, Show Cases &c., &c., act 31.

MR. EDITOR,—If there are any of your readers who are not acquainted with my place for the sale of HATS, CAPS, and every description of FUR GOODS, will you please inform them, that it is the Old Stand, 173 Wash-ugton street, Boston. Wholesale Rooms, 2d

and 3d stories. W. M. SHUTE. oct 10

The Peale Society.—This society are still energetic in their endeavors to promote the abject held in view. On the 10th alt., Mr. Henry Clapp, jr, editor of the Lynn Pioneer, published at Lynn, Mass., in the United States, tectured in one of the large rooms in the Hall of Commerce, London. The subjects upon which Mr. Clapp tented were eThe spirit of war and the spirit of peace. Mr. Clapp introduced several interesting narratives in the cause of his address in illustration of his arguments, and concluded a lecture, which accapied aparents of two hours in the delivery, anadst general plandils.

**The correspondent of the Journal of Commerce Writes:—

I cannot say that Cangress has come together in good Penger. On the contrary, I see every where around me evidence of had feeling, distrast, and mensioness. The Western Democrates who were disappointed by the veto of the River and Harbur Bill are not reconciled to Mr. The President will, I learn, send in his nominations to the Senate to-morrow, for several places which heccame vacant and ware filled during the recess of Congress, viz: Mr. Brancroft, as Ministerta London; Mr. Clifford, as Attorney General; Mr. Masan, Secretary of the Navy, &c., all of which will be confirmed of enurse.

THEW BOOKS. Willis & Co's Bank Note Detection for fee Dec.—12 1-2c. Despatism in America, or an inquiry into the Nature and Result of the Slave-The will also nominate some one as minister to rained; and as Mr. Buchanan has not yet made up his mind to leave the Cabinet and take a stand against free trade, presume it will mit be he. Many things conspire to indice the helief that Mr. Charles J. Ingersall will be nominated for that past.

A hacking cough constantly annoyed me!

Boston, Mass.,

June 1st; 1844

Sir, In February last, I took a sudden cold, after

which a hacking cough constantly annoyel me, and combined with my other maladies, rendered me hisy miserable, as everybody told me that I was in a rulsumption. Since, I have taken LORRAINE'S PILLS to now every body tells me that I am well;—I fee anwell as ever I did.

J. E. S. McKEY. anwell as ever I did.

Portland. Me., Nov. 7th, 1843
Str: Please send us one gross of Lorraine's 1'lls, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we ry, they have been praised loudly. I think we could have quite a number of highly respectable cer tificates from our citizens.

Respectfully yours,

E MASON.

Chelsea. Jan- 3d, 1844 Sir: I transmit to you an account of my case for rublication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physiciens of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Fills, I and no faith whatever, but look them, and it is a solemn fact that when I had aken but eight pills ! my Rhenmatism had entirefy

eft me, and I have remained well ever since.

N. B. I never took more than one pill at a time N. E. I never took and that on going to bed.

Yours respectfully,

W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir—For three years, Serofula had produced such effect upon my constitution, that I was unable to alse my hand; the bones were in different places extroyed by ulcertion, and I feared it might reach the produced of the second o ae brain or vital organs. My pains were violent—rugmediciues recommended did no good. At last, I danaLORRAINE'S VEGETABLE PILLS, which stll nommediate relief, and have entirely cured me.
Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !! Lowell, Mass., April 20th 1944.

Sir,—For the last few months I have been afflicad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It that I could scarcely get my breath. that I could scarcely get my breath.

Is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills.

J. BROOKS. dose of Dr Lorraine's Pills.

Sir. I could 33 the whole of the Sentinel with sincilar letters to the above, but believing the above extracts will serve for useful purposes for the present I omit more. New England Office and General Depot, No 10

BrattleSquare, Boston.

Erattle Square, Boston.

Lynn, Dec. 17th, 1843

Sir; I have sold all the pills I last had of you please send another lot immediately. The sale o Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them fluds any fault with them; they have wrought same very great cures. One lady, who has been confined

ABDO MINAL SUPPORTERS. TRUSS MANUFACTORY, BOSTON, MASS.

JAMES FREDERICK FOSTER

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved Trusses, at his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue, Boston Where he has been for the last ten years—and his residence and business being both in the same building, he can he seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in, it in this city or any other.

Also—Aldominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him. Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Read's Spiral Truss; Rundell's du; Salmon's Ball and Socket; Sherman's patent French do; Bateman's do, double and single; Stone's Trusses; also, Trusses for children, of all sizes for Fleicher's Truss, and Marsh's Truss, Dr. Hull's Truss. Thompson's Kachet Truss, and Marsh's Truss, Dr. Hull's Truss low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroling D. Foster, who has had ten years experience in this business.

CERTIFICATES.

Having had occasion to observe, that some persous at-

has had ten years experience in the business.

CERTIFICATES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persous at ficted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethrea, and to the public, as a porson well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

From Dr. Greene, Boston.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and sec that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Rolbins, Roxbury.

Since the death of Mr. John Beath, I bave used, in preference to all other Trusses those made by Mr. J. Foster, of Boston.

P. G. ROBBINS, M. D.,
Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J.

Foster, of Boston. P. G. ROBBINS, IN. D. Boston, April 27th, 1646.

The undersigned is familiar with the ability of Mr. J. F. Foster, to magufactore trusses of the various kinds of supporters and other apparatus required by inval.ds, and fully believes that the character of his work will favora-

bly compare with that of other artists.

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1847!

Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

NOR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing he practical value of his thenry, but will offer a rare appurtunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and *especially* adapted to whole and half sets, where the alventar or dental ridge has became uneven and irregular, by the dental ridge has became uneven and irregular, by the fact I have noticed, that no one that has used them finds any fault with them; they have wronght same very great cures. One lady, who has been confined to the house and bed, a great part of the time, for the time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time.

Yours respectfully,

Yours respectfully,

Yours respectfully,

Yours respectfully,

AGENTS

AGENTS

dental ridge has became uneven and irregular, by the absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all all absorbing of seme parts more than others. In all absorbing of seme parts more than others. In all all absorbing of seme parts more than others. In all all the preparations ever on the time, different cases, it will be readily seen by an examination of the send of the sements, but have not in the stand, and the fact of the part and on the base of the cure have dead to the readily seen by the carved work in blocks, prepared expended on the reflet of those diseases for which it is recommended, such as headache, dizziness, sleepiness, noise, on the reflet of those diseases for which it is recommended, such as headache, dizziness, noise, in the Head, but daste in the mouth, nausea, or sickness in the Head, but daste in the mouth, nausea, or sickness or which it is recommended, such as headache, dizziness, noise, in the Head, but daste in the mouth, nausea, or sickness or sinchest in the possible to accomplish it so perfectly by any other means. It is the want of, this ingeniously wrought block-work, to temedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the must perfect manblock-work, to remedy the defects above referred to are moulded to fit the plate in the must perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the place; and after being retained there a lew days, it being impossible to re-move them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only knawn to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half ets; and a variety of cases of smaller magnitude, were great difficulty in execution is overcome. They an-not fail to excite admiration from all who are pleased great difficulty in execution is overcome. They annot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS.

TERMS.

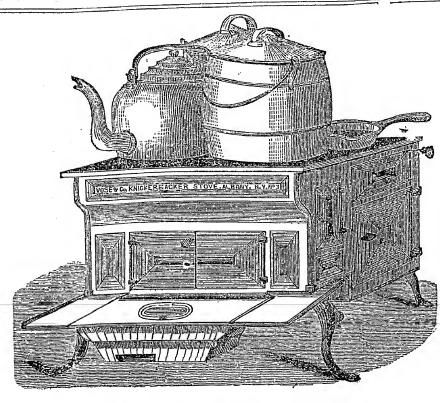

have failed.

Scrafula, or King's Fvil,
and all other eruptions of the skin are caused by the impure state of the blood, and to have pure blood a medicine should be occasionally taken. The Panacea is wonderful in its effects for paritying and Cleansing the Blood,
and is therefore a preventive for all eruptions of the skin

Up to January 1, 1847, the following terms will and will cradicate
be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and of long standing, and in fact is requisite for the promotion of long standing. finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six mouths if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been worn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavilies with gold, \$1; For other kinds of Filling, from 50 cents to \$1; For selting on gold pivot, \$2; For Cleausing, \$2; Extracting 25 cents. Examinations and advice grais. All oper ations, warranted.

Carved work in block for whole and half sets will be got up for other dentists on reasonable terms. S. STOCKING, Surgeon Dentist. Aug. 15.

DANVERS COURIER: PUBLISHED EVERY SATURDAY MORNING, | polished without affectation.' In Lunt's Building, Under Ashland Hall, At One Dollar and Fifty cents a year, IN ADVANCE.

Single to a five cents each.

ADVERTISEMENTS inserted on very favora-GEO. R. CARLTON, Editor.

Checks, Bills of Lading, etc., etc., executed at short notice, and on the lowest terms.

Poetry.

For the Courter.

The following lines were written on November 25, between 9 and 11 o'clock, P. M., hours ever memorable for the storm then raging, and the wreck of the Atlantic Steamer, and many other vessels along the coast ere the gale subsided. The barometer at 28 50 and still falling.

O God, how thankful should we be, In our warm, safe and quiet home; While sailors on the storm-tessed sea. And all who houseless, homeless roam.

This dreadful night, are suff'ring all The terrors threat'ning Death can wear, In scenes which bravest hearts appala Where all that men can do or dare

To save themselves and comrades were Hapeless, without Almighty aid-God's power to help, his will to spare 'The lives he gave, the souls he made;

Hark, how the rain and driving sleet Is deluging the thirsty earth; How the winds roar without, while we Enjoy a quiet bed or hearth.

Yet boast not! Gon who rules the storm Its fury tenfold may increase, And mansions thought most safe and warm, In ruins lie, if so he please,

Ere morning dawn; and our own souls, With those dushed on you rock bound shore, Be summoned to the bar of Gon, And earth encumber never more.

Our trust and theirs must be the same, The dwellers on the firmest land,

The same strong hand destroys or saves And those who ride the occan's waves.

"BRING BACK MY FLOWERS." A child sat by a limpid stream And gazed upon the tide beneath, Upon her cheek was joy's bright beam And on her brow a blooming wreath: Her lan was filled with fragrant flowers, And as the clear brook babbled by, She scattered down the rosy showers, With many a wild and joyous cry, And laughed to see the mingling tide Upon its onward progress glide.

And time flew on-and flower by flower Was cast upon the sunny stream, But when the shades of eve did lower, She woke up from her blissful dream; "Bring back my flowers," she wildly cried, "Bring hack my flowers I flung to thee," But echo's voice alone replied, As danced the streamlet down the lea; And still, amid night's gloomy hours, In vain she cried-"bring back my flowers."

Oh, maiden! who on Time's swift stream, Dost guily see the moments flee, . In this poor dale s debusive dream, An emblem may be found of thee! Each moment is a perfumed rose, Into thy hand by Mercy given, That thou its fragrance might dispose, And let its incense rise to Heaven; Else when Death's shadow o'er thee lowers Thy heart will wail-"bring back my flowers."

Miscellany.

The Lesson.

Three young ladies were seated in a rich apertment. They were Misses Amanda and Emma Ellis, and their cousin Deliluh Curlton. The latter was engaged in the womanly occupation of sewing; the two former in discussing, critically, a ball at which all three had been present the preceding evening.

'I don't like that Mr. Barton at all,' said Miss-Amanda continuing the conversation.

'And why not, cousin,' said Deliah, 'I am sure he is landsome enough, is he not.'

'Yes; but ----' But what, coz?' said she to Emma, who had spoken

'Yes, yes, but for all that he is vulgar,' said Emma-

pettishly, 'vulgar in his ideas.' 'Vulgar!' exclaimed Delihah, 'you must again allow me to differ with you coz,' she continued, looking into her cousin's face with a winning smile. I think he is quite refined, more so than Mr. Rice or Mr. Brown and nany other gentlemen.

'Only think of comparing Mr. Barton with Mr. Brown, the Gentleman!' exclaimed Miss Amauda Ellis. 'Why Mr. Barton is a mechanic!'

'Well, suppose he is, dear,' said her cousiu, 'does that make him valgar, or less respectable? For my part, I think a mechanic can be as much of a gentleman. (in the true sense of the word) as a millionaire.'

'We'l, I declare, cousin Dill, you do have some of he funniest nations,' said Miss Amanda, 'just for all the world like pa: he thinks oue man just as good as anoth-

er, even though he be a laborer. 'Yes,' said Emma, 'I do wish he would be a little nore circumspert, and find better company for his daughters than mechanics. It is his fault that Mr. Barton comes here; he gives him such pressing invitations. I suppose he wants mo'or you, Amanda. Wouldn't it make a fine paragraph for the papers? Miss Amanda, or Emma, daughter of James Ellis, merchant, to Mr. Charles Barton, mechanic. 'Oh dear,' said the spoiled beauty, for beauty, for both sisters, possessed great personal attractions, throwing herself back upon the sofa and laughing heartily, as also did her sister.

'Well, well, girls,' said Mr. Ellis, who, hidden behind the half open door of the apartment, had been an unobserved listener to the conversation, and who now entered the room, 'you may laugh now, but you may live to regret that you did not try to obtain Mr. Barton for a hus- the carpenter's trade about the same time I entered the band. Mark that!' and the old man, taking his hat left counting house. Suon after he had finished learning his the apartment.

'I declare, if there is not Mr. Barton on the steps!'exclaimed Emma, looking through the blinds; 'come, up stairs into the parlor, and leave cousin Lila to enter- subsequently unassed a large fortune. Knowing the retain him: it will be a pleasure to her, she is so partial to verses of fortune to which all are liable, be resolved to mechanics;' and the sisters left the room.

The poject of the foregoing conversation was a young man whom Mr. Ellis had introduced to his daughters and niece some mouths before, as a master mechanic.— But unlike their father, who valued a man for his character and not for his money, the Misses Ellis were great child. About six months ago Charles came to this city sticklers for respectability, their standard of which was riches and the consequence was, as we have seen, that Mr. Barton did not stand any too high in their good gruces. Mr. Ellis knew this false estimate of respectability lady he thought worthy of calling his wife: that he could was a predominant fault in his daughters' characters, and he determined to give them a practical and salutary lesson. How he succeeded, the sequel of this story will

A few moments after the sisters had left the room, Mr. Barton entered. He was about middling height, tenance. His eyes were of a deep blue, his eyebrows mate of respectability, I embraced the oportunity of byss of Eternity was strung over with unnumbered deeply arched, and his forehead high and white, from teaching you a lesson, which I sincerely hope will have a chords and swept by the strong hand of Jehovah! fine proportions. He was a handsome man, which with me, and introduced him, that neither of you would fact even the Misses Ellis did not dare to deny, and the he chosen, because I was certain that you would not case and politeness with which he greeted Miss Curl- stoop so low as to wed a master mechanic, but the event case and ponteness with which he greeted wilss Chriton, spoke his claim to that which the lady herself had knew nothing whatever of his wealth until to-day. I awarded him—the title of a gentleman.

tures of her two cousins, but there was ever a sunny smile upon her face and a cheerful sparkle in her clear blue eye, and she had such light and bounding spirits that made her appear, if not as beautiful as her cousins, at least more agreeably; so thought Mr. Barton, as he gazed upon her bewitching countenance. How much better, thought he, would it be to possess her her for n wife, dependant as she is upon her uncle and dowerless as she would be, than either of the Misses Ellis with their spoiled tempers and their fortunes.

Thinking thus, is it to be wandered at that he left her with a half formed determination to win her love if it was within his power.

When Delilah appeared at the dinner table that day, many were the meaning and inquisitive glances her consins cast upon her. At last, unable to restrain their loving habit of 'running' their cousin they spoke. I hope you have spent a pleasant morning, cousin,

said Miss Amanda, with a mock arch look.

'It was a pleasant tete-a-tete, was it not?' whispered Emma, across the table.

'I spent the morning very pleasantly,' answered Deli-

lah, hlushing slightly. Oh! I dare say,' sarcastically; 'I suppose he gave

you a dissertation on mechanics, did he not coz? Well, suppose he did,' said Mr. Ellis, who had been listening patiently, but into whose honest face the color now rose. Is it not heater to listen to that, than to the ble voices. The heavens declared the glory of the Deity. man wept bitterly. The son sold at the bid, and the senseless conversation and sickly sentiments drawled out Day unto day uttered speech. The morning stars sang father sold to an old farmer who had never kept a slave in affected tones by the foplings, half men, half moneys, who disgrace lumanity?' and the old man cast such a

'But never mind, Lile,' he continued in a softer tone, and patting his niece's rosy cheek, 'never mind. Mr. 'Nor me either,' responded Miss Emma, who was the Barton is worth three or four such would be gentlemen as Mr. Rice and Mr. Brown, and in more ways than one. Mark that, girls. He is worth two or three such in more ways than one.' The last sentence he addressed

lust. Snrely his manners are pleasing, and his language 1 'and become a frequent visited at Mr. Ellis's. It was | in it a "glorious mirror" catching in every storm the dim | ery evident he was paying a tricular attenton to Delith Carlton and it was also thin to see that they were
to nuacceptable. This fact, triahed an ample subject
for the sisters' successive remarks. As for their fatuer,

Dana beheld in it a strong giant, heaving and straining who could not boast of so fair a compression or as good. wish that had obtained Mr. Barton for a husband.

Thus things continued for somy time. At length od when our story commences, Mr. Elis entered the paror where his daughters were sitting with a light step ind sparkling eye.

Well, girls, what do you think of it?' said he, rubbing his hands in glee.

'What?' asked both the young ladics in a breath. "The wedding we're going to have." 'The wedding? what wedding?'

'Your cousin's.'

would that alter your opinions?

'Yes, she is going to honor the medianic with her hand. What do you think of it eh?' 'I don't think much of it,' said Miss Enma with a toss

of her head. 'Nor I,' said Amanda. Well, suppose I was to tell you she was going to be married to a man worth two hundred thousand dollars,

'Why, what do you mean, pa?' 'Listen! and I will tell you, girls,' said the old gentleman, bending upon his daughters a grave and somewhat stern look. 'The father of Mr. Barton, to whom your cousin is soon to be married, was an old friend of mine: we were playmates in boyhood. He was apprentice to trade he went to the city of Baltimore, and there started business for himself, and was married. Being possessed of genias, and having good education for a master come,' sho continued, addressing her sister, 'let us go mechanic and builder, he soon became an architect, and make his own son Charles a good architect, so that if ever the 'nexte dante' should deser bun, he would have wherewith to earn houestly his carly bread; he succeedcd. A year or two ago he died, leaving his whole fortune, his wife being already dead, to Charles his only on a visit. He called upon me as his father's friend .-

In the course of conversation I asked him why he was

not married. He said he never yet met with a young

find enough who would marry him for the sake of his

money, but that such a one he would never marry. I told him that I would introduce him to some of our city ladies, and see if he could not find one amongs them to sait him. He required, then, that I should conceal his wealth and introduce him only as a master nicebanic. I acquiesced, and knowing your false esti- ly echo to the thunder) sounding as if the illimitable asalutary influence. I knew when I brought him home He was soon scated, and in conversation with Deli- see you look surprised, girls, but did I not tell you that lnh. Delijah Carlton was a charming girl—It is true you would be sorry some day that you did not obtain she possessed not the exquisite proportions and regular fea- him for a husband? And del I not tell you that he was Mr. Brown, in more ways than one? Remember, girls, that wealth is a false standard by which to judge of respectability and worth. Not that a rich man may not he respectable, but that very often he who earns his daily bread by the sweat of his brow is more of a gentleman than he who counts his thousands.'

And they did remember it; for in after years they showed in their choice of husbands that they had not forgotten their honest old father's LESSON.

Though there were none who returned to "tell Egypt the story that all her brave thousands were dashed in the tide," yet doubtless the sad tidings reached them and unscaled the fountain of a nation's tears.

What wighty grief tore the heart of Spain, when the Sea rose in its wrath and hurled to destruction her "Invincible Armada," which but an hour previous, rode the waters like the swans of Egypt.

"Then rose from sea to sky the wild farewell!

Then shrick'd the timid, and stood still the brave. When the Demon of War, evoked from hell, his forehead of fury wreathed with garlands of flame, has been permitted to kindle the flambeau, of revenge between two nations, thousands of the brave and gifted, battling for their country's rights on the oceans broad bosom, have been buried in its sunless caverus where the everlasting roar startles not their slumbers. The Spirit of the Compant law manusty- flower him will willes allove the Deep, and youth and intellect, wealth and bearty, have gone down, whelmed hencath mountain billows, to sleep amid spangled pearl-shells and coral racks, no more to wake till the san himself shall "slamber in the cloud forgetfal of the voice of morning." No kind wife, or sister, with pearly eyes of love, shall ever deck their lonely grave with flowers, nor mother lave with burning tears the marble that marks the place of their repose. The vast sea was their sepulchre, the remorseless surge their winding-sheet. The breakers roared their requiem, and whirlwinds howled for joy. The sea hath spoken, in notes of terror, and in tones of sublimity. Whose heart has not bowed beneath its power, and whose enhas not listened to its immortal anthem, (the world's on-

An Auction Scene.

In the winter of 1840 and '41, having business in Western Virginia, where the peculiar institution flourishes in its mildest form, the it remembered at this time I was opposed to anti-slavery principles,) December 28th, I found myself in Martinsburg, the county seat of Berkley. About 10 v'clock on the aforesaid day I observed crowd congregated in the public square, in front of a suspicions looking building, which had very much the appearance of a jail, as it proved to be. On impairing of my landlord concerning the cause of the meeting, he said it was 'a hiring,' or, in other words, negro sale-as I afterwards found that a number were hired for life. I walked down to the market, and, to obtain a better view, I mounted a large wagon in the street directly front of the auctioneer, who had commenced his work.— He was a large man, dressed in aristocratic style, with a profusion of ratiles, gold tinger rings, watch seals, and last but not leasty a large whip, called by drivers 'a loaded whip.' The hiring I understood to be a number of slaves of a certain estate, who were hired out from year to year to the highest bidders, for the benefit of the heirs. These sales take place between Christmas and lustrate to the world the thoughts of God, is exceedingly New Years', the holidays, quite a recreation for the slaves who are to change mosters.

After a number had been disposed of in this way, the crier innounced that he would offer for sale six slaves .-the upper deep to the foam-crested waves of ocean, and He then put up two, father and son. The old man was near sixty years of age, and a cripple; the son was about twenty-three, a perfect specimen of a man. There were present two Georgia soul drivers, who bid eight not language to send forth and impart the element of hundred dollars for both. When the crier remarked he stated that the prospect was good for an increase of The royal Psalmist beheld its liquid columns waltzing the property, saying which, the brutal wretch placed his to the thunder, and sung, as he swept with fire-tipt fingers while beneath her apron, and raised it above her head, his scraph-tuned lyre. "The Deep hath lifted up his exhibiting to the enlightened multitude the spectacle of a hands on high." The "Pilgrim of Eternity, whose girl fifteen years old far advanced in pregnancy! She

The next case was that of a young white woman, sixe figure or features. She came upon the stand with the infant in her arms, in the deepest misery. A gentleman who had taken his seat beside me, observing that I was very interested, remarked he thought I was a stranger in that country. I answered that I was. 'These things look odd to you?' 'They do.' Said he, 'you see that man in the crowd,' pointing to one within a few paces of the stand-that is Dr. C.; he hired that girl last year, and that child is his!' The Georgian bid three hundred dollars; some one bid four; the Georgian bid four fifty; The dark "image of eternity" has loomed up in all the girl cast a piercing glance at the crowd; her eyes nges, and thrown its mighty shadow across the disk of rested on Dr. C. who instantly averted his face. She gazed one moment, then burst into a torrent of tears .--She was knocked off to the Georgian. Thus the fiend have responded in deathless thoughts which leaped from saw his child and its mother sold into Southern bondago. My God! thought I, is it possible? I was cured of my pro-slavery principles !

The writer of the foregoing says-I am a poor mcchanic—a noisy son of Vulcan. You will therefore ex-It speaks also to the heart. Its melancholy death- case the imperfect manner in which I have written.

HENROOST PHILOSOPHY.

It used to be a remark of an old friend, that 'every reasonable thing was founded on reason,' and every easonable person knows that there is no small judgment and philosophy, as well as kindness and patience, necessary in successfully rearing poultry. We have never seen the whole system so neatly and comprehensively laid down as in the following manner by Mrs. Dakin:

> From the Poughkeepsie (N.Y.) Journal. MANAGEMENT OF POULTRY.

HENS .- Ist. Provide a warm, dry shelter for winter. 2d. Feed with oats, soaked for 12 hours in warm ater before feeding.

3d. Burn clam shells and pound fine; let them have as many as they can eat, and you may have eggs from men to December.

From 30 hens I have gathered this year 3,522 eggs by he 10th of Septlimber, and raised 200 chickens.

I manage my chickens by feeding oats and rye ground, two bushels of onts to one of rye. Keep them in a warm shelter at night.

N. B. To prevent the pip or gapes, change the male every year, and your chickens will be healthy. TURKEYS .- lst. Feed the same as hens, and let

them batch their young ones any time after the 20th of 2d. Feed the young ones with oats and rye ground

wet with milk curd, and occasionally sprinkle a little owdered clam shell lime with the feed; if cold and wet weather, sprinkle a little black pepper with their food.

3d. Make warm and dry shelters to brood in nights, and keep them from the wet and dew until the sun shines warm.

4th. Feed but little the first twenty-four hours after they are hatched. By this management I can raise nine

out of ten. Be sure and change the tom turkey every year.

RAISING GOSLINS .-- 1st. Have them botch as early as the first of May if possible. Make dry, warm places ' for their nests.

2d. Feed the young goslins with corn meal; put one easpoonful of salt in a pint of meal; wet the feed with

3d. Let them have access to water in pleasant weath-

4th. Keep them at night in a warm, dry shelter. By this management I can raise 49 out of 50.

DUCKS .- Feed ducks the same as goslins. In this way I have raised fifty-two young ones from two old ducks in one year. SARAH DAKIN.

North East, N. Y., Oct. 5, 1846.

exercise, as to lie in bed and dread it.

Farmer's Work and Business.

During the cold month of December, farmers can generally do but little at the usual business of farming .-But they should provide fuel for one year or more, that they may not have to attend to this in the more busy seasons of sowing, planting, weeding, harvesting, &c .-The former part of winter, before the snows become deep, are most favorable for preparing and hauling fuel. Stir carly these short days, or but little will be performed. It is not half so hard to nicet the cold defended by

When soft low lands become frozen, that are intended to be reclaimed, gravel or sand may be hauled better than in the warm season. In some cases the winter is the only time for doing this to advantage. When there is a great depth of mud or peat, gravel is better than sand or loam. The first two furnish silex that gives firmness to the stalk of grass or grain. The gravel affords the best advantage for the superabundance of water

Attend to fruit trees; tread the snows down hard around the trunks to protect them from mice. Cattle will njure or destroy fruit trees if they can have access to them, after the herbage is destroryed or covered with snow. They give great encouragement to nurserymen.

One of the most important considerations now presented to the attention of farmers, is the education of their children. See that you have good school houses, good . books, and good teachers, and that your children attend chool promptly. Endeavor to make them interested in

their studies, and pleased with their schools. The pa-

sandy soil, five or six inches below the surface, or wrap in his official capacity. After refusing to receive Mr them in a damp rug or mat, pack in a close box, and set Slidell in the capacity in which he was commissioned, Jonas Holt, of Andover, 2d premium, In the cellar. In this way we have kept scions, in perect condition, from November till June.

Prepare you accounis for settlement at the close of the year .- Cultivator.

Danvers Conrier.

SATURDAY MORNING. DEC. 19, 1846.

Election MONDAY, December 28, 1846. For Representative to Congress, DANIEL P. KING,

Of Danvers.

The President's Late Message and our Relations with Mexico.

It cannot be denied that this document is very in gen tween our government and Mexico, it may present a very strong bill of grievances suffered by the United States, and a provocation for and justification of the exjuting war. Now we do not deny that if the whole truth has been stated by Mr. Polk, he has cleared in a great measure his own skirts and that of his administration from the responsibility of the present deplorable state of affairs. But such is not the fact. During the whole of his remarks concerning this subject there is lack of fairness and impartiality, especially in his reviewal of the course of Mexico, and notwithstanding the extreme caution he has observed in revealing the real object of his strange course, he cannot escape the just odium which is now and must ever be attributed to him of an unjust and dishonorable motive, viz: a war of conquest and the extension of slavery. It is an old and trite maxim, that "one story holds good until another is told," and the truth of this proverb may be seen from the official correspondence of Secretary Buchanan and Mr. Slidell,-appointed Envoy Extraordinary and Minister Plenipotentiary of the United States, and the official despatches to and from Gen. Taylor.

The President expresses much surprise at the conduct of Mexico in refusing to receive Mr. Slidell, which led more directly to hostility.

"Thus, (says he,) was the extraordinary spectacle presented to the civilized world, of a government, in violation of its own express agreement, having twice rejected a minister of peace, invested with full powers to adjust all the existing differences between the two countries in a manner just and honorable to both. I am not aware that modern history presents a parallel ease, in which, in time of peace, one nation has refused even to hear propositions from another for terminating existing difficulties between them.'

But what says Mexico in regard to the mission of Mr. Slidell? The following is a letter from the Minister of Foreign Relations of Mexico, under the government of Herrera, dated Dec. 20, 1845, addressed to Mr. Slidell:

The undersigned, minister of foreign relations and government of the Mexican republic, had the honor to receive the note which Mr. John Slidell was pleased to address to him on the 8th instant, making known his address to him on the stn instant, making known ms arrival at this capital, in the character of envoy extraordinary and minister plenipotentiary of the United States of Austrea, near the government of the united space, and requesting that a time and a place should be appointed for his admission to present his credentials, of which he was pleased to send copies enclosed.

The undersigned, having submitted the whole to his excellency the President of the republic, and having almor despise the part of reason and of peace to which so considered attentively the note addressed to him by the Secretary of State of the United States, relative to "From these extracts it is manifest that it was the firm the midst of injuries, and of its firm determine the the mission of Mr. Slidell, regrets to inform him that, ulthough the supreme government of the republic is animated by the pacific and conciliatory intentions which the undersigned manifested to the consul of the United States in his confidential note of the 14th of October last, nary to the renewal of friendly relations between the it does not conceive that, in order to fulfil the object proposed by the said consul, in the name of the American government, and accepted by the undersigned, it should ton of an envoy extraordinary and minister plenipoten-admit his excellency Mr. Slidell in the character with which he is invested, of envoy extraordinary and minister plenipotentiary near the same government of the republic on that occurred planipotentiary regarding in the rapublic.

guided.

The proposition in question emanated spontaneously from the government of the United States, and the Mexican government accepted it, in order to give a new proof, that in the midst of its grievances, and its firm decision to exact adequate reparation, it did not repel or contenn the measure of reason and peace to which it is invited: the measure or reason and peace to winch it is my consistent this proposition, as well as its acceptance, rested upon the precise and definite understanding that the commissioner should ad hoc—that is to say, commission—that is to say, commission—that is to say the proposition of the commissioner should ad hoc—that is to say the proposition of the commissioner should be accepted by the commissioner should be c ed to settle, in a peaceful and honorable manner, the questions relative to Texas. This has not been done, as Mr. Slidell does not come invested with that charaeter, but with the absolute and general functions of an envoy extraordinary and minister plenipotentiary, to reside in this quality, near the Mexican government.

If his excellency Mr. Slidell be admitted in this character, which differs applies with the averaged for

acter, which differs substantially from that proposed for his mission on the part of the United States, and achis mission on the part of the United States, and accepted by the government of the undersigned, there would be reason to believe that thenceforth the relations between the two republics were open and frank, which could not be the case until the questions which have led to the present interruption of those relations should have

Although it be true, that in the credential letter brought by his excellency Mr. Slidell, it is stated that he is informed of the desire of the President of the United ble, and if in consequence of this war the peace of the ble, and if in consequence of this war the peace of the ble, and works should be disturbed the responsibility. is informed of the desire of the President of the United States to restore, cultivate, and strengthened friendship and good correspondence between the two counties, it is also no less true that in this clause the single word restore is by no means sufficient to give to Mr. Slidell the special character of commissioner, or plenipotentiary ad hoc; to make propositions as to the affairs of Texas. calculated to establish peace firmly, and to arrest the evils of war by means of adequate agreement.

The supreme government of Ministry that is a supreme government of Ministry and to arrest the supreme government of Ministry that is a suprement of Ministry that is a suprem

functions of the mission conferred on him by the United States government. But as the sentiments expressed by the undersigned to the cousul, in his above-mentioned communication of the 14th of October last, are in no wise changed, he now repeats them; adding, that he will have the utmost pleasure in treating with Mr. Slidell, so soon as he shall have presented credeutials authorizing him expressly and exclusively to settle the thorizing him expressly and exclusively to settle the questions which have disturbed the harmony and good understanding between the two republies, and which will bring on war between them unless such settlement be effected in a satisfactory manner, to which the proposition fected in a satisfactory manner, to which the proposition from the government of the United States related, and under the express understanding of which that proposition was accepted by the Mexican government. Until this kadden was accepted by the Mexican government. this be done, Mr. Slidell cannot be admitted in the character with which he appears invested, as the honor, the tea and coffee, to carry on the Mexican war!" dignity, and the interests of the Mexican republic would

thereby be placed in jeopardy.

The undersigned takes the liberty to adjoin to the present note his answer to that of the Secretary of State of the United States, presented to him by Mr. John Slidell; to whom he has the honor at the same time to present the assurances of his very distinguished considera-tion. MANUEL DE LA PENA Y PENA. tion. MANUEL DE LA FELLA. &c. &c.

The following is an extract of the letter from the rent at home may be a great auxiliary in this important Minister of Foreign Relations under the government of ricultural Society, held in Danvers, Nov. 18, 1846, the cause, and winter affords long evenings for his purpose. Paredes, to Mr. Slidell after he had presented his cre- following premiums were awarded in addition to those Collect scion when convenient, and bury them in dentials to this new government, wishing to be received awarded at the annual meeting of the Society in Lynn: he says,

"It is true that this warlike display with which the American Union presents herself—by sea, with her squadrons on both coasts; by land, with her invading Ephraim Woods. Salem. 1st premium, Is premium, Squadrons on both coasts; by land, with her invading Ephraim Woods. Salem. 1st premium, Is premium, It premium, Is p forces advancing by the northern frontiers; at the same time that by her minister plenipotentiary propositions are made for conciliation and accommodation—would be a sufficiently powerful reason for not listening to them, so long as all threatening shall not be withdrawn, even slightest appearance of hostility. But even this government of the republic, in order s waived by the that it may in all frankness and loyalty enter into the discussion; relying solely upon reason and facts. A simple reference to the truth, plainly stated, suffices to the justice by which Mexico is upheld in the question now under discussion.

The vehement desire of the government of the United States to extend its already immense territory, at the expense of that of Mexico, has been manifest for many ears; and it is beyond all doubt that, in regard to Texas at least, this has been their firm and constant deter nination; for it has been so declared categorically and iously written, and to a large portion of the citizens who officially by an authorized representative of the Union, have not the means of examining all the proceedings beness, has nevertheless not been belied by the United

> Speaking of the Annexation of Texas to the United States, he says,

"A fact such as this, or, to speak with greater exactness, so notable an act of usurpution, created an imperious necessity that Mexico, for her own honor, should repel it with proper firmness and dignity. The supreme government had beforehand declared that it would look ipon such an act as a casus belli; and, as a consequence this declaration, negotiation was by its very nature at an end, and war was the only recourse of the Mexican government.

"Civilized nations have beheld with amazement, at this enlightened and refined epoch, a powerful and well-consolidated State, availing itself of the internal dissensions of a neighboring nation, putting its vigilance to sleep by protestations of friendship, setting in action all manner of springs and artifices, alternately plying in-trigue and violence, and seizing a moment to despoil her of a precious part of her territory, regardless of the incontrovertible rights of the most unquestionable ownership, and the most uninterrupted possession.
"The consul of the United States in this capital ad-

on the 13th of October to the then minister of foreign relations a confidential note, wherein, referring to what he had previously stated to the minister in an iuterview of the same character, he says:

"At the time of the suspension of the diplomatic relation between the two countries, General Almonte was assured of the desire felt by the President to adjust amicably every cause of complaint between the governments, and to cultivate the kindest and most friendly relations between the sister republics. He still continues to be animated by the same sentiments. He desires that all existing differences should be terminated amica-

bly, hy negotiation, and not by the sword.
"Actuated by these sentiments, the President has directed me to instruct you, in the absence of any diplomatic agent in Mexico, to ascertain from the Mexican government whether they would receive an envoy from the United States, intrusted with full power to adjust all the questions in dispute between the two governments. Should the answer be in the affirmative, such an envoy will be immediately despatched to Mexico."

"To this the ministry now in the charge of the undersigned replied on the 15th of the same month, "that although the nation is gravely offended by that of the United States, by reason of the acts committed by the latter towards the department of Texas, the property of the former, my government is disposed to receive the commissioner who may some from the United States to the commissioner who may some from the United States to the commissioner who had been supported by the commissioner when the commissioner was a supported by the commissioner when the commissioner was a supported by the commissioner when the commissioner was a supported by the commissioner when the commissioner was a supported by the commissioner when the commissioner was a supported by the commissioner when the commissioner when the commissioner when the commissioner who may some from the United States to the commissioner when the commis present controversy; thereby giving a new proof that, even in the midst of injuries, and of its firm determination to exact the adequate reparation, it does not repel

"From these extracts it is manifest that it was the firm intention of the Mexican government to admit only a plenipotentiary from the United States clothed with powers ad hoc-that is to say, special powers to treat upon two countries, if the result should be such as to admit of their restoration, and then, but not before, of the recep-

The relation is interested, or envoy extraordinary and infinished plenipotentiary residing in the republic.

In order to place this refusal upon its proper grounds, the undersigned will briefly communicate to Mr. Slidell simply of the ordinary agents between friendly nations, the reasons by which his excellency the President is whilst the grave question of Texas was still pending, directly and immediately affecting as it does the integrity of the Mexican territory, and the very nationality itself would be equivalent to an acknowledgement that this is not yet made up. Repeal goes on slowly. At the spirit in which it has been given, freely, lovingly, trustquestion was at an end, thus prejudging it without event only to £46.

In touching it, and to a recognition that the relations of friendship and harmony between the two nations were want of food, were wronglengt.

from that moment in fact re-established. "If good faith presides, as is to be supposed, over the dispositions of the government of the United States, what motive could exist for so anxionsly repelling the indispensable restriction with which Mexico has acceded t the proposal spontaneously made by the former? If it was really and positively desired to tie up again the bonds of good understanding and friendship between the two nations, the way was very easy: the Mexican government offered to admit the plenipotentiary or commissioner who should come clothed with special powers to treat upon the question of Texas.

to the present interruption of those relations should have her territory is occupied by the forces of a nation, inbeen settled in a manner peaceful, but at the same time honorable to Mexico.

tent, without any right whatever, to possess itself of it; because her ports are threatened by the squadrons of the

The supreme government of Mexico, therefore, cannot admit his excellency Mr. Slidell to the exercise of the functions of the mission conferred on him by the United pose to compel Mexico to submit to such encroachments

Beauties of the Ferry.

We learn that one of the passengers, the last week on coming on board, had the privilege of an immersion in cold water, without any extra charge: and that all the passengers, female as well as male, on the evening preceding Thanksgiving, had to wade in snow and slosh several inches deep, for half an hour. How long a forbearing public will puffently endure such accommodation, remains to be proved. We hope no effort will be spared to convince our gislators that they ought not to be endured. We say, as we always have said, give us a safe and comfortable passage by railroad to the city,and we care not in what direction.

Since the recent improvement in the appearance of. our paper, it has received several very flattering notices from some of our brethren of the press, among which are the Salem Register, Gazette, Advertiser, and Observer, the Lynn News, Amesbury Transcript, Maine Cultivator and New England Arena. Thank ye one and all, brothers; may your respective papers live a thousand years and your subscription lists never be less.

THE LYNN NEWS .- This paper commences on the 1st of January, a new volume, and holds out strong inducements for new subscribers. We sincerely hope they will not prove unavailing, as such a well-printed and ably-conducted sheet, ought not to be compelled to solicit INSTALLATION OF REV. C. C. SHACKFORD. much, to obtain a liberal support.

The late Storm.

The terrific storm which happened on the night preeeding Thanksgiving, and its dreadful effects on the floating palace in L. I. Sound, have afforded a theme or deep and solemn thought in the public mind, and in many cases the reflections of different individuals have assumed the form of verse and prose, and been laid before the community. We published in our last some peantiful lines from our correspondent "ORION," and o-day will be found on our first page, in poetic prose, the reflections of another correspondent on that subject, entitled "The Sea hath spoken." There are also some lines from our correspondent "N." written at the very time the tempest raged most fiercely, which contain sentiments almost prophetic of the terrible disaster of that fatal night. We commend these articles to the attention of our readers.

Washington, Dec. 14.

The rumor in the city that the Administration of Herrara was growing in public favor is the most interesting that has been for a long time received from that country. If well founded it will tend scorner to the restoration of peace than any other event like to occur in the Mexican government. It is a piece of intelligence, indeed, which I fear almost too good to be true. Of all the prominent man in Mexico, Herrara is known to be the most disposed to peace with the United States. It was through him that an offer was made more than a year since to negotiate the question of Boundary by receiving a Commissioner, or Commissioners from the United States—and had not our Government insisted upon sending a Minister Plenipotentiary and upon demanding the settlement of all questions at once, it is quite possible that the Administration of Herrara would have retained its power, and peace been made between the two Governments. Paredes, it is known was the instigator of inflaming the public mind against Herrara and the great argument with Paredes was that a minister from the United States, was on his way to Mexico, before even the act of the annexation of Gigamic Hanse, the Glory of Boston, is to come down, and Larrer, more Spacious, and Brilliant Establish.

Dodge is the juror from this town.

LUCK.

Rev. II. W. BEECHER says in one of his Lectures

Rev. II. W. Brecher says in one of his Lectures:

"I may here, as well as any where, impart the secret of good and bad luck. There are men, who, suppendous afterations, the Large, Fresh Stock of Fashing Providence to have an implacable spite against them, bemoan in the poverty of a wretched old age the misfortanes of their lives. Luck foeever ran against them and for others. One, with a good profession, lost his luck in the river, where he idled away his time afishing, when he should have been in his office. Another, with a good trade, nerretually burnt up his luck by

gainst Herrara and the great argnment with Paredes was that a minister from the United States, was on his way to Mexico, before even the act of the annexation of Texas was consummatabl. Herrara could not venture upon braving public apinion at home, so far us to receive a full minister, at the moment when all parties in Mexico were greatly inflamed against the United States, and the Administration ought neither to have expected nor exacted such a result. The point of ctiquette, however, was insisted upon, and it cost Herrara his place, Mexico a revolution, and both countries a war. If Mexico is now disposed to pence, it can better be negatiated through Herrara than Santa Anna, Parades, Salas, Alse Government all that she rought, in honor or conscience, to demand,—and he will act both upon the principle of justice, and that for a weak and compared country, hamiliating principle of NECESSITY. Much will be gained, therefore, in the restoration of Herrara, and it is to be hoped that there is morality enough left in the Administration here, not to exact more from such a lender, than it would from those who might be more disposed to resist our innovations.

Spacenaes, it is not sufficiently britliant. This Gigantic Honse, the Glory of Boston, is to come down, and a Larger, more Spacious, and Brilliant Establishment was a larger, more Spacious, and Brilliant Establishment was a larger, more Spacious, and Brilliant Establishment was a larger, more disposation, and brilliant Establishment was a larger, more Spacious, and Brilliant Establishment was a larger, more Spacious, and Brilliant Establishment was a larger, in the real character of Oak Hall: Such as 'a superior Dak Harding Principle of Mexico, and that for a war. Continues to manufacture all the various approved
TRUSSES, at his Old Stand, No. 205 (opposite No. 204)
Washington street, entrance in Temple Avenue, Beston
where he has been for the last ten years—and his residence and business being both in the same building, he
can be seen at home nearly the while of the time, day or
evening. He has more room and better conveniences for
the Truss business than any other person engaged in it
this city or any other

ean be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

Also—Aldonimal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Eags, Knee Caps, Back Boards, Steel Shoes, for deformed freel. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feets confident in being able to suit all cases that may come to him. Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Read's Spiral Truss; Rundell's du; Salmon's Ball and Socket; Sherman's patent French do; Bateman's do, double and single; Stono's Trusses; also, Trusses for children, of all sizse; Dr. Fletcher's Truss, and Alarsh's Truss, Dr. Hall's Truss. Thompson's Kachet Truss, and the Shakers' Rocking Trusses, may be had at this establishment. Whispering Trusses, be had at this establishment. Whispering Trusses, low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroline D. Foster, who has had ten years experience in the business.

CEERTIFICATES.

From Dr. John C. Warren, of Eoston.

Having had occasion to observe, that some persons affected with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the pecultarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenions in accommodating them to the variety of cases which occur. I feel myself called upon to recommend bim to my prolessional brethreu, and to the public, as a person well fitted

well fitted.

H. B. C. GREENE, M. D.

From Dr. Rubbins, Ruxbury.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D.,

Boston, April 27th, 1346.

The undersigned is familiar with the ability of Mr. J. F. Fosier, to manufacture trusses of the various kimls of supporters and other apparatus required by inv. lids, and fully believes that the character of his work will favorably compare with that of other artists.

J. V. G. SMITH,

Editur of the Boston Medical and Surgical Journal.

> MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1847! Office, No. 266, opposite to No. 307, Washington

Street, corner of Avon Place, Boston. OR the purpose of introducing more extensively in many inspector. in many important respects, an entire new will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the pull c generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially adapted to while and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of seme parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for resturing that which has been removed by absorption, and for bringing out the checks and hips to their natural and uniform fullness. The dilliculties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this made, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved work,—and one of greatimportance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to re-move them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will bility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for the public are respecting invited to examine for the services. They consist of whole and half ets; and a variety of cases of smaller magnitude, we ere great difficulty in execution is overcome. They annot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six mouths if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warn with much inconvenience, will be exclanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 cents to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper

Carved work in block for whole and half sets will he got up for other dentists on reasonable terms.
S. STOCKING, Surgeon Dentist.

FLATED BASKETS.

SILVER PLATED FRUIT and CAKE BASKETS. A variety of particular and cake BASKETS. PLATED BASKETS. KETS, a variety of patterns, chased and plain, just receved and for sale low at 222 Essex st, opposite the First Church, Salem. WM. ARCHER, Ja.

IHIS wonderful compound combines MED-ICAL POWERS over all other preparations ever formed for the relief of those diseases for which it is recformed for the relief of those diseases for which it is recommended, such as headache, dizziness, sleepiness, noise, in the Head, bad taste in the mouth, nausea, or sickness in the stomach, loss of appetite, indigestion, Dyspepsia fever and ague, pain after eating, sour stomach, heartburn, jaundice costiveness, determination of blood to the head, piles, codgls, colds, pain in the side, back, limbs; and joints, rheumatism, all chronic diseases, scrotulous humors, Salt Rheum, and all Cutaneous eruptions of the skin, general debility, &c.

The Dandelium and Tomato Panacea is particularly recommended in cases of INDIGESTION and DYSPEPSIA. The following are some of its distressing symptoms, palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness &c. It will cure the worst diseases of Rheumatism,

Rheumaism, and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation. The Dandelion and Tomato Panacca is, as all must be aware, from the ingredients of which it is compounded, the best as well as the sarest Spring and Summer Medicine
now efore the public. Spring and Summer are the sea-

Poetrn.

TO LIVE TOO LONG.

BY CHARLES W. BAIRD. IT is sad to lie down in the cold, cold grave, When the mind is strong, and the heart is brave; It is sad to leave all that is lovely and fair And go to the tomb, to be mouldering there. But oh! if 'tis bitter to leave the world's throng, It is sadder, far sadder, to live too long.

To see all that once we had doted upon Before us to rest and to happiness gone, And to stand, like a wither'd oak, blighted and weak, The sole tree that survives the mad harricane's wreck, O talk not of life, earth's bright dwellings among, For nothing can soothe him who lives too long.

'To know that the once echoing trampet of Fame Shall never more mention that valueless name; To know that name care for his Idiss or his doom; (O) rather I'd ask the cold rest of the tomb. When glory has died, and the spirit of song Has vanished, 'tis bitter to live too lung.

And I would lie down in my deep repose Ere my bosom no longer with pacsy glows; And I would arise to the mansions on high, Ere the thoughts that now live in my spirit shall die; Ere the moments have fled, that to manhood belong, And I feel that 'tis bitter to live tou long.

Miscellany.

Who Shall Have Him? OR THE UNMARRIED PREACHER.

"The doings of the Lord,' said Deacon Murphy, as he walked to church one Sabbath morning, with a newly arrived resident of their flourishing town-verily the do- at a table in the centre of the room, busily engaged in which has taken place with respect to religion among us. each engaged at some work of chairity and self-denial, portion, and insensibly it had its effect. He learned to We seemed sink in the gall of hitterness and the bonds with the exception of one, who was idly stationed at listen with composure to what at first shook his pure, of iniquity; but naw, praise be to God, the moving of the Venetian blind, though for what purpose does not ap-His Spirit is visible among these dry hones."

A am pleased to hear so favorable a report of your village, said Mr. Liston. 'As the father of a growing Miss Susan, for I wish to speak about something imfamily, I am rejoiced that my children can enjoy the privilege of worshiping their Creater ammg His followers. But it appears your community have not always home this character; to what do you ascribe this great last time Mr. Sorely was here, he was vastly more atand happy change which has taken place?

'To the presence of a real servant of the Lord,' said Mrs. Murphy, speaking lasfore her husband could open his lips; to the presence of a man who is in deed and truth a christian. Onr old parson, Mr. Black, had entirely warn out among us. I really think the man was destitute of experimental religion; his nations were so old fashioned, nothing seemed to prosper in his hands; change of heart—and, to do her justice, had never Alice only plays her card well, I really think she may and with his helpless wife and family, I must consider harbored the idea of making a conquest of the young yet be a Mrs. Surely; for to tell the truth, she is very his removal from our parish a blessing.'

'And who is this Brasnard or Swartz ynn have among you now?' said Mr. Liston, in a tone of surprise. 'I was totally unacquainted with his high reputation.'

'He is a young man,' said the Deacon, swho has been with us but a few months; but in that short space o time you can form no conception of the awakening on the the window, called outsubject of religion. Girls who before thought of nothing but how to laugh, to talk, or sing, seem now to be earnestly inquiring the way of salvation. And women, who | world!' have hitherto occupied their precious time in a round of giddy amusements now appear to be examining into the doctrines of grace as taught in the Gospel. Our Dorcas Society and Bille Association have both been reviv. ed; the flourishing state of the Bible Class and Sabbath School exceed our most sanguine expectation; and, praise be to God, I have no complaint to make of the state of religion in our biguly favored place,'

To this panegyric Mr. Liston made no reply but walked on, with heightened interest and curiosity, to the small, neat country church. It was already more than half filled! and as group after group gathered in he looked with wonder (and after so glowing a description of their zeal in the good cause, we may say with admiration, also) on the many young and lovely females who crawded the news. He notified, too, that the countenance of each were the appearance of placid scrimsness, so becoming the sanctuary of the Most High; and now, day; she looks weary. when all were seated, a deep and holy quiet seemed to when an were scaled, a good and not state with a young and elegant female leaning npon his arm, good quality, regular productiveness, joined to its inval-Jepose which usually takes place before the commence- quickly, still addressing her to whom his attention was chideous sight, a naked luman heart!

ployed by all to the utmost of their ability, endeavoring interests of the poor.' to prepare in every breast a resting place for the Heavonly Dove which seems broading among them.

and proceeding up the sisle with measured but graceful tread, ascended the pulpit. He was young, with tall, clastic form, dark, intelligent eyes, and a high, pale voice was deep and sonorous, and his gestures rapid but graceful; and when he commenced his address, every lovely eye seemed hent apan him with thrilling and expoetant interest. Mr. Liston, too, had wrought himself for the strains of impassioned cloquence which be expected would greet his ear. The young minister appeared to feel himself a watchman upon the tower of Zion, and tention given to religious subjects among them—exhorted dear sir, we do not over-rate your philities. hose who had recently joined themselves to the people of the Lord to fight the good fight, and hold fast the returned Mr. Sorely, in a tone of slight displeasure, and faith, and, gliding over the conclusion, dismissed them to one nowarthy as myself. I am far from taking the with a fervent but common-place prayer for their tempo-credit of anything which has been done; for I very ral and eniritual welfare.

Mr. Liston's feeling at this moment was one of extreme God alone can give the increase.' lisappointment; he had listened, but in vain, for any hing new or inspiring, anything which could entitle him (the speaker) to the high character for elognence he appeared to sustain. But he consoled himself immedintely with the idea that this sermon was perhaps inferior to the generality. 'The young man,' said he, mentally, has doubtless spoken under some disadvantages. I will change his opinion, by the audible encomiums from many fair lips, which reached his wondering cars us he threaded the aisle. Beautiful!' 'glarious!' 'divine!' kee Liston to shrewdly suspect the amiable divine owed his popularity to something else than his prenching.-Mrs. Davepport was a widow lady, in rather slender

ircumstances, inhabiting, with six marriageable daughconverted under the ministry of the new preacher, Mr. vicinity, and this I have totally neglected, Surely, and as they were devated to works of charity, and employed a great deal of their time in relieving the to be great favorites among the good people of N-

warm July afternoon, a few weeks after the commencement of our story. Mrs. Davenport herself was scated on this account.' near at present.

'Ma, do stop talking for one moment,' said the eldest, portant, and it is just this; When I finish this jacket, the idiot may do without clothes for all me; and I verily believe it is useless for me to try any longer-for the tentive to Alice than to any of us.

Well, child,' said the old lady carnestly, and with we could even succeed in getting him for your sister?"

doing, my dear sir,' replied Mrs. Davenport, smilingly, joining the charelt.' At length the second Sabbath bell pealed for its glad 'if we look to our paster for example; the exertions ho their shepherd leads.'

forehead, shadowed by a mass of sullen black hair; his young minister, striving to speak with composure, yet excessive indolonce, and as the Sabbath in question was coloring with embarrassment at this flattery.

'Oh, not at all; not at all?' cried all the young ladies, in one breath.

'We never knew,' continued the mother, 'what it was Into a perfect fit of cuthusiasm; but he listened in vain to enjoy religious priveleges till you come among us; look at the flourishing state of all our institutions, at the number who have come out from among the people of the prettiest girl in N-, and an only and spoiled child, the world, and proclaimed themselves on the side of the chose to consider every thing she undertook as perfectly he spoke well, very well; he told his people of their du- Lord; look at the situation of things now, and what they proper-I could not possibly have a better motive; half Allan, who had been escorted to the church by the handties to God and man-expressed his pleasure at the at- were six months since, and you must acknowledge, my

'You should give the glory to God, Mrs. Devenport, well know that 'Paul may plant and Apollos water, but

I admire limitlity,' replied the lady, but instantly perceiving that enough had been said upon the subject at shall remain as I am, but if it should prove unfounded, the village since the arrival of the military. Before they present, she skillfully shifted her ground and mentioned a case of distress which had lately come under their notice, and in which her daughters felt great interest.

'It is an old man,' said she, 'employed as a wood-cutter, who was so unfortunate some time since as met judge bim hastily.' But he was soon obliged to to have one of his legs broken by the falling of a tree his wife is extremely helpless, and they are burthened with a large family; among others, a wretched idiot, for whom Susan has been emplayed in making a jacket,were cehued on all sides; and the old Deacon's wife's We have done all we can to assist them, but I think the hearty He out-did himself to-day,' induced the Yun- ald man will searcely recover, and I fear, although living under the very sound of the gospel his soul is in worse than heathen darkness.'

'It will afford me great pleasure,' cried Mr. Sorely. whose sympathies were strongly awakened, 'to call and ters, a small house in the outskirts of the village of converse with him, and I certainly feel that I have been N Notwithstanding her income, however, she had greatly definient in this respect. It is the imperative always managed to keep up appearances; and as five duty of a Pastor to make extensive inquiries as to of her daughters, it was supposed, had been hopefully spiritual state of the afflicted and needy, in his immediate

'You have been so short a time among us, my dear sir,' said Miss Susan, earnestly, 'and have already been poor and attending church, they happened at this time so fully occupied, that we are really beginning to fear your ladiors are too hard for you. It is impossible you We will now take a peep into their little parlor on a could so early learn the situation of all the paor in the neighborhood, and I beg you will not reproach yourself

At this rhapsody, Mr. Sorely smiled, but made no ings of the Lord are marvellous in our eyes. Twelve entting out same coacse work, and talking very rapidly reply; he imagined he despised flattery, but the draughts months since, I should not have hesitated to denomi- upon some subject apparently altogether foreign to her bourly presented for him to drain, were so large that it nate that man a madman who had predicted the change employment. The young ladies were grouped around, was impossible for him to avoid swallowing a small pious and humble mind; and when, after a lengthened visit he rose to depart, it was with a considerable more elevated opinion of his own importance, and in cumpany with Miss Alice, who volunteered to direct him, he set out for the swood-cutter's hovel.

> 'I think I managed to admiration, to-day, girls,' said Mrs. Devenport, as the door closed on their retreating for I understand your quarter was a favorite resort of our figures. He listens a good deal more complacently to young minister, his own praises, than he did when he first came to surprise, 'would it not be sufficient matter of rejnicing if a man of discernment, and this I must say I think we all heartily despising the conceit she affected to ridicule, possess in an eminent degree.

'If Alice only plays her cards well,' said Miss Lizzy, age to Miss Susan, had no thoughts for herself,-If minister; there were so many candidates in the field, pretty, and he appears vastly pleased with her than with

> SELECTION OF FRUIT .- In the multitude of fruits those whose advice is asked, and who are supposed to have the requisite knowledge. These opinions are given acrording to their respective experience, some probably not being particularly acquainted with many of the best kinds; some having one kind of sail and exposure, and others another. It is only by a combination of the oning ions of the most experienced cultivators that safe practical results can be obtained. We are therefore glad to find in the Horticulturalist for December, an article on the subject.

The editor states that during a visit to Massachusetts last September, he put the question to half a dozen of Cornelia again touched the key with some skill and the hest and most experienced cultivators of pears, which do you consider the three best pears ?-early, nuiddle, and late-supposing yourself confined to three trees?' The result was as follows: Col. M. P. Wilder named the Bartlett, Vicar of Wakefield, (Clion or Le Clure) and Beurre d' Aremberg; O:is Johnson, Esq., of But at length the wished for period arrived when the Lynn, named the Bartlett, Louisa Bonney de Jersey expecting congregation were to hail the return of their and Beurre d'Aremberg; Robert Manning, of Salem, named the Bartlett, Beurre Bosc, and Winter Nelis; Fruit Committee, was understood to coincide with Col. M. P. Wilder, in favor of the Bartlett, Vicar of Wake. field, and Beurre d'Aremberg. We may state from our knowledge, that Capt. Lovett, of Beverly, one of the most successful cultivators in the country, gives his opinion in favor of the Bartlett, Louise Bonne de Jersey, Buerre d'Aremberg. Two facts will strike every candid reader in looking

over this list-first, the unanimity in favor of the Bartlett pear; and secondly, that, while the three Salem cultivators prefer the Winter Nelis as a winter pear, all the others scleet the Beurre d'Aremberg.

The Louise Bonne de Jersey is a pear more recently introduced than either of the other kinds named, and has not been so generally tested. One, at least, of himself than was wont, yet he could assign no cause for and leave them tormented by the conflicting emotion of those whose opinions are given above, has never grown it, and, in a recent conversation with us, admitted his want of knowledge in relation to it. Our own or cheerfolly. I have, however, just been telling our poor but the prompting of unfeigned love, and although they had crowded the church to overflowing, many of them pinion of it is, that when more known, it will very nearsometimes embarrassed him, their motives were so pure for the purpose of gratifying their cariesity, found the ly hold the same rank as an October pear, that the Bartlett does as a September. while the tree is yet very young.' We should select this | The Administration and the Mexican War. | des to be received as a Minister, to adjust peaceably expear as one of three, if we could have no more, in preference to the Vicar of Wakefield, for the simple reason that it fills the space between the Bartlett and the Beurre'd Aremberg better, as the Vicar of Wakefield opens nearly the same time as the Beurre d' Aremberg.

The Editor of the Horticulturalist sums up the information obtained by saying that he has at least ascertained nine pears, whose maturity is from early summer to winter, which are esteemed by the most experienced growers of this fruit about Boston, as the best for that neighborhood, and we may add for the whole sca coast'belt of fifty miles broad, extending from Chesapeake Bay to Maine. These are Bloodgood, Bartlett, Louise, Bonne de Jersey, Seckel, Fundante d' Antonne, Beurre Bose, Vicar of Wakefield, Winter Nilis, and Beurre d' Aremberg.' He then gives his own opinion on a selection of three kinds as follows: "For all gardens to the east and south of us (Newburg) we would recommend Bartlett, Seckel, and Beurre d' Aremberg. For all garpens to the north and west, Bartlett, Doyenne [St Michaels] and Beurre d' Aremberg.'

We would remark upon the above kinds, that the Vi car of Wakefield is only a good second rate pear yet this deficiency in quality is made up by its regular and great pation of power of President Polk, and the orders given productiveness, never blowing off the tree, large, fair, unblemished fruit, and its remaining a long time in use, Grande, as follows: and, while of fair quality for the table, it is excellent for a long time, for cooking.' These qualities make it a most capital market fruit. The only objections to the delicious Seckel, are its smallness, requiring very high cultivation to bring it to even a decent size, and the slow growth of the tree. To the Winter Nelis, the same objection as to size, is in some degree applicable, and it is not so productive as some other kinds. The Beurre d' Aremberg bears very heavy crops, alternate years. The Beurre Bose and Fondants d' Automne ar e in every respect most capital varieties .- Worcester Spy.

Danvers Courier.

SATURDAY MORNING. DEC. 19, 1846.

Election MONDAY, December 28, 1846. For Representative to Congress, DANIEL P. KING, Of Danvers.

NEXT MONDAY!

Whige -are you aware that the election for Member of Congress takes place so soon? Let no false confidence then, prevent your attendance at the Polls. It is at a time of such false security that you are most in danger. Minorities are proverbially active, and it is said that secret means are at work by our opponents to prevent Mr. King's election. Be sure to counteract them by not only attending at the polls, but urge all your Whig neighbors to attend.

The question is not whether our honored Representative or the unknown Stoneham candidate shall be elected, but whether a choice may be defeated and the District put to the cost and trouble of another election.

Woters of Danvers! It should be remembered that special efforts will be expected, from you, and they should be made. You know better than the inhabitants of any other town the merits of our candidate. He is personally known to you, and his virtues, public and private, are familiar as household words. Go then next Monday, and disappoint those who would oppose you and for the antisfaction of doing muschief by preventing s present choice. Let Danvers on this occasion not dail of doing her whole duty.

WHIGS OF THE SECOND DISTRICT!

On Monday next you will be called uponto decide apon being represented in the councils of the nation. HON. DANIEL P. KING,

our present Representative; has on all occasions proved himself well worthy of your suffrages, and we call upon all of our fellow citizens of the District to turn out and give him a hearty support.

FARMERS, will you not devote your energies to sccure the re-election of one who has done so much to adpractical and scientific Agriculture?

FISHERMEN, will you not, by your votes on Monducing the duty on foreign fish and oil to a mere nomidue, by raising a great clamor about all the false issues their brains can conjure up, in hopes thus to escape their

MECHANICS, will you not vindicate your interests and rights by again voting your condemnation of those who have so recently manifested the practical sincerity of their free trade notions, by virtually destroying the Protection which our venerated Constitution was designed to throw around your interests?

MERCANTILE MEN, will you not again declare your hostility to that administration which jeopardizes all your and frequently acknowledged daes from your own gov-

ERIENDS OF PEACE and FREEMEN, of all parties. will you not put the seal of your approbation upon the manly, courageous and conscientious refusal of our Representative to give even his indirect approval to the present iniquitous and burdensome war with Mexico?

And finally, will not all our fellow citizens turn out on Monday, secure the election of Mr. King, and thus put sented to this department, it is presumed Point Isabel an end to the contest in the District? WE CAN IF WE WILL. - Reg.

Essex Senators.

Dennis Condry		5.922
James Gregory		5,733
The return from W. a.m.		0,700
The return from Middleton was re	jected, it	purporting

to come from 'District No. 2'-and to be the vote for Senators to Congress.'

The Whig vote in Middleton was 38-Loco vote 38-Liberty vote 20.

"Perplexed with trifles through the vale of life, Man strives 'gainst man without a cause for strife; Armies embattled meet and thousands bleed, For some vile spot where fifty cannot feed. Squirrels for nuts contend, and wrong or right,

For the world's empire kings ambitious light.
What odds!—to us 'tis all the self-same thing, A nut, a world, a squirrel and a king.'

From the following extracts from the correspondence between Mr. Buchanan and Slidell and the instructions to Gen. Taylor, it will be seen distinctly that the pretended desire of Mr. Polk to have negotiated our Mexican difficulties is a sheer fubrication, for as early as June 15, 1845. Mr. Bancroft instructed Gen. Taylor in a ceive you, the cup of forb parance will then have been exconfidential despatch, as follows:

The point of your ultimate destination is the western frontier of Texas, where you will select and occupy, on or near the Rio Grande del Norte, such a site as will consist with the health of the troops, and will be best adapted to repel invasion, and to protect what, in the event of annexation, WILL BE our western border.

Besides the same despatch which conveyed the commission of Mr. Slidell as envoy extraordinary and minister plenepotentiary to the Mexican republic, under the government of Paredes, informed him also of the usurto the army to advance to the left bank of the Rio

In the meantime, the President, in anticipation of the final refusal of the Mexican government to receive you, has ordered the army of Texas to advance and take position on the left bank of the Rio Grande; and has directed that a strong fleet shall be immediately assembled in the gulf of Mexico. He will thus be prepared to act with vigor and promptitude the moment that Congress shall give him the authority.

Thus it will appear that notwithstanding Congress was then in session within a few feet of the President, he took upon himself the responsibility of an act which was of itself sufficient to have provoked an attack from Mexico, and by an usurpation of authority unwarranted by position on the left bank of the Rio Grande, with guns' same time Mr. Slidell is suing the Mexican government o negotiate peacably!

following extracts from letters of instruction to Gen.

This department is informed that Mexico has some Grande, which are, and for some time have been, in the actual occupancy of her troops. In carrying out the instructions heretofore received, you will be careful to avoid any acts of aggression unless an actual state of war should exist. The Mexican forces at the posts in their possession, and which have been so, will not be disturb-

SIR: Your letter, from New Orleans, of the 20th instant, addressed to the Adjutant General, has been re-ceived and laid before the President, and he desires me express to you his approval of your movements.

He has not the requisite information in regard to the country to enable him to give any positive directions as to the position you ought to take, or the movements which it may be expedient to make. These must he overned by circumstances. While avoiding, as you have been instructed to do, all aggressive measures towards Mexico, as long as the relations of peace exist between that republic and the United States, you are ex-Decided in enempy, practice, and defend the territory of Texas to the extent that it has been occupied by the peo ple of Texas. The Rio Grand is claimed to be the boundary between the two countries, and up to this boundary you are to extend your protection, only excepting any posts on the eastern side thereof, which are in the actual occupancy of Mexican forces, or Mexican settlements over which the republic of Texas did not exercise inrisdiction at the period of annexation, or shortly before that event. It is expected that, in selecting the establishment for your troops, you will approach as near the boundary line—the Rio Grande—as prudence will dietate, With this view, the President desires that your position, for a part of your forces at least, should be west of the river Nueces.

It will be seen by the above extracts that on June 15, Gen. Taylor was instructed to protect and repel inva- tist Society. sion up to the Rio Grande,-the determined Western boundary, in the event of annexation, and on July 30, six weeks after, notwithstanding he has received intimavance the interests and promote the respectability of tion of the occupancy of some nulltary posts on the east side of the Rio Grande by the Mexican troops, Mr. Marcy informs Gen. Taylor that the President has each era of the reform. Much praise was due to the day, rebuke those hyprocritical demagogues who have not the requisite information in regard to the country to originators and supporters of the Washingtonian move-But just marifested their regard for your interests by re- give any positive directions as to the position be ought to ment, the last era of the great reformation, but still the take or the movements which it may be expedient to mal rate, and now attempt to shun the odium justly their make, but instructed him to approach as near the BOUNDARY-LINE-the Rio Grande-AS PRU-DENCE will dietate.

We are compelled then to believe that it was the intention of Mr. Polk to maintain at all hazards, right or wrong, the left bank of the Rio Grande as the boundaryline, if not we confess, we are unable to account for the above as well as the following further instructions to Gen. Taylor, dated Jan. 13, 1846.

In case of war, either declared or made manifest by hostile acts, your main object will be the protection of Texas; but the pursuit of this object will not necessarily confine your action within the territory of Texas. Mexhostility to that administration which jeopardizes all your interests, by rushing into an expensive and unrighteous war, under the pretence of the claims due from Mexico, while at the same time they exert the extreme power of the Veto to prevent you and your associates, however needs and however deserving, from obtaining your just deemed practicable and expedient, take and hold posdeemed practicable and expedient, take and hold pos session of Matamoras and other places in the country.... scarcely need to say that enterprises of this kind are only to be ventured on under circumstances presenting a fair prospect of success.

SIR: I am directed by the President to instruct you to advance and occupy, with the troops under your command, positions on or near the east bank of the Rio del s soon as it can be conveniently done with reference to the season and the routes hy which your move-ments must be made. From the views heretofore prewill be considered by you an eligible position. This point, or some one near it, and points opposite Matamopoint, or some one man it, and points opposite ras and Mier, and in the vicinity of Laredo, are suggest ed for your consideration; but you are left to your bet ter knowledge to determine the post or posts which you are to occupy, as well as the question of dividing your forces with a view to occupying two or more positions.

In the positions you may take in carrying out these in structions and other movements that may be made, the use of the Rio del Norte may be very convenient, if not necessary. Should you attempt to exercise the right which the United States have in common with Mexico to the free navigation of this river, it is probable that Mexico would interpose resistance.

You are requested to report to this department, without delay, what means you may require, if any, beyond those you now possess, to enforce and maintain our common right to navigate this river, as well as your views of the importance of this right in the defence and protection of the State of Texas.

Equally strange is the following slip of the pen of Mr.

isting difficulties:

The advance of General Taylor's force to the left bank of the Rio del Norte, and the strengthening our squadron in the gulf, are wise measures, which may exercise a salutary influence upon the course of this gov-

And now we beg leave to suggest a discrepancy. Gen. Taylor was instructed by Mr. Marcy, in his letter of Aug. 30, 1845, that in case of war either declared or made manifest by hostile acts his MAIN OBJECT WILL BE THE PROTECTION OF TEXAS.

Mr. Buchanan says in his letter to Mr. Slldell "should the Mexican government, however, finally refuse to rehausted. Nothing can remain but to TAKE REDRESS of the injuries to our citizens, and the insults to our government, into our own hands."

We will close our remarks with the following citation from Milton's Paradise Regained, which is very apposite to the existing war between the United States and Mex-

They err who count it glorious to sudue By conquest far and wide; to overrun Large countries, and in field great battles win, Great cities by assault: what do these worthies But rob, and spoil, burn, slaughter, and enslave Peaceable nations? neighboring or remote, Made captive, yet deserving freedom more Than those their conquerors, who leave behind Nothing but ruin wheresoe'er they rove; And all the flourishing works of peace destroy; Then swell with pride, and must be titled gods; Great benefactors of mankind, deliverers, Worshipp'd with temple, and sacrifice: One is the son of Jove, of Mars the other, 'Till conqueror Death discover them scarce men, Rolling in brutish sin Violent or shameful death their due reward.

Social Gathering.

We learn that it is in contemplation by the members of the Female Benevolent Society of this village to have the constitution and unparrelled in the history of the Unit- a "Social gathering," with a view of aiding the funds ed States, ordered the army to approach and take a of their association, and that it will probably take place early in January. We regret to hear that the funds of nt shoulder, ready and aimed waiting for Congress to this truly benevolent society, which has always done so order them to "fire!" This was being done at the much to relieve the poor and distressed in our immediate neighborhood, are so low that their treasury is actually n debt. While this state of things shows that the socie-Now this was disputed territory as will appear by the ty has been liberal in bestowing, it needs only to be known that means of usefulness are wanted, to ensure l'aylor by Mr. Marcy, Secretary of War, dated July 8 from our citizens a ready response to their call. We think the Society have wisely adopted this mode of makmilitary establishments on the east side of the Rio lightful combination of rational pleasure with benevolent action, is calculated to meet with great favor from all our citizens.

We are not fully acquainted with the arrangements for the occasion, but presume that besides the charms of ed as long as she relations of peace between the United States and Mexico continue.

The disturbance of the United States and Mexico continue.

The disturbance of the United States and Mexico continue. refreshment table will be supplied with that abundance and quality of good things which the ladies of Danvers have always been ready to furnish on such occasions. We may safely leave the arrangement of this Festival to them and we hope their benevolent device to transfer in such a pleasant manner the coin from the pockets of our citizens to relieve the wants of the suffering in this inclement season will be fully successful.

In connection with this benevolent effort we have neard the suggestion made that a well conducted Post Office department would be likely to yield a handsome revenue to the government of the Society. If this suggestion should be adopted, it might afford a good income even at the present low rates of postage, as no doubt many of our citizens would receive letters from correspondents in distant parts of the country of whose existence they were not before aware.

Temperance Lecture.

The sixth of the series of Lectures before the Washngton Total Abstinence Society was delivered before a

The Lecture was a very interesting and powerful proof the origin and progress of the temperance enterprise bestowing the proper meed of credit to the pioneers of earlier advocates of the cause were also deserving of like commendation. They were actuated by the same principles of Love to their brethren and regard for the best interests of society which govern the latest laborers in the field. He contended that while the poor inebriate should be taken by the hand drawn from his degredation by the mildest and most persuasive means, the same law of love required that he should be protected from the wiles of the rum seller by the application of the suasion of the law. The lecturer took the ground that the temperance efforts had made intemperance so disreputable that

it had become in a great degree the effect rather than the cause of other vices. In this connection he alluded in withering terms of reprobation to a den of infanny on our borders where the young are enticed by other causes of excitement and allurements to pleasure to take refuge in the drunkard's cup. In the course of the lecture he alluded to the earlier

efforts in the cause of temperance in this town which were then altogether in advence of public opinion on this subject, although the moderate use of distilled liquors was considered necessary. In that infant stage of the reform the advocates of this partial kind of temperance were obliged to encounter more public odium than the most zealous total abstinence men of the present day.

We did not intend to extend our remarks to this length when we began, but only to express the high gratification we felt on hearing the many just views, sound principles and eloquent appeals of the lecturer, while at the same time, we can but question the accuracy of some of his conclusions.

WRITING ON NEWSPAPERS .- A circular has been him to the same penalty .- Boston Post.

FOR WHOMSOEVER IT MAY SUIT. O be it known to patriots, Around-about the town, That I, Ned Butcher, have come here-A hero of renown,

A company of Volunteers To raise-to carry war Into Old Montezuma's halls, It matters not what for!

Since the high powers we obey Have such a war decreed, 'Tis glorious fun to join the fray And for our country bleed!

I've opened here a rendezvons-Near by are tavern bars, Make haste, get drunk and stagger in Beneath the stripes and stars,-

Our country's glorious banner-sign Away your liberty, A soldier's gaudy liv'ry wear And be a slave-to me-

Fight valiantly for life A hundred years, if Mexico So long maintain the strife-A hundred years, unless perchance

A slave to Captain Gen'ral Polk;

You're sooner killed, or die Of some slave-freeing vomito Beneath that sickly sky! Come be a soldier, gentle sir, A slave I must allow;

But though a slave, a slave-driver-A rowdy-bandit thou. What though your country's stripes you wear Upon your naked back, And dance the polka round a post!

Think you 'twill be no recompense Like treatment to bestow. And gloat on others' agony-Unutterable wo?

I joke upon the fact :

Such fiendish "joy stern warriors feel," Their laureates declare, "In foemen worthy of their steel" Who love to do and dare

All, all that martial law demands, Or honor's code requires, Of devotees at Moloch's shrine, Puissant knights and squires.

Who are Traitors?

If, as the President would have to be understood from his late Message, he earnestly desired that the existing difficulties between Mexico and the United States might have been peaceably settled, and had exhausted all honorabte means in endeavoring to bring about such a result, the administration has nothing to fear from an investigation of the causes which have led to the war, even though it should develope transactions which should lead ome minds to a conclusion entirely opposite to that arived at by the Supreme Exocutive; and we can but think it very cruel that the President should denounce as traitors those who dare to differ from his lordship and think and investigate for themselves. Moreover we think the patriots of the Revolution, and the framers of the Constitution would have discarded and repudiated the ductrine adopted by the administration, viz: "Our country right or wrong," at least we judge so from the folowing remark of Dr. Franklin:

"It has for some time been a generally received opinvery large audience in the South Church on Sunday evening last, by Rev. Mr. RICHARDSON of the 2d Bapces who are disposed to become tyrants must prohably approve of this method, and be willing to establish it.—

cept breathing, and the rumseller wishing t duction and for its ability was not surpassed by any if the tyrant commands his army to attack and destroy. which preceded it. The lecturer gave a historical view not only an unoffending neighbor nation, but even his On that same spot he was found in the morning own subjects, the army is bound to obey."

The State of Ohio.

We have read with much pleasure the annual message of Gov. Bartley to the Legislature of Ohio, by which we find that its fluancial condition is much more favorable than formerly—that its currency is again in a satisfactory state-its public works are productive, and the Governor asks the favorable attention of the Legislature to Mr. Whitney's great enterprise of a Railroad to the Pacific. He takes proper notice of the doings of the national government in plunging the country into a war of couquest against Mexico, and concludes with an allusion to the presont prosperity of that great Empire state of the west, now filled with a population of two millions. The House of Assembly of that State have just chosen

Washington County, an able and staunch whig and for fect this, a passage ticket to America was furn several years a prominent and useful member of that £2 10s, which cost the companies £3 10s. branch of the Legislature. He now re- sist all who wish to leave the Emerald Islesides on the very spot of his early hardships and privations, having witnessed the proud advancement of this great State from its infancy to its present high standing in the sisterhood of the Union. He has always enjoyed in a high degree the respect and veneration of his fellow citizens and in an honorable old age feels a just pride in the high destiny which awaits the land of his adoption.

For the Courier. MR. EDITOR,-We have frequently seen in your paper remarks upon the management of the domestic concerns of the town, which are read with much interest. ssued by the post office department, directing deputy We should be pleased to have such information continued to "one hour." As he strolled through the st postmasters to remove the wrappers from all transient from time to time, as events may occur worthy of notice. newspapers, printed circulars, price currents, pamphlets It was particularly gratifying, a few weeks since, to see et, which drew a prize of \$5,000. and magazines received at their respective offices, and it stated that \$19,000 of the \$20,000 assessed the presif found to contain any manuscript of memorandum of ent year had been collected and paid into the treasury; any kind, either written or stamped, or any marks or and this without the use of any compulsory process signs, except the name and address of the person to whatever. At the same time this was stated, a remark whom it is directed, shall be charged with letter postage, was made about that \$500, which was said to be not inby weight; and if the person to whom it is directed shall cluded in the \$19,000. Was this intended as a reflection knives and mardered him on the spot. refuse to pay such postage, the postmaster is to send it upon the present collector, or any former one? or what to the office from whence it came, and have the offender was intended? If that \$500 has not yet been accounted prosecuted for the penalty of \$5. The name of the for, whose fault is it? I believe the writer who made Slidell in his letter to Mr. Buchanan, of Feb. 17, 1846, sender written or stamped on the newspaper subjects that remark could if he would tell something more, that would be interesting to the tax payers generally.

MARRIAGES. In this town, on Wednesday, Dec. 15th, hy Rev. Mr. Field, Mr. Henry A. King, to Miss Asenath R. Fen- For Christmas & New Year's Gifts.

TONOTICE—The present limits are inadequate to accommodate my numerous retinue of customers.

accommodate my numerous retinue of customers .--On 1st of February next, I shall commence to erect a "Stupendous Warehouse," sufficiently large to accommodate friends and numerous customers. Large as the present House is, it is not sufficiently large; as the present House is, it is not sufficiently large? Spacious, it is not sufficiently spacious? Brilliant in appearance, it is not sufficiently spacious? Brilliant in appearance, it is not sufficiently brilliant. This Gigantic House, the Glory of Boston, is to come down, and a Larger, more Spacious, and Brilliant Establishment is to take its place. These names have been applied to my Establishment by those who are acquainted with the real character of Oak Hall: Such as a superior Mart, a Princely Worchonse; a wast Trading Area, a Matchless Establishment, a Theatre of Unbounded Trade, a Supendous Scheme, an extensive Markel, a Triumphant Achievement, a Sphere of extraordinary Operations, an Unapproachable Wonder. Such names will probably apply to my new construcsuch names will probably apply to my new construc-ture when completed. I might as well undertake to confine the vast ocean in the limits of our Pond on Boston Common, as to carry on my large trade within the walls of these present limits. The public are a-ware that my triumphant statements are not overrated. The trade at my extensive Ware-rooms may be compared to a large Monster, whose bulk and mighty stature have become so great that it requires a larger sphere for its present movements. This Warehouse erected in 1842, has stood unrivalled in the metropolis for extent and magnitude, and yet it is far, far from being equal to the extent of my heavy trading operations. So liberal a patronage most have a larger house for the unfettered movements of its enor-So liberal a patronage most have a larmous form. An Establishment fac surpassing the spream one is absolutely necessary, and one is shortaged at prices greatly reduced.

ly to be creeted that will surprise and delight all inter-G. W. SIMMONS, Oak Harl, Boston. ested in my welfare,

P. S. Being obliged to move to make these stupendous alterations, the Large, Fresh Stock of Fashionable Ready-made Clothing, Piece Goods and Rich Furnishing Gouds, adapted to this present Full and coming Winter, amounting to upwards of one hundred and twenty-five thousand dollars, will be closed up at prices much below the extreme low prices I have been selling. All the furnitary of the present contributions of the present contributions of the present contributions of the present contributions. selling. All the furniture of the present establishment for sale—Large Mirrors, Clocks. Chandeliers with Rich Cut Drops, Counters, Show Cases &c., &c.,

MR. EDITOR,—If there are any of your readers who are not acquainted with my place for the sale of HATS, CAPS, and every description of FUR GOODS, will you please inform them, that it is the Old Stand, 173 Washington street, Boston. Wholesale Rooms, 2d and 3d stories.

W. M. SHUTE,

FOUND. N Saturday last, between the South Church, Danvers, and Buffum's Corner, Salem, a BUF-FALO ROBE. The owner can have the same by proving property and paying expenses, on application NATHAN PERSONS, to the latest editions, in Lepgers, Journals, Day, Recorded Substantial bindings.

JAMES FREDERICK FOSTER JAMES FREDERIOR TOUTER
Continues to manufacture all the various approved
Trussers, at his Old Stand, No. 365 (opposite No. 264)
Washingtou street, entrance in Temple Avenue, Boston
where he has been for the last ten years—and his residence and business being both in the same building, he
can be seen at home nearly the whole of the time, day or
evening. He has more room and better conveniences for

where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

Also—Abdominal Supporters, fur Prolapsus Uteri—Truses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer ofteutimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him. Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Itead's Spiral Truss; Rundell's day. Salmon's Ball and Socket; Sterman's patent French do; Bateman's do, double and single; Stone's Trusses; also, Trusses for children, of all sizse; Dr. Fletcher's Truss, and Marsh's Truse, Dr. Hull's Truss. Thompson's Kachet Truss, and the Shakers' Rocking Trusses, may be had at this establishment. Whispering Tubes and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Carolline D. Foster, who has had ten years experience in the business.

CERTIFICA TES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons afficted with Hernia, having suffered much from the want of skilliu workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.

After some raonths of observation of his work, I am satisfied that Mr. Foster is well acquainted with the mannfacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I

well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Rozbury.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D.

Foster, of Boston.

P. G. ROBBINS, M. D.,
Boston, April 27th, 1816.

The undersigned is familiar with the ability of Mr. J.
F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favora bly compare with that of other artists.

J. V. C. SMITH,
Editor of the Boston Medical and Surgical Journal.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term for a limited time, as will not only offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the dental ridge has become uneven and irregular, by the absorbing of so me parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing aut the checks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper farm is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved wark,—and one of great importance itoo, is its cleanliness. Unless the teeth are moulded to fit the plate in the must perfect manager the force manager the force manager the force means and with the force manager the force Another advantage of carved work,—and one of greatinportance itoo, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of misticated food, with the are monitated to not the plate in the most particle and the plate; and the finer particles of musticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being reortween the teeth and the plate; and after being retained there a few days, it being; impossible to remove them, will invariably become offensive and tain the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each teeth single teeth is, its perfect articulation. Each tooth single teeth is, its perfect articulation. Each tooth should meet its opposite in the mast exact manner in masticating fued; otherwise, the whole work will prove a source of continual annayance, by its instability, falling down, and other incanveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be analysis of the control of the con be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half ets; and a variety of enses of smaller magnitude, we ere great difficulty in execution is overcome. They annot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a with close imitations of nature, and would inspire a canfidence in their merits, that the wearing of them would only tend to strengthen.

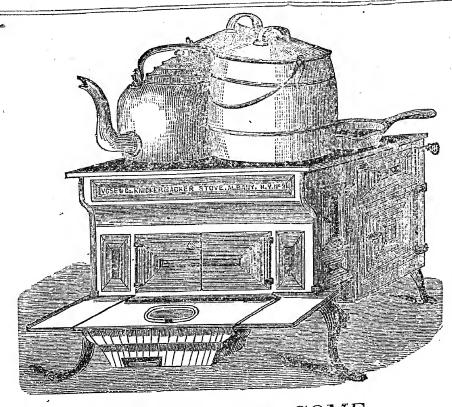

TERMS.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the toeth may be returned, and the amount paid for them will be refunded. Old plate work that has been worn with refinded. Old plate work that has been worn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing Palishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 ceuts to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper ations warranted.

Carved work in block for whole and half sets will he got up for other dentists on reasonable terms.
S. STOCKING, Surgeon Dentist.

LORRAINE'S PILLS All persons require Facts.

Remember in all cases that you are not deceived by thing

that appear to be facts.

DEMEMBER also, that, Lorraine's Vegetable
Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and Tomatoes. These two articles need no praise, neith Commercial street, Boston. er do the celebrated Lorraine' Pills, when they have For Salem, 71-4, 9, Am. 121-4, 21-2, 31-

once been taken.

Physicians, and people of every class are willing ocome forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In act there can be no doubt but that Lorraine's vegtable Pills is the best medicine ever offered to the

Sec a few public statements of men of truth and veracity

A hacking cough constantly annoyed me! Boston, Mass., June 1st; 1844

Sir,—In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and , combined with my other maladies, rendered me truly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILLS and now every body tells me that I am well;—I see as well as ever I did. J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they we have in our market. I taink in a snort time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable cer ficates from our citizens. Respectfully yours,

E. MASON.

Chelsea. Jan- 3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winconduct with the incumatism nearly the whole win-ter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since.

N. B. I never took more than one pill at a time and that on going to bed. oing to bea. Yours respectfully, W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to aise my hand; the bones were in different places estroyed by ulcertion, and I feared it might reach be brain or vital organs. My pains were violent—rugmedicines recommended did no good. At last, I dala LORRAINE'S VEGETABLE PILLS, which stll pommediate relief, and have entirely cured me.
Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !! Lowell, Mass., April 20th 1944.

Sir,—For the last few months I have been afflicad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to day that I was cared immediately upon taking one dose of Dr LORRAINE'S PILLS. J. BROOKS.

Sir: I could (17) the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present

New England Office and General Depot, No 10 Brattle Square, Boston.

Lynn, Dec. 17th, 1843
Sir; I have sold all the pills I last had of you please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. Isell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wronght some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for the time, they have greatly of Leving aller buying taken? A boyes only of Leving aller buying taken? TOULD respectfully give notice that he has removed from his old stand, oposite the City Hall, to No 20 Washington street, recently occupied by A raine's Pills!! I might name many other cases the City her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where he is ready to perform all operation in Dentistry, in a most thorough and work-manife manner.

Doetrn.

FAREWELL TO THE YEAR.

Hark, friends! it strikes-the year's last hour-A solenm sound to hear; Come, fill the cup, and let us pour Our blessing on the parting year... The years that were, the dim, the gray, Receive, this night, with choral hymn, A sister shade as lost as they, And soon to be as gray and dim. Fill high; she brought as both of weal and woe,

And nearer lies the land to which we go.

On, on in one unwearied round, Old Time pursues his way; Groves bud and blossom, and the ground Expects in peace her yellow prey; The oak's broad leaf, the rose's bloom, Together fall, tegether lie; And undistinguished in the tomb, Howe'er they lived, are all that die. Gald, beauty, knightly sward, and royal crown To the same sleep go shorn and withered down.

How short the rapid months appear, Since round this board we mot, To welcome in the infant year, Whose star bath now for ever set! Alas! as round this board Il.ok, I think on more than I behold, For glossy curls in gladness shook That night, that now are damp and cold.

Thank heaven, no seer unblest am I, Before the time to tell, When moons as brief once more go hy, For whom this cup again shall swell. The heary mower strides apace, Nor crops alone the ripened ear; And me man miss the merriest face Among us, 'gainst another year. Whoe'er survive, be kind, as we have been, And think of friends that sleep beneath the green.

'Tis fate that friends must part; But God will bless in life, in death, The noble soul, the gentle heart. So deeds be just, and words he true, We need not shrink from Nature's rule; The tomb, so dark to mortal view

Is Heaven's own blessed vestibule; And solomu, but not sad, this cup should flow, Though nearer lies the land to which we go.

UPON THE DEATH OF A WIFE. Whoe'er, like me, with trembling anguish brings His dearest earthly treasure to these springs; Whoe'er, like me, to soothe distress and pain, Shall court these salutary springs in vain; Condemn'd like me, to hear the faint reply, To mark the fiding cheek, the sinking eye, From the chill brow to wipe the damps of death, And watch, in dumb despuir, the shortening breath;-If chance should bring him to this humble line, Let the sad mourner know his pangs were mine. Ordained to lose the partner of my breast, Whose virtue warm'd me, and whose benuty bless'd Framed every tie that binds the heart to prove, Her duty friendship, and her friendship love. But yet, remembering that the parting sight Appoints the just to slumber, not to die, The starting tear I checked,-I kissed the rod,-And not to earth resigned her, but to God!

married man!

For the Courier. HISTORY OF ASTRONOMY. No. 1.

The early history of Astronomy is involved in much obscurity. That it is the oldest of the sciences, we should naturally infer from the fact, that its field is the heavens,-the spacious canopy hung out to the gaze of every sentient being and written all over by the finger of God, with the bright insignus of his power and glory.

The elements of this science could not have failed to prised, if, after the communication of yesterday, I attract the attention of even the earliest inhabitants of Well-but stop a moment; did you say your lost should tell you that upon the whole, I have concluded our world. The movements of some of the beavenly our intinuery has been sufficiently protracted for the good | bodies, the fixity and peculiar lustre of others, the brightof either; I have felt for a long time, the ansaitableness ness and glory of the Snn, the constant changes of the of our association—though I had hoped all objections on Moon, so observable to the unassisted eye, and especial-'To begin, then. I was younger once though you look my own part would be obviated in time. This, however, ly the phenomena of eclipses, could not have failed

LUCY. understood the nature and motions of the heavenly hodies; and Josephus informs us, that Seth, the son of Adam, was a teacher of this sublime science. However little confidence we may place in the vagaries of this superstitious Humph! They are regular northwesters sometimes, and traditionary historian, still other and more authenas that letter can testify. And that too after all her the authors, give us many infiniations of the early cultiunder her long cyclashes, so gratefully, I could hardly care, her devotion I might say. But no matter now: I vation of astronomical science. There is however one rather think her ma has me still on her list of friends- thought which Josephus connects with the astronomical though I never called to see. I had walked into love studies of the Antedeluvians, which is worthy of notice, Then there was Kate, a wild rogue, who teased my with hoth eyes open, instead of tumbling as most people viz: the longevity of the men of those times. He suplife out, and at the same time kept me nibbling at her do; so I had nothing better to attend than to walk out. posed that this length of days was given them, that they hack without the chance of even tasting the buit—and Lucy, my Lucy, so loving, so kind, so devoted, was might make greater advancement in the studies of Geometry and Astronomy. And when we consider the entire

have oceasion rather to congratulate yourself than to examine briefly, the claims to early distinction of this

to have retired with his children born after the flood, to the north-eastern part of Asia, when his descendants peopled the vast Empire of China. "This," says Dr. 'Who sent you, child? and what does the lady Long, "may perhaps account for the Chinese having so carly cultivated the study of Astronomy; their being so bawl out with excessive pain, and she darted off in her well settled in an admirable policy, and continuing so many years in the worship of the true God." The vanwait here till I come back. No doubt it's some one who ity of this people, has, indeed, prompted them to pretend himself hurried rapidly backwards, maugre of all his efa knowledge of Astronomy even more ancient than the flood itself; but as Noah was probably the founder of their the tortured beast, imagined that he was carried off by Empire, this pretension is absurd. Tradition however, imagic, and roaring out most lustily that the devil had is current among them, of their having been taught this got him and was thus carried into the very centre of is current among them, of their having been taught this science by their first Eniperor, Fo-hi, supposed to be Noah, whom Kempser informs us discovered the motions of the heavens, divided time into years and months, and invented the twelve Sigus of the Zodiac, which they still distinguish by the following names: 1. the Mouse; 2, the Ox or Cow; 3. the Tiger; 4. the Hare; 5, the Dragon; soldier started from their sleep as if a ghost had crossed. 6, the Scrpent; 7, the Horse; 8, the Sheep; 9, the Mon-their dream and the whole bedy running half naked, key; 10. the Hen; 11, the Dog; 12. the Bonr. They formed as quick as possible in gallant dishabilee, prepargnily, when you said thity never wrote that letter.'

'I was sure of it. A woman may be coquettish, but ever cold.'

'We'll not discuss that now, but I've seen her; she intiens, are all that can he obtained by plodding through officer, mounted on a cow, with his face towards her tail is ill; is dying. into Constellations. He used a large brass table, placed horizontally, on which was fixed a long upright plate of the same metal, both of which were divided into degrees By these he marked the meridian altitude of the heavenly bodies and thence derived the times of the Solstices,

The present state of Astronomy in China is undoubte tangled in the meshes of superstition, as entirely to proclude much advancement in any science

To spend much time amid the darkness of these early turies, shines but dimly, would be neither pleasing nor profitable. A few remarks relative to the Astronomy of a few other nations, and we leave for the more fertile fields of modern times.

Mr. Bailey, a writer of much note, has given great antiquity as well as proficiency in this science to the Indians. That they early cultivated the science of Astronomy there can be little doubt, but that they can count upon the antiquity ascribed to them by this author, we should be slow to believe. According to him they can date some of their observations as far back as 3100 years before Christ, and he even seems to think that they calculated eclipses by means of observations taken more than 5000 years ago. They made use of the Metonia cycle of 19 years, and their system of the world was much better than Ptolmey's, as they placed the Sun in the centre and supposed Mercury and Venus to revolve

The Americans also lay claims to great antiquity in Astronomical knowledge. They made use of Solar, instead of Lunar motion in computing and dividing time.

The Mexicans seem to have a curious predilection for the number 13; which seems to grow out of the fact, according to Abbe Clavigero, that they acknowledged 18 principal Gods. Their shortest period is composed of 13 days; their cycle of 13 months, each of 20 days; their century of 4 periods of 13 years each. They were acquainted with the excess of the Solar above the Civil year, but this they also balanced by adding 13 days in 52 years, thereby retaining their favorite number 13.

X. Y. Z.

A Backward Cow Ride.

During the Revolutionary War, when a corps of the-American army were encamped near the borough of Elizabethtown, N. J., an officer who was more of a devotee of Venus than of Mars, paid his addresses to a lady of distinction, whom he was in the habit of visiting nightly, in the cultivation of the kindly feelings which love so cordially inspires. On a discovery of the repented absence of the officer, and of the place where interviews with his dulcina were had, some waggish friends resolved to play off a hundsome trick at his expense, which should deter him from a repetition of his amorous

The officer, it appears, rode a very small herse of the pony kind; which he always left untied with the bridle reins over his neck, near the door, in order to mount and It absence there of scientific knowledge to guide and help ride off without delay, when the business of courting and the students, and reflect that all truth was acquired kissing was over; and the horse always remained until *Certain! Nothing could be more certain; and beside, through the slow and tedious process of observation and backed by the owner, without attempting to change his in less than three months she married a man twice her discovery,—that it lay hidden in the unwrought quarries position. On a certain very dark night, when the officer age. I had a narrow escape, you must confess; but of Nature, that a broad seal was placed upon every leaf had, as usual, gone to pay his devotions to the object of of her vast volume, we cannot feel at liherty to scout as his affections and enjoying the approving smiles of the an angel no doubt, and found comfort in so doing; but gevity of the fathers of our race, was a special boon to the door of the house where the officer was, took his believe me, Harry, woman is the world over-cool and from Deity, for the perfection of science and discovery bridle and saddle from the horse, which they sent away, placed the bridle on the tail, the saddle on the back, and roason why she should be heartless; and, don't take. Passing from these few observations upon the general the crupper over the horns of a quiet old cow, who stood ly thereafter, they retired some distance from the house. and, separating, raised the loud cry of alarm, that the enemy had landed and were marching into the village. Our hero, on hearing this, took counsel from his fears,

and snutching a hasty kiss, he shot out of doors with the velocity of a musket ball, and mounted into the saddle with his back towards the head of the cow, and plnnging his sharp spurs keenly into her sides, caused her to best gallop towards the camp. The officer, still plying his spurs with all his wine and love on board-finding forts to advance: and hearing the repeated bawlings of

JAN. 2, 1847.

Mr. Hudson's Lecture.

The last lecture at the Lyceum, was delivered by Mr. H. N. Hudson, the celebrated delineator of the principal characters in Shakspeare. Notwithstanding the lecture was nearly two hours long, he retained the fixed attention of the audience to its close. This may be owing to the marked peculiarity of manner as well as to the originality and power of his descriptions and criticisms. To one who has not heard him, it would be difficult to convey any good idea of this peculiarity. His sentences are short, pithy sayings, rich in meaning and abounding in wit and sareastic humor. These sentences he holts out one after another in rapid succession, requiring to retain their meaning the closest attention of the hearer. He begins each sentence and runs it through with a rapidity which makes the hearer elmost think it a single word without any division but syllables and drives: through it in a loud tone of voice, until near the close when he stops abruptly-makes a pause-then lowers his voice almost to a whisper and pronounces the remaining words deliberately and impressively, syllable by syllable. We will endeavor to convey some idea of his manner in what we may further say in relation to his lecture. The reader will bear in mind that the first part of each sentence is propounced in the rapid manner above described, while the italicised words are spoken in a lower and drawling

The-personal-appearance-of-the-lecturer-may-be-called-good-but-it-is-not-pre-pos-sess-ing. He-may-even be-said-to-appear-sometimes-awkward-if-not-un-gainly. He possesses-great-critical-acumen-and-he-knows it. He-is-an-enthusiost-of-Shakspeare-and wants every body olse to be. He-thinks-Othello-the-soul-of-honor-and Desdemonn-an an-gel. Both-of-them-were-the-innocent-victims-of-the-villian-Iago's -- dev-il-try. Othello and-Desdemonn-were-fitted-for-each-other-not-because they-were-alike-but-because-they-were-dif-fer-ent.

Mr. Hndson, a recollection of his manner, but all who Daws, to shoot another one. The only foundation for wish to obtain any just notion of it, must see for themselves. He throws out his jets of wit and wisdom in such rapid succession, in such sententious aphorisms and Sonthwick, while on duty usually had in his possession with such knowledge of his own perfect command of his subject, that the hearer is entranced into admiration of him some anxiety lest injury might happen to her childthe speaker's power, if he cannot assent to all his positions. Mr. Hudson is ultra-conservative in his opinions like all who have undue reverence for the past, and has seif "half-cocked," he stepped to the doer and "blowed no sympathy whatever with the movements for social reform which distinguish the present day. On the contrathrough a pane of glass into a neighboring house. This ry he sometimes goes out of the way to bestow a severe caused his arrest for an attempt to shoot his neighbor. blow on the backs of what he would call the modern We understand that his examination will take place tohigh priests of a false-phi-lun-thro-py.

Since writing the above, we learn that a strong desire has been expressed by many to hear one or two more lectures from Mr. Hudson. We regret to hear that the existing engagements of the Lyceum will absorb all its funds and prevent that institution from employing him. We would however suggest whether a slight fce of admission from the holders of Lyceum tickets, together with the single admission money which may be taken at 1846. the door, would not procure him. His lectures have always drawn large audiences and, we learn that the halls of both the Lyceums in the north part of the town were crowded to hear him. We doubt not if the experiment were tried it would be perfectly successful.

The Social Gathering.

We call the attention of our readers to the "Card" of the Ladies of the Benevolent Society, which we publish in another column and hopo that nothing will be wanting on the part of the public to ensure not only a pleasant ity, still, that it has been so quiet and unobstrusive in fortably hold from 150 to 200 men. It will measure a liave afforded it encouragement, have hardly been aware of its existence. We think that one good effect of permanent prosperity.

We cannot but feel assured that our citizens will generonsity respond to the invitation to provide the proper quantity of refreshments for a large company. It must be apparent to all, that there will necessarily be some expenses incurred, and as it is very desirable that all the receipts from the sale of tickets should go into the theasury of the Society, these contingences ought to be provided for. We think that many gentlemen would be quite willing to contribute a trifling sum each, for this card any solicitation for such assistance, we do not doubt it would be thankfully received.

We are pleased to learn that the arrangements for the Festival are going on successfully and the only regret is, that owing to the limited capacity of the hall the number some may be disappointed by not gaining admission .-We learn that the Post Office department promises to yield a good revenue, as several large mails have already been received, filled with letters directed to our citizens, ed to arrive. Indeed, we are assured that the business at Mr. Dodge's Post Office will bear no comparison with what will be transacted at the establishment at the hall. We hope none of neighbors will fail of calling for their letters; as we have heard of serious losses and disappointments caused by people neglecting to call at the

We also learn that those of the company who wish to indulge in the luxury of iced creams may do so and at the same time aid the receipts of the evening as this article is to be on sale under the direction, and for the benefit of the Society.

Acceptars.-Lost week, we understand, one of the laborers on the Essex Railroad, near the Crowninshield furm, had his thigh badly fractured by the falling in of a bank of frozen earth near which he was excavating.

And this week, one of the hands engaged in piledriving, had his face badly bruised by being struck acci-ted for this station than Mr. H. His character and standentally with a wedge from the machine.

ICF In the Court of Common Pleas, sitting at Toswich, nearly fifty indictments for violations of the licease law were presented by the grand jury. The Easheir bridge in Newburyport.

A Christmas Present.

On Christmas morning, "and that right early," one of our subscribers informs us that on opening his door, he liscovered on his step a large package. The first thought which naturally suggested itself to his mind was, that Kriss Kringle, St. Nicholas, or Santa Claus, had designated him as the recipient of an unusual bounty. He therefore hastily raised the bundle and began carefully to

"When of a sudden, potatoes wonder! From the [package] burst asunder,' the "form divine" of an innocent babe, white as the fleecy snow, "and like a sheep dumb before its shearers, so it opened not its mouth." Surely here was a predicament for a man who "loved mercy," and no wonder that he was for some moments at a loss what step to take first. Had our town-authorities imagined that there ever would be within its borders, a mother, who should so disgrace her sex as to forget her suck-in child, they would have made provisions in their alms-house for a foundling apartment, but they never dreamed it. Our friend however found that his bowels of compassion yearned strongly towards the child and though naked he took it in, feeling satisfied that no child, of such tender age, being about as large as a babe of a few days, thus exposed to the atmosphere. The infant has had the best of care for the past week, and our friend wishes us to say to the parents,

> "Mourn not for the child From thy tenderness riven, Ere a stain on its purity fell; To thy questioning heart, Lo, an answer is given—
> 'Is it well with the child?' 'It is well!'

And unless they call immediately and pay charges and take it away, he shall in keeping with the practice in the Southern States, sell the child into bondage, with this esential difference, however,—he will exchange it for tin-pedlar's ware; he thinks it will weigh about a dozen pounds, more or less-worth three cents a pound for old

A rumor has been current in this town for a few days, The above is enough to recal to one who has heard that there had been un attempt by an Irishman named this report that we can learn, is, that Mr. Daws who has been employed as a watchman in the Tannery of Aa loaded pistol. A few days since his wife expressed to ren, (being herself unwell) by carelessly leaving his pistol in the house, upon which suggestion, being himout" the charge, which first struck the ice, then glanced day at the Salem Police Court.

> We are indebted to the Secretary of the Common wealth for a copy of the Abstract of the Returns from Banks and from the Institutions for savings in this State, on the first Saturday of October, 1846. Also, for copy of the Registration of Births, Marriages and Deaths in Massachusetts, for the year ending April 30th,

> DOMBEY AND SON.-We have received No. 3. of this interesting Tale from the pen of Dickens.-This attempt of that justly celebrated writer promises thus far to equal in interest and style any of his previous efforts. The edition published by Bradhury & Guild is beautifully illustrated, and we think is superior to any we have

Internal Navigation.

On looking out of the window of our office one day evening's enjoyment but the means requisite to enable this week, our attention was attracted by a small crowd the Society to persevere in its landable efforts to supply around a very large boat on runners and drawn by a the destitute with the comforts of life. We have reason team of six horses, which had halted in the square. It to fear, that, although the Society has been in existence proved to be one of the U.S. 24 oared barges intended almost a third of a century and has pursued a career of to be used to land troops on the coast of Mexico. It is a active benevolence, seeking worthy objects of its char-long, shallow vessel, with very little keel, and will comits movements, that many persons who would gladly bout 45 feet long by 12 broad, and is intended for shoal water. It looks as if it might easily be capsised, but in such an event it was provided with a long strip of this gathering will be to create an interest in its objects, wood each side on her bottom, to which the men might add to its list of members and place it in a position of cling until relief could be obtained. This barge was built in Newburyport and was contracted for to be delivered bofore the 1st of January. The builder was unwilling to risk her carriage by water and so took this novel mode of land navigation to ensure her safe delivery

Essex Rail Road.

This undertaking is rapidly approaching its completion as far as South Danvers, but little progress scems to be made on that part of the road from this village to North calists, have been drawing crowded houses in this city purpose, and although the Ladies have withhed in their Danvers. At the entrance of the tunnel in Salem the for the two last evenings, at the above hall. The twin workmen are busily engaged in removing the wall by which the connection may be made with the Eastern R. Road. Satisfactory arrangements on account of damages having been made with the Proprietor of the wharf gold. Their proportion is excellent. Their execution on at North Bridge, the road has been extended over it and the violin and violincello as an accompaniment to their of tickets for sale must be reduced to such a degree that only requires the filling up of the ombankment between voices, is the greatest curiosity we have had the pleasthat place and the Acqueduct point, to enable the locomotive and cars to pass over the road into the Salem this evening, as our readers will perceive by a look at the fearful height of the sca, and the rage of the gale, Depot. Although the present condition of the road will our advertising columns. not warrant the expectation that our Representatives will and several heavy mails from a distance are daily expect- be carried over it to take their seats in the Legislature Sister and Covert & Dodge, last evening, was most we may safely presume that every effort will be made to beautifully executed Mr. Covert's rich tenor voice is selget it ready in scason to convey the petitioners for the dom surpassed. Mr. Dodge, the sorrow killing, mirth coops, near Vera Cruz, after having been in the water ing before the General Court.

Sunday School Exhibition.

The Sabbath School connected with the First Universalist Society, at New Mills, will give a Concert on Sunday, (To-Morrow) Evening, commencing at 6 o'clock. The success which has accompanied the previous similar endeavors of this School, encourage the belief that this will also be an interesting occasion.

Councillor from Essex.

to supply the vacancy in the Governor's Council from and we can but hope that he will be selected.

We learn from the Salem Gazette, that the logical School at Cambridge, to become their paster.

For the Courter. Contemplated Railroads.

The approaching Session of the Legislature has already so far awakened the spirit of enterprise, as to put in motion numerous petitions for further Railroad accommodation. Already have we the rattle of the engine and the sound of the whistle, on the Essex Railroad track, from Salem to our village; but something more is wanted .-We want a direct communication with the interior country, and with Beston, the principal place of our business. The difficulties incident to the transportation of merchandize on the Eastern Railroad, will forever prevent that Road affording the accommodation to our citizens, that they have a right to demand. And the probability is, that they will not be easy, until they find it in some other direction. Two prominent routes are now offcred to remedy these inconveniences. One starting from Danvers and passing through the western part of Lynn and Saugus, and Maiden to Boston, a distance of about 16 1-2 miles: Another, starting from the same point in Danvers, and passing through Lynnfield, South Reading and Malden to Boston, a distance of about 18 miles. In the trated by a set of queer looking figures who one case, 12 1-2 miles of new road are to be built—in to talk together in a most amusing manner the other, 8 miles of new road only would need to be built. A double track, being completed from Boston to backs." Some of the answers to the question South Reading, cars from Danvers could pass over the are well calculated to split the sides of the p Maine Extension Road without any delay. We have their drollery. ever been anxious to have the road through Lynn completed; but when we take into view the comparative expense of the two routes, and the probable chances of Beasts." This is also a pack of cards with 2 their being completed and put into operation, we are by ne means certain that our citizens would not do well to concentrate their efforts upon the proposed route through knowledge of the hubits and peculiarities of th South Reading. This will afford all the advantages offered by the Malden route, and many that cannot be found in that direction. It will so connect with the proposed new route to Lowell, as to be of immense importance to the County of Essex. We think it only needs examination to command approbation.

SECOND RAILROADMEETING IN NORTH READ NG .- The adjourned meeting of the citizens of Danvers, Middleton, Lynnfield, Andover, Wilmington and Reading, in favor of a Railroad from Salem, through Danvers and North Reading into the interior, was held at Howard's Hall in North Reading, on the 22d of December The meeting was very fully attended and most ably addressad by several gentlemen. The reports of the engineers, the large and increasing business now done in the vicinity of the proposed route, the proposals of contractors to grade the road, the readiness of the land owners to give their land and take stock-all combined to prove the contemplated road to be the most advantageous ever surveyed in this State.

The following resolution and votes were passed; Resolved, That the petition should be presented to the Legislature of this State, at its next session, to charter a railroad from Salem through Danvers, Middleton, Lynnfield, and through the village in North Reading, south of the meeting houses, to Ballard Vale and Methuen. Also, from North Reading to a point on the Poston and Lowell Railroad, at or near the depot in Wilmington,

Voted, That Gilbert Tapley, Esq. of Danvers, Benamin F. Martin of Middleton, William Smith, of Lynnfield, William Stevens, Esq. of North Andover, Asa G. Sheldon of Wilmington, and Charles F. Flint of North Reading, be a committee to present said petition to the Legislature, to obtain counsel, and to use all measures necessary to secure the incorporation of the proposed

HOW TO SPELL CAT.

Sometime during the last war with Great Brit - regiment of infantry was stationed near B Old Doctor M- (peace to his ashes!) was sur the regiment. The doctor was an old gentleman precise and formul manners, who stood a great on his dignity of deportment, and was, in his ov mation, one of the literati of the army. Neve he was fond of a joke-provided always, it was octrated at his own-expense.

It is well known, in the 'old school,' that at the mencement of the war a number of citizens w pointed officers in the army, who were more no their chivalry than for the correctness of their or tor the 'new set.'

One day, at mess, after the decanter had per sundry perambulations of the table, Captain L brave and accomplished officer, and a great wag, re cd to the doctor-who had been somewhat severe remarks on the literary deficiencies of the new off 'Doctor M-, are you acquainted with (

'Yes, I know him very well,' replied the doctor one of the new set-but what of him?' 'Nothing in particular,' replied Captain 8 have just received a letter from him, and I will

guesses how he spells Cat.' 'Done,' said the doctor, 'it's a wager.' 'Well-commence guessing,' said S-,

'K-a-double t.'

'No.'

'K-a-t-e.'

'No; you have missed it again.'

'Well then,' resumed the doctor,-'C-a-double 'No, that's not the way; try again; it's you

'No,' said S-

'Well,' said the doctor, with much petulance of er, 'how does he spell it?'

'Why, he spells it C-a t,' replied Sutmost gravity.

DEATHS.

In this town, Dec. 18th, Mrs. Mary Balen, aged 85.—
Although she was a childless widow, she was very dear to a circle of nephews and nieces, who not only loved her, but rendered the evening of her days cheerful and pleasant, by hestowing upon her those charities and kind-nesses, which are so grateful to the aged and needy.—
She kas passed the homodry of human existence, and those who have been bereaved will have the future consulation of knowing that they have addred to the sum of duman happiness, by smoothing the path toward the setting sun of life, and by causing the shadows of twilight to be cool and pleasant.

At North Parish, Dec. 25th, Mrs. Elizabeth Pedrick, widow of the late Capt. Richard Pedrick, formerly of Marblehead, aged 60. The subject of the above nutice was for many years an humble, devout, and sincere professor of the Christian religion, and a most kind and affectionate parent. Her children have met with an irreparable loss, and all who know her have lost a sincere and censuant friend.

But this town, Dec. 18th, Mrs. Mary Balen, aged 85.—

In Salem, Capt. Samuel Flint aged 74. Sarah, wife of John Gardner, Esq., aged 75. Charles Herry Doorse, aged 20, eldest son of Pickering Dodge. Esq. Mrs. Mark Mark Doorse, aged 85 years.

In East Bradford, Mrs. Mark, widow of the late Capt. Androw Harraden, aged 85.

In Boston, Mr. Nathaniel Hoopen, aged 75. Aana, wife of Ezra S. Gannet, D.D. aged 33.

The following Ohi/unry notice was received too late

for insertion in our just paper: . man. Mary Practice.—With regret we record the individual whose uame appears above. She possessed in an eminent degree, those qualities of mind and heart, which ever secure the warm uffection and good will of others. Though her sphere in life was not widely extended, yet was the henevolence of her heart as expansive as the wants and woes of the human family. The all whose such he was parsonal kindness. Chatran Calarin Chatran Calarin Chatran Calarin Chatran Calarin To all who could be reached by her personal kindness, Chatman Catharine she was ever ready to minister, and many a sick and corrowing one in her immediate vicinity, can testify to the warmth of her sympathy. Quiet and unobtrasive in her disposition, she moved among the afflicted, like an angel of mercy, and they who mourn her loss, feel that the property of them there is a power less than the property of the side of the sympathy. The side of the sympathy of the side of the sympathy of the one has been taken from them, on whose charities and louge Sally disinterested love they could always depend. A follower follower whose are created love they could always depend. A follower follower followers. The was an ernament to her profession, and an honor to the frost Vm. S. Fisher G. D. Frost Daniel S. church of which she was a mounter. Christ was her "all in all.". In him her affections centred; on him ther faith sweetly reposed, and having exemplified his spirit during a long life, he forsook her not in her declining years. Through his grace she was enabled to view approaching death with calmness—yea, with triumph, and even to welcome him as a kind messenger to been her longing spirit to the home of the blessed. The end Hinds Thadeus of the upright is peace, "not weary, worn-out winds expire more soft." She has gone, but long will she live in the bright example, and be enshrined in the memories of those who knew her worth, and experienced her tenderness and large.

derness and love .- [Com.

A CARD.

The members of the Dancers Female Benevolent Society, respectfully announce to the citizens of this place and the public generally, that in consequence of the low condition of their funds, caused by numerous applications for aid, they feel under cobligations to call upon the charitable in some farm, to enable the society to continue its usefulness. After full deliberation they have determined to make arrangements for a "SOCIAL GATTI-BRING," the proceeds of which shall the faithfully devoted to the objects of the society. This featival will take place on WEDNESDAY Evening next, Jan. 6th, at Urton's Hall. Tickets at 25 cents each may be obtained at the Post Office, S. Proctor's, Dr. Shed's, and H. Martin's, until the number limited is disposed of, after which no more can be sold.

Ladies and gentlemen, whether members or not of the Society, who feel an interest in the object of the Society, are respectfully invited to contribute take, pastry, fruits, conflectionary or other suitable articles for the refreshment tables, and a committee of ladies will be in attendance at the hall, on Tuesday evening and Wadnesday forenoon, to receive such as may be offered.

The exercises will commence at 7 o'clock. jan 2

CONCERT.

CONCERT.

CONCERT & DODGE in connection NOTICE-The present limits are inadequate to and a Larger, more Spaceats, and Brittant Establishment is to take its place. These have been applied to my Establishment by those who are acquaintded with the ceal character of Oak Hall: Such as 'a
superior Mart, 'a Princely Warehouse;' 'a vast Trading
Area, 'a Matchless Establishment,' 'a Theatre of Unbounded Trada,' 'a Stupendous Scheme,' 'an extensive
Market,' 'a Triumphant Achievement,' 'a Sphere of extraordinary Operations,' an Unapproachable Wonder.'
Such names will probably apply to my new constructure when completed. I might as well undertake toconfine the vast ocean in the limits of our Pund on
Boston Common, as to carry on my large trade within
the walls of these present limits. The public are aware that my triumphant statements are not overfited. The trade at my extensive Ware-rooms may be
compared in a large Monster, whose bulk and mighty
stature have become so great that it requires a larger
sphere for its present movements. This Warehouse
erected in 1842, has stood unrivalled in the metropois for extent and magnitude, and yet it is far, far
the former of the probably are proposed to the latest editions.

JAMES FREDERICK FOSTER.
Continues to manufacture all the various approved TRUSSES, at his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and busmess being both in the same building, he cam be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him. Convex Spiral Trusses, Dr. Chase's Trusses, formerly, sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Read's Spiral Truss; Rundell's du; Salmon's Ball and Socket; Sher. man's patent French do; Bateman's do, double and single; Stone's Trusses; also, Trusses for chridten, of all sizes. Thompson's Kachet Truss, and Marsh's Truss, Or Trusses, may be had at this establishment. Whispering Trusses, may be had at this establishment. Whispering Trussen and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroline D. Foster, who has had ten years experience in the business.

CERTIFICATES.

CERTIFICATES.

From Dr. Jahn C. Warren, of Boston.

Having had occasion to observe, that some persons afficted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend, him to my professional brothern, and to the public, as a porson well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in tneir application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Roxbury.

Since the death of Mr. John Beath, Phave used, in preference to all other Trusses those made by Mr. J. F. C. GROBBINS, M. D., Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J. F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favora by compare with that of other artists.

L. V. C. SMITH, Editor of the Boston Medical and Surgical Journal.

> MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Jan. 1, 1847 Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially a-dapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and uni-f form fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concorned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They can-not fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

The Dandelion and Tomato Panacea is, as

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the material will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warn with much inconvenience, will be exchanged for ew, on puying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. scientific manner, and on the following terms, viz.

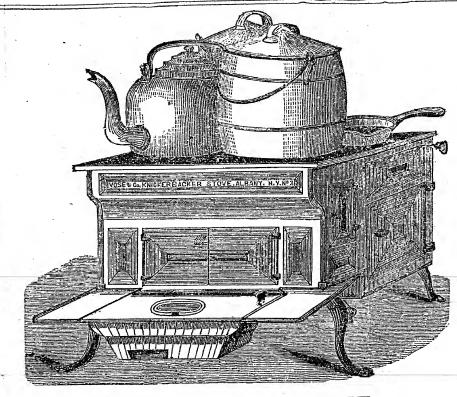

For filling sommon sized cavities with gold, \$1; For other kinds of Filling, from 50 deuts to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper visions were needed.

Cleansing the Blood, and is therefore the plant of the plant of the plant.

LORRAINE'S PILLS. All persons require Facts.

Remember in all cases that you are not deccived by thing that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable
Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and Tomatoes. These two articles need no praise, neither do the celebrated Lorraine' Pills, when they have once been taken once been taken.

Physicians, and people of every class are willing ocome forward and announce, in the most public manner, that they have been cured of long standing complaints—after aft other medicines had failed. In act there can be no doubt but that Lorraine's vegtable Pills is the best medicine ever offered to the From Portland 7 1-2 A.M., 3 P.M.

Sec a few public statements of men of truth andve-

A hacking cough constantly annoyed me!
Boston, Mass.,

June 1st; 1844 Sir,—In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and , combined with my other maladies, rendered me ruly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILLS and now every body tells me that I am well;—I feel an well see a real did. as well as ever I did. J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no controlly found with them. fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable cer tificates from our citizens. Respectfully yours,

E. MASON.

Chelsea. Jan- 3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more He also keeps constantly on hand and for sale, a larg than temporarily. I heard of the wonderful virt took of manufactured of Lorraine's Pills, I nad no faith whatever, bu took them, and it is a solemn fact that when I h taken but eight pills! my Rheumatism had en tire left me, and I have remained well ever since.

N.B. I never took more than one pill at a time and that on going to bed. oing to bea.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head! Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to also my hand; the bones were in different places estroyed by ulcertion, and I feared it might reach ee brain or vital organs. My pains were violent—rugmedicines recommended did no good. At last, I dain LORRAINE'S VEGETABLE PLLS, which stllsjommediate relief, and have entirely cured me. Respecifully, your ob't serv't, JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured!!

LOWELL, Mass.,

April 20th 1944. Sir,—For the last few months I have been afflicated with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * It that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr LORRAINE'S PILLS. J. BROOKS.

Sir: I could ! " the whole of the Sentinel with omit more.

New England Office and General Depot, No 10 BrattleSquare, Boston.

Sir; I have sold all the pills I last had of you please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where the cures have been as great, but have not time.

Yours respectfully, J.E.F. MARSH;

From the Knickerbocker. "DINNA FORGETP"

Suggested on observing "Dinna Forget" on the Seal of a Letter.

Oh! dinna forget, love, each bright happy day, Of the sweet sunny past, love, now faded away! In the depths of thy soul keep each hope treasured yet Oh! dinna forget, love, dinna forget!

Thou hast wandered afar, love, beyond the wide sea; And foud hearts are watching and praying for thee; Eyes once beaming brightly, with sad tears are wet, Then dinna forget, love, love, dinna forget!

Forget not thy Mother! her years glide away, While oft she recalleth her heart's hupe and stay, Oh! daily she weepeth fond tears of regret, And scoketh her level one, then dinna forget!

Forgot not thy Futher! o'er Time's ragged path He toiled and he counteth each jewel he hath; But the brightest of all in life's diadem set, Is the one who now reveth; leve! dinna forget!

Furgot not thy Sister! then little hast known The changeless affaction her hosom hath borne, How her eye sweetly glistens when some token met, Tells a tale of the absent, love, dinna forget!

Forget not the Maiden thon'st wan for thine own, The vows thou hast spoken in days that are gone: 'Tho' the sun of her young love on others has set, 'Yet it beams bright above THEE, love! dinna forget!

Forget not thy Gad, lave, where'er thou may'st be, 'Thy prayers and thy Bible, that chart of Life's sea, If no more here on earth we may joy to have met, We shall part not in Heaven, love, dinna forget!

you gu to sea. He thought it was fine fun, as this here is his first voyage, I shouldn't be surprised if it was his last, too.

'Nor I,' thought Mrs. Marsden, who begun to cominguished star upon the scientific heavens, that dazzled prehend the inconvenience to the master of having an owner's son on board.

The skipper still ran on, till the merchant interrupted him with-'As he seems to be of little use an hoard, suppose you give him a holiday to-marrow. Let him spend the day with me.

Now, Mr. Marsden had never 'asked even the skipper though rather ungraciously-permission was given to but I suppose-wal, but you know hest-Ephraim to accept the invitation. The skipper did not fail to call him Mister Doolittle in presence of all hands, as he informed him that Mr. Marsden wanted him to go with a loud laugh. Now, Peter Marsden seldom laugh up and 'clean his knives to morrow, or something,' and he went.' So Ephraim was 'Mistered' for the rest of the day, much to his annoyance; but he had an indefinite

hope of one day's peace, at any rate, Good morning, young man,' said Mr. Marsden, as next day; 'hut here's a stick apon you.' As he said this, he took from his back a square foot of tarred canvass, coat buttons. Ephraim blushed to the roots of his hair, and—in spite of himself—a tear stood in his eyes.

'Never you mind,' said Mr. Marsden, kindly, taking have nothing to be ashamed of, because those malicious fellows play those tricks. Think no more of them for one day, at any rate. Here John, calling the son; walk dollars. about with this young man till dinner time, and show him everything worth looking at, and then I'll see you at the house.'

CHAPTER II.

Our Philadelphia merchant was a man of few words Ephraim was just at that point of time a curious and close observation. Like all whose thoughts are pahle and clever a Yankee as you are. I have not made Sisters' was not exactly defined, for it was his misfortune reaching home, he found Ephraim as much at ease with From Chalden the science passed into Phenecia. They that the vessel belonged to his father. We say misfor- his wife and daughter as if he had been born in the tune, because any man who has ever occupied a similar house, and as graceful and unconstrained in his manners ed, 'ship's cousin' - will fully admit and understand the limbs and the restraint of a forecastle would admit. The In the seventh century before the Christian Era, As- propriety of the term. The sailors, jealous that the of. voyage he had made was a long one, for the Three

no wonder then that Ephraim was pronounced a stupid nough to cross a quill, which is the commercial lance, | Ephraim's heart was too full to answer, and Mr. ment of his present quiet and exceeding content. Per

in Greece, no one aspired to any distinction as a man of cisely the least and the most that can be expected of neither his eyes ner his cars had been idle during his first thing Ephraim did when he found binself alone. muritime experience," and he suggested to him that he should leave his father's schooner and his doubtful posiment. If he had been at home and his father had offered him a place in the counting-room, the result would 'You Eph!' the skipper shouted. 'Ephraim!' called have been different. Fear of jokes of his companions and inferior conjunction because hid in the sun's rays. He the mate, and E-e-e-ph! the second dickey. The cook former playmates -- nay, even of the young women, ulso taught the sphericity of the earth; and it still is a cried 'Ephraim!' and all the men sung the same song, would have driven him to sea again. Few young men matter of doubt, whether the sun or the earth formed the until Mr. Marsden was fain to conclude, either that the in New England, thirty, or even twenty years ago, vanity in Ephraim that he took care the advertisement centre of his system of the heavens. It was Thales skipper and all hands called 'Eph!' from instinct, as a could master courage enough to come under the stigma of killed a sailor, as descring the sea was called. It consignments. Nor was this notice without its effect. minated the war hetween the Lydians and Medes. He ship's company were of the tribe of Ephraim, and that was held hardly less dishonorable than running away Marsden & Co., soon had rather more than one firm's from the enemy in the field.

Miss Mary Marsden, only daughter of the merchant, had become tired of all who grow up in her 'set,' and tide in the Delaware when Enhraim stepped ashore from who had, of course, planed and squared all their thoughts the 'Three Sisters,' for no elds tide could have taken which they grew. Ephraim, without intending it, passed that the young merchant fully justified Mr. Marsden's with her for an original, though he was just as weari- prejudices, and while he looked out well for the firm did like each other. But the hit of granite beside Pennsyl- his entrance into the copartnership, was an equal particivania marble, though unnoticeable at home, is quite a patur in the profits and equal owner in the stock. At The doctrines of this "free thinker," this fearless ity of his aukles and the almost transparency of the flesh lien among limestone. Mary protested at first sight that length, indeed, Mr. Peter Marsden, who with every year champion of truth, alarmed his superstitious and weak which seemed hardly sufficient to keep the tendons in he was a shocking clown, but her vanity was flattered by that passed over him seemed to settle farther and farther minded countrymen. They saw in them naught to ad- the same sheath with the asseons formation of his limbs, his blushes when she spoke to him; and by the time the tops of his brogans and the hems of his trowsers that Ephraim had become su much accustomed to her were shocked at their audacity and impiety to their having long before parted company. He burried bither presence as no longer to blush, she had grown so baltitnated to him as no more to notice what at first seemed to her disagreeable—or if she observed, to cease to dislike deities from such innovations, they pronounced the drend | able to perfect nothing - a most unhappy instance of per- them. Perhaps, too, Ephraim grew more like his neighsentence of death upon the noble philosopher and his petual motion; and Mr. Marsden who began by laughing hors. Nobody possesses a hetter appress of assimilation in matters of mere fashion than the Yankee. -The muxim, 'Do in Rome as Romans do,' if it did not originate

in New England is naturalized, there. In the counting-room the shrewd merchant found the Yankee clerk all that he had counted upon. He was nore than a mere clerk, for as we have already hinted, Mr. Marsden wanted him for something more than to flourish his pen—skillful as was his peumanship shown zing quick. That fellew there is Ephraim Daolittle, and to be when he shed the rough, tarry skin of his hands, like a pair of worn out g'oves, and recovered the sensitiveness of the halls of his though and fore-finger. Mr. he pondered in silence, the skipper resumed— Would Marsden made skilful ose of the peculiar experience which his elerk had obtained in his New England education and his long voyage, and turned the conversation of Ephraim to very profitable account. Upon reaching his majority, which he did in a year or two after his arrivaat Philadelphia, the now free man proposed a visit to his

> 'How will you go?' asked Mr. Marsden abruptly. By land, I think,' said Ephraim.

'You don't understand me. Shall it be as my clerk, as a discharged clerk with a good character, or as the company of Peter Marsden & Co.? Come, you can take your choice.'

Ephraim pondered. There were five brothers at home, and of the six he was the youngest. The father had put Even in this day of learning and to men of the most Pythagoras often spent his evenings in the midst of more as the magnanimous skipper had determined to refuse, one in each of the three professions—two were in his Even in this day of learning and to men of the most spin as occurring pupils, composed of the wisest men Mr. Marsden dropped some papers. The other, on father's counting house, and Ephrain was not long in deciding. In the carnestness with which he thought, he furgot attention to furms, and was the Yankee hoy all apon any piece of merchandize which he thought of temple; and he who tred not her favored streets nor tion, and no authority more convincing, than the ipse safe to refuse to his employer's son what he would have over as he drawled out—Wall, I recken I'll come in drank at her living fount, could make but slight preten- dixit of their master. Never man held more complete granted to any other boy or man on board. And— the firm, and very much oblegged, indeed, I don't see— suitors who required a 'character' from their intended,

> He might have stammered along half an hour, but Mr. Marsden broke in upon his half answer, half reverie, ed at all, and never before had Ephraim lieard him that he had better wash his face for once in his life before laugh aloud; and he looked up surprised. He was still more astonished when Mr. Peter Marsden, that staid old gentleman in top boots, commenced a series of imitations-'You Eph! E-c-c-ph!' he shoated and drawled out, in provokingly amusing tones, the words 'Ephraim, Ephraim presented himself at the counting room the Ephran-Ephracem? in all the varieties of nasal and nou-nasal intouations, to which our hero had been luit tou well accustomed two years before, on hoard the which one of his malicions shipmates had fastened to his Three Sisters,' Ephraim still stared in undisguised amazement. He feared his employer was gaing mad.

'Mr. Doulittle,' said Peter Marsden at length wiping the perspiration from his brows with his handanna, and him by both hands; I see through the whole of it. You settling his collar, as his manner was, when he wished to be impressive-Mr. Doolittle, in the two years that you have been here I have netted twenty thousand

Now, twenty thousand dollars was considered rather more than a fair two years' work thirty years ago. But what connection this had with the vocal gymnastics of las employer, Ephraim could not tell.

Mr. Marsden proceeded-I consider that profit as having been mainly derived from my stumbling upon so eathe channel which I have so successfully followed. You onough alone.' Everything in the house went on like have taken no undue advantage of the freedom with which I have treated you, and have ever proved yourself | Mary quietly closed the doors when the smoke crept up in all respects worthy of confidence.'

Yankee boy that I could not help it. Now, Mr. Doo- force of habit, and if the day was fine, role down for little, as I have derived so much advantage from you, it an honr to his counting-room. Ephraim came regularly good a husiness man not to work yourself in as equal domestic incidents, or he broug! t home the news from

was to begin aloud-'Wal, I swan to man!'

He started at the echo of his own Yankee voice uttering Yankeeisms, and silently quoted a certain proverh, 'What is bred in the hone,' &c., but he did not trust his tongue with it.

CHAPTER III.

The next day's paper contained the partnership notice of Mr. Marsden and Doolittle; and it was a pardonable should be published in Boston also, with a solicitation of share of business, and Peter Marsden was every day hetter satisfied than ever that he had done a good thing considered uur young friend a delightful oddity. She in taking his young partner. It must have been high and actions down to the conventionalisms of the place in him on to fortune. The reader need not be informed somely like other Boston boys as Philadelphians were no less for himself, and in a year or two from the date of down into his hoots, was lost in them altogether, so far us any practical purpose was concerned. Ephraim had the whole business in his own hands, and it could not

Changes took place in the hunsehold-where by the way, we might have said hefore, Ephraim had been domesticated from the first. He would quite us soon have thought of leaving the firm as of leaving his comfortable quarters at the old mansion-now, alas, obliterated, to make room for twenty-five wooden houses, built like a slim carrot with alumdance of longitude and no latitude at all-a plague of such innavations on old fashioned comfurt; we say. John, the son, was made a physician of und carried his profession into practice by -putting a sign on the window shutter of the breakfastcoon, and nothing more. Mary grew matronly as her father and mother became infirm, and gradually assumed the whole charge of the household, in which she found it, by some unexplained and mysterious sympathy, much more natural to ask advice of Ephraim than of any body clse; and he, accustomed to give connsel and direction, answered as naturally as if Mary had been his own sister. Offers of marriage did not lack, for independent of her personal merits and attractions, there was her father's fortune to be considered. To all these she turned a deaf ear, assigning as the reason that the perous were indifferent to her. This certainly was true, und was good enough reason, as far as it went, and as t answered the purpose fully, she did not examine her heart or look into her motives for any other.

In the process of time Mary Marsden passed entirely 'out of the market,' as the mercenary phrase is, and vas dropped out of the list of marrying people. Occasionally a 'calculating offer' was nade by some person who wished to marry as a matter of convenience, and reckoned upon the usefulness of a wife as he would as one asks reference from a clerk or a recommendation from a new domestic. So she became what is called an old maid-that is to say, a kind-hearted, benevolent and industrious girl, content assidnously to support the tottering steps of her parents down the declivity to minister to their conforts, and patiently to endure their natural querulousness, as the eye became dim and the thing which once pleased palled upon their worn out senses.

How levely is such a woman-levely, indeed, in mind and in heart, strewing the paths of those around her with flowers, while the only participation in them that she asks is the delight of making others happy! Ever ready with kind offices, self-sacrificing, indefatigable, and habitually meek and uncomplaining, if her face seemed sometimes careworn, it was not with reminings for herself but that she assumed with generous sympathy the distress of others. If the frivolities of the hour did not interest her, the thoughtless pronounced her 'sour.'-They did not see the heavenly smile that lighted up her face when her father or mother made some unpremeditated expression of pleasure—they did not hear the grateful voice of the soul ready to perish when it arose in benisons upon her name. Such are 'old maids!'-The world does not know them; if it did, nothing but the most resolute obstinacy on their part could keep the

Ephraim was not, of course, insensible to the excellent character of her who was so long an inmate of the house with him. But Ephraim was eminently conservative, clock-work. John smoked in his den down stairs, and and made her mother cough.-Peter Marsden regularly 'You will excuse my mimickry just now, for your droned through the advertising columns of the United manner at that moment so forcibly brought back the States Gazette and Poulson's Daily Advertiser, from the out of doors .- He had not a thought beyond the enjoyyou know!

One morning when Ephraim went down to his warehouse, he found, as he entered, his easy, broadest chair, to defy Archimedes to push the high back out of the and the wooden pegs in the sole of the other shoe were the best Yankee manufacture. A long and strong cigar emitted jets of villainous smoke from a head in the chail which head seemed to have some connection with the department almost as much as their seniors. legs aforesaid, and two long arms widely spread held up the morning newspaper. Upon hearing footsteps, these selves together in acknowledgment of a federal union, the chair came down with a bang, and Capt. Obed pillar of humanity.

'Mr. Dewlittle, how do you dew?'

'Hulloa-what-my old friend, Captain Obed! I haven't seen you before since I was landed from the 'Three Sisters.'

'No more haven't I. Wal, the 'Three Sisters' was landed tem several years ago, spank on Cohasset rocks. 'That was unlucky.'

"Kivered by insurance-total loss-to the underwriters. Well how's your children?'

Ephraim blushed, and said he was not married. Now den tell! Why, we had it in Boston that you'd married old Peter Marsden's daughter, long enough ago Why, what in natur have you been thinking of?'

Sure enough, thought Ephraim-and wondered this had never occurred to him before. He got rid of this troublesome visitor as soon as possible, for when a Yankec takes an idea it does not rest for want of turning .-Mary Marsden did not talk with half so much innocent indifference to Ephraim after that evening, until, a few weeks more, when the hymenial head of the newspapers having made the whole matter public, Mary and Ephraim were on as easy and unconstrained terms as ever again. Thus were Captain Obed Weathermainbrace's two visits to Philadelphia the making of Ephraim Daolittle's for-

tune, whether Obed derived any particular advantage

from them himself or not .- [Ladies' Book.

SATURDAY MORNING. JAN. 9, 1847.

The Social Gathering.

The Levee of the Female Benevolent Society on Wednesday evening last was a brilliant affair and must have given the utmost satisfaction to its managers and friends of this most excellent charity. The hall was well filled but not so crowded as to be uncomfortable and all seemed to enjoy themselves highly. The hall was beautifully and tastefully decorated particularly the Ice cream Saloons

LEWIS ALLEN, Esq., presided, and after announcing the object of the gathering and the claims of the Society t ogether with a programme of the arrangements for the evening, he introduced Rev. Mr. FIELD who read the Report drawn up by the Managers of the Society, which he accompanied with appropriate remarks. This Report gave a very interesting historical account of the Society, its former benefactors and modes of dispensing its benefits. It stated that its members and beneficiaries belonged to every religious denomination and expressed great confidence that its appeal now, as on all former occasions would be received by a generous response.

Dr. Andrew Nichols, was next introduced and entertained the audience with an address in which he tlemen from other towns are called upon to deliver them defind the term Charity in its cularged sense, with such appropriate illustrations as occurred to him. The address was interspersed with those impromptu metrical effusions in which the speaker is such an adept, and was listened to with much interest.

A. A. Abbott, Esq., was then called upon, and closstir up the deep fountains of feeling in favor of the class bly to the difficulty in obtaining the requisite informaof persons whose condition it was the province of the tion. The births, marriages and deaths in Danvers for Society to relieve. His manner was earnest and eloquent the three past years as returned, are as follows:and showed that his own feelings had become deeply enlisted in the topic of his address. The language was chaste and finished and the speaker was listened to with undivided attention.

Interspersed with these exercises, a select choir of singers performed some admirable glees and other peices of music under the direction of Mr. HUBBARD, accompanied on the piano by Miss Hood of Salem.

The Refreshment tables which presented a fine appearance were bountifully loaded with, a great variety and abundance of delicacies voluntarily contributed for the festival. These tempting viands were eagerly partaken of by the company while at the same time the Ice cream saloons were crowded with customers. The clerks at these establishments were busily employed in dealing out their luxnry and receiving the change, being very careful not to be beaten down in their price, but always ready to realize an advance when it was offered.

But the crowning attraction of the evening was the business at the Post Office. This establishment was continually thronged by applicants and for a long time every body seemed to find letters addressed to them from almost all parts of the world. Some of them contained remittances of money and others only a dun from some uneasy creditor. Much of the money enclosed was the emission of the old Farmers' Exchange Bank whose bills on that evening obtained very general circulation.-Some of the letters were from distant parts of the coun try, from the seat of war, from Europo, and one which we saw was post marked at Pekin in the Celestial Em- gate age 8,610; one hundred and fifty-eight widows;pire and was covered with strange looking Chinese hierotheir own full length portraits on the envelopes and others merely a profile in the enclosed sheet. One of the letters presented us to read was written in some unintelli- Cf the births, there were twins and triplets, gible lingo, neither French, Latin, Spanish or Greek, as the owner has not yet found any body learned enough to Of marriages, between bachelors and maids, translate it. Some of the letters were written in verse and were filled with soher reflections, sentiment and wit. We have heard the opinion expressed by those who have had experience in these matters that the letters Of deaths, there were by drowning, were superior to those asually received on such occasions. Some of them would be interesting in print and if any should come to us previous to Monday, which seem worthy of that distinction we may offer them in our next paper. We regret to learn that many were disappointed by not receiving their letters owing to the detention of

They were also treated to some good vocal and instrumental music and they patronized the Ice cream did belief that however much of the blood of John Bull

It gives us great pleasure to add as the result of this pleasant gathering that the receipts of the Society above extensively distributed democratic limbs gathered them- all expenses amounted to one hudnred and seven dollars. We hope also that so much interest has been created in the Society by the publicity which it has acquired by Weathermainbrace, going through in his several limbs the means of this festival, that the number of its active as many evolutions as the column of an army recovering and honorary members will be increased and thus perfrom a repulse, stood up before Ephraim an unbroken manently add to its usefulness. It has already done much to increase the comforts of the poor, having sent its thousands of dollars since its organization into numerons poverty stricken families and we hope it will be able to expand its field of operations for the future.

We ought to have mentioned that among the ornaments of the table, were several richly frosted loaves of cake, some of them bearing mottos in confectionary such as "Remember the Poor," "Chairity," "Benevolence," &c. At the close of the evening these were sold at Auction and bore a good price, to assist the receipts of the Society. We have not learnt exactly how much the Auction duty amounted to, which goes into the treasnry of the Commonwealth.

Temperance Lecture.

Another of the course of Lectures on Temperance, was delivered last Sunday evening in the 2d Universalist Church, by Rev. John Prince, to a very crowded audience. The Lecturer successfully combatted the opinion sometimes expressed that for a long period the cause had nade no real progress, and attributed the success it had met with entirely to the exertion of Moral power .-He considered the existing laws on the subject wholly nadequate to the suppression of the traffic, inasmuch as they are partial and strike at the branches and not at the root of the evil. He advocated the continuance of moral masion as the surest means of advancing the cause, and instead of alcohol by physicians, as almost necessary to adopted when our firemen are called out at night. accomplish a complete reform. He spoke in warm terms of eulogy of that sublime movement of the Washingtonions, by which so many had been raised from deep degradation and were now clothed in their right minds. While accompany great reformations and strong excitements, he held no sympathy with those who would throw odium on the originators and advocates of the cause for exhibiting a zeal not always tempered with the strictest prudence, but which has ample apology in the trying circumstances of temptation in which they have been placed. Instead of being taunted for their lack of learning, some of their public speakers deserve great praise for their power and natural eloquence exerted in a cause so holy Sons of Temperance and the Order of Rechabites as the aid that is required to the other. important aids to the cause and called for in the present stage of the reform.

This meagre outline only gives a sketch of some of discourse which was a very able and independent production. The very large audience and the close attention paid to the speaker shows that the interest awakened in this important subject has not abated, and suggests the wish that the Lectures may be continued even if gen-

ESSEX RAIL ROAD.

This road is now so nearly completed that the rails are laid all the distance from the tunnel to within a few rods of the station near Wallis St. The Depot building has been raised and boarded the present week. It is very extensive, and is provided with a turn table. We presume that the road will be opened for public travel next week if the weather in the mean time is favorab'e for the remaining work to be done. We will endeavor to keep our readers acquainted with its progress and the ceremonies at the opening of the road.

A GOOD SUGGESTION.

We see a suggestion in the Salem Register which recommends a revival of the good old custom of housekecpers placing a light in their windows at an alarm of suggested the substitution of some other remedial agent fire on dark nights. We hope to see this plan generally

PROTECTION FROM FIRE.

At this time of well founded alarm on account of incendiary attempts to set fire to buildings, we are glad to he was not murnindful of the minor errors which always learn that our Fire Wards in conjunction with the Salem Fire Department have mutually agreed on retaining, each a strong force at home at every case of fire, only allowing one or two Engines to leave town except in ex_ , reme cases of danger. Beside the feeling of protection this arrangement affords, it is due to the firemen that they should not unnecessarily be called to go out of town at every alarm, and each place is now so well provided with Engines, that a fire of moderate magnitude can usually be managed without much assistance from our and which commends itself so strongly to every benevo- neighbors. In cases where the danger of extending the lent heart. He considered the recent associations of the fire is great, either department will cheerfully give al

INCENDIARY FIRES IN SALEM. We learn from the Salem Gazette that an attempt was

made to fire the wood-shed attached to the dwelling of Mr. Walter Norris, on the corner of High and Summer streets, on Monday evening. A lot of dry chips and tween 11 and 12 o'clock, constable Adams, who is employed as a private watchman, discovered and extin-

On the same evening about ten o'clock, a large barn about half way down Bridge street, belonging to the estate of the late John Osgood, Esq. was set on fire, and consumed. It contained about ten tons of hay, belong ng to Mr. Jacoh Berry, and a few other articles, all of which were destroyed.

At about 12 o'clock, another barn, at Orne's Point, it North Salem, belonging to Mr. Henry Thompson, was set on fire and consumed. It contained no property.

About 8 o'clock, Thursday evening, a fire broke out in the woodhouse belouging to house No. 8, in Broad street, owned by Mr. Benjumin Cox, and occupied by Messrs E. B. Symonds and D. P. Grosvenor. The fire did not extend beyond the building in which it broke out the shell of which was preserved.

About 10 o'clock, the old work shop of Mr. Wm. Knowlton, Forrester street, was burnt.

ACCIDENT. Wordgret to learn that Mr. Stephen Peabody, a worthy mechanic of this town, was badly injured on Monday evening last, by being thrown from his wagon caused by its coming in contact with a heap of stones the Essex Railroad, on Central street,

Louisville Legion, to a friend in Kentucky, conveys a melancholy picture:.

"If you would witness wickedness and vice, drunkeness and all the vicious propensities of the human heart, it is that the Schools in other towns so much ex its and an the victous propersities of the hands have with which our What, I ask, can a teacher do with 90 scholars fallen nature is cursed, in their most odious colors, the American camp, I grieve to say, is the place where you has behold them. Full many a bright and promising youth, who looked forward to a life of usefulness and and, may I not say, by Committees, also, to roun, who howed forward to a first of usefulness good and as extensive results, as those teachers Sir I have observed in your Last Coppy at of A flying Roomer of A William Daws
I would thank you Sir if you would take such unprincipled materials.

FOR THE COURIER.

Mr. Polk's Bridge of Sighs. [After Thomas Hood.]

One more Unfortunate, Weary of hreath, Rashly importunate, Gone to his death.

From his high station, Dashed with a stroke, Unmourned by the nation Perish'd poor Polk.

Up to that eminence, Raised by false evidence. Escaping detection:-Falsity weaving. Basely deceiving. The trusting, believing Friends of protection.

Walker's "ad valorem" Cast a spell o'er him Amid the rough strife:-Then for his pleasure, he Made the Sub Treasury Cost him his life!

Fostered in Slavery Lynch law and knavery-Extending the cursc; Draining, for bravery, The national purse.

Panting for glory Extending domain, With footsteps all gory Conquest t o gain .-

Banners are streaming. Bayonets gleaming. At Monterey's strife: Cannon balls bounding. Trumpets are sounding. Woman's voice drowning The screams of the fife.

Hear her wild wailing When madly assailing The homes of her land;-"Human flesh traders! Ruthless invaders !-Stay the red brand."

Let us judge kindly The deeds of poor Polk-Looking on blindly, His sins we may cloak;-Loving, not scorning:-Hide the disgrace of him. Look on the Jace of him, Only in warning.

Trembling and shivering, Seek for delivering, Casting-vote Dalla Look at the state of him. Warn'd by the fate of him, As hy a Gallows.

Buchannan and Mason ! Put your best face on; Humbly, with meekness,-Look at the lips of him, Then for the slips of him. Pity his weakness.

Renton and Case ! Make no dup scrutiny Into his mutiny, Fatal, alas! His was the daring of it. Yuars was the sharing of it, Let her erimes pass.

Old Father Richie too, Come with a twich or two, Thy conscience hald bare ;-Write his life's history, Shorn of all mystery
With a warning—BEWARE.

> FOR THE COURTER. PUBLIC SCHOOLS.

MR. EDITOR .- Will you permit me to suggest a few thoughts to the readers of the "Courier," upon the wants

During the past year, the good people have built for atrocitities attending upon the campaign are increasing in themselves two noble monuments, the two School houses violence, and the work of demoralization is going on. in Districts No 1 and No 11. These stand as tangible Provoked at the frequent outrages of the Mexicans in evidences of their good taste. But I presume all are amurdering every struggler from the camp, retribution ware, thar something besides houses,-however beautifu be had commenced among the troops of the United States, they may be-is necessary to make a good school. In these times of competition, when men of respectable the salary of Male teachers is \$1500 a year, in Lowell, singe thon our heary heads, we can but plunge at

> But how is it with us? In the first place but one of under our eye, youth and manhood, strength and our teachers receives more than \$500, salary, and even tellect, have flourished and decayed. Alas! for school in No 1, numbers between 90 and 100, with no which gem the eye-lids of the morning. We aried

other places have from one to three assistants principal. The question naturally arises, wh

Lyan, with a valuation of \$1,319,456, rais As the only mode of stopping the slaughter which was for the support of her Schools; while Dauver same purpose; Chelsea, valued at \$695,781, ates \$5,400 for Schools, which is about 8-10 The following extract of a letter from an officer of the while Danvers raises but a trifle more then cent, of the amount of her valuation, Lynn ap 1-2 per cent, of her valuation. Do we not the one to help him? How much or how thereu had all the assistance they might wish.

Should we raise our appropriation from 1-4 t cents of our valuation, we should then have al 500 to expend, instead of \$5000 as we now have

FOR THE COM A VOICE FROM THE OLD BUTTON W "The secret tone Drawn from ancestral trees, for they have vall their own.—Mrs. HEMANS.

Mr. Editor—Seated in my great arm-chair chamber window, which, like Pilgrim's char Peace, opens opposite the sun's rising, I had been the sun's rising to that professional and the sun's rising to the sun's rising to the professional and the sun's rising to the professional and the sun's rising to the professional and the sun's rising to the sun by candle-light over the Essays' of that profoun nal thinker, the Rev. John Foster, till the clumbered the hours of twelve and one. Wearifollowing the author through his newly discove untrodden regions of thought, (for whose reads hours his passage) I closed the book, and throw self buck in the chair endeavored to extinct the content of the content self back in the chair, endeavored to review in mind the ideas which had already been brough me.—Suddenly a noise from without, resembling off roll of departing thunder, or the solemn true army of earthquakes, startled me from my cog Rising, I threw up the window, but all was st hush of death.

hush of death.

The rude winds, after howling all day long fro till eve like frenzied spirits from the nether we retired to their durk mansions in the clouds, which away, leaving the blue infinite thickly studd gems that burned like seraphs' eyes, as if the Life which stands fast by the Throne of God, he is dismonal blaceous wear the gravel floor of its diamond blossoms upon the crystal floor of and the full orbed moon, her face filled with ho was turning her silent wheel to the chambers west, like the car of an ancient divinity. Think self deceived, I was about to retire, when a sou the rustling wings of a band of angels descen earth, caught my ear and soon a voice issuing for of those sturdy old sky-climbers, yelept Buttonwhich stand as everlasting sentinels on our stree addressed his fellow monarchs of the forest:

"Most royal companions of the wood!" words each respective tree bowed gracefully-l crest midway to the earth, and prepared to give a to the speaker, who then proceeded.] 'My her yeth me at this solemn hour, of Night's black a keystone,' when deep slumber hath fallen upon of mortals, to break the death-like silence that re round us, and address to you a few words upon o history, our present condition, and our future pros

Nearly a century ago, when we were mere be saplings, we were torn from kindred, friends and by the self-styled lords of creation, and planted flourish or to fade, as the great Father of all sh pleased to ordain. For a short season we were re with peculiar interest, and many a compliment symmetry and beauty was paid us by the passers But us we increased in strength and stature, as to our innate impulses, aspired to hold communi the skies, men began to look upon us, first with

ence, then with scorn and contempt, and finally proach us with contamelious epithets, as Aris having no sympathy with our younger brethren soil; Men-of-me-idea, ever bent on scaling the h Pharisees, that love the appormost scats in the Synagogne of Nature; Napoleons n ambition; rands in politics; and Cynics in philosophy, were things hard indeed to be burne by Nature trious Noblemen! [Here, another majestic wa companied with the exclamation, Hear! Hear! were but the mere sucezings of musqueton nestle in our branches of a summer's eve, compare what we have had to endure. Seventy winter discharged their magazines of eye-blinding sle skin-bridsing hall upon our unsheltered heads.

The fierce Thumler-god also, his tall brow with the wings of the storm, and his giant form w in gory sheets of lightning, buth at times summon his dusky legions from their Cimmerian caves pitching their sable tents in the heavens, have sho upon us the red-winged bolts of his ire.

Nor is this all. 'The demon of Disease, a few

"Like some foul fiend, by Eblis sent To spread hell's blast where'er he went,'' came forth with a special commission to annihila race and unfurling his wings in the breeze, swe the whole country, impregnating the atmosphere subtle poisonous anra, that struck death to our vi Many of our noble kinsmen, the pride and glary land, bowed down their time-honored heads before fell destroyer, and sunk to rise no more; whilst reduced almost to skuletons; are still lingering out a ful existence, resembling more the ghosts of former erations in the kingdom of Death, than the lord! of the forest that they once were. Their dying fill the land, for still does this fierce Fee lining of broken rear.'

Again, man, the pigmy lord of creation, ever-of our growing power, and witnessing with fiendi the dreadful staughter of our ranks, like the ignoble who threw his beels in the face of the old dying has lifted his peny arm to complete our externing the lifted his peny arm to complete our externing the lifted his departed shade!) who dwelt mearest the Cowhose undending principles, strong heart, and we character, made him the ornament of our race, he neath the attack of a ruthless hand of ruthins, and my the ghost. His full was a rubout statement. neath the attack of a ruthless band of ruthlans, also up the ghost. His fall was as when a 'standard-fainteth.' [Here deep grouns, and long drawn convulsed the pensive listeners.]

But, companions in tribulation, let us not give y despondency. Morning is led up by Night, and like the rainbow, is horn in tears.

What though, like the descendants of the pat Abraham, we have been taken from the land of or livity and scattered among all patients.

tivity and scattered among all nations, yet have we them, also preserved distinct our nationality. And though Disease has struck down some of our mon we have yet the flower of our strength left, and s we present a bold front to the enemy. Soon Spring be here, with her life-reviving gales, to recruit ou hausted energies, and brace up our nerveless limbs. We have lived too long—witnessed too many cha

and withstood the shock of too many hyperborean c es, to give up in despair now.

Did not the toesin of war once people the air aroun with echoes? But where now are the red-war whose deadly shafts hurtled beneath our branches? We have seen earthly temples rise and fall, and funeral processions of two generations wind their

He was mild as the star of evening, meek as the

s in Salem and worn with midnight vigils, Thought fluttered like a sick bird' over his heart's deep urn, and Imagination, returning from her flight among the stars, folded up her rainbow wing exhausted. He died like the Persian rose, nts to aid the why do we e not offord i whose fragrance is its epitaph, and passed from earth like a tone of music.

There have been tours and breaking hearts for thee, this for a way.

And mine ware nothing had I such to give.'
But still do me stand, brethren, unmaved by the assaults

to anoint a king over them," they, p ssing by the Olive, the Fig and the Bramble, shall say with united voice—

Batton-Wood, Come than and reign over us.' Let m spain of bitternes' springing up trouble us, or cause each to say to his brother, as did Abraham to Lot-

Separate these's I provides has four me.' But firm and united, let us held fast, like Job, our integrity, and maintain our independence, while floree Orion halds his nr-

moved with indignation at the resident out wrongs, have seized the langs which been before his everlasting Throne, and leaping the crystal battlements of heaven, are coming down to our resene."

At this bold struke of the artior's elequence, a hurst

of applause went up from the whole group of Inton-Woods, like the shout of a nation, which rolled its echoes along the hanks of that river of stars that girdles the

heavens, and shook in their coffins the sleeping tenants

of the neighboring tambs.

or the neighboring tamps.

String up, I found toyself in hed, with mock Dian glouning full upon my face, and balo at my elbow straining her little lungs to their utmost tension.

We have received a long communication upon the

following subject, but must defer it to our next as it was

DANVERS AND READING ROAD.

Mr. Editor—Why did not your correspondent on the above road, state that it was a read to Lowell instead of

to Reading, and one which if chartered will be in direct violation of the charter of the Lowell and Buston Road, and one which that Road will oppose with its numest power? There can be no prospect of the road heing obtained under the opposition it will meet with or built if charter-

concerned will be to gratify the Eastern Railroad by our division and to defeat the project for a ruad to Malden.—
The remark of a friend of the Reading (?) project is too true that if the people of Danvers are decided they will

gut neither. Let people be cantions before they countenance this disorganizing project. Danvers.

efforts in favor of the one that is most feasible, and most

likely to be completed when chartered. We have al-

ready two charterest roads through our place, with little

SYLVANUS DODGE, P. M. AMPORTANT FROM CONGRESS.

The proceedings in Congress, within the few days past, have been of the highest importance. The plans of the administration are haffled, in every direction, by its own partisans. The Tea and Coffee Tx, which the Secretary of the Treasury stated to be indispensible in order to chain a loan for carrying on the war, has been voted dawn, by a vote of 115 to 48. The project to establish a military dictatorship, under the style of Lieut General, has been laughed and sconted out of the Hause, by all parties.

JAMES FREDERICK FOSTER

JAMES FREDERICK FOSTER
Continues to manufacture all the various approved
TRUSSES, at his Old Stand, No. 305 (opposite No. 264)
Washington street, entrance in Temple Avenue, Boston
where he has been for the last ten years—and his residence; and business being both in the same building, he
can be seen at home nearly the whole of the time, day or
evening. He has more room and better conveniences for
the Truss business than any other person engaged in it
in this city or any other.

Also—Aldominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back
Boards, Steel Shoes, for deformed feet. Trusses repaired
at one hour's notice, and made to answer oftentimes as well
as new. The subscriber having worn a Truss himself 25

Boards, Steel Shoes, for deformed lect. I russes repaired at one hour's notice, and made to answer oftentimes as well at one hour's notice, and made to answer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may came to him-Convex Spiral Trusses, Dr. Chase's Trusses, firmerly sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Read's Spira Truss; Rundell's du; Salmon's Ball and Socket; Skerman's patent French do; Bateman's do, double and single Stone's Trusses; also, Trusses for children, of all sizse Dr. Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss, Thompson's Kachet Truss, and the Shakers' Rocking Trusses, uny be had at this establishment. Whispering Tubes and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroline D. Foster, who has had ten years experience in the business.

CERTIFICATES.

From Dr. John C. Warren, of Boston.

CERTIFICATES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons at flicted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. V. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

The wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Bostom.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robhus, Roxhury.

Since the death of Mr. John Beath, Phave used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D.

Boston, April 27th, 18-16.

The undersigned is familiar with the ability of Mr. J. F. Fester, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

bly compare with that of other artists.

J. V. C. SMITH,

Editor of the Boston Medical and Surgical Journal. SUPERIOR SHOE BLACKING.

EMP & KNIGHT'S Liquid Ivory Jet Blacking, an American article of superior quality said to surpass the far-famed Day & Martin's.

MECHANICAL AND DENTAL

SURGERY.

Teeth at Cost, until Mich. 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing utpre extensively in many important respects, an entire new mode of preparing and mounting Mincral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such termy for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opertually for the poorer classes, wause means are too limited to pay the usual price demanded. The new principle is not only applicable to small creases two or more teeth, but is peculiarly and especially addited to whole and half sots, where the alveolar or dental right has become unover and irregular, by the absorbing of so ne parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the checks and lips to their natural and unitation form folliness. The difficulties to be overcome in whole and half sots, so far as the proper form is continued.

Yours respectfully,

The same they are seed another lot immediately. The same they are seed another lot immediately. The same they are seed another lot immediately. The same they are seed and the corraine's vegetable Pills is rapidly on the increase they are seed another lot immediately. The same they are seed and they are seed and the two respectively and expectably and expectably and expectably and they are seed and the two removes of the blood, I think they stand unrivalled. On fact I have noticed, that no one that has used them into the part of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which here is the proper form is considered to the checks and lips to their natural and unitation of the press of the author—Promets by Mire P. S. Osgood—arized they are the seed of the manufacture of the press, the author of the press, the author of the manufacture of the manuf opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved work,—and one of grea importance too, is its cleanliness. Unless the treth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth the customary rates. should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets;

R. L. CHANDLER is Agent for the follow scriptions, and would respectfully solicit sub scriptions:

Graham's Monthly Magazine

Godey's Lady's Book

Goldery's Lady's Book

Godey's Lady's Book for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased
with close imitations of nature, and would inspire a
confidence in their merits, that the wearing of them
would only tend to strengthen.

TERMS. Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a whole set, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warn with refunded. Old plate work that has been warn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches o Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For setting on gold nivot, \$2; For Cleansing, \$2; Extracting ting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper

Carved work in block for whele and half sets wil be got up for other dentists on reasonable terms. S. STOCKING, Surgeon Bentist. Aug. 15.

THE ESTRAY.—A new collection of Poems, by Longfellow, just published, and for sale by jan 2 GEORGE CREAMER.

LORRAINE'S PILLS. All persons require Facts.

Remember in all cases that you are not deceived by thing that appear to be facts.

EMER also, that, Lorraine's Vegetable
Pills have in their composition two of the most
valuable medicines in the world, viz: Sarsaparilla and
Tomatoes. These two articles need no praise, neith
er do the celebrated Lorraine' Pills, when they have

once been taken.

Physiciaus, and people of every class are willing o come forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In

act there can be no doubt but that Lorraine's veg-table Pills is the best medicine ever offered to the Sec. a few public statements of men o f truth adve-

A hacking cough constantly annoyed me! Boston, Mass., June 1st; 1844

Sir,-In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and , combined with my other maladies, rendered me ruly miserable, as everybody told me that I was in a consumption. Since, I have taken Lorraine's Pills and now every body tells me that I am well;—I feel as well as ever I did.

J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Str: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we could have quite a number of highly respectable cer ficates from our citizens.

Respectfully yours,

E. MASON.

Chelsea. Jan. 3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physiciens of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtues of Larraine's Pills, I had no faith whatever but 1 took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since.

N. B. I never took more than one pill at a time and that on going to bed.

ding to bed.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I tried LORRAINE'S VEGETABLE PLASS which tried LORRAINE'S VEGETABLE PILLS, which gave mmediate relief, and have entirely cured me.
Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

"A severe pain, in both sides cured!! Lowell , Mass.,)

April 20th 1944.

Sir,—For the last few months I have been afflice Sir,—For the last lew months I have been danced ad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to tay that I was cured immediately upon taking one dose of Dr Lorraine's Pills, J. BROOKS.

Sir. I could (1) the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present l omit more.

New England Office and General Depot, No 10 Brattle Square, Boston.

Sir; I have sold all the pills I last had of you

Doctrn.

Dreams are for Children, not for Men ! "I write unto you, young men." [John. Ye are not strong as you should be, Nor fearless in the cause of Right; The ray received from Deity Sheds not abroad its holy light; And while a glorious trust you bear, Ye soem but creoping children, when Nerved by a high, resolving care, You should be vigorous, working men!

Untouched as yet by weakening years, And giants if ye bend the will, Why be the slaves of case and fears, And shrink when Duty cries-Fulfil? Where is the culm, stern aim of lile, The love of Right, and hate of Wrong? Why this withholding from the strife, When Truth is calling for the strong?

Deem it ignoble thus to live Inactive while there's work to do; To Truth the earnest efforts give Of Tolents God has given you; Drug not the Soul with Pleasure, when Full armed and luboring it should be-Dreams are for children, not for men-They tell not on eternity!

Up! theu, each slumbering one, and forth Where'er the gloom of Error lies; 'Cry, "God and Truth!" and thus give birth To one more star in midnight skies: E'en though at first it flickering burn, 'Twill steadier grow from loftier aim, And if one Soul toward it turn, Earth will be brighter by its flame!

> STARLIGHT MUSINGS. BY T. GREGG.

May it not be that each bright star That sparkles in the vault of Heaven, When sunset's glories fade away, And night's dark robe to earth is given-Is some bright Augel's place of rest-Some kindred spirit's home to bliss-Whonco it looks down supremely blest, On friends it may have left in this.

If so, dear Sister, which bright orb Hast thou for thy fair dwelling place ? Tell me which star is thy loved home, That I may gaze upon thy face? And as I watch its sparkling light, Reflecting from night's encopy, May know the pure and rich delight Of gazing ever up to thee?

Miscellany.

To be as brief as possible upon the astronomical

History of Astronomy.

knowledge of this great philosopher, ho knew, Ist. the principal constellations. These, as we have already hinted, began to be formed in the early ages of the world Several of them, bearing the same name by which they are now known, are mentioned by the old Poets; and the sweet influence of the Pleiades, and the "bands of Texas. Orion," are beautifully alluded to in the book of Joh. 2d. Pythagoras knew both the causes and how to calcupate eclipses;-not indeed in the accurate manner in which it is now done, but by the "Saros" before mentioned. 3d. He had divined the true system of the world, hold in the water, served better to stem the current than holding that the Sun, and not the Earth, is the centre around which the planets revolvo, and that the stars are so many suns to other systems like our own. He also held that the Earth turned daily upon its axis, and revolved yearly around the Sun; and that it is the same luminary that constitutes both the morning and evening derous appetite as a sportsman. The dawn had long I employed many men at the enormous wages of the star. He supposed the planets were inhabited and even since passed, but nature appeared yet asleep, so calm, south. Two misfortunes, however, now clouded my went so far, as to calculate the size of some of the ani- so still was that almost untrodden spot. Gliding swiftly felicity; both attributable, I fear, to my desire for inde-

tion, but he also conceived the sublime idea, that the forward, to the right and to the left, perfectly unruffled, a Christian: but I felt it sorely. He only who has seen that was done already.' The slightly heightened color planets, in their unvarying rounds, moved in concert and fur not so much as a blade of grass or a leaf was stirring wife or child removed from him by death, can estimate of the mailen was her only answer, and at that moment made all heaven vocal with the music of the Gods. He on the shore. Here and there rose huge trunks of trees, supposed that they were arranged at distances corres- borne from above by the almost periodical immdations, worked mechanically, but no more did her cheerful pickaninnies were standing. I ate, I drank; ah, sir! it hearty, and showed their white teeth merrily.

man, but only to the Gods.

The views of this philosopher, notwithstanding his wild notions and fanciful vagaries, were in the main correct. And yet so closely wrapt were the ancients in the darkness, and imbued with the ignorance of their times, that these noble truths were reguliated by astronomers and cast into the forgetfulness of the past. They were rejected by Aristottle, and most of his successors down to the time of Copernicus; and in their place, was substituted the absurd notion of crystallino spheres, first

taught by Eudaxus, who lived about 370 years B. C. Says Prof. Olmsted, "according to this system tho heavenly bodies are set like gens in hollow solid orbs, composed of crystals so transparent, that no anterior orb obstructs in the least the view of any of the orbs that lie behind it. The Sun and the planets have oneb its separate orb, but the fixed stars are all set in the same grand orb; and beyond this is another still, the primum mubile, which revolves daily from east to west, and carries along with it all the other orbs. Above the whole sproads the grand empyrean, or third heavens, the abode of perpetual serenity." To account for the variations in the motions of some of the planets, they supposed that each moved in a circle of its own while it was carried along with the other planets in its daily course aits residence in the planet to which it belonged.

school which for centuries was the the seat of nearly all the learning in the world, -the school of the Ptolemies. When at the division of Alexander's empire, Egypt fell to Ptolemy Lagus and his successors, these princes, inspired with a laudable zeal to make their capitol the centre of the scientific world, collected around them the wisest men of the age, and spared no pains or expense in philosophical research. In wandering over the vast desert of the ignorance and superstition of ancient times, which covered almost the entire face of the earth, the eye rests upon this sunny spot-this bright easis,-as upon a verdant isle in a durk stormy ocean. Among the choice productions of this school, we find some of the brightest ornaments which have ever decked the fair halls of Science. Of these, Hipparchus and Ptolemy years B. C., has been called the father of Astronomy;and itis probably true, that by his labors were laid the Hipparchus invented instruments for the measurement of angles, so necessary to accurate astronomical observa-

Up to the christian era, no complete system of astronomy had been composed. Individual philosophers had their peculiar views, but they were not digested into any thing like a system. It remained for Ptolomy to he digested from this beterogenous mass, a system of He repuliated the doctrine of Pythagoras as contrary to the senses .- placed the earth in the centre of the heav-Again the heavens were loaded with spheres, -again stars were harried upon their unending course with the rapidity of thought. X. Y. Z.

The Blind Squatter. BY PERCY B. ST. JOHN.

Nearly four hundred miles up the Trinity river, Texas, it the extreme point to which the flat-bottom steamboats run up in search of cotton and other productions is Robgroves of somewhat stunted trees run down to the very into a broad and shallow lake, the shores of which are low, and even unsightly, as is generally the case in

We arrived at a landing-place three miles below the junction of the lake and river late one night, and early stream in a light bark canoe, which, having but a slight one of larger dimensions. For some time I continued within the shadows of the cliffs in comparative gloom; but, after a somewhat fatigning hour, my eye first caught New Orleans was a money-making, busy place, and glimpse of the shallow lake, where I hoped to find sufficient abundance of wild-fowl to glut my most murout of the influence of the current, I allowed my cance pendence. The south did not agree with my wife, and Pythagoras was an ardent admirer of music. He not to stand motionless, while I gazed around. Far as the ere I could restore her to a genial climate, she died .-

before I was perceived, as, the better to deceive them, I lay almost on my face at last, and paddled with my my feet, crack! crack! went the two barrels of a fowlidea of Indians crossed my brain. I could, however, ound the earth, -and Aristottle supposed these individ- peculiar report, while it was clear the ducks had been with safety, into the woods. ual motions were regulated by a tutelary spirit, that had the object nimed at. Still, the proximity of the lead to wounded you, sir? Come in, and I will explain this for a backwood's dwelling.

accident. side the sportsman. I at once saw that he was blind.— Nearly six feet high, thin, even gaunt, he presented a most remarkable appearance. Clothed in the ordinary ton of antiquity. Previous to his time all celestial ob- would explain to me how you are here alone, and how, servations had been made with the unassisted eye, but being here, you are thus employed, you will assuage a countrymen; in a strange land it makes us brothers.'

ly by his side. Closing his eyes, from habit, as if to read astronomy, comprised in thirteen volumes, which for the past, he was silout for a few moments. My name 1400 years was the only text book in usc. No book, if is Compbell, he said at length, without farther preface, ugo as you may think, I received an offer to go to New ens, and set sun and planets again upon their daily jonr- of mine. Poor Ellen! I could not go without her, and voice was heard carolling a merry ditty. ney to pay obeisance to this little mundane speck .- yet it was, they said, owre young to marry. Still the offer was good, and rather than I should lose the opporcircle upon circle cut the aerial vault, and the far-off tunity of advancing myself, they all consented that it but I see her mother before me.' should be a wedding. The day after our happy union we sailed for the far west.

'Wo reached New York in safety; I entered upon my employment with a firm and settled determination to secure, if not farture, at least competence. Wages were in those days very high; I was a good workman; my master had confidence in me, and hesides my wages as ourneyman, paid me a salary as his foreman and clerk. As determined to lose no opportunity of advancement, hins' Ferry. Below, the river is narrow, with high I kept all his books after my regular day's work was steen banks, within the deep shadow of which the wa- done. I saved more than half my earnings, and was as ters roll noisolessly and swiftly towards the ocean, while happy, I believe, as an industrious honest man can be; and if he, sir, cannot be happy, I know not who can.' edge of the cliffs: here, however, the stream expands 'You are right,' said I; an honest, sober, industrious workingman, with ample employment, respected by his masters, with a little family around him, should be the happiest of erented beings. His wants are all supplied. without the cares and troubles of wealth.' So it was with me; I was very happy. At the end of ten years the following morning I was paddling up against the I had saved a large sum, and then, and only then, my wife presented me with my first and only child.

With the consent, and by the advice even of my employers, who had my true interests at heart, I determined to start in business for myself; hat not in New York. great; my own workmanship was eagerly bought up, and imagined them as pursuing their sublime march to notes ary, until time or decay removed them by degrees from was then I missed her; at the morning meal, at dinner, created by their own harmonious movements, called the their resting-place. Snags were visible all around, over the tea board. As my eye rested on the empty Texas, superabundantly furnished. Comfort was every—man's earthly miseries—charity which is not a charity, and showed them to claim, and which is looked upon as the lowest of man's carthly miseries—charity which is not a charity, and showed them to claim, and which is looked upon as the lowest of man's carthly miseries—charity which is not a charity,

"music of the spheres;" but that this music, though while a low bushy island lay about a quarter of a mile | chair on the opposite side of my little table. I could where, and abundance. The foresail and main- the Trinity, and once more enjay haspitality at the table York. I was engaged to be married to a sweet cousin sail concealed its occupant; but presently a melodious of the BLIND SQUATTER.

'There is my child,' said Campbell, his voice hushed to a whisper: 'there is my child. I never hear her sing

'Well, father,' eried Nelly, taking in her little sail; 'no ducks for mo to pick up? not one. You are unlucky this morning.

At this moment she caught sight of my naval uniform, and stopped short. 'This gentloman was kind enough to pick them up for me, and you must give him a seat in

Nelly approached. Though tanned by the sun, one could see the blue-eyed Scatch girl in her. Light carls feil from beneath a vast straw-hat over her shoulders, while a simple fur pelisse, and buckskin moccasons, with red worsted stockings, was all her visible attire. But never had I seen mything more graceful or more elegant. A woman, and yet a girl, she had evidently the feelings of the first, with the joyous artlessness of the second. We were friends directly, while I mentally compared her with my interesting Irish friends Mary Rock and her sister.

In a few minutes more we were sailing for the shere, and in a quarter of an hour were in sight of New Edmburgh. To my surprise I discovered a substantial log-hut several outhouses, Indian cornfields, while pumpkins, &c. flourished around in abundance. Two cows were grazing in the neighborhood; as many horses were near them; while pigs and fowls were scattered in all directhither I removed. My success was unexpectedly tions. I was amazed, the blind Scotchman's industry was so novel in Texas. I expressed my surprise .-Eight years of perseverance can do much,' said Campbell quietly: thank heaven I am very happy, and my Nelly will not be left a beggar.' But you must find her a steady, hard-working young fellow for a husband, replied, I, 'to preserve all this.' 'I think,' said he, smionly gave it a conspicuous place in his system of educa- eye could reach, spread a perfect wilderness of waters, Sir, my sorrow was the sorrow, I hope, of a man and ling, if you were to ask Nelly, she would tell you that my feelings. Existence for a time was a blank. I we reached the landing, where the negro couple and their

wants with a care and watchfulness which was dolightand glided noiselessly towards the little island above al- time, she brought back some glimpse of joy to my soul. ful to behold. She anticipated all his desires, her whole One morning, I awoke with a peculiar sensation at soul being seemingly beat to give him pleasure. Sho My progress was rapid, but not a sound could have my heart-I had caught the yollow-fever. I will not de. was, in fact, more like a mother with a child, than a been detected by any save un aboriginal. The bovy of tail the history of this illness. Suffice, that it was three daughter with a futher in the prime of life. Breakfast

> The routine of the day was simple enough, as they explained to me. The negraes, overloked by the father and daughter, worked in the fields from dawn until six in the evening, the father fushioning some rural implemont, an axe or plough handle, while the daughter plied half-past eleven, and supped at six: after this last meal library was good, including several standard works, and the first two volumes of 'The Family Magazine.'

> Campbell went out into the air after a while to talk to the negroes, and I was left alone with Nelly. I took advuutage of his absence to learn more of her character.--Never was I more delighted. Not a regret, not a wish for the busy world of which she read so much; while it was quite clear to me that her lover, whoever he was, had only succeeded by promising to reside with the father. To leave her blind parent seemed to her one of those impossibilities which scarcely even suggested itself to her mind. Yes! Nelly Campbell was a sweet creature, perhaps the only truly romantic recollection I bero with me from Texas.

I remained with them all day; I visited their whole farm; I examined Nelly's favorite retreat, in a grove at the rear of the house, and then I left them. We parted with a regret which was mutual; a regret which, strange to say, was quito painful on my side, and I never saw them again. Still I did not lose sight of them. I always wrote by the steamer to Nelly; and many a long letter did I obtain in reply. More and more did I discover that she was a daughter only, and that even a husband must for a time hold a second place in her heart. At length she wrote-'And now, sir, I am married, and I am very happy, though I almost sometimes regret the step, as I can no longer give my whole time to my dear blind futher. He is, however, so happy himself, that I must re_ sign myself to be less his nurse, especially as the only quarrel John and I ever have, is as to who shall wait on him. If he has lost part of his daughter, he has found a son.' This picture of happiness made me thoughtful and I owned that, great as is the blessing of civilization in the woods. Though I am a strong lover of mankind, and wish to be among them, and to enjoy the advantages of civilization, yet do I think, if I were an old blind man, I would be backwood squatter, with a daughter such as Nelly.

I heard no more from them, as I soon after returned to England, and the busy life of the world and other avo-

Help to one Another.

It is one of the chief beauties of 'secret' associations that the hand of charity is not stayed in afflictions and distress. When we look around us and observe the many cases of destitution and want, who can but feel for the sufferers, and deplore the coldness and selfishness of society. Those of us who are compelled to toil and sweat all our days for a bare sustenance for ourselves and families, when overtaken by misfortune and siekness, can well appreciate the blessings which accrue from having a place to look to, to alleviate, in a measure, the wants forced upon us by the common attendants of humanity. However many friends we may have, and rue ones, too, we cannot open to them our wants, neither can we, without feeling in some degree beholden, accept, if proffered us, the charitable mite; -but when connected with a body whose duty it is to look after and administer to affliction, not only the wherewith to proteet it from want, but the consoling words, the faithful attendance and the patient and watchful care, we are enjoying a blessing which aside from this the cold charity of the world is not capable of offering. What a picture of brotherly love presents itself to our view when we enter the chamber of a sick brother, and there behold, surrounding the bed-side of the putient sufferer, a band of those who have sworn to look after the welfare of their brother man, offering to him all they are capable of offering, to soften the pangs of his disease. And if, perchance, he should fall a victim to the grim monster, death, these same hands that have sustained and soothed him in sickness, are not idle until his body is properly consigned to the earth, and they have paid him the last tribute of respect which he could receive. Nor does their duty cease here, his children are provided for, and his family kept from suffering. "Sure there is need of social intercourse,

Benevolence and peace, and mortal aid.

Charity is the great end at which these associations aim-charity without the humility of turning to the cold and heartless world for that which we have no right by

with all the virtues-all the benefits of charity without any of its attendant evils.

Why it is, then, that these institutions are spoken of with so much animadversion, by a portion of the community? Were there not another charitable feature in their government, this would be sufficient to ensure for them the approbation of every true philanthropic heart. When we see opportunities like the present offer themselves, where men can be secure from want in case of misfortune, and yet see so few take advantage of it, we cannot extend to them that sympathy that we should be forced to give, were these means without their reach.

Danvers Courier.

SATURDAY MORNING. JAN. 16, 1847.

SHOE AND LEATHER TRADE.

The present favorable indications of a revival in this branch of business, to which the interests of Danvers have long been wedded, and to the prosperity of which must be attributed much of her present large accumulation of wealth, and from which she expects to receive still greater benefits, should be gratifying to every citizen.

We are informed that sales have recently been made in Boston at an advance of from 1 to 11-2 cents per pound for leather and a corresponding or larger advance in the price of hides. Sales have been made of Buenos Ayres hides at 121-2 cents per pound, eash. This is said to be as high as any sales for two or three years .-It is certain that the present prices for hides cannot decline under existing circumstances.

During the past year, several merchants who formerly imported extensively, have abandoned entirely all trade in hides, so that the importation has diminished in the last year from that of the previous year, at the least estimate one half. Besides the blockade of Buenos Ayres has cut off almost entirely all intercourse with that port at least has rendered it extremely hazardons, and from this place there have usually been large eargoes imported to this country. In fact it is now well understood by wholesale dealers, that the stock of hides and leather in the market at present is extremely small, and will not soon be materially increased.

But notwithstanding the active demand for hides we are informed that the price of leather is not yet sufficiently advanced to afford a living compensation for tanning. We may however confidently expect that there will soon be a different state of things. For many mouths the larger manufactories have limited their operations to a very narrow compass, and many of them as well as the smaller tanneries have been compelled to discontinuo entirely all business; consequently the amount of leather manufactured, has been but a moiety, compared with some of the previous years. Besides this, there has been an essential decrease in the importation of manufactured leather during the past year, into New York and Boston, and an increase of exportation, making in the aggregate, a diminution of three hundred sides in the home market.

However tempting may be the inducement to emigrate East or West on account of some superior facilities for tanning, it may well be questioned whether any ultimate advantage can be secured, as there are sufficient disadvantages to counterbalance much that is gained, at least Danvers need not fear much at present from such com petition.

red that an improvement is soon to take place, whether it will be of a permanent or mere temporary nature remains to be seen. One thing however may be relied on, Osborne and E. W. Upton, of this town; Messrs Breed, and that is, that if the abuses must again necessarily be Webster, and Dr. Nye, of Lynn; Edward Pranker, tolerated of over-doing and half-doing, then it will be Esq. of Saugus. subject to the same fluctuating ebb and flow, and those who risk their means in the business must submit to the same disastrous results. We trust however, that past

shoe-manufacture, and nearly related too is Danvers with this branch of mechanical enterprise. We are informed that good encouragement is now given of an imbranch of industry by a constant and steady demand for the Southern market, although there is no essential advance in prices:

We apprehend that among the many attributable caucauses for the prostration of shoe-manufacturing, there causes for the prostration of shoe-manufacturing, there has been no more fruitful source of evil than that of over-doing, or as familiarly termed, "glutting the market."

Malden to Boston, is an unwarrantable attempt to deprive the citizens of Danvers and other towns, of what their names misunderstandingly as some have already prive the citizens of Danvers and other towns, of what their names misunderstandingly as some have already done.

T. being no foreign market to which the surplus can be transferred

But after all it is to our minds a matter of doubt whether the present system of trade will secure to capital even in a prosperous condition of the Shoe and Leather manufacture any material increase in the end. We hazard nothing in saying that the existing ercdit system has been the prolific source, indeed the parent of two thirds of the bankruptcies in our community. The wholesale dealer buys his hides of the unporter on credit. The tanner buys of the wholesale dealer his necessary supply on credit. The shoe-manufacturer buys of the tanner his stock of leather on credit, and finally the Southern S. Poor. shoe-dcaler imbibes enough of Northern principles to buy from the manufacturer on time,—alias slow notes, the payment of some of which we fear is postponed to eternity. The Southern shoe-dealer however generally reduces his stock to cash.

Thus it will be seen that these branches are mutually dependent upon each other, and all of them dependent upon nothing tangible, or what is synonymous,—"a promise to pay," and how often does it prove a most unwelcome and disastrous "breach of promise."

We trust however, that a revolution will take place in this unsafe system of traffic, which might be easily and possibly it might have the effect to discourage many attempts to obtain stock by worthless and dishonest indi-

and costly manner, and can but express our approbation ruary—unlucky month. Our national political day be

F ESSEX RAIL ROAD.

The large building intended for the main Depot in this village is covered and ready to receive the cars, although far from being completed according to the designof the Corporation. The road is also ready for travel nd will probably be opened to the passenger cars next

veek. The first freight carried on the road arrived this week and was discharged at Grove St. It was a quantitv of hemlock bark for one of our tanners and was brought from N. Hampshire or Maine, on the Eastern Railroad. It is believed that when a direct railroad intercourse is opened into the country, this important and bulky article will be brought to us at a rate which will necessfully compete with the supply received coastwise from Maine. We know of nothing so likely to sustain the leather business in this place in competition with tanners in the interior, as new facilities for obtaining bark from the country at a cheap rate. It is weil known that the hemlock forests in Maine have been so far exhausted that all the bark is hauled many miles to the landings on the rivers and coast. We have heard of bark being brought into Boston on the Western R. Road and delivered at some two dollars less per cord than is paid for the Eastern bark. There is an extensive bark region in N. Hampshire now traversed by Railroads already built or in progress, which may afford us a cheaper supply of this article so essential to the staple manufacture of our town. At any rate the subject is worthy of some attention.

Donation Visit.

We were privileged to attend on Thursday evening, promiscnous gathering of the friends of Rev. Mr. Richhis residence. The company was very large, numbering we should judge from 150 to 200 persons, and we are feelings manifested than were shown here. The evening was passed in a very pleasant manner, by appropriate exercises and the interchange of social friendly greeting, and in partaking of the bounties of a tastefully and boun-time they were incorporated did receive from the Comtifully supplied table. We are sure that the occasion monwealth, and for good reasons at that time, a grant, was one that will be long remembered with gratitude by which barred for a certain number of years any other Mr. Richardson, and with pleasure by all present.

NEWSPAPER IMPROVEMENTS.

number of this mouth, that hereafter it would be issued tri-weekly instead of semi-weekly as heretofore. This alteration is made without increasing the subscription price, which is \$4,00 per annum. We trust that the publie will duly appreciate the advantages of this arrangement, and give to this ably conducted and time-honored journal additional and liberal support.

The Salem Register, with the first number of the present volume, appeared in an enlarged form, having added four columns to its width. The deserved popularity of this paper, as a judicious and rightly-toned Whig Journal has long been established, and we doubt The route is this: Pursuing the same track as this Livnot that every evidence of its prosperity is as gratifying to its readers as its editors.

The Salem Observer, a weekly journal, has also been nlarged by the addition of one column to each page.

DANVERS AND MALDEN RAIL ROAD.

A spirited and well-attended meeting of citizens friendly to the chartering of a railroad from Danvers through Lynn to Malden was held at Union Hall on Wednesday From many circumstances it must naturally be infer- evening last. Hon. R. S. Daniels was chosen chairman and W. D. Northend, Sec. The meeting was addressed by Messrs R. S. Daniels, W. D. Northend, Dr. Geo.

The following resolutions were unanimously adopted by the meeting.

Resolved. That in the opinion of this meeting, the experience will have taught many to temper their zeal with prudence.

Intimately connected with the leather business is the

Resolved. That a new Railroad to Boston via Malden, is essential to the interests and prosperity of the town of Danvers, and that the project is one worthy the strongest and most united efforts of its citizens.

Resolved. That the interference of the Eastern Rail-

Resolved. That the insolent claim, that the travel and shows a disposition to control the public travel, which is inconsistent with our notions of liberty, and will not e tamely submitted to.

The following gentlemen were chosen as a special committee for the town of Danvers, to co-operate with ths general committee, and assist in facilitating the object of the petitioners for a Railroad to Malden:-

R. S. Daniels, B. Wheeler, M. Osborn, J. Whitney, Henry Poor, Lewis Allen, B. Goodridge, E. W. Upton, Geo. Osborne, F. Dane, R. Osborn, W. H. Little, M. Tenney, T. Hohnes, D. Daniels, James King, E.

the Adjutant General to Capt. Webster, of Company A, for a meeting of the commissioned officers of the regichusctts Regiment'' as soon as eight full companies are mustered in—and that transports will be furnished as effected by a mutual and general determination on the Master to that effect. It is of the greatest consequence

upon 1847 with a fearful face. The year begins with friday—that very unlucky day.—

DAGUERREOTYPE MINIATURES.—We had the leasure recently of visiting Mr. Bowdain's Daguerreo—the first time in the "recollection of the oldest inhabi—to be offered in its favor. Our motto is "Prove all things in the dadhered to the compromise in the Texas Resolupleasure recently of visiting Mr. Bowdain's Daguerreo- the first time in the "recollection of the oldest inhabi- to be offered in its favor. The member from Alabama went on and argued that the matter of Mrs. Browne in Pleasant street, in that of Mrs. Dargam more impressive than before.

Mr. Editor-There is a petition circulating in town in aid of a petition for a road from Salem or Danvers. through South Reading, thence to a point on the Mainc other parts of the town, might not be informed as to the Railroad where they strike off by a new piece of road to be constructed to Tewksbury, thence to Lowell. Several of our citizeus have been induced to subscribe this petition on the supposition that it may be chartered and therefore by it they might obtain a Railroad through South Reading to Boston, if it should happen that they miss to furnish for your paper a statement of the number member from New York, spoke with ea did not get a charter to Malden. There have been also of arrivals, &c., which might give them some idea of and more ability, and created much s several communications in the public papers making special pleas on the South Reading and Boston part of the route, but seeming to be very cautious of entering the discussion of the character of the Lowell part of it.

The petition was projected by Mr. Livingston and others of Lowell, but through good policy no doubt is headed by T. P. Pingree, Sutton and others of Salem.

This Livingston road (as it is well understood and not lenied) is intended by the Lowell advocates of it, for another road from Lowell to Boston over the Boston and road. If under the specious petition of a Road from tradesmen shall see the advantages of the locality. Flour, Lowell to Salem, its Lowell advocates could obtain a grain, molasses, and in fine, every article of trade which miles of new road at Tewksbury, enter the Boston and afforded at a less price with the same profit to the whole-MaineRailroad, and thus be able to effect their object. The rest of the route of their project, viz: from South Reading to Danvers or Salem, these Lowell people would are lower, real estate not high, and freights the same. care little or nothing about. But as we wish to state an opinion as well as some facts bearing on the subject, we will suppose they would be willing to aid in the construction of the whole road as prayed for. Now our opinion is, if there is any strength in the law, any power in ardson, Pastor of the Baptist Church in this parish, at charters, any respect in one Legislature to the acts of preceding Legislatures, in fine any faith and integrity n the Commonwealth of Massachusetts, a charter never confident that happier faces are seldom seen or kindlier can be obtained for this road, so long as the Boston and Lowell Railroad claim their rights adversely, within the specific grant. The Boston and Lowell Railroad Company at the

Company from interfering with their travel by any Railroad within five miles of their termini. This being the case, it would constitute an insuperable impediment The Salem Gazette informed its readers in the first to the granting of Livingston's "Lowell, South Reading and Salem Road" were there no other objections. But there are others and among them this important one, viz: a nearcr, better, and cheaper route can be pursued where less new road is required to be constructed, much greater facilities obtained by Salem, Danvers, South Reading and other towns in this part of the county and even also to Lowell, than on this road of Livingston's. And the Legislature will probably tell these petitioners so, if they pretend that their motive is a road to Salem, and attempt to press so preposterous a petition before them. Preposterous I mean while the Lowell Railroad claims its rights. ingston road does from Danvers or Salem to South Reading, at which place you meet the single track of the Boston and Maine Railroad, you have only to pass three miles farther on to Woburn, where you meet the Boston and Lowell Railroad with its double track to Lowell .-If this course of road is pursued it is apparent, that many advantages are comprehended and insuperable and fatal objections are avoided. At South Reading you will have the opportunity of taking the Boston and Maine Railroad track to Boston and the New City, with all the other facilities which that road can give East or West, you can use the Boston and Lowell Railroad with its double track to Lowell and Boston, you avoid the insuperable difficulties of their opposition to the granting of your charter, you have less uew road to construct, in- members, when the vote is taken, to withdraw, without ess than that at Tewksbury required in the Livingston petition, and if any opposition is to arise from the Essex tition, and besides all these considerations the length of the whole route from Salem to Lowell is as short if not

shorter than the other course, as petitioned for. may be truth in the observation, "the more we multiply can slavery to the shores of the Pacific.

FOR THE COURIER. Mr. Editor.—In reply to your correspondent, who assume to speak in the name of "Danvers," and inquire, vliy the writer who spoke of the contemplated road between Danvers and South-Reading, did not say, that it was "one which if chartered will be in direct violation of the charter of the Lowell and Boston Road"-the answer is, that such assertion would not be true. The Legislature have the same authority to grant a Railroad track of both these roads being within five miles of the Lowell and Boston Road; and such grant would not infringe upon that Charter. We consider this point con-MASSACHUSETTS VOLUNTEERS.—The Transcript clusively settled by the aforementioned grants. He states that an order has been issued from the office of further asks, why did he not state, that "the Lowell Road will oppose this with its utmost power." The anfor a meeting of the commissioned officers of the regiment of Massachusetts Volunteers, for the purpose of electing Field officers.

The election was to take place right in asking for it, it should be granted, notwithstandly contained of the washington, for the embarkation of the "Massachusetts" of the purpose of electing Field officers.

As to "Danvers" opinion of the "Massachusetts volunteers, for the purpose of electing Field officers.

As to "Danvers" opinion of the "Massachusetts volunteers, for the purpose of right in asking for it, it should be granted, notwithstandly ing such oppositions.

As to "Danvers" opinion of the union territory had been admitted South of 36 30 which was not slave territory. mach as a contrary assertion would be, and no more .-Whether the effect of this movement will be gratifying part of those engaged in this husiness, since the real demand would not dominish if the terms of calc mand would not dominish it to the terms of calc mand would not dominish to the terms of calc mand would not dominish to the terms of calc mand would not dominish to the terms of calc mand would not dominish to the terms of calc mand w to the Eastern Railroad or not, we have not the means of determining; the object of it, we know to be, to seem accommodation to the business of our place, in a way, it was a superstaining to all territory, then and hereafter belonging to the Union. in which we have confidence, if chartered it will be THE NEW YEAR.—The observer of signs may look completed. If any better way than this can be discov-

ines his pictures to observe the success which attends is to be blessed with two full moons, and March with a can better likenesses or pictures be procured than have been produced by Mr. Bowdoin.

The member from Mapania went on and argued that absence of the family, and preparations were made for like number—this will be lacky, and will, perhaps, throw a pretty extensive abstraction of property. But the been produced by Mr. Bowdoin.

The member from Mapania went on and argued that this Missouri compromise must be adhered to or the Union could not last. The day the North said to the rogues were disturbed before they had succeeded in accompanie to the produced that they are the star-gazers. But as an offset for the whole, January city was forcibly entered on Saturday evening, in the

FOR THE COURIER. Danvers, New Mills, Jan. 11, 1846. Mr. Editor-Thinking that some of your readers in extent of business transacted at this place, resulting territory only, that it was for this the bra from its advantages of navigation, and a friend of mine having taken the trouble to keep a record of the arrivals the past season at the two branches known as Crane. river and Frost-fish brook, I thought it might not be athe facilities possessed by the citizens of this place, not correspondent of the Baltimore Patriorsa common to the rest of the town or but few other inland ver's remarkstowns in the county, for the transaction of mercantile business; and I would say that in my estimation, there is no place in the county better located for the wholesale is no place in the county better located for the wholesale even if he knew there would be no even if he knew there would be no even if trade in West India or domestic produce. The traders in the territory which we might acquire. in all the towns west of this that have no railroad com- of place to put such a restriction into the munication with the seaboard, are under the necessity of cussion; but it was right and proper for it than place. No inconsiderable part is purchased here, through this place. No inconsiderable part is purchased here, through the place with the seaboard, are under the necessity of the upon such a bill as his colleague (Mr. had brought forward. He did not fear a the Union. Why was it threatened? The Maine Railroad parallel to the Boston and Lowell Rail- and all might and shortly will be when enterprising ed to the Sonth all that the Constitution sti charter, they would, by constructing about four or five can be procured solely by the aid of navigation, can be sale dealer here than at Salem, Boston, or any other commercial place in the vicinity, for the reason that rents

There is not a better location for the Lumber trade in the county, as is evidenced by the increase of that trade in this village for the last ten years; and now and for the future there is every reason to believe, ten times the new territory must be reserved for slave state amount of lumber might be landed here with advantage, as at present. There is no end to the wants of the new City in this particular, and besides all that is sent New England would never conthere from this place, hundreds of thousands are transported through here from Salein, which might as well have been landed here and sold, if there had been done done to the Union; upon that subject, her min up, and could not be shaken. More territor have been landed here and sold, if there had been dealers enough or capital enough invested, and it is to be hoped that those who have the means and are desirous of turning a penny to advantage, will not overlook the great topics of the controversy involved in the advantages of this locality. Without digressing further from the intent originally started upon, I would state that there have been at these two branches only, since the 25th of March last, in all 127 arrivals—106 of which were schooners, and 21 sloops. There have been landed 37 cargoes of wood, or wood and bark; 35 cargoes of flour and corn; 15 cargoes of lumber; 9 cargoes of lime; 2 cargoes of salt; 1 of molasses; and 1 of coal. There have been 24 cargoes of bricks shipped at this place. With the freighting of the last season as an av-

erage, it would employ 12 vessels of 100 tons burden to carry on the business, and besides the crews give to laborers on shore in unloading and loading, 1200 days work at \$1,25 per day—the price the last season. Of the arivals at the branch at the Iron Factory, I have no account, probably there were 30 or more,—bringing lnin-

per, coal, wood, flour and corn, and taking bricks. "NEW MILLS."

THE EXTENSION OF SLAVERY.

This great question,-the most important which has aviscn since the Missouri Compromise,—is now deeply A substitute was adopted for the fifth section, agitating Congress and the Country. The letter writers from Washington, differ widely in their anticipations of the result. The correspondent of the New York Comnercial Advertiser says:

The slavery question mingles with, and complicates he war question. It is seen that the Northern members of the House are resolved to maintain their position against the extension of slavery, by their acts.

This is not a question of abolition, -for slavery not exist in Mexico. But the South threatens to break up the Union, if this restriction be imposed.

I am told that one of their plans is for the Southern asmuch as the road from South Reading to Woburn is even voting on this daring proposition to invade their rights and prerogatives. Another is to arrest the war where it is, and withdraw all our forces from Mexico not the worst thing perhaps, that is to be donc-not so Railroad now chartered, to either of the roads, it must bad as creating a war debt, and then repudiating it—not more than admitting the nixed races of Mexicans, with their interpretations and computing order. with their ignorance, superstition and corruption, into citizenship, and annexing Mexico to the Union.

We shall see, in the course of eight weeks, what all the excitement now prevailing on this subject, will come As the Legislature may say to us, "when you are agreed among yourselves, gentlemen, where you most will be "dough-faces" enough among Northern Dennowant a road, we will then attend to it;" and as there crats to sustain the policy of extending the area of Afri

and vary our petitions for a road, the less likely we shall tatives, strong sectional speeches were made, on hoth tatives views before our citizens, that they may not lend their names misunderstandingly as some have already The Missouri compromise of 36 30, it is assumed, must not not couched, and this line, as the Boston Courier remarks would give to slavory the city of Sante Fee, Monmarks, would give to slavery the city of Sante Fe, Monterey on the Pacific, and the bay of St. Francisco. On Thursday Mr. Dargan of Alabama asked if the sous of Georgia, Alabama and Mississippi were ta light battles to make free states? and demanded the territory south

of 36 30 for a slave territory.

Mr. Dargan warned the North against any such attempt to interfere with them, as he believed that it would result in a severance of the Union. He thought that inder the circumstances of the cease it was a subject that should be gravely considered by the Executive, whether any territory should be acquired or taken from Legislature have the same authority to grant a Railroad between Lowell between Lowell and Salem, as they had between Lowell be

In the economy of nature, be believed the Slavo cnjoyed more human happiness than any other laborer.

In the judgement of Him, whose judgement never erred, he believed this would be the decree of Him who was all wisdom and truth.

He said the North were for violating the Missouri compromise. No one man from the North, here, would rise up to defend it. It had been enacted with great solem-

"its being obtained" "or built if chartered," it is mere was not slave territory, and such of the territory band not come into the Union. But when the Missouri compromise was made, it was in reference to the territory in the Union, and had not reference to the acquisitions since made and now contemplated.

Mr. D. then re-affirmed what he had before said

ions (?) and he should do so always.

Mr. Dargan was glad of this, and many voices of the

Give us, in the new territory to be acquired, slavery Courier, Monday.

south of this compromise line, and son

perseveringly rally around the Union. This question, said Mr. D., ought to It was a vital one, and every day growing fornia, Georgia, and Alabania, were per and they would demand the settlement now, preliminary to any further prosecut

In reply to Mr. Dargan, Mr. Grove

In answer to interrogatories propounde even if he knew there would be no restric North would adhere to the compact. Slamain where it existed; but it was no part of for the North to yield to the South the pr tending its peculiar institution over vast te which our government might acqui of us, cause the North will stand by the Constit consent to the extension of s consent to the extension of slavery over that may be admitted into the Union, he sa gentlemen rise up and declare that the Uni

Mr. Toombs, of Georgia, continued the a speech against the manner in which the w conducted, but winding up with the declarat Winthrop made a speech which commanded ded attention of the House. He declared to and to all sections of the country, that, com New England would never consent to the Slavery over any portion of territory herea onsent to agree to, but all her constituti would be exerted against any territory will should be tolerated. Mr. Winthrop touched

Mr. Tibbatts of Ky., maintained the right to extend slavery into any territory south promise line, 36 deg. 30 m. He, however, here was so much danger likely to arise from duction of the slavery question in connection war debate that he thought it advisable to ex

CONGRESS.

The best account of the proceedings of Co o few days past, is given by the editor of the une, as follows :

Will somehody tell us what Congress (the I been about for the last few days? We have tri out and keep the run of the votes and evolutiurday and Monday, but lost the clue, and got sadly twisted in the attenut. We consider it s to-day whether Regulars or Volunteers shall be as also whether there shall be a Lieutenant Ge ated, or not. We know how the vote stood on dodge, which renders it nearly certain that the r will turn just the other way.

On Tuesday, the House went into Committee Whole. The Oregon Territorial bill was then reads that all persons shall be allowed to vote election, who have declared on oath, their in become citizens, and have sworn to support the tion of the United States. An amendment was to prohibit all hanking in the territory. An ar was offered providing that nothing in this act construed into an intention to interfere with the compromise in regard to slavery. Mr. Hamlin the amondment bocause he believed it was a mat cessity, to prevent thereby the introductiod of sl to the territory.

The communication of S. is unavoidably out of this number for want of room.

Massachusetts Legislaturo.

Correspondence of the Solem Pegister. Of the House Committees appointed, the following as from Essox County, viz:
Judiciary-Cushing of Newbucypurt.

Probate and Chancery-Stevens of Andnver-(Chair

France-Williams of Salem. Elactions—Lord of Salem.
Engrossed Bills—Dalton of Salem.
Bills in Third Reading—Hood of Lynn. Pay Roll—Baker of Beverly.
Leave of Absence—Fowler of Danvers.

Printing—Proctor of Rowley. • Besides these, from our Congressional District, Mr. Nowell, of Chelsea, is on the Committee on Public Buildings.

In the Senate, Mr. Perkins is an the Committee of

Matters in Probate and Chancery, and on Bills in the Third Reading; Messrs. Country and Gregory on En-grossed Bills; Lowe on Fisheries; Condry also on Mercantile Affairs and Insurance; Hodges or the Militia.

On Monday, Mr. Cushing from his committee, reported that his \$20,000 Maxican Resolve ought to pass—Messrs. Stevens, Giles and Balloch dissenting; and the House, upon motion of Mr. Williams, of Salem, re-com-

House, upon motion of Mr. Williams, of Salem, re-committed the Resolve, with instructions to report the reasons and facts upon which it should be ndopted. There were various attempts made by Mr. C. and his coadjutors to defeat this motion, by mising points of order &c., but they were all fully met and exposed; and in the consequent discussion, Mr. Williams manifested much ability, and made quite a favorable impression. This decision of the House made Mr. Cushing feel 'mighty uncomfactable,' and the final vote upon his proposition may have a yet further disturbing effent—especially if the Lientenant Generalship at Washington, or the Colonolship in Massachusetts, depend upon that vote.

Propositions have been submitted for plurality election.

Propositions have been submitted for plurality election of members of Congress, and for the modification of the Hawkers and Pedlars law—and the usual number of pe-titions uppear for change of name.—Charleston petitions for a city charter—and the American Prace Society Strangly memorialize for peace with Mexica—Dan Hill Advook Daniel Allard Nancy and 318 petitioners back up his claim.

Joseph Burrett, Esq., was re-elected Treasurer and Receiver General.
On Wodnesday, Hon. John G. Palfrey was re-elected Secretary of the Commonwealth upon the Second ballot, he having 94 votes more than all others.

The Railroad docket was opened by the petitions of Benjamin Goodridge and others, of Danvers, for a Railroad thence to Mulden, and C. C. P. Hastings and others, for a Railroad from Blackstone to Milford,

Important from the Army.

 Λ telegraphic dispatch from New York, states that a vessel arrived at New Orleans on the 1st inst. with news from the Brazes to the 27 ult., and from Tampico to 26th

An express from Gen. Worth at Saltillo arrived at Mon-An express from Gen. Worth at Santia Anna was terey on 16th December, stating that Santa Anna was within three days' march with 20 or 30,000 men, and Fary William Folson Miss Julia A.

within three days' march with 20 or 50,000 men, and asking reinforcements.

Gen. Taylor had left the day previous for Victoria, leaving Gen. Butler in command at Monterey, who had sent to Gen. Marshall at Camargo, and Gen. Patterson at Matamoras, to send troops without delay, and the latter started at once for Monterey.

There was a report that Gen. Patterson had entered Victoria, but this was doubted. The road from Montercy to Camargo was lined with American troops on route for Monterny, in call four regiments.

ments.

Another item of interest though not unexpected, is that averment that the Mexican Congress has selemnly resolved to rexeive no overtures for poace, or for negotiation with a view to peace, until after the forces of the United States, land and naval, are withdrawn.

By the stemmer Edith at New Orleans from Brazos, 30th December, the news of the advance of Sanha Anna on Sultillo is confirmed. His bree was reported at 30,000.

Gen Taylor was only six or eight miles on this march to Victoria when Gen Worth's express reached Montercy.—
The troops under Twiggs and Quitnan were lant 12 miles in advance. Orders were immediately issued to this discontinuation. in advance. Orders were immediately issued to this di-vision to retrace their steps and proceed immediately to

could collect to join Gen Worth. Gen Lane started for to say they are advertised. Saltillo with his command on the 20th. Marshall set out the next morning with the remainder of the forces.

Adams John M.

An impression prevailed among the passengers in Edith that a battle was fought about the 25th. It was thought, however, that the American forces above mentioned had Brewster Stephen Catherine Catherine reach Saltillo hefore that time. If sa, Generals Taylor and Worth had about 7000 men to oppose Santa Anua's army, which was thelieved to have been overrated.

Gen. Scott arrived at the Brazos on the 20th and Character Coffin Alexander II Cilley William Character Control of the Angustus Control

ceeded to the mouth of the Rio Grande, where he was | Dame! Samuel waiting for horses, when he would proceed to Camargo.
Gen. Wool at the last accounts was within 90 miles of Bodge Sally
Faller Edwin J.

THE ATLANTIC .- The New London News, allul-Frost Duniel S. Fish Nuthauiel P. ing to the fact that much properly was stolen from the Fish Levi wreck of the Atlantic, and that the dead hodies were Giles Emily L. wreck of the Atlantic, and that the dead hodies were Goodhur Daulel not even spared, states that a gold watch has been found Goodhur Daulel on the premises of a negro named Williams, and also Hanna Miss Mary B. that large quantities of valuables have been carried off Hinds Thadcos by people, many of whom would blush to acknowledge Josselyn Sally Lander Mrs. a participation in such transactions.

HETCH Convergor on Tuesday delivered his message to | ILPNOTICE-The present limits are inadequate to On 1st of February next, I shall commence to erect a "Stupendous Warehouse," sufficiently large to accommodate friends and numerous ensumers. Large as the present House is, it is not sufficiently large? Spacious, it is not sufficiently spacious? Brilliant in oppearance, it is not sufficiently brilliant. Thus Gigantic House, the Glary of Boston, is to come down and a Larger, more Spacious, and Brilliant Establishment is to take its place. These names have been applied to my Establishment by those who are acquainted with the real character of Oak Hall: Such as a superior Mart, 'a Princely Warehanse;' 'a vast Trading Area,' 'a Matchless Establishment,' 'a Theatre of Un-Area, 'a Mileuless Estantishment,' in Incatre of Un-bounded Trade,' a Stapendous Scheme,' an extensive Market,' a Triumphant Achievement,' a Sphere of ex-raordinary Operations,' an Unapproachable Wonder.— (Such wines will probably apply to my new constructure when completed. I might as well undertake to confine the vast ocean in the limits of our Pond on

Resion Common, as to carry on my large trade within the walls of these present limits. The public are awere that my triumphant statements are not overrated. The trade at my extensive Ware-rooms may be rompared to a large Monster, whose balk and mighty stature have become so great that at requires a larger sphere for its present movements. This Warchouse creeted in 1812, has stood univalled in the metropo hs for extent and magnitude, and yet it is far, far from heing equal to the extent of my heavy trading

CREWS. 1000 groce New England Screws just received and for sale by ADAMS & RICHARDSON,

207 Esses street, Salem.

N. Y., during the

Teeth at Cost, until Mch. 1, 1847 Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases o two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of so ne parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bring-ing out the cheeks and lips to their natural and uni-form fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved work,—and one of grea importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the fluer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its insta-bility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased with close initations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a whole set, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their canstruction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be much inconvenience, will be exchanged for ew, on paying a small difference. All other branches o Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 cents to \$1; For setations warranted.

Carved work in block for whole and half sets will be get up for other dentists on reasonable terms.
S. STOCKING, Surgeon Dentist.

ABDOMINAL SUPPORTERS. NEW ENGLAND TRUSS MANUFACTORY BOSTON, MASS.

JAMES FREDERICK FOSTER Continues to manufacture all the various approved Trusses, at his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for W. M. HALSTAL the Truss business than any other person engaged in it in this city or any other.

Also—Aldominal Supporters, for Prolapsus Uteri—Trus-

Also-Aldominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to auswer oftentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him. Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galva nized metal that will not rust, having wooden and copper pads, Read's Spiral Truss; Rundell's du; Salmon's Ball and Socket; Sherman's patent French do; Bateman's do, double and singles Dr. Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss. Thompson's Kachet Truss, and the Shakers' Rocking Trusses, may be had at this establishment. Whispering Tubes and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroline D. Foster, who has had ton years experience in the husness.

From Dr. John C. Warren, of Boston.

Having had occasion to ebegare the transe caps, Back defect upon my constitution, that I was unable to raise the Hands to the Head!

Sir.—For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places and effect upon my constitution, that I was unable to raise my hand; the bones were in different places and effect upon my constitution, that I was unable to raise my hand; the bones were in different places.

I mable to raise the Hands to the Head!

Sir.—For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places and effect upon my constitution, that I was unable to raise my hand; the bones were in different places.

I mable to raise the Hands to the Head!

Sir.—For three years, Scrofula had produced such effect upon my constitution, that I was una

From Dr. John C. Warren, of Boston,
Having had occasion to observe, that some persons afficted with Hernia, having suffered much from the want of skilful wockmen in accommedating Trusses to the petuliarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Faster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and invenious in accommedative of these instruments, and invenious in accommedative fied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wauts in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robburs, Rozbury.

Since the death of Mr. John Beath, Ifhave used, in preference to all other Trusses those made by, Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D.,

Boston, April 27th, 1346.

The undersigned is familiar with the ability of Mr. J. F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

LORRAINE'S PILLS. All persons require Facts.

Remember in all cases that you are not deceived by thin Remember in all cases that you are not necessed by that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and Tomatoes. These two articles need no praise, neither do the celebrated Lorraine' Pills, when they have

once been taken. Physicians, and people of every class are willing o come forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In act there can be no doubt but that Lorraine's vegtable Pills is the best medicine ever offered to the

Sec a few public statements of men of truth adve.

A hacking cough constantly annoyed me!
Boston, Mass.,
June 1st; 1844

Sir,—In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and , combined with my other maladies, rendered me ruly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILLS be returned, and the amount paid for them will be and now every body tells me that I am well;—I feel as well as ever I did.

J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others We have had no fault found with them whatever; but, on the contra ting on gold pivot, \$2; For Cleansing \$2; Extracting ry, they have been praised loudly. I think we 25 cents. Examinations and advice gratis. All oper ficates from our citizens. Respectfully yours,

E. MASON:

Chelsea. Jan-3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtues of Lorraine's Pills, I nad no faith whatever, but 1 took them, and it is a solemn fact that when I had taken but sight with the Pills of the worker but a solemn fact that when I had

Unable to raise the Hands to the Head!

April 20th 1944.

Sir,—For the last few months I have been afflicated with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

Sir. I could 'I' the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present

New England Office and General Depot, No Brattle Square, Boston.

Lynn, Dec. 17th, 1843

Sir; I have sold all the pills I last had of you please send another lot immediately. The sale o Lorraine's vegetable Pills is rapidly on the increase Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them fluds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for liventy years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where the cures have been as great, but have not time. time.

Yours respectfully, JE.F. MARSH

THE ICE PLANT. HY MISS M. H. ACTON.

"Twas on ice plant, all so lonely, In a winter garden grew, Never sunbeam on it resting E'en a passing brightness threw; Coldly sombre 'neath the gushing Of the golden noonday light, Dark and gloomy when 'twas shaded By the coming hues of night.

Croens bright, and polyanthus, From its presence shrank with dread, As unid their dewy blossoms High it reared its chilling head; And the haves that decked the horder Turned their graceful stems with fear From the frosty breath and bearing Of the icy stranger near.

But it chanc'd, one bitter morning, When the driving snow fell fast, And each but crouch'd low for shelter From the keen and entting idast, That a pale and tender snow-drop, Newly risen from its birth, Bowed its head beneath the whirlwind To the hard and frozen earth.

From the storm that swept the garden Naught could shield the fragile flower; When the ice-plant, downward bending, Lent its succor in that hour; Neath its leaves the snow-drop rested, Sufely sheltered on the ground From the wind that raged with fury, And the snow that fell around.

And the ice-plant nestled o'er it Through the weary winter's day, Till the sky was bright and glowing, And the storm had passed away. There are some in Life's with garden, Who with chilling look and tour, Mid the sweets that bloom around

Pause, oh mortuls, ere ye judge them; For ye know not but may dwell Kindly thought and nable feeling Deep within their bosom's cell. Like the ice-plant, 'neath their coldness. There may lark a vein of gold, Which, when sought by helpless sorrow, Priceless treasure shall unfold.

FOR THE COURTER.

History of Astronomy.

After the age of Ptalemy, the science made little progress; with the decline of Grecian liberty the arts and sciences declined also; and the Romans, then masters of the world, were ever more auditious of gaining conquests over man than over matter. Not a single great astronomer did they ever produce. Fitly has that long nul indeed does it appear in the retrospect. Scarcely a single star is hang out in the canopy of science to guide the traveller who dares to venture amid her anbroken and unreleived wastes. The fair temple reared to the bright Godess, was desecrated to superstition, to ignorance and to shame. The mind of man was debased. Oppression held the multitude while they bowed worshipping at the shrine of opulence and power. Race after race appeared upon the active stage of life, but to move in the same mystic circle, parrot the same numean- your natal day will behold one again in your father's coting mummeries, and sink to the shades of Erebus, leaving the world still darker than before. The most deplor- young man mechanically encircling a fair companion able ignorance overspread the whole of Europe and the printed on her blashing cheek a kiss, and ere she had adjacent countries of Asia. Not a single distinguished time to reply, was on his way with his faithful guide to mind appeared during the long lapse of a thousand years, his distant home. worthy the emulation of after ages. Persons of the many of the Priests of a carrupted church could not daily repeated.

the fourteenth, did that moster spirit arise that said to

In the attic of a humble farm-house in Prassia is seat- his susceptible heart had formed within the most degnifi- my attendance, since other important duties await my which he had been subjected had, however, the effect and they yielded to its genial warmth,

Copernicus, that wonderful man, was born in the year 1473. At the age of twenty-five, he resorted to Italy, to study astronomy; and we find him there for many years, sluking his inordinate thirst for knowledge at this primeval funnt. Thus prepared he returned to his noparted roof of which he could gaze upon the cloudless sky, he lost sight of earth, in those sweet and lofty meditations which resulted in the revival and firm re-establishment of the true System of the Heavens.

We are not to suppose that Copernicus had read every page of truth which was written upon the heavens;far from it. He perhaps little dreamed of the ultimate issue of his doctrines; and even those principles which he did understand, were often supported by false and erroueous arguments.

With the general principles of the Copernican system we are all familiar; but to the history and noble characteristics of the man, perhaps some of us are strangers. He was distinguised no less for his giant intellect, than for his modesty and unassuming manners. "Mild and gentle, unostentatiously benevolent, he was one to reverence. His demeanor was even, steadfast and still; he cared not for jests or irrelevant reading, and he never broke a friendship. Forcordained to a great work, his mind kept itself near the fountain of truth, by nourishing all the uffections,"

From the Baltimore Saturday Visiter. EMILIE;

THE TRIUMPH OF INNOCENCE.

A TALE OF THE EARLY SETTLERS.

CHAPTER I.

There is no time so congenial to thought as the calm, cool evening, when no sound strikes the ear, save the rustling breeze that echoes faintly, and causes the heart to vibrate in freshness and harmony. If sentiment can be indulged, it is pardonalde when, in the stillness of the midnight hour, the heart is raised to Nature's God, is terrestial.

Has the render never felt this tranquility when he has stood amid familiar scenes, and watched in the vast concave of heaven, the twinkling stars as they bow in celestial grandeur to the brightness of the moon, who courses her track until the brightness of day celipses her glory, and she hides it beneath her own retiring modesty? The spirit sometimes seeks from life's festivity a retiring moment, where it can at least change the mazes of dissipation for the romance that leneliness can sometimes impart; and, however visionary our schemes, imhour it can sometimes call its own,

Such was the evening, when the approaching enohess reasonbranes of the foling summer's warmtle, and the tranquility which reignal supreme added, if possible, still greater beauty to the scene. That favorite season, known as 'Indian Summer,' had brought with it a cheerag reminiscence of the moon-tide of the year, before it lade farewell to the beams of a summer sun, and gave way to the piercing blasts of approaching winter.

In the town of S---, which had already made advances towards its settlement, and around which a lindark night been denominated the "dark ages," for dis- gering few of its natives still renamed, rose a neat white cottage which had its enimence far above the thriling villoge below, overlooking the vest ferests, that vise in that at the appointed hear he should see him once again. grandeur near its side, and commanding a noble view of the smooth gliding waters of one of our Western rivers, rolling on to its junction with the mighty Mississippi. All was peace below, and the clock in the distant village spire had scarcely died away, when two beings stood upon the partico that faced the winding pathway below.

> 'Adjen Emilie, and remember that a fortnight hence tage, to consummate our earthly bliss.' Thus saying, a

Heavy Stanhope was one of these models of a man highest rank could often neither read nor write; and seldom to be seen. His broad expansive forchead indicated with his beaming eye an intellect far above the oreven understand the common prayer book which they dinary race of men, and his noble figure combined with its manly beauty, superior physical strength. He was A few transient meteors shed a faint gluemering light the son of those noble sires who first neigrated to the unover the twelfth and thirteenth centuries; but not until known facests of the West, and since his youth had been nurtaged with all the foodness of parents whose existence the proud waves of ignorance, white far shalt alion seemed lound up in an only child. The principles which the enlightened minds of his parents had instilled into

ed, lost in thought, a man upon whose powerful mind ed conrage and unexampled fitteness. To the sympathe light of the starry heavens beams not in vain. What thetic feeling heart, ha united a high conception of morscenes of grandenr, order, harmony and beauty break at right, and was estreme, the prop of declining age, in apon his mind as he travels in the rapid car of thought, and as the example of an mewavering, confiding man.--through worlds and systems of worlds, lit up by the In his visits in the town of L----, distant thirty miles bright refulgent lamps of Deity! The icy fetters of so- from his paternal domicil, Henry had met with Emilie, persition had bound for five thousand years the god-like the daughter of another adventurer of life and fortune, powers of man, -but now a bright ray from the eternal and bad found one so near bioself, whose ungeniality sun of truth had fallen upon those soul chilling chains, bore so great an afmity to his own heart, that in due time he had arranged his visits oftener than his business His efforts, however, were vain, and he left him not called him to the town in which her father resided. She fearing his wrath but sympathizing with the misfortune was indeed one so anch like himself in sentiments and of an onsuccessful rival, feelings, that he had determined to add to his own and tive country, and for forty years gave himself to study and had been far spent in making arrangements, prior to his hour of ten. He left with the blessing of his venerable to thought. Seated in his humble Studio, through the departure, for the approaching event, and time rolled parents, and the assurance that their lives had now fund embrace, reminded him of his prumise to attend to place, to one almost rendered as dear by the attractions cent in an exposed situation, and appropriated it to his the instructions of his father, on whose return the issue of it offered him. in Important neatter was dependant. Still lingering, however, as if lath to depact, she arose, and, taking his hand breathed almost inaudihly, 'Mr. Stanhope, beware of Stanhope approached in his carriage the place of his ap- the "copper" at his feet, and waited till be had reand with the sentence in which he is introduced to the reader, he was soon keyond her sight.

Edward Lester was one of those heartless sycophants who, vulture like steal upon the affectious only where there is a prospect of gain offered, and thrice had he sued fer the hand of the destined bride of Stanhope: His offers were rejected with a sense of womanly dignity, and stung to madness that another had usurped his place and taken the diadem from his own head, he swore to be avenged. Passing near the residence of Emilie, he had reard, in the death-like stillness around, the lips of future wife's homestead, and hastening forward, reached his destination sometime before Henry had found his way thinher. The succeeding day, as if to allay suspicion, he stifled the storm of indignation which nestled itself in his jealous heart, and meeting Stanhope with an affectionate smile of friendship, determined thus to ehide his penetrating eye,-'A fortnight hence,' said he and you are to wed the lovely Emilie! You are worthy of her, Stanbope, and none more happy than myself to greet you in your blissful success,' -- and the young man bit his lip to conceal the rising scorn within him.

"True," said Henry, and your congratulation meets me a happy man.' It was not long, however, before the most daring of designs had unctured itself in his jealons heart, and now that it was formed, he thirsted to despeil his conqueror of his lanrels, and revenge himeslf on the disappointment of his feelings in the rejection of and not even the bleating of the distant herd brenks in his too ardent suit. In his during and blood-thisty miupon the soul's reverie, causing it to wander from its dertaking he had selected, along the road, a narrow pleasing abstraction. Then life seems held in suspense, pass, towering on one side to a vast entirence, and us and the soul looking round in the vast architecture of suddenly retracting on the other, to vast precipice, overheaven, leaves its carthly thoughts and forgets that man looking the beaten sides of the river below. This, former years, had been the favorite hand of one of he Western tribe of Indians; and of that ancient race of aborigines, one single one was all that remained.

Kanawali was a stout, athletic young Indian, reared in the meighhoring settlement, and attached by an endearing attachment to the Stanhope family, who had watched his wild spirit from his aged chief's demise, to the years of ripor vigor and manhood. In the lonely hour of midnight, often did he wander, like an ancestral spirit returning to the ground of its youth, the dense forests abounding in game and midnight prey acouml him. Alagination never assumes so pleasing a reality as in the though nearly assimilated to the early settlers, yet he seemed in willing to part with that native genius which characterizes the Indian alone; and found in the hapting winter had laid aside its rigidity, to grant one lingering ground of his ancestors a place for concaunion with the Great Spirit,' and the manes of his mighty dead. Hearing af his young favorite's approaching marriage festival, he importanced him that be might only accorepany him to his destined place, and then return to assure himself that one had taken his place on whose love and devotion he doubted not he might equally depend. Struck with the last act of his hitherto namigitated devotion, Stanhope hade him meet him at the narrow pass, and from thence he should be bis emupanion to the home of his destined bride. Kanawah seized the hand of his friend and pressing it to his faithful Indian heart, assured him

CHAPTER II.

'So, Henry, you intend to add to the beauty of our settlement by introducing among its, expectants Mrs. Stanhone,' said a dark-visaged young man, whom the ender will recognize us the jealous-hearted Lester. 'It is so,' replied Henry, 'but a sense of delicacy

would attempt almost me to deny it.

'You had rather confess than deny,' said Lester, 'for Emilie would deem it no compliment did you at so late a when do you leave us to consummate your wishes? had almost thought you had already departed, so great did I suppose the attraction thither!'

'My duty,' said the honest, manly hearty Stauhope, ompels me to prolong my stay even until the rising of trust, to partake in our festivities.'

attention.

The day had at length arrived when Henry was to his parent's happiness by a union to which he looked leave for the approaching event; and the moon was alwith beating hopes and high anticipations. The night ready risen in the East as the village clock tolled the imperceptibly on, as the young man, forgetful that a reached the summit of happiness, 'God bless you!' ejac_ into the neighborhood of his master's house. By watchcall at home at an early hour required his speedy depart- ulated the father, as he pressed his manly boy to hi ure, gazed in rapture on the mild and beautiful creature throbbing heart; and dropping a silent tear on his noble the fact that meat could be obtained for money. In before him-and the young girl, tearing herself from his features, Henry was soon on his way from his native some of his wanderings about the house, he found a

at the still more louely haar of midnight, was to be seen his prize, and attracting the butcher's notice, dropped Lester,—I fear your safety is endangered by his jealonsy; | pointed meeting. Scarcely, however, had he reached ceived its value in meat. After this, Hero was supplied the midway of the pass, when a strong arm gresped him, very freely with money by the boys and others all of and for a moment the hechaded moon prevented a rec- which he expended in the same way. Once or twice he ognition of that ugent of so unexpected an attack! In received a written order for his dinners, and thus made an instant, dragged from his carriege, he stood bufare another advance in the knowledge of currency. Finding the rule stronger, and saw by the hateful disguise that paper as serviceable as copper, he began to think of a his life depended on prompt action! Turning away the currency of his own, and hunting up pieces of white mask, he beheld, in the glimmering light of the woon, paper in the streets, would carry them to his friend the the fiendish face of Lester, stung to madness by his butcher. A few protests of his paper, however, drove jealousy, and every nerve trembling for the desperate him back to the specie currency, in favor of which he deed before him.

Stanhope prior to his departure from the cottagn of his one gigantic threst he knocked him from him. Again his failings. He was an arrant coward, and lost by this they grappled, and ere they were aware, both stood up- failing many a good thing which his wit had earned him. on the awful precipice that bounded the dashing waters There is a proverh that "those who know nothing, fear their heavy tread-and, grouping as they fell, a slight thing. shrubhery was the only support of two beings thus hanging over a yawning death below! Another instant, and the steel of Lester, glittering in the beams of the moon, descended to the now naked bosom of his antagonist! Fortunately his position defeated the thrust, and ago, two students left the college with the most foul inere he had elevated his hand again, the quick report of tent of procuring some of the Doctor's fine, fat chickens, n rifle was heard, sending the messenger of death through | that roosted in a tree adjoining his house. When they the heart of Lester! His hady fell heavily on the craggy peak below, and then rolled bleeding into the current nt its foot. In another instant Kennewah stood by the side of the fainting body of Stanhop , and bore it from the precipies to a more remote part of the road, where, in a few moments, it regained its consciousness.

'You are faithful,' said the fainting man, 'and'-'The Great Spirit is providential, rather say,' interrupted Kanawah, as he broshed away the hair from the from above as follows: 'Are you ready?' 'Yes,' respondpale and noble forchead of Henry Stanlape, and bathed ed the Doctor, dissembling his voice as much as possiis throbbing temples!

CHAPTER III.

There were two scenes enacted on the night succeeding the one just described, which would have equally drawn forth the beholder's feelings, and formed a noble contrast in the hands of a master pointer.

In a spacious room sat three lonely beings, whose alternate sobs, now and then breaking on the ear, betoken, cd more than ordinary grief. Two of them were aged and infirm, and the furrows on their cheeks gave eviupon them. In the midst of the room stood a young female, bending over her brother's remains, and dropping scalding tears on his marble cold features, as they coursed their way successively down her heautiful cheeks .-Transfixed she stood, her heir coursing willly and care lessly over her slight and tender form. She gazed on those features as if life still imparted to them all their interest and attraction-but death, alas! was there. It Thanksgiving dinner. To decline was impossible, so was a sister, taking a long and last glimpse of her only shrouded corpse, she exclaimed: 'He is gone forever!-Oh! that he had spared me this stinging pang! I would have parted with thee; but that wound! Oh, cruel Des- | blessing, the Dr. rose from his seat, and taking the carvtiny! and sohs cheeked her utterance. But let us turo to the other scene.

Two youthful beings, hand in hand, stood before the nigister of God, at the Hymenial altar. The groun was noble and manly, and his bride womanly and modest. Juy sat upon every countenance, as they contemplated the scene before them; a death-like stillness sat upon them so that each could count the throbbings of his own heart. The silence was even painful; and the nged man of God himself trembled as he saw the Provdence of Gud in the scene before him as he proclaimed.

What God hath joined together, let no man put asunder! "Reader! in that same hour, in which Henry Stanhope led the trembling Emilie to her seat, as his blushing period, dissemble in so important a matter. But pray bride, Edward Legter was consigned, 'unsang,' but not anwept, to an outlaw's graye!

ANIMAL SAGACIET. The writer once owned a dog whose natural sagacity

the moon preceding my natal day, when I shall start had been highly cultivated in his puppy days. Innumeralone, and reach L ou the succeeding day, where able, almost, were the antics which he could perform, to I shall welcome my friends, and you among them 1 the great delight of all the children in the neighborhood, with whom he was an especial favorite. As, however, 'Thank you, Henry—you are generous; and, although these were rather the result of hard drilling than sagaci-I shall be proud to greet you on your return fate forbids ty, they were not worth relating. The early training to in any way return to the U. S. Senage,

For instance:—One had learned the rejection of Lester's suit, and knew how morning I had the occasion to borrow an article at a store well adapted he was to feelings and deeds of revenge, in the village, and adding at several other places on my thought by kindness he would at least arouse a dormant way home, I returned to my room. Some few hours afsympathy, and call from him the expiring spark of gen- terward, wishing to return the borrowed article, I place eresity which he helieved still remained within him. - ed it in "Ilero's" mouth, with the direction to take it to the store of Mr. B. I gave the order as an experiment, not much expecting it to be successful; but he received the article readily, trotted out of the room and down the street without hesitation, until he entered the proper store, laid his charge upon the counter and returned to his master.

As was no more than natural, Hero seemed much ne terested in every butcher and butcher's cart, which came mg attentively the butcher's proceedings, he arrived at own use. The next time that a butcher's cart came in-These hours had passed away, and on the lonely road to that neighborhood, Hero made his appearance with seemed ever after firmly established. Hero, with all 'Away, thou fiend of h-1!' cried Stanhope, and with his sagacity and all his good qualities, was not without beneath! Another step, and the brink gave way before nothing." Hero knew a great deal, and feared every

> ANECDOTE OF DR. NOTT OF UNION COLLEGE On an evening preceding Thanksgiving, not many years arrived at the spot, one ascended the tree, while he other stood with the bag to receive the plunder. It so happened that the Doctor himself had just left his house, with the view of securing the same chickens for his Thanksgiving dinner. The rogue under the tree hearing some one approaching, immediately creeped away without notifying his companion among the branches. The Doctor came up silently, and was immediately saluted

The other immediately laying hands on the old rooster, exclaimed-'Here's old Prex, will you have him?'-'Pass him along,' was the reply, and he was soon in the Doctor's hag. 'Here's marm Prex,' said the all unconscious student, grabbing a fine old hen, will you have her?' 'Yes,' again responded the Doctor. 'Here's son John, will you have him?' 'Here's daughter Sal, take her?' and so on until he had gone regularly through with the Dr's family and chickens. The old man then walked off in one direction with the plunder, while the studence that age had accomplished its almost final work | dent, well satisfied with his night's work, came down and strenked it for the college. Great was his astonishment to learn from his companion that he had not got any chickens, and if he gave them to any one, it mus have been to Dr. Nott. Expulsion, fines, and disgrace, were unpermost in their thoughts until the next forenoon. when both received a polite invitation from their Prosident, requesting the presence of their company to a with hearts full of anxiety for the result, they wended and lifeless brother! Sinking on her knees beside the their way to the house, where they were pleasantly received by the old gentleman, and with a large party were soon seated around the festive board. After asking a ing knife, turned with a smile to the rogues and said-Young gentlemen, here's old Prex, and marm Pre; son John and daughter Sal,' at the same time touching successively the respective chickens-to which will you he helped?' The mortification of his students may be imagined .- Springfield Rep,

SWELLINGS.

Swellings on oxen, cows and other domestic animals, may be easily 'scattered' by using an ambrocation composed of the following ingredients. One quart proof whiskey, half a pound soft soop, and half an ounco of camphor. The soap is to be dissolved in the whiskey (or other proof spirit) and the camphor added after the mixture is poured into the tottle. These articles, prepared in the manner above prescribed, form a liquid opodeldoc, with which every farmer should be supplied, Lameness in oxen, from swellings on the legs and neck, is quite frequent, especially at seasons when their assistance is of most consequence to the farmer, and when, consequently, he can but ill afford to permit of their lay-

The Frankfort Commonwealth says Mr. Clay will not

Grand Opening of the Essex Railroad,

Monday last was the day set apart for the grand ceremony of opening the Essex Railroad for the public travel. Great expectations were raised in anticipation of to see the pageant. Agreeably to previous arrangements the President and Directors of the Railroad, the City Council of Salem, and other distinguished characters occupied a raised platform near the centre of Washington Square, where the people thronged in great numbers to witness the preparatory exercis s of the occasion.

The President of the Essex Railroad first rose and addressed the assembled multitude, stating the object of the meeting, and congratulating them on the auspicious results of the efforts of the Corporation to open a Railroad communication with the country. He then addressed himself particularly to the Mayor of Salem (who was present on the stage) and dwelt on the great advanto the city. He also expressed to the Mayor the obligations of the Corporation to him and the other branches of the city government for their aid in the undertaking. The President concluded with some expressions of personal regard for his honor the Mayor, and then sat down amidst great applause.

mented the Railroad Corporation on the prompt and energetic manner with which their work had so far been completed, and reciprocated the kind expressions of personal regard which had fallen from his friend the Presi-

Both the speakers were received by the audience with much approbation, and the interest was increased by the striking personal resemblance of the two functionaries.

The Mayor then announced to the audience, that the ceremony of the presentation of the shovel, with which O'Sullivan came forward and made the following Ad-
